THE MAINE CAMPUS

Vol. IX

BANGOR, MAINE, JANUARY 14, 1908

No. 12

BASKET BALL.

MAINE—GUILFORD HIGH SCHOOL.

In the first practice game of the season Maine was victorious and won by the score of 27-9. Their opponents, the Guilford High team, played hard, but were no match for the Maine team. Last year the same team played Maine a close game, 27-23, and they were expecting a similar outcome this year. Maine however was too fast and heavy for the prep. school.

The game was played hard but not fast, both teams showing a lack of practice and team work, the Guilford boys especially being unable to locate the basket. The absence of "Jimmy" Scales from the game affected the varsity team work to a considerable degree. No criticism can be made of the playing of our team, for when the period of the season is taken into account, it is vastly superior to that of last year, during the opening games. The second half of the game showed much better what the team was able to do.

Morton did the best work for the home team, his defensive work being responsible primarily for the low score made by Guilford. Scales, the only new face on the team, also played a pretty game. The others all worked hard and deserve personal mention.

One thing which was noticeable by its absence was the cheering. Not a cheer greeted or encouraged the players, and the student body should see to it that it does not happen again. A team which is to win needs the backing of the whole University and we surely want this one to be a winner.

Following is a summary:

GUILFORD	MAINE
Packard, r. f.....	N. Scales, t. (1)
Lombard, 2, l. f.....	Wadsworth 1, (Dow)
Fairbrother, c.....	Black, 3
Mellar, (3) r. g.....	French, 1
Clark, 1, l. g.....	Morton, 3

Score—Maine, 27, Guilford, 9. Referee, Emery, '08. Timer, Pike, '09. Scorer, Torrey, '09. Time of halves, 15 minutes.

As a preliminary game, Company A and Company B of the Military Battalion played the latter, winning by a score of 8-7. The plan of having a battalion league, is to arouse interest in the game and help develop players from the Freshmen.

The score of the first game is as follow ;

CO. A.	CO. B.
Houghton, rt. 3.....	r. ., Vaughn lf, Marshall
Nason, l. f. (1).....	l. f., Smith
Patch, c.....	c., Folley
Geery, r. g.....	l. g., Southard, McCarthy
Cook, l. g.....	r. g., Elliot 3

MAINE VS. M. C. I.

Last Friday night in the gymnasium Maine won the second of her preparatory games from Maine Central Institute by a score of 21 to 12. The team showed a marked improvement over the game of the previous week, which promises to us a team well worth the support and confidence of the student body.

Coach Phelan sent in our third team, with the exception of Wadsworth, during the whole of the first half. The other four men are Freshmen, with no experience whatever in college basketball. They succeeded in passing the ball about in good style, but could not locate the basket at all. The half ended with a score of 8-2 in favor of M. C. I.

The 'Varsity was greeted with cheers when it ran on the floor for the second half. They soon had things coming their own way, and caged the ball with pleasing rapidity. French and Scales were especially active in this department of the game. There was plenty of ginger in the work of the team, but considerable fumbling. This fault will be eliminated entirely before the hardest games are played. They played a hard earnest game and satisfied the crowd entirely.

As a preliminary, Company C defeated Company D in the second game for the championship of the Cadet Battalion. Company C will next play Company A, the winners of last weeks game. The students take a great deal of interest in these games, "squeezing" for their favorites, as well as for the 'Varsity. Following are the summaries of the games:

MAINE (21)	M. C. I. (12)
Wadsworth, 1, 1. f,	Sturtevant, 1
N. Scales, 3, (1) Elliot, r. f,	Smith, 1
Black, 1, Hammond, 1, c,	Bickford
French, 3, Cobb, 9, r. g,	Gilley, 1, (4)
Morton, 1, Marshall, r. g:	Blaisdell, 1

Referee—Cornet of Tufts. Umpire, Thurston. Timer, Pike, '09. Scorer, Torrey, '09. Time of halves, 20 and 15 minutes.

COMPANY C, 17	COMPANY D, 10
Waite, 2 r. f,	Merrill, 2, (4)
Ingraham, 1, (1)	1. f, Goodnow, Cooper
Bearce, 2, Hammond, 1, c,	Davis, 1
Benjamin, Bearce, r. g,	McHale
Reid, 2, Cobb, 1. g,	Strout

Referee—Emery, '08. Time of halves; 12 minutes.

PROF. GOWELL RESIGNS.

In June 1907, at the close of the college year and after long years of service Professor Gowell resigned from the teaching force of the University, and at the close of the calendar year 1907, he resigned from the investigation department of the University of Maine, the Maine Agricultural Experiment Station. It seems fitting at the close of so long a term that a brief sketch of Professor Gowell in his relation to the University should be presented.

For many years Mr. Gilbert M. Gowell took a conspicuous part in the public agriculture of the State. November 22, 1881, at which time he was President of the State Board of Agriculture, Mr. Gowell was appointed farm superintendent at the Maine State College. In March 1885, Mr. Gowell was made superintendent of field and feeding experiments at the establishment of the Maine Agricultural Experiment Station and Fertilizer Control and also continued in charge of the college farm. On March 31, 1887 he resigned and was engaged in private business

until June 15, 1891 when he was re-appointed farm superintendent and instructor in practical agriculture.

In the 16 years following this, Professor Gowell has been intimately connected with the agriculture of the University and Experiment Station in several different positions. Since 1896 he has been a Professor in the College of Agriculture, devoting part of his time to the College of Agriculture and part to the Experiment Station. During all these long years of service Professor Gowell has been untiring in his work in both departments.

In June, 1893, in appreciation of his work in agriculture, the Trustees of the University conferred the honorary degree of Master of Science upon him.

While Professor Gowell has been thoroughly known in the State in connection with work with dairy animals, his widest reputation is dependent upon the investigations he has been carrying on for ten years in connection with the Maine Agricultural Experiment Station in poultry management. Rare powers of observation have made it possible for him to study this problem unusually well along practical lines. He demonstrated his belief that the poultry industry offers unusual business opportunities by the establishment a few years since of the Gowell Poultry Farm at Orono and it is to give his personal attention to this model poultry farm that he resigned from the College of Agriculture and later from the Experiment Station.

THE CATALOG.

The annual catalog of the University of Maine for 1907-08 made its first appearance last Tuesday. The publication is in general, in the same form as that of last year, but several important changes have been made in the subject matter. A notable change has been made in entrance requirements, 28 points now being required for entrance to the University, instead of 26 as formerly.

The department of education, which was established last year, has broadened its scope and

bids fair to become one of the most practical departments at Maine. Special courses are offered for teachers of Latin, English, modern languages, mathematics, physical and natural sciences.

The civil engineering course now offers two options, beginning with the spring term of the junior year. The student is given a chance to specialize either in railroad or hydraulic engineering. Enough of both subjects is given in the regular course to give the student a fundamental knowledge of both subjects, and then the special advanced work is offered as stated. This movement was begun last year and is well worthy of mention, as this advanced work is not given even in many of the large technical schools.

In looking over the classification by colleges, it is interesting to note the departments in which there has been the largest increase. The College of Agriculture heads the list with a gain of nearly 68 per cent. over the registration of last year. The College of Arts and Sciences comes second with a greater gain in numbers, but a smaller gain in percentage. The registration in this department shows a gain of a little more than 40 per cent. over last year. The rest of the departments have remained about the same as usual.

The registration statistics show that 617 students are from the State of Maine, while from 13 other states the University has drawn 154 students, the greater portion of these coming from Massachusetts. Five students come from outside the United States, two of which hail from Porto Rico and China.

The statistics also show that the faculty has been increased from 90 last year, to 104 this year. They are divided as follows: Professors, 34; associate professors, 2; assistant professors, 11; instructors, 28; lecturers, 5; tutors, 3; assistants and other officers, 21.

The following is the registration by classes: Graduate students, 21; seniors, 67; juniors, 112; sophomores, 132; freshman, 182; short pharmacy, 18; specials, 56; school course in agriculture, 17; summer term students, 93;

winter course in agriculture, 12; Law School students, 97. This makes a total of 807, of which 31 are duplicated, leaving the total registration 776.

MASSACHUSETTS CLUB BANQUET

Saturday evening, December 29, 1907, the members of the Massachusetts Club, together with eight members of the Boston Alumni Association enjoyed an informal banquet at the Boston City Club, Boston, Mass. Owing to the fact that the invitations were delayed, a large number were unable to attend. During the early part of the afternoon several parties were formed to visit the matinees of some of the leading theatres and at six o'clock a merry crowd of Maine enthusiasts had assembled at the club rooms on Beacon Street to renew acquaintances of those who were once members of the University. Here a jolly half hour was spent in telling stories and recalling events of the past.

At half past six the party entered the banquet hall and seated themselves around E. R. Berry '04, who was toastmaster of the evening. After the banquet had been cleared away and as the blue fumes of the perfectos were rising, Hon. L. C. Southard '75 was introduced as the first speaker. Mr. Southard spoke on the doings of the Maine Athletic Arbitration Board and general facts relating to the University. Next E. E. Palmer '99 spoke on the athletic teams of the past and their method of training. Following came speeches by J. T. Kendrigan '08, on present athletics, E. Alton '11 on the Massachusetts Club and R. E. Clayton '07 on "Memoirs of the Chemical Laboratory." After a few college cheers were given the banquet adjourned to the card room to talk over old times.

This is the first banquet which has been held during the course of the active members of the club, but with this event still fresh in the minds of those who attended, it is safe to say that in the future smokers fully as successful will be attempted.

THE MAINE CAMPUS

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIAL.

ANOTHER addition to the necrology of the year is recorded in the death of Thomas Edward Leary, a member of the Senior Class at the Law School. Mr. Leary was graduated with the degree of Bachelor of Science from the University of Maine in 1905, and entered the Law School where he was to have been graduated at the coming commencement. He was a member of the Sigma Chi Fraternity and of the Sigma Beta Pi legal society. His home was in

Hampden. His death, which was very sudden, was caused by Brights disease.

Mr. Leary was a brilliant student, a clean-cut fellow, and a friend of everyone, and the news of his death caused sincere regret among his associates at the Law School, at the University, and among the alumni.

THIS year marks the beginning of great changes and improvements in our zoological department. A skilled taxidermist is now employed who, under the direction of the head of the department, is making a complete revision of the old collection and adding also many new things.

There is no reason why the collection here should not become an honor both to the University and to the State.

We are ideally located for the assembling of a complete collection of our birds and animals, many of which are rapidly approaching extinction and it is to be regretted that it could not have been undertaken before.

Now that the facilities for caring for specimens are provided the essential thing is to get specimens. It is impossible for the men who have charge of this to learn about or get many specimens before they become valueless for museum uses.

Every student, alumnus, and friend of the University should realize that by a little trouble at the right time they may obtain for the collection specimens which are of great value.

This does not necessarily mean that only rare specimens or those which we do not have in the museum are wanted. Even the commoner animals can be prepared and exchanged with foreign museums for specimens not found here. For example, specimens of our common owls or the hedgehog may be exchanged for such for-

eign forms as the kangaroos, and by this means a good collection of exotic species may be built up. Many of the alumni can easily obtain specimens for the collection, things which are common where they may be, but which are of great value to the museum. To those who are interested the department gladly gives information in regard to the care of specimens so that they may be properly mounted.

Let everyone who has a chance to get anything for the museum take or send it there, and if that is impossible at least let the department know about it. If the students will only do this in a few years the museum will become one of the most valuable and interesting institutions on the campus and also a matter of State-wide interest.

✱

CLASS dues are a necessary and proper expense of college life, but nevertheless they are an expense seldom taken into account by students as a necessary expense. For this reason, probably as much as any other, they are proverbially hard to collect even in the freshman and sophomore years, when the dues are practically nominal. As the junior and senior years are reached, with the accompanying greater and more serious class activities, the class votes, usually unanimously, to assess each member a certain amount in order that it may pay its bills covering its legitimate enterprises, as Prism, Junior Week, Commencement, and the various class social functions. The assessments are always low—considering the amount accomplished with them. The enterprises are always honestly and sometimes very efficiently managed, even in some cases at the expense of the regular college work of those to whom the class has delegated the questionable privilege of undertaking the worry and work of managing them.

Notwithstanding the fact that no one protests against these proper assessments, that the class generally gets its full money's worth from the expenditure of the funds, and that the funds are handled with scrupulous honesty, almost every class hitherto has had members who have left college owing class dues, or from whom it has been next to impossible to collect. This is manifestly unfair both to those members of the class who meet their class obligations squarely, and the managers of class affairs who must figure on a definite amount from each member as a basis on which to transact business.

It thus becomes an important problem of every class to collect delinquent assessments. Every class member should feel in honor bound to pay up his class dues as one of his most urgent bills. They are an important and necessary expense of college life, and should be so weighted in the budget of the term.

The Senior Class recently adopted a plan of collecting assessments. All delinquent members are canvassed, and upon presentation of a satisfactory excuse to the auditing committee, they are given a certain amount of time. If at the end of that time they still refuse to pay, and have not sufficient excuse, the names of the delinquents are published. If this plan is successful it would be worthy of adoption by every class, and should do much toward helping succeeding classes to leave a clear financial record at the University.

SECOND HAND BOOK EXCHANGE AT Y. M. C. A. BUREAU IN COBURN HALL.

HOURS, 11 TO 12 A. M.

Second hand books will be sold at prices to suit the owner. The Y. M. C. A. is to get five cents commission when books are sold for one dollar and under and ten cents for higher priced books.

LAW SCHOOL NOTES.

It is with the deepest sorrow that the Law School receives the news of the death of Professor George E. Gardner of Boston University, Prof. Gardner established and was the first Dean of the University of Maine Law School and for the first five years of its existence he was in active control, and great credit is due him for the success the Law School has attained in late years. In 1902 Prof. Gardner was called to Boston University to be Professor of Contracts and Real Property and at the time of his death was next to Dean Bigelow in authority. Prof. Gardner was a graduate of Amherst College and author of many law books, the best known being "Gardner on Wills."

The sudden and unexpected news of the death of Mr. Thomas E. Leary was received at the Law School December twenty eighth. Mr. Leary a week before his death was in apparent good health and the most excellent of spirits, making plans for his winter's work. December twenty fourth he was stricken with Bright's disease and lived but four days. Mr. Leary was a graduate of the University of Maine and a member of this year's graduating class in the Law School. Mr. Leary was a member of the Sigma Chi Fraternity at the University and a member of the Sigma Beta Pi Society of the Law School. He was one of the keenest students that ever entered the Law School and on account of his extremely affable nature his loss will be very deeply felt not only by the whole Law School but by all who knew him.

Mr. B. E. Packard of Hallowell Maine is among the new students to enter the Law School this term. Mr. Packard is an A. B. from Bates and graduated in 1900. Since that time he has been Principal of Hallowell High School.

For the last six years the Law School has been endeavoring to obtain a representative for the new Cyclopedia of Law. It has at last been very fortunate in obtaining the appointment of Professor Hamilton to act as agent for the next year and a half, in all matters concerning "Cyc."

In regard to points of law and discussions contained in the Cyclopedia, as well as terms, rates, etc., information will be freely given by Professor Hamilton.

The Law School has finally moved to its new quarters, which are to say the least a great improvement over the old rooms. The library is a large, airy, and well lighted room containing fourteen cases of law books. Very poor judgment was shown however in the arrangement of the books. The Maine and Massachusetts reports which are always in demand, are placed on the darkest and most secluded shelves, while the Southern and Pacific Reporters, which are seldom if ever used are placed in the front and best lighted book-case. Among the new books are a complete set of duplicate Maine Reports which the Dean will keep in his office and which may be taken out of the building by any Law School student signing a slip for the same.

Mr. Frank Burgess and Miss Julia Kelley were married December tenth, at Brewer, Maine. Mr. Burgess is a member of the Senior Class at the Law School and his bride is a well known Brewer girl. Although married Mr. Burgess will continue his studies in the Law School.

The first year class at their recent election chose Mr. Andrew Percival Havey of West Sullivan for President, Mr. R. L. Mitchell of York, Vice-President, and Mr. B. L. Bisbee of Brockton, Mass., Secretary and Treasurer.

At a meeting held before the holidays, the student body discussed ways and means of regulating the running order of the new library. After much discussion it was decided that the library should be kept open from eight in the morning until ten at night, these hours to be extended the week just before examinations. It was voted to have a standing committee of five to consist of the Dean, the Law School Librarian, and a member from each class, for the purpose of drawing up a set of rules regarding the taking of books from the library and in regard to the discipline in the library. Mr. James Perkins was chosen by the first year class, Mr. James Kiernan by the second year

class and Mr. James Seavey by the Senior Class to act as members of the committee for the winter term.

Mr. R. A. Haliday of Bangor has registered in the first year class of the Law School. Mr. Haliday entered Bates College in 1899, where he attended one year and then transferred to Dartmouth where he graduated in 1903. Mr. Haliday played a star game of football while at Bates and Dartmouth and since graduating has been in great demand by the big colleges to referee their games. Mr. Haliday is a member of Delta Kappa Epsilon Fraternity and also the honorary society of Phi Beta Kappa.

For the convenience of the college fraternity men in the Law School and in the University, it has been requested that a list of the college fraternity men attending the Law School be published. The following is the list in alphabetical order of the fraternities.

Alpha Tau Omega—Burleigh Davidson, Roy Morrison.

Beta Theta Pi—Chas. Blossom, Henry Gardner, R. T. Fitz-Randolph.

Delta Kappa Epsilon—R. A. Haliday, A. P. Havey.

Kappa Sigma—A. C. Jones, F. D. Jude, J. B. Perkins.

Theta Delta Chi—Christopher Toole.

Theta Epsilon (Local)—L. A. Carlson, F. C. Minot.

Phi Gamma Delta—W. L. Anderson, R. L. Mitchell.

Sigma Alpha Epsilon—W. C. Fraser.

Zeta Psi—James Maxfield.

PRISM NEWS.

Work on the 1909 *Prism* is progressing rapidly, and is at the present time in advance of last year's annual. A large part of the book has gone to the printers, but the hardest portion remains. This section of the book includes the grinds. The students of the University have responded very well to the call for grinds, but more are needed. The same cry arises each year and gets to be tiresome, but

the grind section is one of the most important, and necessitates this call. Eight or ten editors can gather facts and items, which appear each year, but grinds must be new and original, and can only be successfully produced through the co-operation of the students and editors. The class histories have all been received by the editorial board, who wish to thank the men who made efforts towards this portion of the annual. Although most of the artistic work has been finished, a great many headings are still necessary. Anyone who has any ability in this direction is asked to help in the completion of this part of the book. The principal want, however, is grinds. It is the wish of the editors to keep this *Prism* up to the ever advancing standard of our year books, thus holding its own with the best college annuals of the country.

SOPHOMORE CLASS MEETING.

At a meeting of the class of 1910 last Tuesday, E. S. Alton was elected floor manager of the Sophomore Hop. W. H. Andrews, C. A. Hall, E. Lamb, E. R. Russell and Miss F. W. Huntington were chosen for the dance committee.

No definite date has been selected as yet for the Hop, but it will probably occur during the latter part of March. It is intended to make this function one of the real "times" of the year.

SOPHOMORE-FRESHMAN DEBATE.

Wednesday evening, Jan. 8, the annual debate between the Sophomores and Freshmen was held in the lecture room of the Library. The question was, Resolved: That American Tariff Should Be Removed from Lumber, the affirmative speakers being the Freshman, represented by A. B. Richardson, F. E. Southard, and L. P. Woods. The negative was supported by the Sophomores, the speakers being F. G. Wadsworth, C. C. Johnson and I. M. Stover. The debate was awarded to the Sophomores.

RELAY TEAM.

Friday, Jan. 10, the first trials for the relay team were held from three to five o'clock. The following men took part in the trials: Harmon, Torrey, Bean, Haggett, Springer, Scholfield, Knight, Chase, Bartlett, Drew, Pond, Chadbourne, Metcalf, Littlefield, Cook, Walker, Snow, Smith and Pinkham.

None of last year's victorious team are at present in college but notwithstanding this there are favorable indications that this year's team will be practically as fast as that of last year. There is very little difference in the ability of the men.

It is probable that in addition to the relay team there will also be representatives in the mile and 1000 yards events.

HOCKEY NOTES.

The absence of snow this fall has been favorable to hockey practice and the team has been doing good work within the past few weeks. Capt. Chase is coaching the team and expects to have the men in good condition for the games which are to be played later in the season. A rink of regulation size has been constructed just north of Lord Hall and will probably be flooded within a few days. There are now about fourteen men regularly out for practice, making two teams. The game that was arranged with Dartmouth will not take place, owing to the restriction of the faculty against playing any games outside of the State. The Bowdoin game has not been definitely arranged as yet, and there is even a possibility that it will not be played. E. L. Clay, '09, who has recently been elected assistant manager, is in charge of the schedule of games and has succeeded in arranging a few games with some of the cities' teams of the State. The Calais High School team will make a trip to Old Town during the first of February and will play a game with the Maine team after their game at Old Town. The other game that is already arranged for is with the Augusta team and will be played some time during next month.

THE NEW HEATING PLANT.

The new heating plant is not yet completed, although the boilers are supplying steam for the buildings. Work is being hurried along as rapidly as possible and it is expected that the job will be finished during February. The platform scales which are to be used for weighing all the coal used are now being installed and the pumps for forcing the return into the boilers are in operation.

MUSICAL CLUB TRIP.

During the last week of the Christmas recess the Musical Clubs made a very successful although short trip into Piscataquis county, giving concerts at Milo and at Guilford. The twenty-eight men who were chosen for the trip left Orono, Monday, Dec. 31. They reached Milo in the afternoon and they were entertained at various residences and at the hotel. In the evening, under the auspices of the junior class of the high school, the clubs gave a concert to a very appreciative audience.

Tuesday morning they left for Guilford, and while waiting at Milo Junction, improved their time by visiting the large B. & A. car-sheds. In the evening, they played in the Guilford town hall under the auspices of the Universalist church. The stage was very prettily decorated with Maine banners and the concert was well attended. There was a dance later in the evening.

Wednesday the three clubs returned to Orono and in the evening gave an excellent concert at Brewer before a rather small audience.

The names of those who went on the Piscataquis trip are as follows: 1908; Fellows, Sturtevant, Cummings, McNamara and Bartlett; 1909; Roberts, Morrison, Richardson, Osgood, Rich, Cram and Harvey, 1910; Fassett, Eaton, Workman, Phinney, Reed, Dodge, Hayes, and Springer, 1911; Drew, Richardson, Morrison, Strout, Houghton, Smith, Davis, and Burgess.

This week the Clubs will give a concert Thursday night in Ellsworth under the auspices of the English High School Lyceum. Friday

night they will give a concert in Bar Harbor under the auspices of the Bar Harbor Cadet Band, in the Casino. Dances will be held after each concert, music for the latter being furnished by the Cadet Band. About twenty eight men will go on the trip.

RESOLUTIONS.

Whereas, It has been the will of Almighty God, in his infinite wisdom, to remove from this life our beloved brother, Thomas E. Leary, and

Whereas, We, his brothers in Rho Rho Chapter of Sigma Chi desire to testify to his worth and express our sorrow, be it

Resolved, That in his death the Sigma Chi Fraternity has lost a loyal member and faithful supporter; be it further

Resolved, That we extend to the family of our deceased brother our sincere sympathy in their sad bereavement; and be it further.

Resolved, That our badge be draped in mourning for a period of thirty days; that a copy of these resolutions be sent to the bereaved family; and also that they be printed in the Maine CAMPUS and the Sigma Chi *Quarterly*, and be recorded upon the minutes of the Chapter.

FORESTRY LECTURE.

Professor Austin Cary of Harvard University gave a very interesting talk before the Forestry Club on Dec. 19. He spoke at length on the losses in the forests due to gales and blights of insects and also due to the owners neglecting to protect the forests. He said that it was not the carrying out of the theories of forestry, but the organizing capacity and the executive ability of a man that won him a high position in the profession. He spoke also of the foreign work in forestry, and of the methods by which the lands which were unproductive in regard to agricultural products were made to produce lumber. The lecture was illustrated by lantern slides taken by him on his various trips into the woods and in foreign countries, of timber and logging operations.

INTERCOLLEGIATE PRESS ASSOCIATION.

The annual smoker of the New England Intercollegiate Press Association was held Dec. 13 at the Copley Square Hotel in Boston.

Owing to the interference of examination period at many of the New England colleges, there was not a very large attendance. Interesting topics were brought up for discussion by the three speakers, Edward Stanwood, editor of the Youth's Companion; Frank Gorham of the Boston Globe, and Harold W. Lovett of the Lovett Advertising Agency.

The following were present: R. b. Chamberlain, Wesleyan Argus, C. M. Butterworth and W. H. Plant, Trinity Tripod; C. J. Massech and G. Burt, Tufts Weekly; C. E. Hughes, Brown Daily Herald; J. F. O'Sullivan, Boston College Stylus; J. A. Locke, Harvard Crimson; H. W. Hoole, D. C. McMurtrie, C. Turner, G. A. Haynes, and H. I. Pearl, The Tech. THE CAMPUS is a member of this Association but was not represented.

ALUMNI.

Every Alumnus of the University of Maine should bear in mind that his movements, changes of occupation and successes are of interest to all of the readers of the CAMPUS especially to those of the alumni who were his associates at Maine. It requires only a few moments to write a postal or send a newspaper clipping to the CAMPUS, and we request your co-operation in making these alumni columns of broader value to every graduate. Address contributions for this department to the Alumni Editor.

'90

George I. Bowden, formerly of Penobscot and a graduate of the University of Maine, has resigned his position as principal of the Horace Mann School, Everett, Mass., where he has been master for the past six years, to accept the position of principal of the enlarged Brown School, Willow Avenue, Somerville, Mass., completed Jan. 1. Mr. Bowden was born in

Penobscot and was educated in the schools of that place. He went to Massachusetts in 1893, and has taught in Barre, Haverhill and Hingham, as well as Everett. In Everett he has done much to better the condition of his school. He recently added a stereopticon and reflectoscope to the school's paraphernalia and raised the money to pay for it.

'97.

Lindsay Duncan who for two years has been Dean of the School of Engineering, of Colorado University has recently resigned. He has accepted the position of Chief Engineer of the Steptoe Valley Mining and Smelting Co.

'99 Law

F. D. Fenderson has severed connections with the New England Telephone & Telegraph Co. with which he has been connected for five years and has reopened his law and insurance office in Limerick, Maine under the firm name of Lord & Fenderson. He was recently in Bangor and Bar Harbor on business.

'01.

Maurice B. Merrill, Principal of the Aroostook Central Institute delivered a paper before the annual convention of the Northern Aroostook Teachers Association held at Fort Fairfield December 5 and 6. Mr. Merrill's subject "The Power of Imagination" was a difficult one but he handled it in a masterful manner.

'05.

H. W. Batchelder, who for two years has been master mechanic for the McCalls Ferry Construction Co., in charge of the construction of a dam across the Susquehanna River at McCalls Ferry, has resigned. January 1 Mr. Batchelder assumed charge of the Barge Canal work, as master mechanic for the Acme Engineering and Construction Co. This project has for its purpose the enlarging of the Erie Canal a distance forty miles each side of Schenectady, where his headquarters will be located.

C. L. Bailey of the U. S. Reclamation Service spent New Years week on the campus.

'06.

Ralph E. Lord. is filling a temporary appointment as instructor in mathematics in the College of the City of New York.

LOCALS.

Round Table Reception is this evening in the library.

Judge Dunn of Orono will address a meeting of the Mechanical and Electrical Society, Wednesday evening on "Legal steps in procuring a water-right for power purposes."

The Freshman held a meeting last Tuesday noon, at which a committee, consisting of Jones, Pinkham, Pond, Hammond and Parsons, was appointed to determine whether it will be possible to give a military ball this winter.

It has been decided by the management of the basket-ball team to hold dances following the games with New Hampshire State, Colby and Bates colleges. The college orchestra will furnish music.

To The Point

**MOORE'S
NON-LEAKABLE
FOUNTAIN
PEN**

While it is true that a good fountain pen will not leak if properly cared for, it is also true that it is not always possible for the most careful to treat it as they ought, while the careless are in continual trouble. These leaking troubles are all obviated in Moore's Non-Leakable Fountain Pen. This pen, is true to its name, it's air-tight and cannot leak. It is also clean to handle and clean to fill, and for these reasons is a favorite among the ladies, travellers and students, as well as among business men.

**NO INKY FINGERS
CLEAN TO CARRY
CLEAN TO FILL
UNLIKE ALL OTHERS**

A PEN IN A CLASS BY ITSELF

There's no pen that gives such all-round satisfaction as Conklin's Self-Filling Fountain Pen. It's in a distinct class by itself. *It's the College Standard.* Doesn't matter where you are—in your room, lecture hall, or on the train—you can fill it instantly by dipping in any ink-well. A slight thumb pressure on the Crescent-Filler does it. Cleaned in the same simple, easy way.

Conklin's Self-Filling Fountain Pen

"THE PEN WITH THE CRESCENT-FILLER"

has won distinction the world over. For student, professor, business man, professional man, and for the man who moves about, it is *the only pen*. No mussy dropper, nothing to screw or unscrew, no tool kit, no inky fingers. Ink flows as smoothly as a prize essay. No stops, no blots, balks or scratches.

Leading dealers handle the Conklin. If yours does not, order direct. Look for the Crescent-Filler and refuse substitutes. Prices, \$3.00, \$4.00, \$5.00 to \$15.00. Send at once for handsome new catalog.

THE CONKLIN PEN CO., 310 Manhattan Building, Toledo, Ohio.

JACOB REED'S SONS

Makers of
"QUALITY"
Uniforms.

Reed "Quality" Uniforms are designed and fashioned by skilled Military Tailors and made throughout by competent work people. They are manufactured on our own premises in light, clean and airy work rooms under perfect sanitary conditions. These factors are important in the production of uniforms of high character.

One of the most satisfactory departments of our Uniform business is that devoted to the outfitting of students of Military Schools and Colleges. The results we obtain are highly creditable and produce renewals of contracts year by year.

In addition to our Uniform business we are Retailers of Clothing, Haberdashery and Headwear. The goods we sell are especially adapted to young men and are noted for their excellence and fair prices.
