# THE MAINE CAMPUS

Vol. IX

BANGOR, MAINE, FEBRUARY 25, 1908

No. 17

## DR. VAN DYKE ADDRESSES STUDENTS.

Dr. Henry Van Dyke, of Princeton, gave a very interesting talk in Chapel Wednesday morning, February 19. He said that he was glad to be at the University of Maine and that he was a great lover of the State; that he came here to fish at Moosehead Lake where he caught large fish; and that he came again in September to hunt.

On his first trip into this State, about twenty-five years ago, the railroads did not run to the lakes as at present but they ended at Dover where he took a stage to Greenville. His first knowledge of Orono came from his two guides. They were "bully good chaps" and "Bill" Hodgkins was a great flapjack cook.

He said, in part, "My days are spent in teaching people to write. Some would call me a Professor of Literature. I cannot make authors, but I can make good intelligent, thoughtful readers. People must be able to write a decent letter, but beyond that one should put stress upon the development of the reading habit. In order to learn to be a good writer one must read the best works of the best authors. Read for pleasure and watch how the authors make their effects; how they make their forceful sentences; how they build up their paragraphs. If one wishes to play tennis he does not learn it out of a book, but by watching a skillful player and then practicing. This should be true in writing, with the teacher to help with the blue pencil. One should make up his mind not to read a book that is less than twenty years old and that has not been approved by the best readers. All current events worth while can be read in less than ten minutes.

"It is a fine thing to be alive in this age and in this country, a splendid grave adventure, and with all my heart I wish you all success in pick-

ing up your wongin, getting your canoe, and in gathering your tackle,—which is luck,—and in being a strong, successful man.

"Many are thinking of what they are going to do in the world, what business or profession they are going to follow. Take a word of advice from an older man who has been through this stage himself and don't worry about what you are going to do, but what you are going to be; what manner of a man, what kind of a character you have in mind. Get that settled and the first thing will settle itself soundly and satisfactorily. A certain amount of character development must be had. The end of this life is you and me. Life is a test of the soul by men. You get this life in hand and the rest will fall in behind. Manhood can be developed in any line, even in that of the preacher. This is the best line in the world for one having the pluck for it, the profession of ministering to the souls of men, but no man should go into this unless he can't help it."

## WASHINGTON GLADDEN DR. AT VESPER SERVICE.

At the Sunday vesper services in the chapel Feb. 16, Rev. Dr. Washington Gladden of Columbus, Ohio, preached a very able and appropriate sermon to a large congregation of students and visitors. The University was most fortunate in securing this distinguished speaker, who came to Bangor to take part in the Convocation exercises at the Theological Seminary last week.

Dr. Gladden took for his text Luke XXI, 19; "In your patience shall ye win your souls." He interpreted "patience" as endurance and faithfulness in one's work. He said in part:

"Manhood is a thing which can be neither inherited nor bought, but which must be worked for. A

person is born with practically no mind but gradually his facilities are developed. As these grow it devolves upon him to make his character. This must be built by his own efforts and will amount to just as much as the trouble to which he puts himself in making it. One must not seek to live by the paths of least resistance, if he does his soul is doomed to destruction. It is by the persistent overcoming of obstacles that one gains his manhood. One should not try to get around difficulties but should work to get the better of them.

"It is to be deeply regretted that nowadays young people, especially, seek easy work which requires little effort. The college man shuns the subjects that take study, utterly disregarding the good that these studies would do him, to say nothing of the training obtained in the exercise of the necessary perseverance. In the present age people think far more of acquiring worldly fortunes than of winning their souls."

Rev. C. H. Cutler, of the First Congregational Church of Bangor, carried on the preliminary service. As special music Mrs. J. H. Huddilston rendered a vocal solo with violin and organ obligato.

#### SOPHOMORE HOP.

Arrangements are fast being completed for the annual Sophomore Hop which will be held in the gymnasium March 20th. It has been decided to make this a strictly formal affair. With each invitation will be a card containing the name of the person to whom the invitation is sent, and under no circumstances will anybody be admitted without this card nor will it be transferable.

It is intended to make the decorations simple but attractive. Overhead will be a sort of canopy, formed of red and white bunting, while around the hall will be arranged cosy corners and lounging booths. At one end of the hall there will be a large "M" and at the other a "10" in large figures, both illumined by alternating electric lights.

The Hop programs are now being printed by the Chas. H. Elliott Co., of Philadelphia and

will be distinctly original. The covers are to be of white lamb, having a Maine seal in the upper left-hand corner and 1910 in the lower left, embossed in gold. Fox and Adams of Bangor will do the catering.

The reception begins at 8.30 P. M., while dancing commences at 9.00 and continues until 2.00. Pullen's orchestra will furnish the music.

The several committees having this affair in charge are as follows:—

Reception Committee—Mrs. G. E. Fellows, Dr. and Mrs. M. C. Fernald, and E. S. Berry.

Hop Committee—E. Lamb, Miss F. W. Huntington, E. G. Russell, W. H. Andrews and C. A. Hall.

Floor Manager—E. S. Alton.

Aids—S. F. Berry, O. F. Sevens, L. M. Bragg, W. C. Bagg, G. E. Springer, H. L. Clifford, H. W. Pickup, S. M. Wheeler, H. E. Shaw, O. D. Stinchfield, W. B. Baylies and J. E. Battles.

Patronesses—Mrs. H. S. Boardman, Mrs. J. N. Hart, Mrs. H. M. Estabrook, Mrs. R. J. Sprague, Mrs. W. S. Brown, Mrs. E. A. Balentine, Mrs. W. E. Walz, Mrs. J. S. Stevens, Mrs. J. H. Huddilston, Mrs. C. D. Woods, Mrs. W. D. Hurd and Mrs. George Alton.

#### EARLY SPRING BASEBALL PRACTICE.

Early spring baseball practice will commence Feb. 25, when the battery candidates will be called out. The general call however will not be issued before the middle of March, when the coach is expected to arrive.

There is some promising material in college this year especially in the freshman class. The pitcher's department, which in recent years has been the cause of much anxiety will be greatly strengthened. Every thing indicates to a fast and snappy team.

At a meeting of the Agricultural Club held last Wednesday night Redman '10 read a paper on vegetable growing. The reading of the paper was followed by a general discussion upon agricultural topics.

## FIRST FIVE MEMBERS OF PHI KAPPA PHI.

Last Tuesday morning February 18, in chapel, the names of the first five members of Phi Kappa Phi were announced in alphabetical order. They are as follows: Sarah Ellen Brown, of Old Town; Ben Baker Fogler, of

Skowhegan; Joseph Jacobs, of West Boylston, Mass; Fred Constine Morton, of South Windham and Perley Fiske Skofield of Houlton.

The remaining seven members will be announced at the end of the year.

## EDITORIAL.

THE CAMPUS is supposed to be the medium for the expression of the sentiments and ideas of the majority of the students. At times there arise questions upon which there is much diversity of opinion. These are "live" questions. If, upon these questions, anyone has opinions strongly enough at variance with those expressed in the CAMPUS, to cause them to overcome their natural inertia to the extent of

(in vulgar parlance,) "registering a kick," the columns of the CAMPUS are freely open to all such opinions, with the proviso, however, that no anonymous communications will be considered, nor the author of any article made known without permission.

WHEN Maine men so far forget themselves as to offer a rank discourtesy to one of the most honored and respected gentlemen ever connected with the University of Maine, the plea of thoughtlessness hardly makes it the less excusable. The disgusting exhibition of last Wednesday morning was probably relished as little by the distinguished gentleman present, as it was by the large audience. The blare of popular applause is always out of place in connection with a religious service, and the added affront to the presiding officer made it worthy of the severest condemnation. The incident tends to make it appear that a sense of propriety is not one of the saving graces of a college education, or else sundry persons in the audience were very deficient in that respect. The only mitigating circumstances of the affair were that it was thoughtless and was promptly quelled. Dr. Fernald has the most sincere apologies of those connected with the affair, and the regrets of the entire student body that it could have occurred.

CAPTAIN Brown has figured out the returns from the new method of getting the spring athletic subscriptions, with the following results. Out of 67 seniors, 60 have signified their intention of paying these dues. Out of 112 juniors, 100 have accepted their tickets. The sophomores including the short pharmacy men and the short aggies number 143, and out of this number 109 will pay their dues; out of 56

specials, 39 have accepted their tickets, while in the freshman class, which numbers 206, including the short pharmacy men and short aggies, only 115 are supporting the Athletic Association.

The percentage of the men who have signified their intention of paying their dues are approximately as follows :—

Seniors 90%

Juniors 88%

Sophomores 77%

Freshmen 66%

Specials 70%

In the upper classes the showing is good ; but in the two lower classes the number is not nearly as large as it should be, and the freshmen especially should be heartily ashamed of the showing made by their class. Every true Maine man wishes to see all branches of athletics here brought up to the highest standard ; but it takes money to equip the teams, hire coaches and carry on the general running expenses of a season ; and the only way this money can be secured is by the co-operation of the whole student body. There is hardly a man in the University but what can spare five dollars each semester, for the Athletic Association is just as much a part of his college expenses as his registration fee or his tuition.

Every student at Maine should be interested in athletics at Maine to the extent of ten dollars a year. The average type at the University is not an athletic fanatic ; but neither is he a narrow-minded "greasy grind", nor an empty-headed social fop. Athletics should occupy some of the attention of every student here. This branch of student activity is not unduly emphasized, but if anything, it lacks the united support of the lower classes. The average type of college man from the University of Maine should represent a healthy admixture of inter-

est in athletics, other student activities, and good solid plugging.

Do 23 per cent of the sophomores and 34 per cent of the freshmen repudiate an interest in athletics at Maine to such an extent that they will not help pay for its support here? It should be a matter of class pride, if nothing more, to make a good showing in this matter. More money is needed and more money must be obtained. If you have not yet signified your intention of paying your athletic dues, think it over.

#### THE INDOOR CLASS MEET.

The annual indoor class meet will be held in the gymnasium, Friday evening, March 13th. As it now looks the meet will be between the two middle classes, although some events will be taken by the Freshmen and one or two by the Seniors.

The entries are to date: Seniors—eight lap relay—Bean, Chase, Potter and Wilbur ; high jump—Meserve ; high and low hurdles—Miner.

Juniors—Eight lap relay—Johnson, Torrey, Haggett, Williams, Conner, Merriman and Lockyer ; two lap relay—Torrey, Harmon, Lockyer, Knight, Richardson, Bruce and Fogler ; dashes—Torrey, Lockyer, Scales, French and Richardson ; high jump—Woodbury, Jewett, Higgins, Carter and Pike ; pole vault—Towle and French ; high and low hurdles—Jewett, Knight, Higgins, Lockyer and Merriman ; weights—Ray, Black, Farwell and White.

Sophomores—eight lap relay—Chadbourn, Norton, Collins, Littlefield, Cook, Philbrook, Cook W. A., Smith, Dyer, Snow, Hicks, Springer, Hayes, Fortier, LaMarche and Libby ; two lap relay—Cook H., Smith, Moore, Skolfield, Littlefield and Springer ; dashes—Moore, Skolfield, Smith, Snow and Cook ; high and low hurdles—Clifford, Skolfield, Chadwick and Pratt ; high jump—Springer, Hicks and Hall ; pole vault—Winters ; weights—Wright, Hilton and Wadsworth.

Freshmen—eight lap relay—Hammond, Pinkham, Whitney, King and Walker; two lap relay—Waite, Hammond, Pinkham, Walker and Ingersoll; dashes—Pond and Waite; high jump—Scott and Philips; pole vault—Rogers, Hart and Shaw; weights—McHale, Waldron and Pond.

### OPENING BALL OF ALPHA TAU OMEGA CONCLAVE.

One of the most brilliant social events of the college world in this vicinity was held in Society Hall in Bangor last Friday night, Feb. 21, on the occasion of the reception and ball given by the Maine Beta Upsilon chapter of Alpha Tau Omega to the delegates to the second conclave of Province IV of the fraternity. The decorations were simple but effective. Pullen's orchestra added to their already more than local reputation by the very best of dance music. The reception began at nine o'clock, the reception committee being, Dean and Mrs. William D. Hurd of the University of Maine, Dean Frank G. Wren, of Tufts College, Mrs. Charles E. Oak, Mrs. Freeland H. Oak, Mr. George Maguire, Mr. Henry L. Miner.

At ten o'clock dancing began, and the order of twenty four dances rapidly passed. During the intermission the caterers did ample justice to themselves and the occasion, and a short program of college songs was also enjoyed.

Representatives were present from each fraternity at Maine, and from seven active and two alumni chapters of Alpha Tau Omega in New England. The patronesses were: Mrs. Charles E. Oak, Mrs. William D. Hurd, Mrs. Merritt C. Fernald, Mrs. John M. Oak, Mrs. George H. Hamlin, Mrs. Harold S. Boardman, Mrs. Charles B. Breed, Mrs. Freeland H. Oak, Mrs. Paul L. Bean, Mrs. Leslie I. Johnstone, Mrs. Charles B. Porter, Mrs. Frank G. Wren, Mrs. George Maguire. The executive committee having the affair in charge consisted of Earle L. Milliken, chairman; Elmer O. Pray, Hugh N. Danforth, Donald P. Oak, Fred W. Nason.

### LAW SCHOOL

At a meeting of the Assembly Friday evening, Feb. 21. The following question was debated upon, Resolved: That municipalities should own and operate their street railway systems. Mr. Fraser and Mr. LeMaire argued for the affirmative and Mr. Bisbee and Mr. Elmasion argued the negative side of the question. Mr. Driscoll gave an interesting talk on current events. Mr. Kiernan read and Mr. Grady gave a brief review of the main events of the life of Washington.

The Law School Basketball team defeated the undefeated Y. M. C. A. Seniors, by a score of 16 to 15. The game was an interesting one from start to finish and every man played an exceptionally good game. The line-up for the Law School was as follows: Guards, Riggs and Carlson. Forwards, LeMaire and Morrison. Center, Goss.

The Moot Court Case heard on Monday, February 24, was State vs. Macey, Mr. Rideout acting as presiding justice. Mr. Ridlon and Mr. Cartier were the attorneys for the Plaintiff and Mr. Frasar and Mr. Goss attorneys for the Defendant, The decision will be handed down March 2nd.

The following is a brief statement of the facts:

Prisoner, well knowing that one Frederick N. Carman had a supply of liquor in his house, but perfectly aware of the fact that such liquor was intended for private consumption only, and not for illegal sale or for giving it away to his friends, but for strictly medicinal purposes, suddenly made his appearance at Carman's house, entered the open door, called Carman who was with friends in his parlor, aside into another room, spoke to him in a low voice, saying that he was a Sturgis deputy with a search warrant and a warrant for Mr. Carman's arrest in case the result of the search should seem to justify its service upon Carman; that he, Macey, was a friend of Carman and had told him this so that he might get rid of his friends in the parlor in a quiet way before the search began; that he, Macey, knew that nothing would be found, but that, if liquor were really on the premises—which he hoped it would not be—he would have to arrest him. He would do that, however, in an ostentatious way and would see to it that his name did not

get into the papers. Carman was greatly frightened, honestly believed Macey to be an officer of the law, and offered Macey his gold watch of the value of \$250.00 and his diamond ring worth \$600.00 if he, Macey, would only go away without making the search. Macey declined to receive the watch and ring; but Carman tried to force them both into Macey's pockets, and finally after strong efforts, succeeded. Macey, unwillingly and not without many protests, finally acquiesced, saying that if he lost his job, and also his good name, it would be Carman's fault.

Macey never had been a Sturgis deputy. All his statements to Carman were false and made with no intent to get money or money's worth out of Carman.

Macey is indicted for the crime of cheating by false pretenses, and convicted. Error to review conviction, because Carman parted with his property for an unlawful purpose, and because the law is intended to protect only honest men parting, for some honest purpose, with their property induced thereto by false and fraudulent representations, and not for the protection of rogues in their dealings with one another.

The Case of First Presbyterian church vs. Abbott heard in the Moot Court Monday, Feb. 10th, before Mr. Justice Maxwell, was decided in favor of the Plaintiff. Justice Maxwell handed down his decision in the Moot Court, Monday, Feb. 24th. The following is the basis of the decision.

The mutual promises of the subscribers, in the absence of any act done, like incurring liability or expending money and other things, or a benefit to the promisor are not a good consideration for the promises of the others. Such a doctrine is inconsistent with the fundamental principals of the law of contracts. To say that the mutual promises are a good consideration for the other promises would be saying that they are binding because they are binding, which would be reasoning in a circle. The real question is, are they binding? For if they are not they are no consideration for each other. The doctrine is much criticised and in nearly all the cases where it obtained favor, it seems that the decision did not rest on that point alone. There was something more, such as a condition to perform and the like.

This court is of the opinion, however, that where there is the performance of some act as well as acceptance of the promise by the promisee, then it seems that there is a good and sufficient consideration for the promise. In this case the subscription was to be void unless a certain condition was performed on the part of the plaintiff in that he shall have subscribed or paid in the amount of \$45,000. This so far as it appears, was done. In fact every subscriber had paid his subscription excepting the defendant. Therefore this court is of the opinion that the performance of this condition was a good consideration for this defendant's promise.

#### PROF. MERRILL SPEAKS TO CHEMICAL CLUB.

Prof. Merrill gave a lecture on the methods of microscopic rock study before the Chemical Club, Thursday, Feb. 20, in Coburn Hall. Prof. Merrill was assisted by Prof. Drew. There was a very large attendance composed of all members of the Chemical and Pharmaceutical Clubs and many others of the students. The lecture was illustrated by very rare and valuable slides of minerals which were thrown on the screen with polarized light, the polarizer being used in connection with the stereopticon. Prof. Merrill explained the methods of making these slides. Some of the most valuable collections of these slides in the country were made by Prof. Merrill, and McGill University has a complete set made by him. He explained several old methods of studying minerals and the processes of determining their composition, but demonstrated that this most recent method out-classes the others in convenience and accuracy. The lecture was of absorbing interest to all who attended.

#### ELECTRICAL THESES.

The seniors in the electrical engineering course have chosen the following subjects for their theses: A. L. Beedle, and J. J. Morrison, The Distribu-

tion and Measurement of Power about the University Campus.

R. L. Cummings, C. S. French and S. F. Thomas, The Test of High Voltage Power Transmission Plant.

C. L. Draper and J. P. Farnsworth, The Construction and Test of a Special High Temperature Electric Furnace.

R. M. Foster, The Compounding of a Direct Current Motor to Operate as a Generator.

J. A. Gannett, Study and Development of an Electrical Laboratory Telephone Equipment.

J. Jacobs and W. E. Wilbur, An Investigation of the Manufacture of Steel in the Electric Furnace.

G. R. Knight and P. R. Seamon, The Design, Construction, and Test of a Magnetic Clutch.

E. L. Milliken and H. L. Miner, An Investigation of the Manufacture of Ozone. Electrically for Bleaching and Disinfecting Purposes.

F. C. Morton and H. L. Perkins, An Investigation of the Stray Currents of a Street Railway System.

P. I. Robinson, the Design, Construction and Test of a Unipolar Generator.

L. R. Lord and E. N. Vickery, The Design, Construction and Test of an Absorption Dynamometer.

#### PROF. BREED, OF TECH, SPEAKS TO JUNIOR CIVIL SOCIETY.

Prof. Breed, professor of civil engineering at M. I. T., gave a lecture before the Junior Civil Society, Thursday, Feb. 20. His subject was the Abolition of Grade Crossings by Depression, and he illustrated by lantern slides of work with which he has been personally connected.

He stated that grade crossing abolition has been a constant problem ever since the construction of railroads, but owing to the great outlay necessary to solve the question, little has been done in regard to it up to within a few years. There are two methods. The first is to raise the highways so that it will pass above the tracks. The second is to depress the tracks so that trains may be run without changing the

elevation of the highway. The first is the cheaper, but the second is preferable as the elevation of the highway with respect to bordering buildings is not changed. He gave specific illustrations from the work at Newton, Mass., where he has been personally connected with it.

Friday afternoon Prof. Breed lectured on "Highway Location."

#### FARMERS' WEEK.

The second annual "Farmers' Week" under the supervision of the College of Agriculture, will be held from the 9th to the 13th of March, inclusive. The great success of the undertaking last year has brought about the decision, on the part of the Agricultural Department, to make this an annual affair.

The program for the week will consist of Practical Lectures on Farm Crops, Home Breeding, Feeding, Dairying, Orcharding, Forestry and Veterinary Science, also Demonstrations in Butter Making, Home Mixing of Fertilizers, Stock Judging and Orchard Management. There will also be special evening lectures by men of national reputation. In connection with the evening lectures there will be a "Question Box." Preceding the addresses, music will be furnished by the Musical Clubs.

On Wednesday evening, March 11th, the Hon. John Hamilton, Supt. of Farmers' Institute, will be the speaker. On Thursday evening, the Hon. N. J. Backelder, Master of the National Grange will speak.

In addition to what has just been mentioned, a "Women's Section" will be maintained. This will be under the direction of Miss Anna Barrows, of Teachers' College, Columbia University, and will consist of a course of lectures and demonstrations on subjects relating to Domestic Science and Household Economics. These lectures should be attended by women from all over the State, as they will undoubtedly be instructive and helpful to all who avail themselves of the opportunity offered.

interest

Registration for Farmers' Week will begin on the evening of March 11th, at 7 o'clock in the Library. Following the registration, addresses will be made by President Fellows and the Hon. A. W. Gilman, Commissioner of Agriculture.

Already many names have been sent in, that accommodations may be secured in advance, and there promises to be a large attendance at these lectures, which afford a fine opportunity for farmers and those interested in agricultural subjects to get the benefit of the knowledge and experience of the best-informed men in the country along the line of scientific agriculture. Circulars containing the entire program for the week may be secured at the College Office, and copies will gladly be sent to any addresses left there.

The Maine Central, Washington County and Somerset Railways offer a rate of one and one-third fare for the round trip, while the Bangor and Aroostook will grant a rate of one fare for the round trip.

### SPECIAL POULTRY COURSE.

A Special Course in Poultry Raising will be given from March 16th to 27th. This will consist of lectures by men of experience in this line. Prof. C. K. Graham, of the Connecticut Agricultural College will speak on "Artificial Incubation and Brooding;" Mr. A. F. Hunter, of Albington, Mass., will lecture on "Breeding, Care, and Management of Daying Birds;" Mr. I. K. Felch, of Natick, Mass., will speak on "Breed Characteristics and Scoring;" while Mr. Thos. Wright, of Marlboro, Mass., will lecture on the subject of "Pigeon and Squab Raising."

### MAINE VS. BATES.

Maine was successful in her first game with Bates, easily winning by a score of 48-8. The first of the contest gave expectations of a close and interesting game but after Maine got together, it

verged into a runaway. There was however some fine individual work, which kept the excitement of the crowd high.

The game began with a rush, the ball quickly returning from one end of the floor to the other, the passing was swift and pretty, but the guarding was close, so that neither side scored for several minutes. Jim Scales then scored on a foul, which started the basket for Maine. The half ended with a score of 17-8.

During the second half, the Bates men seemed to tire, so that Maine scored easily and repeatedly. The team work of the home players was much better than that of the visitors, which with better shooting abilities, soon put Maine safely in the lead. Bates did not score during the second period of the contest, a circumstance which seldom happens in a game of college basketball.

The individual men on the Maine team gave a pretty exhibition of basketball. Jim Scales, Wadsworth and Morton did the best work. For Bates, McCullough and Shumacher did the best work.

The preliminary game the second team scored a victory over the Old Town team after a hard fight by defeating them 27-12. Dow and Russell excelled for Maine, while Lancaster was easily the best man in the visitors.

#### The summaries :

BATES (8)	MAINE (48)
M. C. Lough..... r f.....	J. Scales
Cobb..... l f.....	Wadsworth
Schumacher..... c.....	Black
Harriman, Libby..... r g.....	Morton
Bishop..... l g.....	Marshall, French

Goals from floor—M. C. Lough, 2; Schumacher, 1; J. Scales, 2; Wadsworth, 6; Black, 3; Morton, 4; Marshall, 2; French, 1. Goals from fouls—McCullough, 2; Scales, 2; Referee, Cornet. Scorer, Torrey, '09, Southard, '11. Timers, Pike, '09, Libby, 10. Time of halves, 20 minutes.

OLDTOWN (12)	MAINE (2ND) 27

Goals from floor—Gross, 2; Lancaster, 3; Parker, 3; Nason, 3; Strout, 2; Russell, 4; Goals from fouls—Lancaster, 2; Dow, 3; Referee, '08.

## MAINE 2ND VS. BELFAST H. S.

Belfast High School defeated the second team Friday evening, February 14, by a score of 46-29. The game was one of the fastest and hardest fought games that the second team has as yet played. Belfast High School certainly has a very fast team but had to use all their speed, and the finding of the basket by Colby was in a large way responsible for Belfast winning the game.

The summary:

BELFAST H. S. (46)	U. OF M. 2ND (29)
H. Dickev, r f, 6.....	l g, Keith
Cummings, l f, 7.....	r g, Russell 2

Referee, Hayford. Timer, Estes. Scorer, Richards. Time, 20m. halves.

## SENIOR CLASS MEETING.

A meeting of the enior classs was held Tuesday, Feb. 18, at which W. A Cobb was elected manager of the class track team for the Inter-class Meet. It was voted that the manager call a meeting of candidates for the team to choose a captain.

Miss Sarah E. Brown was elected valedictorian of the class, for the exercises of Class Day. A committee was appointed to investigate the procuring of caps and gowns.

## FRESHMAN CLASS MEETING.

At a Freshman class meeting February 18, it was definitely decided to hold a military ball. The arrangements for this event was put in the hands of the following committee: W. E. Parsons, N. C. Pinkham, A. C. Hammond, R. B. Pond, and S. M. Jones, which are to act jointly with a committee from the batallion consisting of Major Jacobs, Captains Collins, Springer, Farnham, and Irish.

## Y. M. C. A. NOTES.

The Y. M. C. A. meeting Wednesday evening was led by C. C. Robinson of Waterville, who spoke in a very interesting way of several important branches of Y. M. C. A. activity. Mr. Robinson spoke first of the general work which is being done in the State. The larger part of the address was given to Y. M. C. A. work in the various colleges. He said that while there was very good work being done now in the various bible study groups, there was need of even more earnest work in this regard, and spoke particularly of the four things that every college man who is to rise in the world needs; technical ability, foresight, devotion and character. A strong, upright character is essential for real success.

The question of how to increase the membership list was brought up at this meeting, and methods of doing so were discussed.

The coming Northfield conference was also discussed. While Maine had the largest number of delegates from any Maine college last year Mr. Robinson urged that the number be even larger this year.

## LOCALS.

Mr. H. S. Files, of Portland, gave a baritone solo at chapel service last Wednesday.

It is expected that the new Theta Chi house will be ready for occupancy about March 1. The inside is practically finished and the work of furnishing will begin at once.

At a meeting of the Hancock County Club in the library Tuesday evening, the following officers were elected for the ensuing year:—T. T. Workman, President; N. H. Mayo, Vice President; R. A. Jellison, Secretary and Treasurer. It was voted to hold a smoker in the near future and a committee was appointed to arrange the details.

Friday evening in the Library, Prof. Tombo of Columbia University will lecture on Faust. Prof. Tombo comes here at the invitation of the Deutscher Verein and the lecture should prove

very entertaining as Prof. Tombo is well known as a lecturer.

At a meeting of the members of the Junior track team February 18, Frederick D. Knight was elected captain.

Dean Hurd gave a lecture on Wednesday, Feb 12th, at Lewiston, before the Maine Academy of Arts and Sciences.

### ALUMNI.

The annual banquet of the Boston Alumni Association was held at the Hotel Bellevue, Boston, on the evening of Saturday, Feb. 22. The largest attendance on record was present. The following men were present as guests of the Association: President Fellows, Dr. Fernald, Dean Hart and Stevens, a representative from the faculty of the Law School, Capt. Brown, Dr. H. T. Fernald of Amherst, Hon. W. T. Haines, and Mr. Jacobs of the Massachusetts Club.

A more detailed account of the event will be given in a subsequent issue of the CAMPUS.

The following alumni were on the campus last week in attendance at the S. A. E. annual house party and banquet of Feb. 21 and 22:

F. E. Holmes, '02, of Bangor, H. W. Sawyer, '04, of Cumberland Mills, P. I. Chase, '04, of Baring, James McFadden, M. D., ex-'04, Hebron, F. T. Crowe, '05, Superintendent of the Deadwood Construction Co. at Newton, Montana, W. J. Ricker, '05, Turner Center, Maine, E. A. Stanford, '06, West Kennebunk, W. H. Burke, '06, Kennebunk, G. R. Tarbox, '06, New Britain, Conn., Merton Lovett, '06, Beverly, Mass., R. B. Kittredge, '06, Portland, Maine, W. W. Black, '07, Beverly, Mass., Percy Wyman, '07, Portland, R. F. Talbot, '07, Andover, Maine, H. A. Thomas, '05.

'03.

A. R. Towse, is at present civil engineer in charge of the city sewer construction and pavement of streets at Pensacola, Florida.

'05.

Monday, February 17, Andrew Jenkins Hayes and Miss Addie Gertrude Prescott of Orono were united in marriage at the home of Miss Prescott. Mr. Hayes is district engineer of the U. S. Reclamation Service at Glendive, Montana, but he will soon be transferred and Mrs. Hayes will remain in Orono until he is settled in his new location.

A book entitled "An Analysis of Mixed Paints, Color Pigments and Varnishes" has just been published by John Wiley and Sons of New York. This book was written by C. D. Holley, '00, and E. F. Ladd, '84, who are professors in the chemical department at the North Dakota Agricultural College, the latter being also state chemist and food commissioner. This book is intended for a text book in technical schools, it being rather exhaustive and treating the subject in a practical way.

### INTERCOLLEGIATE NOTES.

Following the conclusion of the student "strike" at Washington University, a meeting of representatives of the faculty and the student body was held for the purpose of working out a new set of eligibility rules which should be agreeable to both parties. The rules are ten in number and are in substance as follows: All students who have attended the University during one full college year are eligible except those "whose grades for any month show three D's, an E and a D, or two E's." If in the same study a student receives two successive grades below C, he becomes ineligible for four weeks. A single condition in a term's work in any one study renders the student ineligible until he registers for the course again.

Prof. G. C. Schaad of the Electrical Engineering Department of the Mass. Institute of Technology, has recently made an inspection of the methods of work in the electrical engineering course at Cornell University. Prof. Schaad

reports that theses are not required at Cornell but that telephony, power transmission, railways or design may be substituted in their place. This is due to the inability of the instructors to give the student individual attention. The mechanical and electrical courses are the same until the beginning of the senior year at Cornell. All the problems are done under the supervision of the instructors and the students do not work on the same problems. Every one of the members of the senior class is a member of the local student branch of the American Institute of Electrical Engineers.

The Colby *Echo* prints a rather interesting report of a lecture by Dr. Harrington Putman on "Early College Athletics." Dr. Putman says that until about the time of the Civil War there was no sympathy by the college in general with athletics. "Robust health was uncultivated, unrefined, and,—what was more dreadful still,—unfashionable." Rowing took on importance in 1859, when Harvard defeated Yale, and continued to be the principal college sport for twenty years. Track events came later and were followed by football.

### UNDERGRADUATE DIRECTORY.

Athletic Association—President, J. T. Kendrigan; secretary, E. L. Towle.  
 Football—Manager, R. C. Harmon; captain, H. P. Higgins.  
 Baseball—Manager, L. F. Pike; captain, N. H. Mayo.  
 Basketball—Manager, F. P. Emery; captain, W. M. Black.  
 Track Athletics—Manager, E. W. Morton; captain, C. P. Meserve.  
 Tennis—Manager, G. E. Torrey.  
 Manager of Musical Clubs—B. L. Roberts.  
 Glee Club—Leader, F. C. Richardson.  
 Mandolin Club—Leader, R. H. Morrison.  
 Banjo Club—Leader, C. S. Phinney.  
 U. of M. Band—Manager, C. A. Plumley; leader R. J. Smith.  
 Orchestra—Manager, W. H. Andrews; leader, W. I. Kimball.  
 THE MAINE CAMPUS—Business Manager W. D. Trask; managing editor, L. R. Lord.

### MOORE'S NON-LEAKABLE FOUNTAIN PEN

While it is true that a good fountain pen will not leak if properly cared for, it is also true that it is not always possible for the most careful to treat it as they ought, while the careless are in continual trouble. These leaking troubles are all obviated in Moore's Non-Leakable Fountain Pen. This pen, is true to its name, it's air-tight and cannot leak. It is also clean to handle and clean to fill, and for these reasons is a favorite among the ladies, travellers and students, as well as among business men.

## A PEN IN A CLASS BY ITSELF

There's no pen that gives such all-round satisfaction as Conklin's Self-Filling Fountain Pen. It's in a distinct class by itself. *It's the College Standard.* Doesn't matter where you are—in your room, lecture hall, or on the train—you can fill it instantly by dipping in any ink-well. A slight thumb pressure on the Crescent-Filler does it. Cleaned in the same simple, easy way.

## Conklin's Self-Filling Fountain Pen

"THE PEN WITH THE CRESCENT-FILLER"

has won distinction the world over. For student, professor, business man, professional man, and for the man who moves about, it is *the only pen*. No mussy dropper, nothing to screw or unscrew, no tool kit, no inky fingers. Ink flows as smoothly as a prize essay. No stops, no blots, balks or scratches.

Leading dealers handle the Conklin. If yours does not, order direct. Look for the Crescent-Filler and refuse substitutes. Prices, \$3.00, \$4.00, \$5.00 to \$15.00. Send at once for handsome new catalog.

## A BIT OF ADVICE

FROM A MAINE DAIRYMAN.

"I WOULD ADVISE ANYONE WISHING TO PURCHASE A SEPARATOR NEVER TO PURCHASE A —  
—MACHINE" — WARREN MILLS.

And this is the Reason:

About the middle of March I purchased a — —\* Separator. After using it about two months, I decided I was losing cream instead of saving it. I then put it one side and put in a United States, which is giving the best of results, skimmilk testing only 2-100 of one per cent.

WARREN MILLS.

Palmyra, Me., July 5, 1907.

[\*Name if desired.]

Cream is money. Separators that lose cream are not money-makers. Buy the Standard and RELIABLE

**UNITED STATES  
CREAM SEPARATOR**

and you'll make the most money because it skims closest — Holds the World's Record.
