THE MAINE CAMPUS

Vol. X

BANGOR, MAINE, OCTOBER 6, 1908

No. 2

HARVARD vs. MAINE.

In the first collegiate game of this season Harvard defeated us by a score of 16-0. The game was fast, snappy and hard fought throughout. Harvard showed much improvement over her playing of a week ago; her backs worked together and started faster and also hit the line much harder. In fact it was a much different team than the one which she had a week ago. Maine also played a hard, fast, clean game, the line repeatedly tearing large holes in Harvard's

CAPTAIN WHITE

MANAGER HARMON

right side, through which the backs made good and substantial gains. "Allie" Cook ran the team like a veteran and supported the team well in the back field, getting a number of difficult tackles. King, H. Cook, Ray and Capt. White also put up a fine game. The first touchdown was made in about six minutes. Harvard kicked to Maine. The ball was brought to the 12-yard line where Harvard held and took the ball away. An end run and four dives through the line resulted in a touchdown. Harvard kicked the goal.

Maine kicked to Harvard, who carried the ball to the 30-yard line. An end run gave them ten yards and on the next play Harvard was penalized for holding, and punted. Bearce

fumbled the ball and Harvard regained it on the 45-yard line. Harvard then carried the ball to Maine's 30-yard line and failed on a drop kick giving the ball to Maine on the 15-yard line. In the third down Maine kicked to the 55-yard line. Harvard then carried the ball down the field and made the second touchdown, but failed to kick an easy goal.

In the second half Maine kicked off to Harvard and the ball was carried to the 33-yard line. For the greater part of this half the ball remained about in the middle of the field. Maine finally weakened and Harvard brought it down for another touchdown, but also failed to kick the goal.

Maine kicked off to the 25-yard line. Harvard brought it to the 31-yard line and then time was called.

Summary:

HARVARD.	MAINE.
R. Brown, Crowley, l. e.	r. e., King
Ver Wiebe, l. t.	r. t., White, Wright
Hoar, Dunlap, l. g.	r. g., Ham
Nourse, c.	c., Black
Burr, West, r. g.	l. g., Durand, Derby
McKay, Withington, r. t.	l. t., Ray
Harding, r. e.	l. e., H. Cook, Gardner
Cutler, Browne, Gallatti, q. b.	q. b., A. Cook, Torrey
Smith, White, l. h. b.	r. h. b., Cobb, Gerrish
Corbett, Graydon, l. h. b.	l. h. b., Parker, McHale
Kennard, Gray, f. b.	f. b. Bearce, Hammond

Score—Harvard 16, Maine 0. Touchdowns—Kennard, Smith, White. Goals from touchdowns—McKay 2. Umpire, E. K. Hall, Dartmouth. Referee, H. C. Washburn Amherst. Field judge, H. L. Dadmun. Timer, Fred Wood. Time, 20 and 15 minute periods.

MAINE 2ND vs. BANGOR H. S.

The Maine 2nd football team played its first game last Saturday afternoon at Maplewood Park, Bangor, with the Bangor High School, and as a result of poor team work were defeated 16 to 0. The Bangor team put up a strong,

heady game and during the first half tore the Maine line to pieces making all their touchdowns in this period.

The Second's line stiffened up in the second period and the whole team played together much better than before. The high school eleven worked hard to score more points but were unable to get within striking distance of Maine's goal.

The defeat served to show the second team that if it is going to win many games this fall the men will have to play a much surer and more consistent game. With further practice the second eleven should make a fast aggregation.

The line-up was as follows:

BANGOR H. S.	MAINE 2ND.
Trowell, r. e.	l. e., Casey
Rattray, r. t.	l. t., Haskell
Robinson, r. g.	l. g. Smiley
Batchelor, c.	c., Mason
Smith, l. g.	r. g., Sumner
Sheehan, l. t.	r. t., Wakefield
Kelley, l. e.	r. e., Buck
Ford, q. b.	q. b., McCarthy
Rice, Moody, r. h. b.	l. h. b., Cleaves
Chick, l. h. b.	r. h. b., Pratt
Williams, f. b.	f. b., Kent, Lycette
Touchdowns by Rattray, Williams, Trowell. Goal from touchdown, Trowell. Alternate referee and umpire, Toole and Cavanaugh. Timers, Steward, B. H. S., Carle, Maine. Time of halves, 20 and 15 minute.	

H. A. WHITE FOOTBALL CAPTAIN.

To fill the vacancy caused by the resignation of H. P. Higgins from the captaincy of the football team, Harry A. White, '09, of Lynn, Mass., has been chosen. He made his M last season, when he played right tackle and put up a fast consistent game. Previous to last year he had been substitute tackle, and on his class eleven. He is a member of the Kappa Sigma fraternity and was one of five seniors to make the Harvard trip.

Mr. White is very popular in the student body and the members of the eleven last year showed their appreciation of his ability as a football player when they selected him to be captain of the team this year. His preparatory school

experience was confined to the Lynn English High School where he made good at centre and guard.

The loss of Higgins' able leadership is felt by all the squad but "Deac" White possesses the confidence of the students and will work hard to have a championship team.

SOPHOMORES, 22; FRESHMEN, 14

The Sophomore-Freshman series of baseball games ended last Saturday when the 1911 team took the second game by a score of 22 to 14. The contest was long, uninteresting and full of misplays, with hard batting on both sides.

The Sophomores held the game well in hand from the start and played several extra men. Few strike-outs were registered by either pitcher and Holmes gave numerous bases on balls.

Coombs and Hosmer were strong at the bat for the Sophomores and Ryan was the star in the field, accepting all of seven chances. For the freshmen Holmes fielded his position well and hit the ball hard and Winn, Witham and Tartre also played good ball.

The line-up as follows:

1911.	1912.
Coombs, s. s. Fenn.....	3 b., Hussey
Scales, lf, Murphy.....	c. f., Homer
Smith, 2. b., Cooper.....	l. t., Winn
Hosmer, 3 b., Russell.....	p., Holmes
Ryan, c. f., Reed.....	2 b., Benson
Southard, 1 b.....	1 b., Witham
Harris, r. f., Fish.....	c., Clark
Phillips, c.....	s. s., Tartre
Drew, p.....	r. f., McKeen, Fernald, Rand
Two base hits, Coombs 2, Hosmer, Winn, Homer. Stolen bases, Coombs 3, Scales 2, Hosmer, Southard 2, Harris, Phillips 3, Drew 3, Holmes, Witham, Tartre. Sacrifice hits, Coombs, Scales, Smith, Harris, Drew, Holmes, Benson. Struck out, by Drew 2, by Holmes, 3. Bases on balls, off Drew, 5, off Holmes, 11. Hit by pitcher, Phillips. Time, 2 hours 10 minutes. Umpire, Mayo, '09.	

Bowdoin College opened Sept. 24th for its 107th year with a freshman class numbering 125. The annual rush was won by the freshmen. The only changes in the faculty were four new instructors and six assistants.

SEND OFF FOR THE TEAM.

Last Friday noon, when the Varsity left Orono for Cambridge to line up against Harvard, the whole student body showed its support and confidence in the team, by marching from the Campus to the Orono depot. The fellows gathered in front of Alumni Hall and marched from there to College Ave., to Orono, to the depot, accompanied by the University Band.

During the march, songs were sung and cheers given for Maine, the team and everyone connected with the team. At the depot, the team was given the greatest send off, a Maine team ever received. The students are with the eleven to the end.

MAINE NIGHT.

The committee for Maine Night has issued an urgent appeal to the student body and alumni, to come forward and offer some songs, which will be appropriate for the evening. It is not necessary to write both words and music, but of course both would be more welcome. There are many tunes, either popular or classic to which college words and thoughts can be written, and there should be many in the University who are able to offer suitable songs. They should be handed to Mr. R. K. Jones or N. H. Mayo, '09, as soon as possible.

SOPHOMORE THEMES.

The first Sophomore theme of the semester is due Monday, Oct. 9. It is to be a narrative descriptive theme, based upon some personal experience of the writer. They should present some one particular experience as in hunting, camping, lumbering, farming, engineering, seafaring, business life, social life, school life, or college life.

The writer should select the best points and develop them in such a manner as to make his story attractive and interesting. Blue Book readers should be kept in mind. An ancestral or family or local legend may also be included.

PRESS CLUB.

The Press Club held its first meeting Sept. 26 and elected Prof. Thompson, president and Chase MacArthur '09, secretary. There were a dozen students present and the object and the work of the club were outlined. An endeavor is being made to get every student into the club who has any acquaintance with the editors of the home newspapers, so that happenings and points of interest will be sent to every newspaper possible, and in this way benefit the University. Students, who undertake to write for papers not only do their college a great service, but also gain experience and knowledge, that will stand them in good stead in the future. News topics will be discussed at the regular meetings of the club, which occur every Saturday morning, so that items of interest can be learned of by members of the club. The Press Club should be one of the most influential for good of the University.

THE DEBATING SOCIETY.

The Debating Society held its regular weekly meeting Thursday, October 1st.

Professor Daggett and Mr. Prince spoke of the work of the coming year. Mr. Prince gave an outline of "The Fundamentals of Debating," a topic which he will use for a brief talk at the fall meetings.

Each member present pledged himself to bring a friend to the next meeting. Heretofore too little interest has been shown along this line of student activity. This year however the Faculty have promised their assistance and the members are determined to turn out winning teams.

JUNIOR CLASS.

The Junior class has elected the remainder of its officers for the ensuing year: secretary, Miss Geneva Reed, treasurer, G. E. Springer, executive committee, Ernest Lamb, L. M. Bragg, K. R. Fox, C. C. Johnson, and A. S. Moore.

Entered at Bangor, Maine, Post-Office as Second-Class Matter.

Terms: \$2.00 per year, on or before Nov. 1st; single copies 10 cents.

All business communications should be addressed to the Business Manager.

Back numbers will be furnished all those desiring them upon application to the Manager.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIALS.

THE Maine Night Committee has made an appeal to the student body and alumni for new songs suitable to be sung on that night. This appeal certainly should receive the co-operation of the whole student body. We need college songs. Songs that will last. Songs that are entirely our own. For this reason fellows, every one that has any ability should make an honest try at producing a song that will last; one that will be passed down from time to time. As now, in our infancy, it is the time to establish customs and traditions we should also produce at this same time our college songs. Mr. R. K.

Jones or N. H. Mayo '09, will be glad to receive any contributions of this kind and all songs will receive the proper consideration.

THE send-off given to the football team when they left for Harvard Friday noon, was certainly a credit to the University. When the fellows turn out in such numbers under such unfavorable weather conditions it shows that the "Old Maine Spirit" isn't a thing of the past.

To the team it meant that they had the entire student body of the University behind them and whether they won or not did not alter the fact a bit. It was a demonstration of enthusiasm that "Maine" can well be proud of.

THIS year a much stronger effort will be made than ever before in former years, to have more and better Alumni Notes. The CAMPUS will do all that lies within its power and all that can be expected to help the various alumni keep in touch with one another.

However, to make this department a success it is necessary that the CAMPUS has the aid of all alumni. Many letters have been received asking why more Alumni Notes are not printed and why more pains are not put into this department. The fault in most cases does not lie with the CAMPUS but rather with those alumni themselves. Up to the time that those letters were received there was no way of knowing their whereabouts nor what they were doing. It is the duty of every alumnus if he has any true "Maine Spirit" to write back once in awhile to his college. The news of what you are doing will be interesting to many others and it is a duty you owe to yourself, the other alumni and our University.

The editor in charge of that department, Mr. Harry M. Woods, is anxious to learn the where-

abouts of hundreds of our alumni who have seemingly dropped out of existence. Sit down and drop him a line giving your address and the line of work in which you are now engaged. It will interest many of your former classmates and those that knew you while in college. If you "old fellows" want a good alumni department it is up to you to help.

DEUTSCHER VEREIN.

The first meeting of the Deutscher Verein was held last Wednesday evening at the home of Professor Carr.

The speaker of the evening was Professor Weston who spent the summer in suburban Germany. The speech was very interesting and instructive being interspersed with sketches of humorous personal incidents. He spent practically all of his time in that part of Germany more rarely visited by tourists, among the valleys of the Schwarzwald and the Thuringerwald, where he obtained a very good idea of the life of the average German. In speaking of the roads Professor Weston said that throughout the country the roads were in excellent condition. They are made of crushed rock with clean cut grass plots on either side. By rail there are nine ways to travel between two places, three classes of carriages and three rates of speed. At Freiberg one of the university towns, the students were celebrating the close of the semester by driving up and down the main street dressed in gaily coloured caps and ribbons. In Berlin a view of Kaiser Wilhelm was obtained and a brief visit was made to his palace. Upon entering the apartments felt slippers were provided the tourists to assist, as it said, in polishing the floors. At the close of his talk cards illustrating the trip, and a set of German coins were exhibited.

A short business meeting was then held at which the following were elected members:—Mildred L. Prentiss, Mary E. Chase, Frances Arnold, Geneva Reed, K. R. Fox, I. M. Stover, S. Waite, R. L. Littlefield, B. O. Warren and C. J. Pinkham.

Refreshments consisting of chocolate and sandwiches were served after which German songs were sung. Professor Wittig accompanying on the violin.

Professor Rudolf Tombo of Columbia, who spoke so admirably on "Faust" last year, and Professor A. N. Leonard of Bates will address the Verein during the year. The dates will be announced later. It is hoped that addresses will be given by President Fellows, Dean Walz, Professor Wittig and Professor Chase.

THE NEW AGRICULTURAL BUILDING

The new Agricultural Hall occupies a commanding position directly behind the Library. From its top one may obtain a good view of the surrounding country and the roofs of the other buildings of the University.

The building contains three full stories and a very good basement. The exterior of the building and the main entrance are trimmed with sandstone while the body of the building is of red brick. The two walls of the halls are fire walls and are panelled giving a very neat appearance to them. These halls are high, wide and well lighted and have stairs connecting with the floors above and below at each end.

There are laboratories and store rooms in the basement. On the first floor are two recitation rooms for classes in animal industry, one for agricultural chemistry, a library, general offices, a private office and a vault. There are tool rooms connected with the offices arranged in a very convenient manner.

On the second floor are Bacteriological laboratories, a museum, a Forestry room, and a recitation room for agronomy.

On the third floor are Horticultural rooms and laboratories, a lecture hall and draughting rooms. All the floors are connected with elevators.

Back of the agricultural hall is an octagonal building about forty feet in diameter for stock judging.

LECTURE COURSE.

The course of lectures which is being given this semester is upon the history of the sciences. These lectures are given every Wednesday morning at 11 o'clock in the Library. They are interesting and instructive and open to students and visitors. College credit is given for the lectures. Thus far Professor Hart has given two upon the History of Mathematics. His concluding one will be given tomorrow. The remainder of the course is as follows:

The History of Physics, Professor Stevens. October 14, October 21, October 28.

The History of Chemistry, Professor Aubert. November 4, November 11, November 18.

The History of Biological Chemistry, Professor Merrill. December 2, December 9.

The History of Zoology, Professor Drew. December 16, January 6.

The History of Botany, Professor Chrysler. January 13, January 20.

MARATHON RACE

On Saturday morning Oct. 24, the day of the Freshmen-Sophomore dual meet, a novel feature will be introduced, namely a five mile marathon race to be run along the road from Oldtown to Alumni Field and once around the cinder path. This is something that has never occurred before in the track athletics of the Maine colleges and it is sure to raise a large amount of outside interest. It will not only serve to discover new distance men, but it will give an incentive to distance running.

The race is introduced by "Steve" Farrell, the man who has trained University of Maine's athletes for the last ten years. The contest will be participated in by all four classes and the first four or five men finishing will receive suitable prizes. The class that succeeds in getting three men over the tape first will be adjudged the winner.

Already candidates are training for this event and every day one may see fellows jogging along the road between Oldtown and Orono. The

manner in which the fellows have turned out augurs well for a large entry, and everything points toward a successful beginning of Maine's first marathon race.

AGRICULTURAL CLUB.

On Wednesday evening, Sept. 30, the weekly meeting of the Agricultural Club was held in Lord Hall. G. S. Wadsworth '10, was chosen president pro tem during the absence of vice-president Redmond. H. W. Smith '09, of Sangerville was elected president for the ensuing year in the place of C. W. Barber '09, of Woodfords, resigned, and I. W. Bates '11, was elected treasurer.

Two minute talks, in which F. E. Fortier '10, told of his personal experiences in creamery works, I. W. Bates spoke on dairying, and S. G. Evans '11, explained the construction and use of silos, were followed by an interesting and instructive lecture by Prof. Brown on "Dairying in Canada,"

In his discourse Prof. Brown divided Canada into two sections,—those where dairying was extensively carried on being distinguished from those given over to beef raising. The herds of the dairying section consist mainly of Holsteins and Ayrshires with the exception of a few herds of Jerseys near the large cities.

The Canadian creameries are all under strict government inspection, which has a tendency to make the products of the vast number of small, individual creameries surprisingly uniform all over the country. The principle export of these creameries is the well known "Canadian Cheddar Cheese," the demand for which is growing even faster than it can be supplied.

Another fact strongly emphasized by Prof. Brown is that the Canadian government, realizing the importance of its dairy trade, is encouraging it in every possible manner. In many sections of the country, schools are inaugurated for the sole purpose of instructing the citizens in dairy and creamery work and this alone will place Canada among the leading dairying countries in a very few years.

in Bangor last Monday afternoon by those members of the Aggie department who were competing for positions on the judging team, which is to represent the University at the Brockton Fair. The afternoon was spent in judging this herd and from the work done here the team was chosen. The men selected were: H. W. Smith '09, Morton '09, Vaughan '11, and Redman '10 as alternate.

Y. M. C. A. MEETING.

The Y. M. C. A. held its weekly meeting in the Library, on Wednesday evening, September 30. F. C. Richardson was leader and spoke very interestingly on the subject, "Our Anchor."

A short business session was held, after the close of the meeting, at which it was voted to send a delegate to the International Bible Study Association which meets at Columbus Ohio, October 22 to 25.

Rev. Mr. Howard of Orono, will speak on "Personal Influence," next Wednesday evening. This promises to be a very interesting and valuable subject. Everyone who possibly can should be present.

MECHANICAL AND ELECTRICAL SOCIETY

The Mechanical and Electrical Society has elected the following men to act as officers during the present year: president, C. A. Hall '10, vice president, E. S. Alton '10, secretary and treasurer, J. M. Eaton, '10, executive committee, F. D. Knight '09, I. H. Moore '09, H. N. Danforth '10.

SENIOR CLASS.

The senior class nominating committee met and chose the following members of the class as nominees for office: president, F. D. Knight, N. H. Mayo, vice-president, W. L. Emerson, E. O. Pray, secretary Miss Cora Shaw, treasurer, P. Ham, W. O. Smith, executive committee, F. S. Cram, G. C. French, H. T. Pettigrew, H. A. Sutton, G. E. Torrey, S. W. Clemens, H. A. Rich, R. C. Harmon, H. M. Bowman.

SOPHOMORE CLASS

The Executive committee of the Sophomore class has been chosen being composed of H. W. Ingham, M. F. McFarthy, J. S. King, L. M. Gerrish and G. A. Phillips.

The nominating committee of the Sophomore class choose the following names to present to the class for a Calendar committee: A. C. Eaton, B. O. Warren, N. C. Pinkham, G. A. Wakefield, A. C. Hammond, W. G. Hill, H. W. Ingham, A. L. Scott, Miss Prentiss, Miss Brown. Five will be chosen.

EXECUTIVE COMMITTEE.

A special meeting of the Executive Committee of the Athletic Association was held Thursday night. The election of H. A. White as captain of the football team was ratified and a long discussion was held upon the question of fencing in Alumni Field.

INTERCOLLEGIATE NOTES.

President Tucker of Dartmouth College in his annual opening address to the student body discussed and urged the preservation of altruism in our colleges. He said in part:—

"The difficulty of maintaining the spirit of altruism in our colleges is the lack the rather increasing lack of moral maturity in the average undergraduate. I do not say the lack of morality, for morality is on the whole steadily on the increase in our colleges. Nor do I say the lack of a certain moral earnestness which may at any time find vigorous expression in our college sentiment. By moral maturity, I mean simply the power of a man to assume the responsibility for himself. This kind of moral immaturity is not due to a decrease in the age of college students. The college age practically remains unchanged. The average age for the century was exactly that of the last decade, 22 years and 9 months. The real causes of this immaturity are many and vary with the in-

dividual, with his training, his temperament, his associations, but the remedy must be in all cases one and the same. The final appeal must be made to the individual himself."

LOCALS.

Miss Alice Nural, a missionary from India has been engaged to address the Y. W. C. A. October twenty-first.

Dean Stanley Thomas, '09 has issued during the summer vacation a very effective book of poems, entitled "Leaflet." Some of the poems have never been published before, while others tho' appearing in the "Blue Book" are well worth the rereading. Those which especially need commendation are "Looking Backward," "The Marshes," and "To a Dead Musician."

Prof. Estabrooke recently attended a committee meeting of the New England Congregational Congress in Boston.

George Springer, Malcolm Fassett, T. T. Workman, and W. O. Harvey assisted in a concert given in Lincoln last Friday evening.

F. E. Trask, '87, and W. T. Brastow, '97, former members of the Campus Board were visiting on the campus this last week.

ALUMNI NOTES

'73.

Russell W. Eaton holds a responsible position with the Cabot Mfg. Company, Brunswick, Maine.

'75.

Alfred M. Goodale is treasurer of the Boston Mfg. Company, Boston, Mass.

'76.

Harry E. Hamilton is engaged in dentistry, Boston, Mass.

Solomon M. Bates is a successful lawyer in Portland, Maine.

'78.

Charles C. Elwell is with the N. Y. N. H. and H. R. R., at New London, Conn.

'85

Austin H. Keyes is superintendent of schools, Dover, N. H.

'86.

Arthur D. Page occupies a position as bridge engineer for the Chicago, Rock Island, and Pacific Railroad.

John B. Allen is a judge at North Middleboro, Mass.

'88.

Dudley E. Campbell is principal of Caddington School, Newport R. I.

William J. Hancock is a member of the faculty of Erasmus Hall High School, Brooklyn, N. Y.

'90.

Edward N. Morrill holds a position as chemist for the Warren Separator Company, Warren, N. H.

Paul D. Sargent of Augusta is state road commissioner of Maine.

'92.

Roscoe Clark is engaged as a draughtsman for the General Electric Company, Lynn, Mass.

'93.

G. W. Hutchinson is civil engineer for the Keystone Coal and Coke Company, Greensburg, Pa.

'94.

Edward H. Cowan occupies the position as Superintendent of the Manion City Water Co., Manion, Ohio.

Frank Gould has left the profession of civil engineering and entered into business with his brother of the Rines Company in Bangor.

'96.

Everett C. Glidden is connected with the General Electric Company, Schenectady, N. Y.

R. L. Fernald, Professor of mechanical engineering in the Case School of Applied Science, Cleveland, Ohio, has returned after a short visit in Orono.

L. A. Rogers has recently made some important discoveries in regard to bacteria which will improve butter making in the middle west. He is located in Washington, D. C.

'97.

Allen Rogers, head of the Department of

Chemistry at Pratt Institute has recently published a booklet describing fully the work and methods used in the chemical course at Pratt.

Myron R. Russell made a short visit at the University last week.

Walter J. Gilbert is a practicing physician in Calais Maine,

Charles S. Bartlett is engaged in the drug business at Auburn, Maine.

William T. Brastow designing engineer for the American Bridge Company, was on the campus a few days last week.
