BANGOR, MAINE, NOVEMBER 3, 1908

No. 6

## MAINE 6, BATES 0.

Two hundred and fifty students went to Lewiston Saturday on the special train and saw Maine win from Bates college by a score of 6-0. Maine was clearly the better team and kept the playing in Bates' territory most of the time and her victory was a decisive one. For three years previous to this Maine and Bates have played tie games, and Saturday's game was well earned. It was a good opening for the Maine championship series.

Bates and Maine were about the same weight and the day was almost perfect for football, both facts tending to make the contest an interesting one. Both teams played almost entirely the old style of football, Maine making her best gains with the halfbacks through the tackles, while Bates was able to gain only with their star, Keaney. Maine's forward passes were all failures, while Bates was successful twice in the play. Maine's line was a stone wall, and the Lewiston boys could not make an inch through it.

The Bates adherants were bubbling over with confidence, and expected their team to win easily. After the first few minutes of play it could be seen that Maine was much the superior. The Maine cheering section kept up a continual noise and with their band playing, the students encouraged the team with songs and cheers.

After the game, the Maine supporters headed by the band, paraded the streets of Lewiston, did the snake dance, sang and cheered themselves hoarse. After celebrating for an hour, the parade broke up. The special returned from Lewiston about seven o'clock.

Maine won the toss and chose to receive the kick. On skin tackle plays by Parker and McHale, Maine carried the ball to the center of the field and punted to Bates' 25 yard line. Bates was unable to gain and returned the punt. An onside kick went to Bates, who was forced

back to her 1 yard line. Bates punted and Maine carried the ball to the 5 yard line, where it was lost on a forward pass.

Keaney on the first play circled Maine's right wing for a run of 55 yards, but Bates could get no farther and punted to Cook, who returned it 20 yards.

Maine also kicked and Keaney lost the ball on a poor pass. Maine tried another forward pass, but Bates secured the ball. Maine recovered the pigskin on Bates' 30 yard line, through a fumble, but later were penalized 15 yards. An exchange of punts put the ball on Maine's 47 yard mark.

McHale tore off 20 yards around the end and Parker, McHale and Cobb made first down. The ball was rushed to the 16 yard line and a drop kick attempted, but it was blocked. The half ended with the ball in Bates' possession on her own 9 yard line.

At the beginning of the second half, Maine kicked to Bates, who punted on third down. Maine punted and Keaney after two small gains on formations returned the kick. Maine advanced 20 yards on tackle bucks by Parker and Bearce, and then punted. Keaney on formation plays made 15 yards, in three downs and also punted.

McHale punted, but Bates lost the ball on a poor pass and two unsuccessful fake plays on her 27 yard line. Parker carried it to within 15 yards of the goal line. Coach McCoy sent in some fresh material, White for Bearce, Hammond for Cobb, Couloug for Duran, Pratt for McHale and King for Gardner. Pratt and Hammond took the ball to the 5 yard mark and Parker to within a few inches, and Hammond plunged through for a touchdown. He also kicked the goal.

On the next kick off, Parker ran the ball back 40 yards and Hammond kicked to Bates' 40 yard line. The ball see-sawed up and down the gridiron, neither team being able to gain

consistently and both punting a great many times. The game ended with the ball on Maine's 13 yard line in her own possession.

Maine made first down 11 times to 7 for Bates. The blue kicked 10 times for a total of 315 yards while Bates aggregated but 265 yards in 11 attempts.

The line-up and summary:

MAINE	BATES
H. Cook, l. e. .... r. e. Leavitt, Cummings, Dorman	
Ray, l. t. .... r. t., H. Andrews, Crowell

#### DEATH OF PROF. ESTABROOKE.

Prof. Horace Melvin Estabrooke died at his home last Friday evening. His death was the result of a fall down a flight of stairs in his home on Wednesday night. The injuries he received from this fall were of such a nature that he did not regain consciousness.

Prof. Estabrooke had been studying on the second floor, got up and went down the back hall and mistaking the back stairs for an entrance to a room, plunged headlong down the stairs. His fall caused severe injuries to his head and when he was found he was in an unconscious condition, a state from which he did not

PROF. HORACE MELVIN ESTABROOKE.

emerge. Help was immediately called and all possible assistance given. From Wednesday night until Friday noon his condition remained unchanged. Friday noon a weakening was noticed and from that time until the end he grew worse. He died about nine forty-five, very easily and peacefully.

Horace Melvin Estabrooke was born in the town of Linneus, Aroostook County, January 20, 1849, the son of Leverett Evans and Lucinda Homestead (Young) Estabrooke. His early education was obtained in the little red schoolhouse supplemented by four years in Houlton Academy. In 1872 he entered the Maine State College, now the University of Maine graduating with honors in the class of 1876. After graduation he pursued the study of French and German under native teachers, matriculated at Illinois Wesleyan University for the non-resident post-graduate course

in physics, and studied elocution under private teachers in Maine, and in Boston in the winter of 1892.

His training for active life comprised hard work on the home farm and long service as a country teacher. He taught school in Oakfield, Maysville and Clinton, was principal of the Dennysville High school, principal of the Pembroke High school, first assistant master of the Gorham Normal school and in 1891 was appointed Professor of Rhetoric and Modern Languages in the Maine State College and retained his connection with that institution until his untimely death. In 1895 he was designated as Professor of English. He received from his Alma Mater the degrees of S. B. and M. S. and from Bowdoin college that of A. M.

He has held offices in the Maine Pedagogical society of which he was president in 1894-5 and was president of the Maine State College Alumni association 1891-5. He was also a member of the Q. T. V. fraternity, was later a member of Phi Gamma Delta, American College and Education society and the American Academy of Political and Social Science. He was an Odd Fellow and member of the Patrons of Husbandry.

In church work he was very active being at the time of his death superintendent of the Sunday School of the Congregationalist Church of Orono, a member of the Parish Committee and was the prime mover in the rebuilding of the church.

In 1880 he married Miss Kate A. Clark of Tremont who survives him with two daughters and a son, Elizabeth Read, Carle Bertrand and Marion Corthell. His death came as a profound and grievous shock to his many friends.

He was a man of the highest standard, of the greatest refinement of character, kind and sympathetic in actions, charitable and greatly beloved by all who knew him, a profound student having his heart in his life work and in the University of Maine.

The funeral services were held at his home Monday afternoon, November second, at two thirty and were conducted by Rev. J. M. Brockie and Rev. Charles Whitten of Bangor. They

were very quiet and impressive, only the members of his family and his most intimate friends being present.

#### LITERATI.

---

The first meeting of the Literati this year was held in the Library last Tuesday evening. The purpose of the meeting was to discuss means for making the society a more potent factor in the University.

Plans to this effect were discussed by Prof. Daggett, chairman of the committee in charge of this matter. He reported that it was considered advisable to unite into a federation the musical clubs, the debating society and the Deutscher Verein each of which would aid in furnishing the programs. In this way the meetings would become more attractive.

The report of Prof. Daggett was accepted, and the meeting was further addressed by Prof. Stevens and Prof. Chase. Several of the students spoke also and expressed their desire to do all they could to increase the influence of the Literati. It was decided that at least one man in every fraternity and the non-fraternity men should by personal effort endeavor to arouse the men registered in the College of Arts and Sciences to the value of the society.

---

#### CHEERING PRACTICE.

---

Much interest was taken last week by the student body in the preparation of the football team for the Bates game and with the exception of Wednesday when the eleven had secret practice there were many students on the sidelines every afternoon. Tuesday and Thursday there was cheering practice, led by E. L. Towle, '09. The number that turned out for this was encouraging, yet there should have been many more in the stand. Without this organized cheering practice Maine men cannot expect to put up a showing worthy of 600 students at the Colby and Bowdoin games and if this practice is continued every fellow should make it a point to be on the field at the time designated.

## EDITORIAL.

IT is indeed a very noticeable fact that the good fellowship among the students is not as strong as it should be. There is a lack of familiarity among the fellows, a familiarity that brings with it a certain good fellowship, which in turn gives rise to a strong college spirit. Speak to Maine men as you meet them. Remember too the co-eds, for they are just as much a part of our student body as the fellows and they are every bit as loyal to the activities of this University. Speak to every one, professors and all. Learn to know them. Get acquainted with them. It is this way that intimacy is

fostered, and with intimacy comes good fellowship and college spirit.

If the various classes would assemble evenings on the steps of the Library or at some convenient place and have class sings and cheering, that also would cement the classes themselves more strongly together. Get *class* spirit and get *college* spirit. They are every bit as necessary to a *real* college man or woman as (his or her) studies. Be somebody. Do something. Show people you are not an nonentity, that you are a *real live* person. To do this one of the principal things required is college and class spirit.

THE issue of the Constitution and By-Laws of the Athletic Association has brought at least one question before the students. This question concerns the awarding of the "M". Article VI reads in part:—Section 1. A committee composed of the president of the association, a member of the Faculty appointed by the president of the association, and the captain and manager of each team shall hold meetings, during each season and determine on candidates to be awarded the "M."

Sec. 2. A certificate shall be given to each person to whom the "M" is awarded.

Sec. 3. No person shall wear an "M" unless he has a certificate from the proper committee.

In accordance with these rules it seems that no man has, or ever did have the right to wear an "M." No certificate has ever appeared. It would seem that some sort of a certificate should be adopted if only to fulfill the requirements of the constitution. The idea of the constitution is that the award is for merit and it would mean more to a fellow to receive an official announcement of the fact. Clearly action should be taken to have this part of the constitution fulfilled. A suitable certificate

### THE DEBATING SOCIETY.

---

At the regular meeting of the Debating Society on Thursday evening, the executive committee was authorized to select a subject for the Sophomore-Freshmen debate, which will be held on December 18. Dean Hurd reported that at the request of the society he had visited the University of New Brunswick, while in Aroostook, and found that a debate with the University of Maine would be very acceptable to the students from across the border. Mr. Prince spoke for a half hour on Analysis which is a sub-topic of "The Fundamentals of Debating," a

subject which has been under discussion for several meetings.

The first debate of the year then followed on the subject, Resolved, "That it would be to the best interest of the University of Maine for all hazing to be abolished."

The speakers for the affirmative, C. C. Johnson '10, and F. L. Chenery '11, said in substance: Hazing in former times was principally in order to try a fellow out, to see what he was made of. Now hazing is for the purpose of placing the Freshmen under the jurisdiction of the Sophomores. There is now a strong sentiment among the colleges to abolish the custom. This has only very recently been taken up by this University. The upper classes favor its limitation, while the opinion of the public who help support the college is against all hazing. Its abolition will not do away with college customs for precedent will keep these up. The chief fault of hazing is, that it does not discriminate between those who behave and those who are "fresh," all being treated alike.

The speakers for the negative, W. W. Harmon '10, and W. A. Fogler '09, said in part: Hazing as known at Maine includes all forms of necessary chastisement and innocent fun administered by the Sophomores to the Freshmen. A vote taken in the Freshmen class showed 56 to 46 in favor of retaining razos. No direct harm results from hazing but much permanent good may. A case was cited of a fellow who was transformed from a roudy into a gentleman. Hazing is the creator of class and college spirit. A member of the faculty was quoted as saying that seven or eight years ago when hazing was more violent than now the college spirit was greater. At Dartmouth where the custom is worse than here there is greater college spirit shown. Hazing rubs off the rough peculiarities of a fellow and places him on a level with his fellow-students. The public do not understand what hazing is, but the alumni do and there are few, if any, of the latter who would wish to see it abolished at the University of Maine.

The arguments presented by both sides were good, but the judges decided in the favor of the negative. Mr. Prince then acted as critic.

## TUFTS 23, MAINE 5.

The best game on Alumni Field this year was played Saturday, Oct. 24, when Tufts defeated Maine 23-5. With the exception of a few minutes at the first of the game the Tufts eleven showed their superiority in almost every department, yet the Maine team played better than in any previous contest this season and neither Coach McCoy nor the men have any occasion to be ashamed of the work of the eleven. It was up against a much heavier team made up of older men, and was handicapped by the absence of its star full back, Bearce, who would have added much to the strength of the Maine aggregation.

The Tufts team deserved the victory for it had more speed and a better knowledge of the game than did Maine. The visitors' interference was remarkable and it was due largely to this that they ran up so large a score. They also gained much in running back punts, and made many yards by their clever trick plays. Tufts' backfield consisting of Dittrick, Bohlyn, Sheehy and Hooper who were relieved later by Brophy, Kewer and Dunn, was very fast, both quarterbacks running back punts for long gains and the halfbacks going around the ends time and again.

Maine's line was like a stone wall and withstood the hardest attacks. Parker at right halfback and Dodge who succeeded him were the best ground gainers while McHale executed some fine punts. The work of Black at center and H. Cook and Gardner at the ends was excellent.

McHale excelled Dittrick of Tufts in the kicking line, netting 350 yards in eleven attempts to Tufts' 180 yards in eight tries. Maine tried the forward pass three times, once successfully, made first down seven times to Tufts' eleven times and held Tufts once.

Tufts kicked off to Maine. McHale punted out of Maine's territory. After a couple of line plays Tufts tried an onside kick which was caught by Maine. Then punts were exchanged. The ball still being dangerously near Maine's goal line, McHale again punted after a gain of ten yards had been made. Then Tufts started

from the middle of the field and pushed the ball toward Maine's goal line, making first down with ease. The touchdown came when Tufts ran off a pretty delayed pass. Ireland kicked the goal after the ball had been punted out from the goal line. Score, 6-0.

Maine kicked to Tufts who punted. Then the Maine team went up the field much as the Tufts men had just done and aided by a successful forward pass the ball was placed on Tufts' 5 yard line. Here it was lost and Tufts punted. McHale then booted the ball back into Tufts territory. Maine obtained the ball again on the 30 yard line on an attempted onside kick and in turn McHale tried the same thing, H. Cook carrying the ball across Tufts' goal line. No goal was kicked as A. Cook fumbled the punt out. Score, 6-5. No more scoring was done in this half and it ended with the prospect of a hard fight in the second period but Tufts started off with a rush at the blow of the whistle.

Hooper ran the kick off back to Maine's 50 yard line. Sheehy made 30 yards and Bohlyn 12. Then the ball was rushed to within a foot of Maine's line and Hooper plunged through for a touchdown. Ireland kicked another goal. Score 12-5.

Maine kicked off and Bohlyn returned the ball 18 yards. Sheehy made first down and went around left end and got away for a 70 yard sprint to the goal line. The try for goal was unsuccessful. Score 17-5.

Tufts kicked off to Maine and the latter's attempt to punt was blocked on the 30 yard line. A gain of 25 yards was made around left end and then it was an easy matter for the Tufts team to plunge over the line although Maine put up a stiff fight. Ireland kicked the goal. Score 23-5.

Dodge was put in for Parker, Pratt for McHale, Hammond for Cobb and Maine began to rush the ball down the field, but time was called with the ball on Tufts' 40 yard line.

The line-up and summary is as follows:

### LAW SCHOOL NOTES.

The first meeting of the Law School assembly was held Friday evening, Oct. 23, at 7 o'clock. After the usual form of admission and initiation of new members had taken place, an unusually interesting debate occurred, the question being whether the subscriptions to the national campaign funds of the respective political parties should be published before or after the election.

At a meeting of the Junior class held Thursday, Oct. 22, Mr. Robie Lawton Mitchell of West Newfield was elected president for the ensuing year. Mr. I. H. Caplan of Portland was elected vice president and Mr. Frank Bass of Bangor, secretary and treasurer.

The following men have been pledged to the Reed chapter of the National Legal Fraternity of Phi Delta Phi. Mr. Ray Fellows, Phi Gamma Delta Mr. Kent Rollins, Phi Gamma Delta, Mr. W. E. Roberts, Beta Theta Pi, Mr. H. L. Grinnell, Beta Theta Pi, Mr. C. C. Campbell, Mr. Carleton Doak, Mr. J. H. Mahan, Mr. P. I. Clarke, Mr. J. H. Liggett, Mr. William B. Blaisdel, and Mr. Chas. Lemaire.

The law school held a meeting of the students Monday, Oct. 26, for the formation of a legislature. C. F. Small presided as temporary chairman. After prayer, offered by Chaplain Weeks the roll was called. It was then voted that the senators be elected, seven from the Senior class, five from the Junior class and four from the first year class. The following gentlemen were then elected to serve in the Senate:

F. B. Snow, A. J. Cartier, C. Toole, Jr., V. L. Riggs, R. Morrison, A. E. Anderson, F. W. Halliday. (Seniors); F. L. Bass, I. H. Caplan, A. P. Harvey, L. V. Jones, F. B. Clancy, (Juniors); B. E. Spencer, C. Doak, C. F. Getchell, E. G. Powers, (First year men.)

Dean Walz was unanimously elected Governor. A committee was then appointed to inform the governor of his election. Governor Walz was escorted to Secretary of State Saunders who gave him the oath of office. The Governor thereupon gave the oath of office to the legislative body.

The House of Representatives next proceeded to elect their officers. E. J. Grady was unanimously elected speaker, T. A. Saunders, clerk, W. C. Fraser, door keeper, F. B. Littlefield, stenographer, W. M. Weeks, chaplain. It was voted that all bills be laid on the table pending the appointment of committees.

A bill was introduced by Representative Packard, for an insane asylum to be built at Portland. The Senate elected F. W. Halliday president and L. V. Jones secretary. After the two elections the House and Senate convened together and the Governor delivered his message. Dean Walz, as governor, could do honor to the most conservative state or government. In that diplomatic and suave way which characterizes him, he delivered his message in a most admirable manner, advocating among other things an appropriation for a new public building for the University of Maine to be used for the Law school. Also an appropriation for an increase in the law library at the University of Maine.

The next session of the legislature will convene Nov. 2.

The following men have been pledged to Sigma Beta Pi Society: B. E. Spencer, Phi Beta Kappa; C. E. Sherry, F. B. Littlefield, F. R. Chesley, Delta Kappa Epsilon; J. B. Pelletier, H. H. Varney, W. H. Sweeney, B. M. Harvey, W. M. Owens, C. B. Hosmer, E. W. Lathrop, R. W. Carter, W. G. Connary, D. I. Gould, Alpha Delta Phi; B. L. Conners, J. M. Druker, Elisha Powers, Psi Upsilon; Carl Getchell, Kappa Sigma.

## 1910 PRISM.

Work on the 1910 *Prism* is progressing as well as can be expected at this time of the year. Senior and Junior Class Honors are being collected, and the Juniors are sitting for their pictures.

The different class histories this year will be selected as a result of competition. This competition will be open to all, irrespective of the class of which they are members. The successful competitors for the four class histories will each be awarded a *Prism*.

Everyone is asked to contribute material for grinds and jokes this year. Every day incidents occur on the campus and in the class rooms which can be worked up into good grinds. Jot them down and then work them up and pass them in.

## MUSICAL CLUBS.

The Musical Clubs gave their first concert Friday evening, Oct. 23, in Bangor. The numbers consisted of selections by the banjo orchestra, the mandolin club, a violin solo by Stark '12 and the university orchestra. After the concert, dancing was enjoyed, the orchestra furnishing music. The audience was small but appreciative and the concert was a success for the first one.

## THETA EPSILON.

B. L. Roberts, '09, and E. S. Alton, '10, went to Swarthmore last week as the representatives of Theta Epsilon at the Delta Upsilon Convention. Although there were a number of petitions no charters were granted by the convention this year. Theta Epsilon was given leave to petition again next year when the convention will be held in Boston.

## CARL SHURZ FELLOWSHIP.

The Carl Shurz Fellowship in German at Columbia University is the most coveted prize

in America for scholarship in German. It is an income of \$10,000 for two years, given in a lump sum. This fellowship has twice been awarded to pupils of Prof. Carr, one at West Virginia University and one, the present holder, at the University of Arkansas.

## THE CONVERSATION CLUB.

The conversation club, a social and literary organization composed of members of the faculty and seniors, met Friday evening at Professor Huddilston's. Professor J. W. Carr gave a very interesting paper on "American Dialect."

## LOCALS.

Beta Theta Pi recently held a delightful informal dance at the chapter house.

Tomorrow at 11 o'clock, Prof. Aubert will begin a series of lectures on the History of Chemistry.

At a meeting of the sophomore class it was voted to contribute twenty dollars towards the sum for vesper services during the winter. C. L. Lycette was chosen to act for the class on the committee. F. L. Chenery was elected manager of the class debating team.

There seems to be more or less discussion among the students as to the revival of an old college custom which became extinct with the class of '08. This is the question of having class canes. Nearly all of the other colleges have them and why should not we at Maine?

'08.

P. I. Robinson has taken a position with the Stone and Webster Engineering Corporation, Boston.

L. C. Wood is working for the Berlin Paper Company at Berlin, N. H.

R. E. Potter, who is doing engineering work at Rockland, will be here Maine night.
