THE MAINE CAMPUS

Vol. X

BANGOR, MAINE, DECEMBER 15, 1908

No. 10

BASKET BALL.

The fellows have responded very well to the call for basketball candidates and there are now about 40 on the squad. In the few nights of practice which the squad has had, the old men have displayed fine form and several of the freshmen have shown up well.

Captain Wadsworth, '10, is well satisfied with the number of candidates and the work done. This week the men will get down to business in earnest, so that when they return from their Christmas vacation many of the rough edges will be smoothed off and they will be ready to put in some hard practice under the coach.

Manager Farwell, '09, has not as yet made his final selection of coach and has not completed his schedule. At the meeting of the Executive Committee of the Athletic Association last Tuesday evening A. S. Moore, '10, and R. B. Cruickshank '10, were chosen to act as assistant managers.

No man will make his position this year with ease as there are centres, forwards and guards enough to form three almost equally fast teams. Black, '09, who was captain and centre of the team last year, has against him several good men, Joyce, '12 being perhaps his strongest rival at present. For forwards there are Scales, '11, and Wadsworth '10, who played on the 'varsity last winter, Dodge '11, who made his letter at Colby in basketball, Holmes '12, a speedy freshman from Belfast, Nason, '11, and Merrill '11, both of whom played on their class teams last year, and several others. Among the best backs there are Marshall, '11, who played last season, and Stuart, '10, who put up a fine game two years ago, Strout '11, Russell, '10, substitutes last year and Clark, '12. From any of these men a snappy quintet could be formed.

The candidates for the various position are as follows:

Black, '09; Joyce, '12; Washburn, '12; Pingree, '12; Jewett, '09; Mayo, '09; Middlemas, '12; centres; Cleaves, '12; Scales, '11; Wadsworth, '10; Dodge, '11; Eaton, '11; Holmes, '12; Nason, '11; Merrill, '11; Tartre, '12; Scales, '10; Vaughan '11; Smiley, '12; Atwood, '11; Dwyer, '12; '12; forwards; Marshall, '11; Stuart, '10; Strout, '11; Wilson, '11, Goodnow, '11; Mills, '12, Murphy '11, Loring, '12; Clark, '12, Russell, '10; Sweetser, '10; guards.

DRAMATIC CLUB.

The Dramatic Club has chosen the Shakespearian comedy, Much Ado About Nothing, for this year's production. This decision was made by a special committee consisting of Dexter Smith, C. E. Stickney, O. Wakefield, M. Fassett and Mr. Daggett. A long discussion of plays led to a unanimous decision in favor of the fore-said comedy. Among the principal considerations were these: The original plan of the Club was to play Shakespeare alternate years; on its trips, the club nusually appears under the auspices of schools or women's clubs where a literary play gives more lasting satisfaction, not only satisfying the audience but leaving a better impression of our University standards and ideals; the costuming of Shakespeare is effective, and the scenery presents fewer difficulties than the average modern play of the eighteenth century comedies; the play in question, without having an excessively large cast, gives ample opportunity for the more experienced members of the club; it is a play the club could give anywhere in the state with special pride, from the fact that in all probability no college dramatic club has ever presented it in the State of Maine; it is an admirable piece for a Junior Week audience.

As for the play itself, it is a sparkling comedy;

while the prime element of the story is one of strong dramatic interest, it is much ado about nothing, and is thoroughly balanced by the brilliant comedy furnished by the love affairs of Beatrice and Benedict, and by the blundering discoveries of the immortal Dogberry and Verges. These parts famous in the records of our great actors. The play was in the repertoire of Booth and of Irving; it was a favorite in the joint productions of E. H. Sothorn and Julia Marlowe, and will be revived by Miss Marlowe again this year. There is every indication that the dramatic club will find it an absorbing piece, and one that will reflect credit on the club before the close of the year.

Trials will be held Wednesday and Thursday evenings Jan. 6th and 7th. In order to avoid the delays of last year, the candidates will come in two sections. All new candidates from A to M will come Wednesday at 7 o'clock. All new candidates from N to Z will come Thursday at 8 o'clock. All candidates from last years' cast will come Thursday at 7. The place of trials will be announced later.

Books will be on sale at the college store before the Christmas recess.

TRIALS.

The following scenes will be read at the trials, the candidate reading the part for which he wishes to try.

Don Pedro—Act II, from "Count Claudio, when mean you to go to church," to end of scene.

Act II or III from Bal's song to end of scene.

Don John—Any scene.

Claudio—Act I, from "Benedict, didst thou note the daughter," to end of scene. Act IV, first part.

Benedict—Act II or III—long speech; "This 'can be no trick,' to end of scene. Act IV, end of scene: Beat and Ben."

Leonato—Act IV from "Wherefore? Why doth not every earthly thing," to end of scene.

Antonio—Act V, from "He shall kill two of us," to enter Benedict.

Borachio, Conrade; any scene.

Friar Frances—Act IV.

Dogberry, Verges; any scene.

Seacoal, Oatcake; any scene.

Hero—Act III. Scene with Margaret.

Act IV—Entire.

Beatrice—Act II from "How tartly that gentleman

looks" to "I have a good eye, uncle:" Act IV. Scene with Benedict.

Ursula; Any scene.

All candidates should pass their names and choice of parts to Dexter Smith or C. E. Stickney before Wednesday morning Jan. 6th.

The club will probably have two rehearsals in January in order to have a perfectly adjusted cast for the season of rehearsals beginning the first of February.

After two years of varied experience the dramatic club is well organized. The officers this year expect to perfect the business and routine methods of the club and to conduct rehearsals and trips according to a system that will economize both time and expense.

Let every man interested in the club make himself known at the trials. It is at these trials that the officers discover the men who are available for dramatic work. If you make a good impression you are at least put on the waiting list.

UNIVERSITY BUILDINGS.

Occasionally the CAMPUS will run short articles on some of the University buildings. There are many interesting points connected with some of them. This first is Fernald Hall, the oldest recitation building.

In 1867 a sum of money was appropriated by the legislature of the state of Maine, for the purpose of developing a brick yard where the present rifle range is situated. This plant was established for the purpose of manufacturing bricks to be used in the construction of a chemical laboratory at the Maine State College of Agriculture and Mechanic Arts. Because of numerous postponements due to lack of funds and cooperation on the part of the state, the construction of this laboratory was delayed and it was not completed until 1871. At that time it was the only building of importance on the campus and for several years after its dedication nearly all of the recitations and laboratory work were conducted in this building. Chapel was held in the lecture room and the library occupied the present

weighing room. The library was open about twice a week and it was rather difficult to obtain books, but the students in the chemical department were generally present and often acted as librarians.

For twenty-seven years or until 1895 this building was known as the chemical laboratory at that time however, it was designated as Fernald Hall in honor of President Fernald. In the year of 1896 two fires occurred, the first being of little consequence, while the second completely destroyed the ell part. Yet in three weeks recitations were resumed as before and the present ell was built which contains laboratories for quantitative and qualitative analysis. At present Fernald Hall is used almost entirely for chemistry, for the rapid growth of the University has necessitated many new buildings and thus Fernald Hall has at last been given up for the purpose to which it was built.

EXECUTIVE COMMITTEE OF ATHLETIC ASSOCIATION.

The Executive Committee of the Athletic Association held an important meeting last Tuesday in the Library. The elections of Frank G. Wadsworth '10 and Horace J. Cook '10 as captains of basketball and football respectively were ratified. Chester C. Johnson '10 was elected manager of football for the coming season and Philip S. Strout '11 and Benjamin O. Warren '10 were chosen assistant managers. Arthur S. Moore '10 and Robert B. Cruickshank '10 were elected assistant managers of basketball for this winter. The committee decided to give certificates to all men, who were awarded the athletic letter. Numerals were awarded to the following for track: 1901, Pond, Smith, Walker, Benjamin, Lord, Scott, Rogers, McHale, Houghton, Hammond, Strout, Scales; 1912, Tartre, Holmes, Houghton, Jocelyn, Washburn, Joyce, Sawyer, McPhetres.

Last Wednesday the choir sang as special music and Thursday, Miss Theo Eldridge of Detroit, Mich., gave a violin solo.

ORCHESTRA TRIP.

The Orchestra of the University has made arrangements for a trip to be taken during the Christmas recess. There are five concerts in all, which are to be given at the larger towns in the western part of the state. The first date is December 23, at Auburn, from where they will go to Saco, the 25th. They are scheduled to be in Sanford the 26th, in Kennebunk the 28th, and in Hallowell the 30th. Arrangements are being made for two more concerts but they are not definitely decided upon.

Under the leadership of B. C. Markle '11, and the management of H. B. Smith '09, the orchestra has been rapidly progressing and is to-day, without doubt, the finest college orchestra in the state. It consists of 15 pieces. The following men will be taken:—

Violins—D. D. Stark, '12; B. Haskell, '12; F. Morrison, '11; C. H. Tucker, '10.

Clarinets—B. C. Markle, '11; W. A. Kimball, '09.

Horn—C. A. Plumly, '09.

Piano—W. Haines, '09.

Cornets—A. K. Burke, '11; W. E. Conner, '09.

Cellos—C. F. Smith, '10; H. B. Smith, '09.

Base—F. E. Fortier, '10.

Trombone—W. H. Andrews, '10.

Drums—R. H. Morrison, '09.

ASSEMBLY COMMITTEE.

Friday Dec. 4, the following committee, composed of a delegate from each fraternity and delegates from the non-fraternity men, was elected to take charge of the Assemblies for this winter:—C. A. Plumley, Chairman, G. N. Williams, J. W. Gerrity, H. E. Sutton, H. P. Higgins, J. N. Jewett, W. T. Osgood, H. E. Morrill, C. R. Holton, W. O. Harvey, E. O. Pray, I. H. Moore.

At the time of writing the committee has taken no action. A meeting is called for Dec. 14 at which time the number and dates of the assemblies will be decided upon.

THE MAINE CAMPUS

Published Tuesday of each week during the college year by the students of the University of Maine

11 State St., Bangor, Me.

BOARD OF EDITORS

Editor-in-Chief	H. L. FARWELL, 1909
Managing Editor	R. B. CRUICKSHANK, 1910
Alumni Editor	C. B. ESTABROOKE, 1910
Exchange Editor	W. W. HARMON, 1910
Law School Editor	REGINALD FITZ-RANDOLPH, 1909
Associate Editors	
W. L. EMERSON, 1909	W. O. SMITH, 1909
C. A. PORTER, 1910	R. A. JELLISON, 1910
H. W. WRIGHT, 1910	S. WAITE, 1911
B. O. WARREN, 1911	A. H. HART, 1911
Business Manager	J. W. GERRITY, 1909
Assistant Business Manager	K. R. FOX, 1910

Entered at Bangor, Maine, Post-Office as Second-Class Matter.

Terms: \$2.00 per year, on or before Nov. 1st; single copies 10 cents.

All business communications should be addressed to the Business Manager.

Back numbers will be furnished all those desiring them upon application to the Manager.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIALS.

THE Sophomore Calendars will go on sale this week. The calendars are neat and very tastefully made and the Sophomore class can well be proud of them.

AT a place where the minutes are as valuable as they are here at the University every device for saving time be it ever so small, becomes important. There is one way in which we can save ourselves much time and many mistakes. This concerns the bulletin boards.

If the fellows would take a little more care to pull down their notices as soon as their usefulness is over there would be fewer mistakes and a saving of temper.

OUR Library is singularly complete. It contains books on nearly every subject, papers, magazines and everything else that a well balanced library should contain. It is unnecessary to say that the students take advantage of having these books and magazines at their disposal. But the newspaper department probably comes in for the largest share of general interest. In this department are all the leading state papers and also the principal papers of some of the larger cities. It is every fellow's privilege to go to these and get the news from his home town. Somehow this privilege is often misunderstood and these papers are mutilated. Clippings of interest to some individual are taken from this or that paper in order to save someone the princely sum of two cents. The money part of this matter is of course not the important thing, it is the principle of it. Any man who is willing to selfishly benefit himself as the expense of others under such conditions shows indeed a poor spirit. These papers are just as truly college property as are the books in the stacks and few fellows would think of cutting choice quotation from one of the books. This is a matter for everyone to think about, and if the guilty person happens to be you, just think it over carefully.

The seniors in the Forestry course have left college for two weeks in order to study lumbering operations at various camps in the state.

Friday evening Dec. 11, the football squad was given a banquet by Manager Harmon at the Sigma Chi House.

CHEMICAL CLUB TRIP.

Wednesday afternoon of last week the Chemical Club took the 1.40 car for Bangor to visit the plant of the Bangor Water Works. There were about 25 men on the trip. They were met by Mr. Whipple the chemist of the works, who showed the club all the workings of the plant.

All the power which runs the enormous pump is generated by means of huge water turbines. At each stroke of this pump 290 gallons of water are drawn up. In addition, they have an auxiliary pump which is run by steam and used when repairs are being made on the other pump. Sometimes anchor ice also makes it necessary to resort to the steam pump. This water is filtered by means of the combined methods of filtration and sedimentation. The City of Bangor uses from three and a half to four million gallons of water per day. The standpipe is filled during the night and this reserve supply is drawn upon during the day.

Mr. Whipple the chemist, has a small, though well equipped laboratory. He takes daily samples of the water and examines them for the presence of disease germs, principally that of typhoid. He has to regulate the amount of coagulant used and to see that the water which goes into the pipes contains as small an amount of organic matter as possible. The position of chemist in a plant of this kind is one of great responsibility as upon his faithfulness and judgment may depend the health, and even the lives of thousands of people.

The club enjoyed the trip very much and are indebted to Mr. Whipple for his courtesy in conducting the party over the works.

NEW LAW SCHOOL BUILDING.

At a recent meeting of the Board of Trustees, President Fellows was appointed their representative to confer with the Bangor Board of Trade relative to the raising of funds for a Law School building. Dr. Thomas U. Coe has offered an excellent lot on Ohio St. and it is hoped that a suitable building may soon be a possibility.

LAW SCHOOL NOTES.

The assembly of the Law School met at 7.30 Friday evening, Dec. 10 and a general discussion took place upon the subject "The System of Study and Examinations in the U. of M. Law School." Mr. Emery gave a reading and Mr. Snow and Mr. Small made remarks upon prominent current events. Mr. Gould acted as critic. After the meeting Mr. Grady by unanimous vote gave two selections from Shakespeare one a comedy and the other a tragedy; as a speaker Mr. Grady is far above the ordinary and as a reader from Shakespeare is excelled by few. His voice and mode of expression makes his recitations educational as well as delightful. If not impeded Mr. Grady will some time be recognized as one of the foremost orators of his day.

The following is the schedule of the Fall term examinations:

Tuesday Dec. 15—2-5 P. M. Domestic Relations.

Wednesday Dec. 16—2-5 P. M. Damages.

Thursday Dec. 17—9 A. M.-12 M. Equity.

2-5 P. M. Real Property.

Friday Dec. 18—9 A. M.-12 M. Torts. 2-5 P. M. Evidence.

Monday Dec. 21—9 A. M. -12 M. Sales.

2-3 P. M. History of Law.

Tuesday Dec. 22—9 A. M. Private Corporations.

Wednesday Dec. 23—9 A. M.-12 M. Contracts.

MEETING OF STATE UNIVERSITY PRESIDENTS.

President Fellows recently returned from Washington, D. C., where he attended the meeting of the National Association of Presidents of State Universities. In recognition of his efficiency as an officer of the Association, he was re-elected secretary-treasurer, in which capacity he has served several years. The state university presidents are vigorously supporting a bill now pending in Congress for the establishment of a National University at Washington.

THE PRISM.

Work on the *Prism* is progressing steadily. The contracts for the printing and engraving have been let, the former to the Bangor Co-operative Printing Company and the latter to the Suffolk Engraving Company of Boston. Nearly one-third of the book will be sent to the printers about the first of January and at the present time the board of editors are working on this part, which contains the Faculty and the class lists. The greater part of the illustrations to be contained in this section are completed and ready to be sent to the engravers. The collection of the honors of the two upper classes has been practically completed and the board is now busily at work on the Junior grinds and class histories.

DEBATING SOCIETY.

At the regular meeting of the Debating Society Thursday evening, Mr. Prince finished the discussion on "The Evidence for a Debate."

Next Thursday evening the annual debate between the Sophomore and Freshman classes will be held. The subject to be debated upon is "Resolved, That extensive forest reserves should be created within the state of Maine." The speakers for the Sophomores are, Fish, Howe and Whittier; for the Freshmen; Morrill, Brundin and McKenney, with Hinckley alternate. Professors Stevens, Hart and Hurd will act as judges. Mr. Prince is coaching the Freshmen and the Sophomore team is under the training of Mr. Pearson.

Turn out fellows, encourage your college and class associates by attending this debate.

SOPHOMORE CLASS MEETING.

At a meeting of the Sophomore class last Thursday elections were held for the sophomore Hop. Niles C. Pinkham of Portland was chosen floor manager and the committee consists of Lawrence E. Drew of Brunswick, Wallace E. Parsons of North Anson, George A. Phillips of

Westbrook, Ashton N. Hart of Presque Isle and Thomas E. Houghton of Fort Fairfield.

The Hop will probably be given sometime in March.

ALPHA ZETA.

At monthly meetings held from now until May, Alpha Zeta, the Agricultural Society, will have programs, which include talks on various topics of interest to the chapter, the subjects and speakers being:

DECEMBER, PROF. HURD.

"Some New Theories Regarding Soil Fertility."

JANUARY, PROF. MERRILL.

"Recent Developments in Agricultural Chemistry."

FEBRUARY, E. W. MORTON.

"Why Stored Apples in Maine Decay."

MARCH, PROF. MORSE.

"Bartena as a Cause of Disease in Plants."

APRIL, E. F. SOUTHWICK.

"Soil Bacteriology."

MAY, PROF. CAMPBELL.

"The Advance of Animal Industry."

Y. M. C. A.

Miss Edith Wells, Smith 1902, Eastern Student Secretary of Y. W. C. A. visited the Maine Association on Wednesday, Thursday and Friday of last week. She conducted the usual Wednesday afternoon devotional service, taking as her subject "Loyalty," and, using as a reference the story of Thomas. John 20: 24-28. The service was very helpful, and was enjoyed not only by the active members of the Association, but also by several of the Faculty ladies.

The Association gave a very informal reception to Miss Wells on Thursday afternoon at the Mt. Vernon House.

The last Y. W. C. A. meeting of the year will be held next Wednesday afternoon, Dec. 16, at the Mt. Vernon House. This meeting, is to be led by Miss Clapp, 1912, and will be a memory meeting—the singing and Scripture selections being given from memory.

ALUMNI NOTES.

'99.

C. W. Gibbs who has been located in California for the past two years as Supt. for constructors on the Western Pacific Ry., has been transferred to reconstruction work on the South Pacific Ry., Mr. Gibbs address is Applegate Calif.

'91.

Chas. H. Kilbourne is at present in charge of the Inspection of milk in New York City. This work is in connection with the City Department of Health. Mr. Kilbourne is also Secretary of the Maine Society of New York. His address is 556 West 0186th Street, New York.

'93.

W. W. Crosby has sent THE CAMPUS an interesting reply as to his work. He writes:

"Am now chief engineer, Maryland Geological and Economic Survey, also Chief Engineer to the State Roads Commission. I have just returned from the first Internal Good Roads Congress at Paris, where I was official delegate from Maryland. I have recently been elected a member of the American Society for the Advancement of Science, and also a member of the American Society of Civil Engineering.

I am also Regt'l Adjutant 4th Infantry, Maryland National Guard. My address (office) Johns Hopkins University—(home) No. 2850 Charies Street. Would be very glad to see any of the "boys" if they are in Baltimore.

'02.

Luther Peck is at present a practicing physician in Plymouth, Michigan. He took his B. S. degree from the University of Maine, and later his M. D. degree from the University of Michigan.

'01.

L. R. Cary, nephew of the late Prof. Gowell, has recently received a Fellowship in Zoology, at Princeton. After being graduated from "Maine," Mr. Cary was for two years assistant in the Department of Biology here at the University.

I am at present acting as Western Editor for the Horseless Age, an automobile magazine published in N. Y. City. Write articles, technical

and otherwise, descriptions of new autos, and parts, also keep track of what is going on in the trade. I spend the most of my time in Detroit but travel about two months of the year covering principally manufacturing cities of the Northern and Middle States from Central N. Y. to Eastern Iowa.

Also do some consulting work in automobile engineering, and am engaged in experimental work upon small two-cycle gasoline engines on my own account. (Signed) F. E. Watts. My address is 155 King Ave., Detroit. Ann Arbor, Michigan.

'03.

Sanford C. Dinsmore sends us the brief statement that he is at present Chemist in the Nevada Agricultural Experiment Station, located at Reno, Nevada. Mr. Dinsmore's address is 119 University Terrace, Reno, Nevada.

'04.

R. W. E. Kingsbury is now connected with the New Haven office of the General Electric Company, and Commercial Engineer. He is also acting as Assistant to the Manager. Mr. Kingsbury was married September 2nd, 1908, to Miss Anna M. Skinner, formerly of Brewer, Maine. The latter is a graduate of Vassar, 1907. The ceremony was performed at New Rochelle, New York.

Ex-'09.

Edwin Morgan of Guilford, who left College on account of sickness, recently visited the Campus.

 LOCALS.

Prof. Drew will lecture on the History of Zoology Wednesday at 11 o'clock in the Library.

Pleasant dancing parties have been held recently by the local chapters of Phi Gamma Delta, Sigma Chi and Sigma Alpha Epsilon.

Le Circle Francais held its regular meeting in the Library last Thursday evening. The play "La Lette Chargee" was read and discussed.

The Seniors in the College of Technology spent last Wednesday Dec. 9 at Ellsworth,

visiting the Bar Harbor and Union River Power Co's plant. The trip proved to be very enjoyable as well as practical.

Some of the members of the Faculty are organizing a basketball team and are busy practicing every Wednesday evening in the gym. They promise to do up the 'varsity before the season closes, if a game can be arranged.

CALENDAR.

WEDNESDAY.

- 10.00 A.M. Special Music, Chapel.
11.00 A.M. Lecture on History of Zoology, Professor Drew.
4.30 P.M. Y. W. C. A. Meeting, Mt. Vernon House.
7.30 P.M. Meeting of Junior Civil Society, Wingate.
7.30 P.M. Y. M. C. A. Meeting, Library.

THURSDAY.

- 7.30 P.M. Meeting of Agricultural Club, Lord.
7.00 P.M. Basketball practice Alumni.
7.30 P.M. Freshman-Sophomore Debate, Library.

FRIDAY.

- 1.00 P.M. Meeting of Press Club, Coburn.
7.00 P.M. Basketball practice. Alumni.

MONDAY.

- 7.30 P.M. Basketball practice, Alumni.

TUESDAY.

- 5.30 P.M. Vacation begins.

EXPERT ADVICE AND INFORMATION

Reliable, authoritative, confidential, complete, original. Any subject in school, college, or club, in private life, business, or public affairs. Send one dollar with trial question for answer of not over five hundred words. Or two dollars for each thousand words desired. (Thus a long report of, say, three thousand words would cost six dollars, and so on. Quality of work guaranteed, or money refunded. Methods, references, and quotations on important investigations furnished upon request. If you desire summer or permanent employment at the end of the college year or wish to increase your income while in college, you will be interested to know that we give advice, information and assistance in both these directions without charge to those who send us five dollars worth of orders. Address at once:

The National Clearing House for Services and Information

2942 Newark St., Washington, D. C.

(Arthur Everett Small, Director, Late Special Investigator for the United States Government, assisted by government experts and other specialists, with correspondents and consulting authorities at important centers in this country and abroad.)
