THE MAINE CAMPUS

Vol. XI

BANGOR, MAINE, OCTOBER 5, 1909

No. 2

MAINE, 16; FORT McKINLEY, 0.

In a game the first half of which was marked by the listlessness of Maine's work and the weakness of her line when she barely escaped being scored on and in the second half of which the college team came back strong and ripped up the soldiers' line for two touchdowns Maine defeated the Fort McKinley eleven Saturday, 16 to 0. Maine was greatly weakened by the absence of Ray and Bearce at tackles and in the first half McKinley made long gains through her line but she saved herself by playing a punting game. Maine only scored one touchdown and a goal in this period.

In the second half, however, she came back strong and scored twice in quick succession, McKinley being quite unable to stop her line bucks. Many substitutes were then sent in and while Maine continued to tear through the soldiers' line there were no more touchdowns.

The touchdown in the first half was made on a clean forward pass by Cleaves to Cook. Just previous to this Maine had rushed the ball to McKinley's two-yard line where it was lost on downs. McKinley punted and then Maine rushed the ball over, Cook kicking the goal.

Wright kicked off in the second half but McKinley was soon forced to punt and then Maine started up the field with a rush. Battey and Parker made several long gains, the former getting 20 yards on a delayed pass. Parker put the ball over but Cook failed in the try for goal. Maine scored again in the next few minutes of play and then Coach Schildmiller sent in some fresh men. The ball changed hands two or three times on fumbles and punts and just as Maine looked good for another touchdown she lost the ball and the game ended shortly in the center of the field.

Although Maine's line was weakened the eleven played a fine game in the second half.

The backfield was much faster than the week before against the Massachusetts "Aggies." Cook made many excellent tackles and Parker was in his usual good form. Some of the substitutes showed up well, especially Conlogue, Buck and Fickett.

The summary:

MAINE.

Touchdowns, Cook, Parker, 2. Goal from touchdown, Cook. Referee, McCreadie, Portland A. C.; Umpire, L. T. Frank, Ft. McKinley; field judge, Halliday, Dartmouth, Head linesman, Mayo, Maine. Time 20 and 15 minute periods.

1913, 9; 1912, 2.

On a slippery field which made fast playing impossible the Freshmen won the first game of the Freshman-Sophomore baseball series Saturday by the score of 9 to 2. The game was played before the Maine-Fort McKinley football game and was witnessed by a good-sized crowd, the Freshman class turning out especially well.

The Freshmen opened sharply scoring three runs in the first inning. The Sophomores scored twice in their half. Neither side scored in the second inning, swift fielding by the Sophomores shutting off possible runs, while the pitching of Richards who succeeded Jones, for the Freshmen had the 1912 batsmen completely puzzled. Singles by McCarthy and Swasey netted another run for the Freshmen in the third inning and another was secured in the fourth. The Fresh-

men scored twice in both the 8th and ninth innings.

The summary:

Home run Carey; three-base hit Young, two-base hit Gale, Swasey; hit by pitched ball, Page, Thompson; bases on balls, off Chase 2, off Jones 1, hits off Chase 8 in 8 innings, off Winn 3 in 1 inning, off Jones 1 in 1 inning, off Richards 2 in 8 innings. Umpire, Mayo.

SOPHOMORES WIN FLAG RUSH.

The customary flag rush between the Sophomores and Freshmen Saturday afternoon after the football game and was won by the former with 14 hands on the piece of canvas to the Freshmen's 12. The 1913 class outnumbered their opponents but the latter had the advantage of a year's experience. The scrap was attended by the usual demonstration of class spirit but there was a lack of any ill feeling.

HOW THE FOOTBALL SQUAD LOOKS.

THE CAMPUS published in the last issue an article on the football prospects as they were after a few days' practice and before any game had been played. Subsequent work and the games with the Massachusetts Agricultural College and Fort McKinley, both played on Alumni Field, offer the onlookers an opportunity to talk. While several strong men who reported early in the season have left the squad either on account of studies or because they have left the University, among them Amidon, who entered last year from Yale, Taylor and Edwards, freshmen from Cushing Academy, and Ryder, who comes from Mercerburg Academy, there are still in the big squad many excellent men who are going to make each other work hard for a position on the 'varsity eleven.

Many men have been tried out in the two games played and the regular line-up is by no means settled. There are very few positions which already seem to be filled and a shake-up in these is far from an impossible matter. Ray, '10, who has played two years and been picked for the All-Maine eleven, has a pretty tight hold on left tackle and Bearce had as good a grip on his place at right tackle until he strained his weak knee in the M. A. C. game, which injury will lay him off for a short time. For substitutes there are Conlogue, '10, and Bigney, '10. Captain Cook is playing a star game at left end and King, '11, who played his freshman year, is making him a fast running-mate.

The center of the line is uncertain with a half-dozen strong candidates at work. Derby, '11, and Eales, '12, are the most promising men at center. The latter is new at the game but he is the heavier man. For the guard positions there are Wright, '10, and Duran, '11, who have been substitutes for two years, Hilton, '10, Fletcher, '13, of Dorchester High School, and Sawyer, '13, who made good at Hebron but who is held back just now by entrance conditions.

Coach Schildmiller is giving great attention now to the work of the quarterbacks. Three were tried out in the M. A. C. game and none of

them was in remarkable form. Two other men, Marshall, '11, and Smith, '11, have reported within a week and they will be given a chance to show their ability in running the team. There is no one to dispute Parker's position at right halfback, for this man who plows through the line much as Higgins used to do, is in even better shape than last year. For left half there are Smiley, '12, Pond, '11, and Pratt, '10, with others, and it is an even wager as to who will be the choice when the state series opens. Hammond, '11, who played at fullback part of the time two seasons, is making a strong bid this fall but he has against him two good men in Battey, '12, and Bigelow, a freshman from Bridgton Academy.

McHale, '11, the star left halfback of last season's team is expected to return to the University this week but there is a rumor that he will not play football. If he does it is not unlikely that he will be seen at quarterback where his coolness and strength on the defense will make him one of the most valuable quarters in the State.

Coach Schildmiller is receiving the enthusiastic support of the student body and everyone realizes that he is working his hardest to make a championship eleven out of the few veterans and the large amount of new material now in the squad.

CLASS TRACK.

The heavy rains during the past week have prevented much progress in the track work but in spite of this fact quite a few new men have reported to Trainer Farrell. Among them are: Judkins, '13, weights; Bowdoin, '13, high jump; Fairbrother, '13, half mile; Butts, '13, dashes; Johnston, '13, pole vault; Hews, '13, mile; Hinckley, '13, 100 yd. dash; F. E. Parker, '13, dashes; Treat, '13, pole vault; H. Pierce, '13, pole vault and discus; Tilley, '13, pole vault and dashes; Platt, '13, half mile; McAlvay, '13, quarter and half; Powers, '13, mile and Marathon; Hammond, '13, mile; Swasey, '13, 100 yd. dash; Murphy, '13, dashes; and Ackley, '13, dashes.

Mr. Farrell has made arrangements for the

Freshman-Sophomore meet to be held on Alumni Field, Saturday, October 23rd.

The following are the events: 100 yard dash, 220 yard dash, 880 yard run, 120 yard hurdles, 1 mile run, broad jump, high jump, pole vault, 16-lb. shot, 16-lb. hammer, discus, 880 relay race, with a team of 4 men; each man running 220 yds.

The five-mile road race from Oldtown to the campus and one lap around the track will be the first event on the program. All classes may take part in this.

It is hoped by all that the Freshman class will develop a great deal of track material this year. Several men have left college who would be point winners in the State meet at Lewiston next spring and their places must be filled. Those that we will miss most are: N. E. Smith, '11, in the hurdles; A. L. Scott, '11, who holds the state record in the high jump; Dyer, '10, in the two-mile and Skolfield, '10, who is an all round man.

MEETING EXECUTIVE COMMITTEE ATHLETIC ASSOCIATION.

The chief subject of discussion at the meeting of the Executive Committee of the Athletic Association, Thursday evening was basketball, which it is proposed to discard as a branch of athletics in the University. The principal reason for giving up this game is a lack of available teams with which to play, Colby, the only Maine college which has supported a team having now decided to do away with it.

Sub-committees for the various branches of athletics and for finance were appointed.

Northwestern University has established a department of Scandinavia language this fall.

The enrollment at the University of Kansas is given as 2400, a gain of 200 over last year.

Harvard opened Sept. 30th with a large entering class. President A. Lawrence Lowell will be inaugurated Oct. 6th.

N. N. SCALES, 1911

Entered at Bangor, Maine, Post-Office as Second-Class Matter.

Terms: \$2.00 per year, on or before Nov. 1st; single copies 10 cents.

All business communications should be addressed to the Business Manager.

Back numbers will be furnished all those desiring them upon application to the Manager.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIAL.

SUBSCRIPTION blanks for THE CAMPUS are being distributed among the students by the business manager. It is hoped that everyone in the University and a large number of alumni will subscribe this year.

THE CAMPUS, besides bringing considerable news to the student body and graduates, contains an account of all activities and events of interest at Maine and will be invaluable to anyone who has it in later years, as a reminder of the best

time of one's life. It is a student publication and should be supported by the students.

During the past two or three years there has been considerable criticism because of the lack of reading material and the abundance of advertising matter. This condition is to be regretted, but it has been due in great part to the non-support of the students by subscriptions. The managers have had to fill up the paper with advertisements to make it pay. To publish a paper like THE CAMPUS necessitates a large expenditure of money and those in charge of the financial side must protect themselves.

This year, the business manager has promised just as good a paper as the students are willing to pay for. He will do his utmost to publish THE CAMPUS, so that it will compare with the standard college publications of the country. It is a part of a student's University life just as much as any other activity, it influences outside opinions as much as do athletics and it should and must be supported by the students, if it is to be a success.

THERE is an interest being shown in the football team this season, which is most noticeable. Of course, football always has and probably always will be the activity, which will hold the attention of the students in this University, but that shown this year by both graduates and undergraduates seems to be much closer than in former seasons.

One thing which brought out this fact is that during the past week, although it rained the greater part of the time and the ground was wet and muddy, there was always a crowd of students on the side lines watching and commenting upon the work of the team and the coach. Many alumni also were to be seen among the undergraduates and they joined with them in their

expressions of satisfaction and approval concerning football conditions at present.

The candidates themselves are striving with more spirit and snap. Coach Schildmiller said that he wanted no shirkers upon the field, and as yet he has had none. The good results are being shown in the work of the team.

Although large numbers are out to watch practice every day, there should be many more on the side lines. Nearly every man can find a few minutes to stroll over to Alumni Field during the afternoon. This is really a duty which each one should feel, as it gives more encouragement to the players than can be realized and keeps the students in touch with each other and with athletics at Maine. We want a winning team and everyone must do his share, no matter how small, so, fellows, get out and help just as much as you can.

Coach Schildmiller and Manager Johnson have expressed a wish that no one stand inside the running track during practice.

DEATH OF LOUIS E. SHAW, '11.

The entire student body is mourning the sudden death of one of its number, Louis E. Shaw, '11, of Orono, who passed away last Thursday at his home on Mill street. While Mr. Shaw was known to be in ill health, his death came as a great shock to his fellow-students, for he had been on the campus until a short time before it occurred.

He was the son of Mr. and Mrs. Charles J. Shaw and was 21 years of age. He was a Junior in the University and a member of the Phi Gamma Delta fraternity and, although a quiet fellow, was popular and had a warm friend in every member of his class as well as a wide circle of friends in the student body at large.

The funeral services were held from his late home Saturday afternoon.

PROF. CRAIG'S SECOND LECTURE: REVOLUTIONISM.

Prof. Wallace Craig of the Philosophy department delivered the second of his five lectures on the history of American philosophy last Wednesday in the Library. The attendance was much better than the previous week and his hearers listened with great interest while he showed how absolutism, of which he spoke in his first talk, gives rise to revolutionism. He said in part:

"The first lecture of this course dealt with absolutism. Now, when men become dissatisfied with absolutism and reach the point of tearing loose from it, this is usually done by a sharp and sudden break, in other words, a revolution, and the more absolute the old order of things, the more sharp and sudden is the change. This is true in national life; it is also true in philosophy and in the realm of thought in general. At the time of the American Revolution there was a good deal of revolutionism not only in politics but also in religion and philosophy, not that the new thought of that period contributed to the progress of philosophy, but it has considerable historical interest. Tom Paine was of course its most popular representative. Many scholars of our own day hold opinions more or less similar to those of Tom Paine, but not in the same bald revolutionary form. The revolutionist is likely to think that he has freed himself from all the errors of the past and set up a new and permanent order of things. But the fact is, in politics or in philosophy or in any other sphere, that no man and no group of men ever broke completely away from the past. The revolutionist, because of the belief that he has established a new and permanent order of things, is likely to be just as dogmatic as those from which he has broken away, and to establish another absolutism and conservatism instead of establishing liberty. For these reasons, revolutionism must give place to evolutionism—of which we shall speak in the next lecture."

THE NEW PROFESSOR OF MILITARY SCIENCE.

Lieutenant Colonel Charles A. Varnum, retired, will be the professor of military science and tactics for the coming year. He is well qualified as his army record shows. He received his appointment to the United States Army from the Florida Military Academy in 1868. Four years later he was advanced to second Lieutenant of the seventh cavalry. In 1872 he received a Lieutenancy in the same regiment. In July of 1891 he was made captain and in 1901 he was raised to major. Three years later he was transferred to the ninth cavalry and in the following year he was again transferred and raised to Lieutenant Colonel of the fourth cavalry. At present he is instructor of the national guard of Idaho but will be relieved from duty on or about the 10th of October of this year.

Lieut-Colonel Varnum takes the place of Captain Walter S. Brown. Captain Brown, was retired because of illness. He took an active part in the interests of the University and was Treasurer of the Athletic Association for several years. Through his efforts the financial condition of the Association was greatly improved. He is a man of highest integrity and strong personality, who won the respect and admiration of the entire University. It is with regret that his many friends learn of his resignation, but they trust that his successor will be no less valuable to the University.

Col. Varnum's appointment for this work is interesting and reads as follows:

"By direction of the President under the provisions of the act of Congress approved November 3, 1893, Lieutenant Colonel Charles A. Varnum, United States Army, retired, upon his own application is detailed as professor of military science and tactics at the University of Maine, Orono, Maine. Lieutenant Colonel Varnum is relieved from duty with the Organized Militia of Idaho, to take effect on or about October 10, 1909, and will then proceed to Orono and report in person to the president of the University of Maine for duty. The travel directed is necessary in the military service."

NORTHFIELD CONVENTION.

Owing to the late date of the Convention this year, the Maine Y. M. C. A. was represented by only two men, G. T. Corning, '10, and A. A. Winters, '10. At the regular Y. M. C. A. meeting on Wednesday night these delegates gave a report of the convention.

This was the twenty-fourth annual convention and it was fully up to the standard of all those which have gone before. Over nine hundred delegates, representing nearly one hundred colleges, were present. Besides these, there were many prominent speakers and teachers from all over the world. The inspiration to be derived from meeting and hearing all of these men can hardly be expressed in words but it is sufficient to say that every one who ever attends one of these conventions is anxious to go again.

The programs are arranged so that, although a great deal of work is done, no one becomes weary of the religious part of it. The meetings begin at eight in the morning with the private devotional services and the conferences for the leaders of normal classes. At nine o'clock the Bible Classes meet. These classes are arranged in small groups of twelve or fifteen men, under experienced leaders. As care is taken to arrange the groups so that not more than two men from any one college shall be in a group it can be readily seen that the interchange of ideas and experiences is extremely helpful. Another thing which is unique is the fact that they meet out of doors, generally in the shade of some of the beautiful trees on the Northfield Campus.

At ten o'clock the classes for Mission Study meet. These classes are nearly always led by men who have first-hand knowledge of the subject, generally someone who has been a worker in the countries under consideration.

Then at half past eleven comes the final meeting of the morning. The whole conference gathers in the large auditorium and holds a fifteen-minute praise service, after which there is a short address by some prominent preacher.

The afternoon is given up to recreation. With representatives from so many different colleges it is easy to pick out athletic teams of all kinds

and many July celebration know how the convention.

WORK

As the year and different attract our the center hence. In not do to for This book, appears just the year and is desired to to the notice a book that scattered operation of

Attention bulletin board and picture history is a pass in one events and refer to as place during life.

The publication including the

and many hot contests result. The Fourth of July celebration is one such as only college boys know how to get up and is a feature of the convention.

The evening meetings begin with a prayer service on Round Top, a small hill which is the burial place of Dwight L. Moody, and which is regarded almost as hallowed ground by all who have ever been at Northfield.

After this meeting there is another short praise service and address and then the different delegations meet to discuss the experiences of the day.

The conference lasts ten days and every one is sorry when it comes to an end but they return with the determination not only to go again the next year but to influence someone else to go as well.

WORK BEGINS ON THE PRISM.

As the year starts anew the various activities and different phases of University life begin to attract our attention. Athletics now occupy the center of the stage and will for two months hence. In the midst of the football season it will not do to forget our annual publication *The Prism*. This book, which is scarcely thought of until it appears Junior Week, is being edited throughout the year and as the aid of the entire student body is desired to make it a success, it is well to bring it to the notice of the students. In order to publish a book that is worthy of Maine and which is scattered broadcast to advertise her, the cooperation of everyone is needed.

Attention is called to the posters on the bulletin boards in regard to class histories, grinds, and pictures. The reward for the best class history is a *Prism* and every man is invited to pass in one. *The Prism* is a record of college events and everyone will desire such a book to refer to as a reminder of the events which took place during one of the pleasantest periods of his life.

The publication is divided into various parts including the faculty, classes, fraternities, Uni-

versity clubs, athletics, and grinds. While material for any of these parts is desired, the best opportunity for students to contribute is for the grind section. This has become one of the most important parts of all American college annuals. Everyone is asked to jot down any joke which he may hear and snap any interesting scene he may strike upon.

STOCK JUDGING TEAM AT BROCKTON FAIR.

As a result of the trials held last week in which 25 students took part, a team of four men has been chosen to compete in the stock-judging contest at the Brockton Fair this week. It consists of George A. Stuart, '10, of Calais, Austin Jones, '11, of Bangor, W. I. True, second year Agri., of Litchfield and George S. Wadsworth, '10, of Eastport as alternate. The competitions are held today and Thursday and are open to all agricultural colleges in New England. They are under the auspices of the New England Federation of Agricultural Students which was organized here two years ago and which offers cups to the winning team. In addition a Maine alumnus, '07, stimulated perhaps by the fact that Maine won the contest last year, has offered three individual prizes of fifteen, ten, and five dollars.

The trials are now being carried on for the fruit judging and fruit packing teams to compete at the New England Fruit Exhibition in Boston, Oct. 19-22.

FIELD DAY OF MAINE POMOLOGICAL SOCIETY.

The Maine Pomological Society will hold a field day next Thursday at Highmoor Farm at Monmouth, which has recently been purchased by the State for the use of the Experiment Station. A very attractive program has been arranged under the direction of William Craig, president of the society and Director Woods of the station.

The farm is on the Farmington branch of the

Maine Central railroad and trains will stop there throughout the day.

Until 11.30 o'clock the time will be spent in inspecting the farm and orchards. At noon a picnic lunch will be served. A feature of the afternoon will be a demonstration of apple packing by Prof. Gardner and students of the College of Agriculture. Director Woods will explain the requirements of the new law relative to packing and branding apples. The Station Entomologists, Miss Patch and Dr. Johannsen; the Horticulturist, Mr. Bonns; and the Plant Pathologists, Mr. Morse and Dr. Lewis will be present to take part in the discussions of insect and fungus pests and orcharding. The meeting will be an instructive one and everybody is invited.

PLEDGED MEN IN THE FRATERNITIES.

Although some of the fraternities have not obtained their full quota of Freshmen yet the rushing season is now being carried on less strenuously and each house has a good number of men pledged. The names of the new men are as follows:

Beta Theta Pi: J. C. Wallace, Portland; J. W. Carey, Auburn; M. C. Bird, Dorchester, Mass.; Frank W. Haines, Dexter; A. F. Sawyer, Millbridge, D. F. Getchell, Limestone, all of 1913.

Kappa Sigma: G. H. Quarmby, '12; E. W. Jenison, Bangor; C. W. Wescott, Patten; O. H. Davis, North Berwick, L. E. Seekins, Skowhegan; W. P. Dillingham, Freeport; I. B. Cushing, Freeport, E. T. Ricker, North Saco, E. H. Bigelow, 1913.

Alpha Tau Omega: Charles H. Ryder, Boston; G. S. Tilley, Ashland; J. H. Carleton, South Berwick; H. C. McAlary, Waterville, '13, F. H. Derby, '11, Revere, Mass.; J. N. Philbrook, '10, Woodfords.

Phi Gamma Delta: T. R. Churchill, '12; I. M. Bradbury, Gorham; W. G. Brewer, Peaks Island; W. S. Carter, Bar Harbor; C. E. Chandler, Portland; M. Doak, Belfast; G. H. Hamlin, Orono; M. S. Pope, East Machias; A. A. Wescott, Bar Harbor, George E. Young, Skowhegan, 1913.

Phi Kappa Sigma: F. H. Swasey, South Berwick; O. H. Rounds, Reading, Mass.; A. W. Kingsbury, Medfield, Mass.; R. Floyd, Brewer; H. B. Richardson, L. Brean, Lee, 1913, and A. B. Chandler, '10, Yarmouthville.

Sigma Alpha Epsilon: L. L. McLain, Pemaquid Beach; Richard T. Huntington, Augusta; Guy Wescott, Rumford; J. L. Ober, Beverly, Mass.; Raymond G. Foster, Portland, '13; A. M. Nichols, '12; Charles E. Sullivan, '12; Wallace F. Gleason, '12; George E. Gifford, '11.

Sigma Chi: P. Harmon, Woodfords; A. E. Sederquist, Wakefield, Mass.; G. M. Dyer, Calais; T. F. Spencer, Berwick, 1913; W. S. Poor, '12, Columbus, Ohio; W. H. Lilly, '12.

Delta Tau Delta: S. B. Hurd, Dover; C. A. Chase, Sebec; F. H. Eales, Vanceboro; W. L. Fletcher, Dorchester, Mass., 1913; F. B. Kelly, Bath, '12; L. H. Gregson, '12; P. H. Murphy, '12,

Theta Epsilon: W. McCarthy, Lewiston; R. A. Wing, Oldtown; F. C. Higgins, Bar Harbor; Charles W. Underhill, Reading, Mass., 1913; L. C. Smith, '12; W. A. Southwick, '12.

Delta Kappa: William Dwyer, '12, Biddeford; Ralph Hodges, '12; C. Norton, Cumberland Center; R. Blanchard, Cumberland Center; Nathan Small, Belfast; H. Richards, Belfast; R. Wilson, 1913.

Football of last year will remain this year in practically the same form. The most important change made by the rule makers last winter was changing the value of the three varieties of goals from the field. Years ago these were worth 5 points, then they counted only 4, but now drop-kick goals from the field, goals from placement after fair catches, and those kicked from placement behind the scrimmage, all will count only three points. Touchdowns still count 5 points and goals following them one point apiece.

LOCALS.

Mrs. W. A. Nelson of Bangor was the soloist in chapel last Wednesday morning.

The Cercle Francais held a meeting in the Library Thursday evening and discussed plans for the year.

Miss Cushman, a graduate of Simmons College, has come to the University to be stenographer to the President.

Prof. Garret W. Thompson of the German department is occupying the Maples, just south of the Agricultural Hall.

Prof. Hart has made arrangements to have one of the mathematics instructors at his office in Alumni Hall each afternoon for the purpose of consultation by students.

President Fellows will attend the inauguration tomorrow of President Lowell of Harvard. Next week he, probably accompanied by Dean Hart, will be present at similar exercises at Dartmouth when President Nichols will be installed.

President Fellows and Miss Comstock of the Domestic Science department are at Ellsworth today taking part in the meeting of the Pomona Grange. Miss Comstock's part of the program is a lecture on Home Economics with a demonstration.

The stewards of the fraternity houses have held several meetings lately for the purpose of working in co-operation in the purchase of provisions. If this scheme is successful, goods for the houses will be bought in large lots and at the minimum expense.

To take the place of Mr. Gustav F. Wittig, who has left the assistant professorship of electrical engineering to accept the professorship of that department at the University of Alabama, Mr. Albert T. Childs has been appointed as instructor. He took the B. S. degree at Worcester Polytechnic Institute in 1906 and received his E. E. in '08. He has recently been an instructor at that institution.

In the October number of the Popular Science Monthly is an article by Dr. Ralph H. McKee, head of the department of chemistry, discussing the question whether a student whose high school language preparation has been in Latin does better work in his college course than the student who has had similar preparation in a modern language. The problem has been attacked by the statistical method and, contrary to the opinion of many of the older students of education, it was found that those who entered college with a modern language obtained higher grades than those who had prepared in ancient languages. As might be expected from this subject the article is controversial in tone.

FACULTY EMPLOYMENT COMMITTEE.

In former years students desiring employment for their spare time have been greatly hindered because they did not know where to find such employment. The Y. M. C. A. Employment Bureau has done very good service in this line for the past few years, but those in charge have lacked time and opportunity to do full justice to the work.

This year the Faculty has endeavored to remedy the matter by creating a committee for this purpose composed of Faculty members. This committee for this year consists of Mr. James A. Gannett, chairman, Prof. W. A. Brown, and Prof. Woodman.

The committee is making extensive plans to go into effect immediately. They propose to advertise for employment of students in Bangor, Orono, and Oldtown. Then, students desiring employment may give their names and their periods of freedom from college exercises to Mr. Gannett or leave them at the college office, and the committee will try to supply their wants. The establishment of the headquarters of this committee at the College Office is a distinct advantage in that students or persons desiring to employ students can reach the committee, either by 'phone or in person, at any time during office hours.

CANDIDATES FOR CAMPUS BOARD.

A meeting of the candidates for THE CAMPUS board was held last Tuesday and, with those who had previously signified their intentions to try to make the board, there is now a good number of men out. Through the absence from college of two of the associate editors the staff has been reduced. It will soon be necessary to increase the membership of the board by the election of two or three fellows.

When these places have been filled no new men will probably be chosen for some time except in case of resignations. Vacancies are sure to occur, however, several times during the year and to fill these the men will be chosen who have been candidates the longest and who do the best quality of work.

Therefore, it behooves all fellows who desire to get a start in one branch of University activities and to learn to write easily upon all sorts of subjects, to hand their names to the editor at once and to work hard, for there is sure to be competition.

Those who are now candidates for the board are H. R. Sargent, '11, A. C. Goodnow, '11, W. H. Dwyer, '12, F. L. Darrell, '12, Warren MacDonald, '12, I. C. Jewett, '12, A. R. Benson, '12, A. E. Sederquist, '13, F. A. Hannibel, '13, and O. H. Rounds, '13.

PRIZE OF \$100 OFFERED BY LAKE MOHONK CONFERENCE.

Stimulated by the success of last year's competition the Lake Mohonk Conference on International Arbitration has doubled its prize offer and this year will award \$100 to the undergraduate of any American college or university who writes the best essay on some subject pertaining to international arbitration.

Essays are limited to 5000 words and the usual rules in competitions of the sort will hold. The committee of judges is a notable one, consisting of Representative Richard Bartholdt, Dr. Nicholas M. Butler, president of Columbia University and Dr. Geo. Wilson of Brown University.

A NEW LOCAL FRATERNITY.

A local fraternity, Delta Kappa, which was organized last year, is occupying the house known as "Spearin's Inn," where several secret societies have spent the early days of their existence. At present it contains sixteen men divided between the Junior and Sophomore classes. Their names are as follows: Leroy A. Fitch, '11, East Sebago; A. S. Adams, '11, Newport; A. Verrill, '11, Westbrook; E. F. Carleton, '12, Georgetown, Mass.; H. C. Norburg, '12, Caribou; G. A. Lord, '11, South Berwick; H. K. Bickford, '12, Norway; Edwin Connors, '12, Great Works; F. E. Fish, '11, Farmington; H. F. Downing, '12, Norway; Harry Homans, '11, North Vassalboro; A. F. Kelleher, '11, Orono; E. A. Mains, '12, Norway; W. A. Wallace, '12, Boston; R. C. Blanchard, '11, Cumberland Center; and E. R. Page, Winterport.

SEVERAL PROFESSORS ABROAD THIS SUMMER.

An unusually large number of the Maine Faculty have enjoyed the past summer in Europe. These included Professors Ganong, Chase and Sprague, and Prof. and Mrs. G. F. Wittig, who were on their bridal tour, and Miss Anne M. Merrill, who was instructor in German last year. Professors Ganong and Chase were accompanied by Prof. R. W. Crowell, who was at the head of the German department a portion of last year. Dr. and Mrs. Fernald have also returned from a trip abroad.

Many of the countries of Europe were visited and the professors, most of whom had been abroad before, renewed their acquaintances with every quaint and interesting nook and corner of the old world.

The University of Pennsylvania began its 139th year Sept. 24th, with the largest enrollment in its history. A new department—courses in public health—has been added. These courses are designed to turn out "certified sanitarians."

ALUMNI NOTES.

The following Alumni were launched on the "Sea of Matrimony" during the past summer:

Howard L. Maddocks, '00, and Miss Charlotte Neal, on August 25th, at Newark, Ohio.

John M. Townsend, '00, and Miss Agnes Rowena Burnham, at Old Town, Me., on Sept. 1st. They will make their home at 766 Washington St., South Braintree, Mass.

Leslie E. Little, '04, and Miss Marriett Scudder Phinney, on Saturday, June 5th, at New Haven, Conn.; address 21 Whittlesey Ave., New Haven.

Ralph L. Seabury, '05, and Miss Mabel Chapman Morey, on June 22nd, at Orono. They will make their home at 1448 Coutant St., Lakewood, Ohio, where Mr. Seabury has an excellent chemical position. Mrs. Seabury is the daughter of Wm. Morey of the class of 1888.

George K. Huntington, '05, and Miss Lezetta Alberta Strong, on June 9th, at Indianapolis, Ind.

William F. Schoppe, '07, and Miss Marguerite D. Pilsbury, on Aug. 4th, at Belfast, Me.

William Alfred Cobb, '08, and Bell Curry Harris, '08, on June 16th, at Sherman Mills, Me.

'97.

Oscar L. Grover and Mrs. Grover were recently in Orono, where they were visiting the parents or Mrs. Grover, Mr. and Mrs. Nathaniel Wilson. Their home is in Richmond, Va., where Mr. Grover has an excellent position as assistant engineer with the Chesapeake & Ohio Ry. Co.

'07.

John P. Harvel is inspector for the N. E. Tel. & Tel. Co. between Brunswick and Pittsfield. He was for some time after graduating from the University employed in the operating service of the same Company. He has been on the campus a number of times during the present semester.

Robert E. Clayton, who had charge of the principal chemical laboratory of the University the past two years, and who received his M. S. degree at the last commencement is at present

employed as chemist with the E. H. Clapp Rubber Co. at Hanover, Mass. W. F. Washburn '07, who was in charge of the freshman laboratory has been promoted to the position in the principal laboratory vacated by Mr. Clayton.

'08.

Daniel Chase is at present Y. M. C. A. County Secretary and has his headquarters at Roxbury, N. Y. His experience as President of the University Y. M. C. A. undoubtedly has proved a great help to him in his work since graduating.

C. C. Cleveland is managing a farm for himself in the vicinity of Skowhegan.

Bertrand F. Brann is employed as instructor in chemistry in the University. Mr. Brann made Phi Kappa Phi and he is undoubtedly one of the ablest chemists who has ever received a degree from the University.

Warren Carter is employed as Sub-Master at Ricker, where he teaches chemistry and the sciences.

Harold Eddy is with an electrical concern at Bay City, Mich.

Percy Mooney and Jesse Mason are with the General Electric Co. at West Lynn, Mass.

Arthur N. Hutchinson is employed as chemist with the General Electric in New Jersey.

Harry Sutton and Joe Gerrity are in Boston where under the firm name of Gerrity & Sutton they are running a lumber brokerage business.

Norman H. Mayo is employed as instructor in drawing at the University.

Frederick S. Cram is employed at Glendive, Mont., on the survey for the U. S. Reclamation Service.

Wm. H. Gilbert is Principal of the Limestone High School.

Thurman C. Wescott is in the employ of the N. Y. Central & Hudson Ry. Co. with headquarters at Rochester, N. Y.

Guy Durgin is employed as assistant chemist in the Maine Experiment Station. He was last year instructor in the chemical department, during which time he completed the work for his

Master's degree, which he received on last Commencement day.

'09.

Roy E. Mann is employed as prescription clerk by F. D. Wyman, Pharmacist, Bangor. Mr. Mann was very successful in passing the State Board Examinations.

B. L. Roberts and Frank Shatney are employed in surveying work on the Coburn Estate for the Canadian Pacific R. R.

Henry L. Nash and Irving H. Moore are with the Western Electric Company in Chicago.

Howard G. Philbrook is in the employ of Stone & Webster, a Boston electrical concern.

E. J. Finnegan, who has been employed by the Maine Central on surveying work on the Canadian border has accepted a fine position with the New York, New Haven & Hartford Ry., with headquarters at Hartford. He will take his new position at once.

CALENDAR.

TUESDAY, OCTOBER 5.

- 2.30 P. M. Lecture on the Development of the Old Testament by Prof. Huddilston in the Library
- 3.30 P. M. Football practice, Alumni Field.
- 4.30 P. M. Band Rehearsal, Chapel.

WEDNESDAY, OCTOBER 6.

- 9.45 A. M. Special music at chapel.
- 3.30 P. M. Lecture on the History of Venetian Art and Painting by Prof. Huddilston in the Library.
- 3.30 P. M. Football practice, Alumni Field.
- 4.00 P. M. Third of Prof. Craig's lectures—Revolutionism.
- 7.30 P. M. Y. M. C. A. Meeting at the Library.

THURSDAY, OCTOBER 7.

- 3.30 P. M. Football practice, Alumni Field.
- 4.30 P. M. Y. M. C. A. Meeting, Mt. Vernon House; Leader, Miss Gladys E. Kavanah, '11.
- 4.30 P. M. Band rehearsal in the Chapel.
- 7.30 P. M. Debating Club, Library.

FRIDAY, OCTOBER 8.

- 1.00 P. M. Press Club, Coburn Hall.
- 3.30 P. M. Football practice, Alumni Hall.

SATURDAY, OCTOBER 9.

- 3.00 P. M. Maine plays N. H. State, Alumni Field.

INTERCOLLEGIATE NOTES.

In the Harvard-Bates game at Cambridge last Wednesday, Bates succeeded in holding Harvard down to a 11-0 score.

The Institute of Technology opened Sept. 27th, offering over 900 different courses. Freshmen are required to file a card at registration this year for the athletic association stating their previous experience, height, weight, and general physical conditions. In this way tabs are got on the new material and the managers and coaches know whom to call on for the various teams.
