THE MAINE CAMPUS

Vol. XI

BANGOR, MAINE, NOVEMBER 2, 1909

No. 6

MAINE 15—BATES 6.

In her first game of the State championship series, Maine defeated the Bates eleven by the score of 15 to 6.

The game was exciting from start to finish and it was not until the middle of the second half that it was certain which team would win. In the first half the Maine team did not seem to get together and show the form that they did in the second half while on the other hand Bates put up a plucky fight. Maine worked the forward pass successfully twice out of three tries while Bates lost her only pass and was penalized 15 yards for passing the ball over the center of the line of scrimmage.

Parker started the game by kicking off to Conklin, who ran the ball back to the 20-yard line. Bates was forced to punt on the third down, but Dorman threw the ball over Keaney's head and it went to Maine on the 15-yard line. On the first down Maine was penalized 5 yards for offside, gained nothing on the second down, and with 15 yards to go on the third down worked a pretty forward pass to Buck for 12 yards but the ball went to Bates within 8 yards of her own goal. Keaney punted and Maine got the ball on the 40-yard line. Here the second forward pass was tried on the third down but Maine lost it and the ball went to Bates on the 50-yard line. This was followed by a series of punts during which Bates was penalized 15 yards for holding. As Bates had the wind with her she gained ground by punting and on reaching Maines 35-yard line Keaney tried a dropkick and failed. Parker punted out from the 25-yard line and Bates fumbled, Cook falling on the ball. Maine fumbled and the ball rolled towards Bates goal, Cook again recovering it for a 10-yard gain. A forward pass to Buck put the ball on Bates' 4-yard line, from which Parker was pushed over for the first touchdown. Parker missed the goal.

Keaney kicked off to Parker and on the third down Parker punted. Keaney caught the ball and dodged through the entire Maine team for a touchdown, afterwards kicking the goal. Parker kicked off and after several punts time was called with the ball in Maine's possession on Bates' 50-yard line.

In the second half Carlton replaced Hosmer at left halfback. Keaney kicked off to Wright on the 40-yard line but Maine was held and forced to punt. Bates then tried her forward pass but failed to carry it 5 yards outside of center and was penalized 15 yards. Pratt went in for Batty. Bates punted to Cleaves on the 50-yard line and then Parker and Carlton made two pretty end runs for 15 and 12 yards respectively. Bates braced and Maine was forced to punt. Again several punts were exchanged but this time it was to Maine's advantage. Maine secured the ball on Bates' 30-yard line when Cleaves made a pretty run for 8 yards and Pratt was pushed over for the second touchdown.

As the touchdown was made at a bad angle Cook punted out but Ray failed to make a fair catch. Keaney again kicked off and Carlton got the ball on the 20-yard line. At this point Bates seemed to weaken and the Maine backs gained at will. In a series of fast line rushes and onside kicks Maine rushed the ball up to Bates' goal-line and Parker scored the third and last touchdown. He missed the goal.

Keaney kicked off to King and shortly after time was called with the ball in Maine's possession on Bates' 50-yard line.

The line-up and summary:

MAINE		BATES	
Cook, l. e.	r. e.	Dacey, Lemorey	
Ray, l. t.	r. t.	D. Andrews	
Sawyer, l. g.	r. g.	Sheppard, Dacey

 Touchdowns by Parker 2, Pratt, Keaney. Goal from
 touchdown, Keaney. Referee, Hapgood of Brown.
 Umpire, Kilpatrick of Union. Field Judge, Dorman of
 M. A. C. Head linesman, Jones of Haverford. Time of
 halves, 35 minutes.

MAINE THIRD TEAM, 0; BANGOR H. S., 0.

The Maine third team journeyed down to Bangor last Friday for its second game of the season and played a tie game 0 to 0, with the Bangor High School eleven. The Maine team had some good men in its line-up but lack of practice together hindered it from playing consistently. The high school boys were the lighter and during the first half were barely able to stem the tide which brought the ball to their 15-yard line.

In the second period, however, Bangor sent in some new men in place of the substitutes who had started the game and several times carried the ball into Maine's territory by brilliant end runs. Sullivan made 26 yards for Maine in the same way in this half.

The summary and line-up follows.

BANGOR HIGH.	MAINE THIRD.
Evans, l. e.	r. e., M. Smith
Bachelder, l. t.	r. t., Conlogue
Gallagher, l. g.	r. g., Haskell
Barry, c.	c., Fickett

Tuck, Williams, r. h. b.	l. h. b., Sullivan
R. Jones, f. b.	f. b., Hammond, (Capt.)

Referee and umpire alternately, Christopher Toole, Bangor, and Albert F. Cook U. of M. Field judge, Edward H. Toole, Bangor. Timekeepers, S. A. Joyce, U. of M., and J. M. Gillin, Bowdoin. Linesmen, Patch and Willey. Time 15 min. halves.

FOOTBALL.

The football season is nearly over, only two more games to play; and Maine has won three, lost two, and tied one game. After the game with Harvard, when Maine lost by 17 to 0, hopes ran high on the campus. Harvard made all her touchdowns during the first fifteen minutes of play, but was unable to score after that. With

a team that could hold the Crimson for downs on the three yard line, prospects looked rosy for the light blue in the championship series.

Following on the heels of the good showing made by the team at Cambridge, however, came ignominious defeat at the hands of Tufts, whom they had been reasonably sure of defeating. The Maine eleven showed a complete reversal of form from that displayed in the Harvard game, putting up a ragged, inconsistent sort of play, with brilliant individual work here and there, but a lack of unity. Instead of showing improvement, the team played poorer football than in the New Hampshire game two weeks earlier in the season. Hopes on the campus went down with a thud. Much was expected from the Bates game, however, as it was felt that every effort would be made to redeem the Tufts defeat.

During the first part of the game it almost seemed that Maine was displaying the same form shown in the Tufts game. Bates outplayed them in nearly every department at the start, particularly in tackling and in forming interference. Bates tackled hard and sure, while Keaney at one time ran through the entire Maine team for a touchdown, being tackled by three of four Maine players, who failed to hold him. In the second half Maine came back strong, showing some of the fighting ability displayed at Cambridge, and scored two touchdowns by straight hard football.

Next Saturday we meet Colby in the second of the championship games. Last Saturday they defeated Bowdoin in what was said to be one of the best football games ever seen in the State, and they have already defeated Bates. Colby has a fast aggressive team, with one of the hardest men in state to tackle at the head of it. It is their last game, and if they win it will give them the championship, so it is safe to say that they will put up the hardest kind of a fight to win out.

Thus far in the season Maine has seemed to play slack football at the beginning of a game, and then take a brace during the latter part. Such work is liable to prove disastrous with a team evenly matched with ours. They are liable to obtain a lead as it was in the Bates

game, which will be impossible to overcome, and we can't afford to take those chances with Colby. They have a stronger team than Bates, and Maine has got to fight from the time the whistle blows and fight hard. Colby wants that game, it means the championship to them, but on the other hand, we've got to have it and in order to do so, we've got to begin with the sort of football we finished with Saturday, and then grow a little better as the game continues.

After that, there is still Bowdoin to be heard from. She has already lost to Colby, in a hard fought game, but should defeat Bates Saturday. At the Colby-Bowdoin game, Bowdoin outweighed Colby considerably but lacked the speed and fire of the Waterville men. She is more or less of an uncertain quantity at present, and is liable to develop considerably in the next two weeks. In any event, it will be a hard fought game, for Bowdoin on her own ground is hard to beat.

SENIORS WIN MARATHON.

The second marathon run of five miles from Great Works to Alumni Field was held Saturday, Houghton, '12, winning over Harmon, '13 in 30 minutes 45 2-5 seconds.

The seniors captured the run, however, Hicks, Philbrook and Fortier being the first three of any class to finish. Everyone of the eleven men who started finished, there being not more than five minutes between the first and last man as they ended with one lap around the track. Harmon, '13, made an excellent showing, crossing the line only 75 yards behind Houghton, Hicks, '10, was a fairly close third and Brooks, '13, and Philbrook, '10, fought it out right to the finish, the former being a little the better. Whitney, '11, Fortier, '10, Leland, '12, Goodrich, '10, Murphy, '12, and Kingsbury, '13, finished in the order named.

The time, 30 min. 45 2-5 sec. was 1 min. 45 sec. slower than that last year but was excellent considering the very poor condition of the roads, especially between Oldtown and Stillwater, where the runners had to plow through a continuous stretch of mud. Each one of the men, however, finished in good condition.

DR. FELLOWS SPEAKS.

Dr. Fellows gave an address at Lewiston today before The Commission of Industrial Education at Lewiston, on the work of this body, of which President Fellows is a member. This commission was formed last year when the State Legislature appropriated a sum of money to be expended in discovering the needs of industrial education in Maine. The commission consists of the President of the State University, a representative of labor organization, a representative from the Board of Trade and other able representatives of large city and country schools. This meeting is the first of a series which will be held at different centers throughout the state where the importance of this question will be discussed.

AGRICULTURAL CLUB.

The Agricultural club held a business meeting Thursday evening at which an executive committee was elected and a committee was appointed to arrange for a smoker to be held in the near future. The executive committee consists of H. P. Sweetser, '10, Austin Jones, '11, F. C. Bradford, '10, F. E. Fortier, '10, and George J. Wentworth, '10.

Mr. Carnegie has given Howard University of Washington, D. C. a \$50,000 library.

The senior class at the University of Vermont is seriously considering the custom of carrying class canes not only to college games but as a regular practice.

Columbia will be represented this year by a wrestling team of championship calibre. About forty men of weights varying from the bantam to the heavyweights have been on the mats every day for the last three weeks.

As an illustration of how the citizens of Illinois make the state university serve its purpose, one of the professors has recently been delegated by a convention of the mayors of Illinois cities to establish a bureau of municipal information at the university.

EDITORIAL.

MAINE Night is Friday night of this week. Notices have been sent to every alumnus in the hopes that many more will return for the occasion, than have ever been present before. A fine program has been arranged, with Hon. William R. Pattangall '84 as chairman. New features have been instituted and others to which objections have been raised have been excluded. Besides the exercises, the Colby-Maine game will

be played on the following afternoon, thus offering an opportunity of seeing probably the best contest of the season. This "Maine Night" is to be one of the most successful ever held here, which certainly is an excuse for alumni to drop business and undergraduates studies for that occasion.

THE action taken by the sophomore class last week in deciding to allow the freshmen to hold their banquet unmolested is a wise and worthy one. A feeling has been gaining ground among the undergraduates that too much interest, time, money and energy were expended by both underclasses in connection with this banquet. In nearly every case, also, the object of all this worry and expenditure was not accomplished, because it has seldom been the fact that the freshmen have been able to outwit the sophomores sufficiently, to "pull off the banquet."

Now, however, due to the action of the sophomores, the banquet will be held and at it the freshmen will be able to have a pre-arranged program and to give vent to their hearts' content to their class and college spirit. The sophomores are to be congratulated for having taken this step.

IT was good to see the spirit of fight, which the football team showed last Saturday, when it went into the second half of the Bates game with the score six to five against us, and made two well earned touchdowns. It is a spirit which has not been present in our football team for several years, but it is there this season, and is a source of much encouragement to the alumni and students.

In nearly every contest this fall, Maine has played a much stronger game in the second half than in the first. In both the Fort McKinley

and New Hampshire battles, Maine scored more in the second period of play. In the Harvard and Tufts games, the opponents after scoring in the first half were unable to do the same in the second. It surely shows that the "stuff" is in the boys this year and that they can produce it.

Now that the team realizes that it is a match for any others whom it has played, this fact should give it the needed encouragement for fighting the next two. Confidence but not overconfidence has won many a game and with that feeling backed up by their no mean ability, the men who line up against Colby and Bowdoin stand to win, and they can do it.

THE MASS MEETING.

A rather impromptu mass meeting was held Friday evening to stir up the student body in preparation for the game with Bates Saturday. The Chapel was only half filled with students and it was not until near the end of the meeting that the Maine spirit began to show itself.

President Johnson of the Athletic Association presided and introduced several speakers. E. S. Berry, '10, C. A. Hall, '10, A. S. Moore, '10, Guy Durgin, '08, M. E. Fassett, '10, F. E. Fortier, '10, and A. H. Hart, '11, contributed brief speeches. When Coach Schildmiller was introduced it was fully three minutes before he could be heard. When the applause ceased he spoke a few words in regard to the team, saying that every man on the eleven which would face Bates the next day would fight to the last minute of play.

The band did its part, of course, and Earl Berry led the cheering. Notwithstanding the small crowd the fellows grew warm toward its close and there were manifestations that the Maine spirit would flow on Maine Night as it used to years ago.

A freshman debating society has been organized at Brown University.

ELABORATE PLANS FOR MAINE NIGHT.

High as the quality of Maine Night celebrations has been in past years, this year bids fair to excel all others. The committee has been working hard, and when the big rally is called to order on the night before the Colby game, Friday, November 5, at eight o'clock, such a meeting will be started as has never been seen at Maine before.

The committee is promising several innovations. The football squad will not be in attendance this year. The dance will also be omitted as it tends to detract rather than add to the enthusiasm of the occasion. After the programme for the mass meeting is over, all those in attendance will march in a body to Alumni Field. There a huge bon-fire will be in waiting, and the whole gathering, Faculty, alumni, and students will assemble and make the field ring with cheers and songs for dear old Maine.

The programme for the rally will be of the usual high order. Hon. W. R. Pattangall of Waterville will preside. President Fellows will speak for the Faculty, and several representative men from the alumni who have felt the old Maine spirit themselves will make speeches. Several men from the student body will also be called upon. The band will play during the evening and will add greatly to the effect and enthusiasm of the occasion. All Maine men are asked to contribute new Maine cheers and songs to be used for the occasion.

The attendance this year promises to be a record breaker. As far as possible all except the alumni, Faculty, and students will be excluded from the exercises, but this will more than be made up by the large number of alumni who will attend. Many graduates from both Maine and Massachusetts have signified their intentions of being present, and without doubt the Chapel will be crowded to the doors with loyal Maine men.

Holy Cross Night was held this year on October 21st. A large number of alumni were back and the day was devoted principally to athletic contests between the alumni and students.

PROF. CRAIG'S FINAL LECTURE.

Professor Craig delivered his fifth and last lecture on the History of American Philosophy in the Library, Tuesday afternoon, October 26. In it he summed up his previous discussions.

Although he was confined to one hour's talk on each of his subjects, Professor Craig gathered all the vital and interesting points on each topic and made his lectures very instructive. The gist of his final talk was as follows:

This lecture, the last in the course on philosophy, was a summary of the four preceding lectures, and may itself be briefly summarized as follows. The general trend of the historical development of thought has been from a state of dogmatism, conservatism and absolutism to a state of freedom and progress or evolutionism. Savage tribes and early civilizations are bound to their old customs and to their entire past by the strongest bonds. The first great steps toward freedom are usually of that abrupt type which we know as revolution, but as progress continues the steps become less and less violent because the bonds of conservatism are more pliable and can be removed by gentler means. The civilization of the future, we may be sure, will be a civilization of continuous progressive change. The most important application of the doctrine of evolution is the application to thought itself, and it points to the moral that the ideal mind is a growing mind, a mind not lacking reverence for the customs and the learning of the past, yet ever aware that the future may bring reasons to break the old customs or to exchange the old learning for new ideas.

PROF. SPRAGUE'S FIRST LECTURE.

Professor Sprague delivered the first lecture last Wednesday in the series of five which he is to give on Some American Social Problems. His subject was Lawlessness in America and his reputation as a lecturer attracted a large audience. These listened to a most interesting discussion which brought out by bald statistics the excess of lawlessness in America over that in other

countries. He enumerated several causes for such a condition, causes which must be recognized by all and yet, which would not be allowed to exist by many governments.

The address began with the presentation of statistics which showed the conditions of lawlessness and criminality in America as compared with Europe. According to these figures America leads the whole world in the number of homicides and many other forms of crime.

The railroads were taken as an illustration of the lack of organization and care in industry, because in America the accidents of all kinds on the railroads are about four times as numerous as in Europe in proportion to the number of passengers carried.

The remainder of the lecture was devoted to the discussion of the causes of lawlessness in America.

1. *Anglo-Saxon Individualism.* The American Anglo-Saxons came from the home of the individualist, England, bringing in his heart a strong love for liberty and independence in political and religious life.

The two centuries of pioneer life, when every man was well nigh a law unto himself and government was almost entirely lacking, was exactly suited to develop the ultra type of individualism in the American citizen.

When the pioneer forms a government he is inclined to make a weak one which will infringe upon his individual liberties as little as possible. An illustration of this would be the first federal constitution, or the Articles of Confederation, which was so weak that it failed entirely to hold the states together. The second constitution with greater powers was adopted only in face of internal anarchy and possible foreign invasion. This excessive individualism lies behind many of our great social problems, such as in the lack of building regulations which permits the development of city slums, the hot beds of all forms of physical, moral and social degeneracy.

2. *Lax Justice in the Courts.* The Courts are using dilatory methods of convicting and punishing criminals.

There are too many delays, appeals to superior courts, too much importance given to tech-

nical

nicalities whereby justice may be defeated, too frequent pardons by high officials, and sometimes, sentiment instead of law and fact is made the basis of decisions.

The American judge has less control over the court than the English judge, and trials drag thru unending technicalities and consist often, more of wrangling of lawyers than of a systematic intelligent search for truth. Our judges must brace up, take control of the courts and exercise their expert judgment in getting justice.

Popular sentiment for prisoners and pleasant jails, support of tramps, and a general softness toward the criminal, help to encourage criminality. Prisons should be sanitary but not pleasant; close confinement, bread and water diet and good hard labor out-doors, such as stone breaking, should be the most prominent features.

Reformatories need other things and must be organized for different results, but exemplary punishment is still a necessity in many cases and the jail should be remembered for its rigors, and not as a pleasant boarding place with Christmas dinners served free by the pitying public. The courts and public sentiment must become more rigid against the criminal.

3. *The Age of Transition.* The population is shifting from country to city, from east to west, young people leaving home break away from their social and religious moorings and become unattached socially and ungoverned morally. Old religious and moral ideals are breaking up and are not so powerful in the face of modern materialistic temptation. We are also developing an immense propertyless and nearly irresponsible mass of citizens, by the concentration of wealth in the hands of a few. This develops an anarchistic tendency in minds of the roving population.

4. *Lack of Good Laws and Proper Enforcement.* Lawlessness on the part of the individual is stimulated by poor laws, or lax enforcement by the state. The state which permits corporations to run wild thru society lays the basis for a general spirit of lawlessness by the people.

A few uncontrolled corporations, with materialistic ends and lawless methods, may break down the ideals and sense of justice, for the whole

population, teach young men to scramble for wealth without respect for law or their fellows, and lower the state of society for decades.

Here is the duty of the state to control corporate bodies and preserve the ideals and sense of justice and fair dealing in the people.

Other causes were mentioned, and the conclusion of the discussion will be given at the next Wednesday's lecture, after which the subject of divorce will be taken up.

AGRICULTURAL INSTITUTES.

On November 13th, a week from Friday, the Farmers Institute, which is a movement under the direction of the State Agricultural Department and which holds meetings all over the State will have one of its Penobscot County meetings here in the Agricultural Hall. The other two sessions in this county will be held at Plymouth and at North Bradford on the two preceding days. Many prominent men will be present at the meeting and it is hoped that there will be a good attendance. Two of the principal speakers will be Mr. John Jeannin, Jr., and Mr. Calvin J. Hason, both well-known men in this department of industry and well worth hearing.

Bulletins are out now for the First Annual Poultry Institute of the University of Maine which will be held for three days, November 16th, 17th, and 18th. The College of Agriculture has endeavored to arrange a program which will be both helpful and interesting to fancier and utility man alike and many prominent poultrymen will be present and take part in the exercises. There will be plenty of time to attend all the lectures and also to inspect the poultry plants of the College of Agriculture, and the Experiment Station. Among the prominent speakers will be Prof. W. R. Graham, of the Ontario Agricultural College, Mr. C. M. Gallup, Editor of the Maine Farmer, Mr. J. H. Robinson, Editor of Farm Poultry, and Dr. P. B. Hadley of the Rhode Island Experiment Station.

There are fifteen companies in the military regiment at the University of Illinois.

NOTES.

President Fellows and a number of the Faculty attended the tenth annual meeting of the Maine Association of Colleges and Preparatory Schools held at Lewiston, Thursday and Friday. Thursday afternoon a memorial service was held in honor of some prominent members who had died in the past year and Dr. Fellows spoke in memory of Prof. Estabrooke. Included in the program of the convention were papers on the General Chemistry Course by Prof. McKee, on English and the Modern Languages by Prof. Gray, and on the Use of the Voice in Teaching Literature by Prof. Daggett.

Dr. Fellows and Prof. Hart will go to Augusta this week to confer with State Superintendent of Schools Smith and representatives of the other Maine colleges in regard to instituting a system of uniform entrance examinations.

Prof. Chase gave a brief talk last Friday morning at chapel on the Demi-Millennium at the University of Leipsic. This affair was the celebration of the 500th anniversary of the founding of the University and was the occasion for a brilliant gathering of noted educators from all over the world. Like all German universities Leipsic is supported by the crown and with its 4000 students is one of the largest in the Empire. Prof. Chase mentioned several points in which the German institutions differ from those in America. Many degrees were awarded at this celebration, among those honored being several Americans, most prominent of whom was ex-President Roosevelt.

Prof. Segall acted as interpreter at a murder trial at Bar Harbor last week.

Mr. Drummond of the German department played a violin solo in chapel last Wednesday.

A class has been organized among the students of the Departments of Mathematics and Physics for the reading of Mathematical Physics under Prof. J. S. Stevens. They are using Mellor's text book on Higher Mathematics of Physics Chemistry.

A carnival in the form of a circus is shortly to be given by the University of Minnesota.

FRESHMEN TO HAVE BANQUET UNMOLESTED.

At a meeting of the Sophomore class it was voted to allow the freshmen to hold their class banquet without molestation on condition that it be held on the evening of the Sophomore Hop. It is felt that the scenes which have attended many freshman banquets are opposed to the spirit of the sophomore agreement in regard to hazing and it is also felt that if even the shadow of restraint is removed the affair can be so planned that everyone attending will have a more enjoyable time and the resulting increase in class spirit will be held under the old conditions.

A resolution was passed to the effect that the so-called "razoo", which resulted in the suspension of several members of the class, was entered upon by the class as a unit and with the approval of every member of the class present at the meeting when the vote was taken, whether or not he was present when the affair actually occurred.

CALENDAR.

TUESDAY, NOVEMBER 2:

- 3.30 P. M. Football Practice, Alumni Field.
- 8.00 P. M. Annual Reception of the Literati, Lecture room of the Library.

WEDNESDAY, NOVEMBER 3.

- 9.45 A. M. Special music at Chapel.
- 3.30 P. M. Football practice, Alumni Field.
- 4.30 P. M. Second of Prof. Sprague's lectures at the Library, Subject, Divorce.
- 7.00 P. M. Y. M. C. A. Meeting, at the Library.

THURSDAY, NOVEMBER 4.

- 3.30 P. M. Football practice, Alumni Field.
- 4.30 P. M. Y. W. C. A. Meeting, Mt. Vernon House.
- 7.30 P. M. Debating Club, Library.

FRIDAY, NOVEMBER 5.

- 1.00 P. M. Press Club, Coburn Hall.
- 1.30 P. M. Football practice, Alumni Field.
- 8.00 P. M. Maine Night Exercises in the Chapel.
- 9.30 P. M. College Sing on Alumni Field.

SATURDAY, NOVEMBER 6.

- 2.30 P. M. Maine plays championship game with Colby on Alumni Field.

NEW MUSEUM SPECIMENS.

Mr. C. S. Winch, taxidermist for the University, has lately received many fine specimens of American species of fish, birds and animals. Among these are two cormorants that have been given to the Museum by Mr. Lewis R. Cary, a former assistant to Prof. Drew. These birds are to be found along the Maine coast in the extreme winter months. Along the rocky shores of Labrador and Newfoundland these ravenous birds nest in colonies. The specie found in Labrador is known as the shag, or by the fishermen as crow-duck.

There are also to be found during the summer months solitary individuals of the double crested cormorant, roosting on the spar buoys in the harbors. The nests of the latter can be seen in niches of the Black Horse Ledge, near Isle au Haut, Maine. They are entirely black but for lines of grey brown on the wings and neck. The webbed feet and legs set far in the rear admirably fit them for the conditions of nature in which they live. The two birds received by Mr. Winch are excellent specimens and are almost ready for the Museum.

Mr. H. P. Ash of West Gouldsboro, Me. has recently made a gift to the Museum of an unusually large partridge. It has been stuffed to show its magnificent spread of tail and the glossy black ruffs of its neck.

Four perfect specimens of salmon and two trout have been received from Mr. A. S. Atwood, ex-'11.

Two of Bangor's well-known marketmen, Mr. Fickett and Mr. Collins, have also shown their interest in the University collection by each sending in a buck head. Mr. Fickett has presented a fine head the antlers having seventeen points, while Mr. Collins gave the head of a spike horn. From Mr. A. E. Elliott, a former student of the University and now resident engineer of the Maine Central R. R. at Squaw Pan Stream, Me., has come a curiosity in the shape of a little fawn. It is only about two feet in length and a foot high. It might be termed a freak in that it is nearly white in color. Mr. Elliott found the animal dead near the railroad.

Under the skillful hand of Mr. Winch the University Museum has been improved and enlarged considerably. It is desired that the students take an active interest in this department, and when they can, add to the collection.

ALUMNI NOTES.

'76.

Fred M. Bisbee, '76, made the meeting between Pres. Taft and Pres. Diaz at El Paso recently, possible. Mr. Bisbee, who is a civil engineer employed by the Santa Fe railroad, left the employ of that corporation temporarily to lay the tracks to the center of the International bridge, spanning the Rio Grande at El Paso, and connecting the hills and plains of Mexico and knit two strips of steel from the boundary line to Chihuahua, Mex., a distance of 360 miles.

L. C. Southard, left Boston Tuesday, October 25, for a month's absence in Europe. He goes to England where he has important legal matters to attend to.

'80.

Judge F. W. Fickett who is visiting friends in Portland, was one of a party of three who first explored the Copper river valley, Alaska. In the course of eight months in the year 1885, he went with his party almost completely around Mount McKinley, and penetrated the region to the north of it as far as the 68th parallel of latitude, measuring and naming the mountains and rivers of that hitherto unexplored region, and giving his own name to the Fickett river, which was the northernmost of the rivers explored. The other members of the party were Lieut. Henry T. Allen, U. S. A., and Sergt. Cody Robinson, a noted scout of the army of Gen. Miles. Who, that was in the M. S. C. crowd 1880, doesn't remember Bull Dog, Hell's Kitchen, etc? The Judge was the champion wrestler of the M. S. C., until Big Bartlett, '82, came down from Ashland, (Spudland Co.) and wrestled the Championship from Fickett and '80. The "Judge" has traveled this country from all points of the compass and has made good.

We expected Ficket to be a first-class "chef," but like most of his classmates he broke away from his early inclinations of a livelihood."

'01.

Samuel I. Thompson is principal of the large Asbury Park High School, Asbury Park, N. J., and is at the head of a corp of ten teachers.

'03.

A son was born to Mr. and Mrs. H. J. Hinchliffe East Hartford, Tuesday, October 12. Mr. Hinchliffe is teaching in the South District Public Schools in Hartford under Principal Charles H. Keyes.

'05.

A. W. Collins, who has a position as general engineer on a sugar plantation at Hamaknapoko, H. I., for the Maine Agricultural Company, visited on the campus last week.

'06.

H. L. Abbott is engaged as instructor in mathematics in the University of Michigan, at Ann Arbor.

Ex-'07.

Ralph E. Bucknam and Miss Margaret L. Nesbit were married on Thursday, October 21st, at McKee's Rocks, Pa.

'09.

Harold D. Haggett will soon take a position on the Pittsburgh Division of the Pennsylvania R. R. on the maintenance of way service. Haggett secured this position the latter part of August while attending the Delta Tau Delta Karnea held at Pittsburgh.

George V. Nauman is working for the Androscoggin Pulp Co., located at So. Windham, Me.

Horace A. Parker is in the Reclamation Service at Milk River, Mont.

Ex-'09.

G. Howard Hamor, who at the end of his sophomore year went to Porto Rico as a teacher of English, is at present supervising principal at Juana Diaz, P. R., where he has charge of

thirteen graded schools, thirty-one rural and one agricultural schools. His district is one of the largest third class districts on the island. After his first year of teaching, he learned Spanish during the summer. He then taught for a second school year and also in the summer school session. Following this he was elected as supervising principal, the position which he now holds. During the past summer he married Miss Helen Parker, of Bar Harbor, who had taught one year in Porto Rico.

D. F. Knowlton is travelling for the American Appraisal Co., of Milwaukee, Wis.

Ex-'10.

Thurlo T. Workman, who left college about Easter-time of last year is at present at Bar Harbor, where he will remain for about a week. He will then return to college and resume his work. During this time Mr. Workman has been in the employ of the Bickmore Gall Cure Co., whose headquarters are in Old Town. He has been travelling for this concern all over the state of Kansas and has driven over 2500 miles.

Ex-'11.

Walter G. Hill and Atlee B. Osborne are teaching in Porto Rico.

Charles P. Hammond is attending the Biltmore Forest School. In November he expects to sail, with his class, for Darnstadt, Germany. While there they will take two or three courses in the Darnstadt University and make a thorough study of the forest methods employed in the Black Forest.

INTERCOLLEGIATE NOTES.

The senior girls at the University of Kentucky have decided to wear corduroy skirts this year.

At Amherst College, interclass and interfraternity tennis tournaments are being held.

Dr. Frederick A. Cook, the explorer, has begun a course of lectures before the Students' Lecture Association of the University of Michigan.

A cup has been awarded at Syracuse to the man of the highest scholastic standing among those who have won the 'varsity letter.

At the recent inaugural ceremonies at Dartmouth College, President Hyde of Bowdoin received the honorary degree of L. L. D.

Three co-eds have established a precedent at the University of Minnesota by entering the trials for the sophomore-freshman debate.

Princeton announces the gift of \$54,417 from various donors, positively all of which was canvassed for by the newly organized graduate council.

Arrangements have been completed for a joint concert of the Dartmouth and Harvard musical clubs on Nov. 12, at Symphony Hall, Boston.

"No life in the world has fewer restrictions nor greater possibilities and opportunities than college life,"—President Nichols to the Dartmouth entering class.

The Princeton 1910 dance committee has decided to abolish the Senior Ball this year owing to a lack of interest shown by the undergraduates in previous years.

Upon the recommendation of President Roberts the sophomores at Colby College have voted to abolish hazing. The freshmen have taken like action for next year.

The Sophomore "co-eds" of Tufts College, following the precedent of their more strenuous classmates, have issued a poster containing dire warnings to the freshmen.

William Arnold Shanklin is to be inaugurated as President of Wesleyan University on Friday, November 12th. President Taft will take part in the inauguration exercises.

The University of Pennsylvania has been awarded the Grand Prize for the best educational exhibit at the Alaska-Yukon-Pacific Exposition and was also awarded a gold medal.

Amherst, Williams and Wesleyan are soon to hold a triangular debate on the question—

Resolved, "That compulsory workingmen's insurance for old age, accident, sickness and death, should be adopted in the United States."

Swarthmore College resumes football this year after a year's absence from the gridiron. The action is the result of the general clamor by alumni and undergraduates that the ban upon this sport be lifted.

Capain Inman Sealby, commander of the White Star line steamer Republic when she sank last February after a collision with the Italian steamer Florida, has entered the University of Michigan at Ann Arbor as a freshman law student at 50 years of age.

Williams institutes this fall a new system of financing athletics. It is a tax, the percentage of which is reckoned from the total room rent of undergraduates. Formerly the freshmen supported the athletics, but now the burden rests equally on all four classes.

Princeton has this year instituted a Senior Council which provides places of refuge for harrassed underclassmen. No hazing is allowed in or near the University buildings, in the rooms of a sophomore or freshman, or until one hour after the close of the formal opening exercises of the University.

If anything could be offered as a justifiable excuse for ducking a freshman in the boneyard, it is the practice of wearing high school pins, sweaters, caps and other emblems from preparatory schools. Aside from being a pernicious habit, it stamps a man as being more proud of his past record than he is loyal to his newly chosen Alma Mater.—*The Tech.*

Following in the paths of several of the leading colleges of the country, Trinity College has substituted a "football" rush in place of the so-called "push" rush of former years. A football is placed in the center of the field, the sophomores lining up under one goal post and the freshmen under the other. At a signal both classes rush for the ball, the class having possession of it at the end of a stated period being declared the winner.
