# School Report

---

*To the Superintending School Committee:*

I hereby submit the annual report of the common schools for the year ending Feb. 20, 1919.

Our schools have been badly broken for the past two terms, we were obliged to close the fall term for four weeks, and the attendance was poor for the remainder of the year but much of the work has been made up through the energy of our efficient teachers, I wish that all might be retained for another year. The ninth grade established at the Village has in every way proved a success. There has been a good attendance and excellent work has been done by the teacher.

## REPAIRS

We had a good appropriation last year, but were unable to use it on account of scarcity of labor, and very little work has been done except to make a few minor repairs. However, permanent improvements must be made at W. Levant and at the Village, I spoke of these conditions in my former report and again I call your attention to the matter for the conditions are a menace to the health of the pupils and teachers.
