REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of North Haven:

I herewith submit for your consideration my fourth annual report of the condition and progress of North Haven schools for the year ending Feb. 1, 1922.

ELEMENTARY SCHOOLS

We have had an excellent corps of teachers during the past year and we hope they will all be candidates for re-election. With one exception we have retained the same teaching force that was employed last year. Miss Stone resigned at the end of the last school year and Miss Wood, a former teacher in that school, was elected to fill her position. Our teachers are all professionally trained and experienced. They are pursuing entirely modern methods and the children are making excellent progress under their instruction.

The attendance has been very good. From an educational standpoint, regular attendance has always been encouraged. Regardless of the teacher's efficiency, or the equipment of the school, the pupil who is irregular in his attendance can not attain his highest degree of proficiency. A recent change in the law regulating the apportionment of the state school funds, makes the school attendance of special importance to the tax-payer from a financial standpoint. Aside from the specified sums which are apportioned according to the school census and number of teaching positions, the state funds are apportioned on the basis of the aggregate attendance.

"The term 'aggregate attendance' shall be understood to include the total number of days of attendance of any one school year of each regularly enrolled pupil resident of the town in elementary and secondary schools". Therefore perfect attendance will secure the maximum amount from the state funds, thus lessening the tax-payer's burden.

The Northeast School has failed to maintain the average attendance required by law and is therefore subject to vote of the town.

The Frye-Atwood Geography has been adopted for the Eighth Grade. Individual dictionaries and a text in Physiology should be purchased for the intermediate and lower grammar grades as soon as funds are available.

HIGH SCHOOL

A gratifying improvement took place in our high school this year when we changed from a class B to a class A school. Considerable ingenuity was required to provide room for thirty-six pupils in a building originally designed to accommodate twenty, and make suitable provision for heating, lighting, ventilation and hygienic conditions that would meet the necessary approval of the State Superintendent of Public Schools and the State Board of Health as required by law in re-construction or re-modelling of school buildings, the expense of which shall exceed Five Hundred Dollars. Eventually our plans were approved with the exception of the heating scheme which must be corrected before the beginning of the next school year by properly jacketing the stoves and installing fresh air intakes. This will not incur any great expense. Special permission was granted to leave the hygienic conditions unchanged temporarily, to be considered at the town meeting under the article relative to sanitary toilets.

The following changes were made: The stairway was removed to the side of the building thus making space for two cloak rooms. The room formerly used as an office by the selectmen was enlarged for a laboratory. The old laboratory was enlarged for a class room and equipped with sixteen single, adjustable desks and chairs and a new desk and chair for the teacher. Several windows were changed to comply with the lighting requirements. Considerable plastering was done and the ventilators in the chimney changed. The additional rooms were equipped with slate blackboards and a fire escape was provided.

As a suitably equipped laboratory and library constitute two of the requirements of a class A high school, we gave

these the necessary attention by adding about seventy-five dollars' worth of equipment to each.

Last and most important, a class A school must have at least two teachers. In compliance with this requirement Mr. Maynard C. Waltz as principal and Miss Mae S. Greenlaw as assistant were elected for the current year. Their work is of the highest character and the interest they have taken in the outside activities of the school entitles them to much credit.

Although somewhat crowded, the building fulfills all requirements at present. But should the school continue to grow more adequate accommodations must be provided in a few years.

REPAIRS

Except for minor repairs, the work has all been done on the high school building. This work, under direction of Mr. Henry Duncan, has been extensive and thorough.

By Chapter 33, P. L., 1921, all school buildings must be equipped with sanitary toilets of the following types: Either flush toilets, chemical toilets or privies in attached buildings, accessible, only by separate ventilated passage-ways from school rooms or corridors. This work must be completed before September 1924.

No definite appropriation for repairs is recommended in this report as we consider it advisable to secure some action of the town as to how much of this work shall be undertaken during the ensuing year.

FINANCIAL

The accounts this year are in very good condition considering the amount of work done and progress made. The financial statement shows approximately the amount that will be required to maintain the school department for the ensuing year, as the cost of maintenance should not exceed that for the year just ended. Of the three accounts overdrawn, the heaviest overdraft is in the common school account and is due to the fact that the appropriation as recommended last year

was curtailed \$800.00. Had the full amount been raised we would have had a small unexpended balance. The appropriation recommended this year will liquidate the present overdraft.

A slightly larger appropriation will be necessary for supplies but the same amount for text books as was raised last year should be sufficient for the ensuing year.

The unexpended balance in the high school account has been considerably reduced. Consequently it will be necessary to raise more money this year for free high school.

The following appropriations are recommended for the ensuing year:

For Common Schools	\$3,300.00
For Free High School	2,000.00
For Free Text Books	300.00
For Repairs	
For Supplies	250.00

The reports of the high school principal, music supervisor and school physician follow.

The usual financial statement and itemized accounts are appended.

In closing I wish to thank the school committee, teachers, parents and pupils for their generous cooperation without which no school system can be successful.

Respectfully submitted,

*E. A. SMALLEY
Superintendent.*

REPORT OF PRINCIPAL OF HIGH SCHOOL

To E. A. Smalley, Superintendent of Schools:

I herewith submit my first annual report as principal of North Haven High School.

School opened September 12, 1921 with a registration of 36, there being 9 in the Senior and Sophomore classes respectfully, and 18 in the Freshman class. The second term has opened with the same number and I feel confident that none will leave during the year.

The attendance during the fall term was excellent with an average attendance of 98%. This winter term it will undoubtedly be lower owing to the great distance which the majority of the students live from the school. The school building presents the only real inconvenience at present since it is located much too far from the center of population and is too crowded for the highest type of work.

Notwithstanding this, satisfactory work can be done in the building as long as the enrollment of the school does not increase beyond to present number. Considering all things, I think the citizens of the town are to be congratulated upon the great improvements which they have made possible this year.

The high school entered upon a new era of its existence when it became a class A school with two teachers. Hitherto it was impossible for one teacher to do justice either to himself or the pupils. The curriculum offered, is now the same as that in any class A school of our size and each teacher has seven daily forty minute periods as is required. The school has been well supplied with text books and all other necessary materials during the year. The school board has been very considerate in having storm windows placed upon the building and consequently all have been fairly comfortable.

The new laboratory downstairs is suited to the needs of the school and a supply of laboratory equipment

which has been received this term will enable us to perform the required experiments.

Owing to the generosity of the Pythian Sisters and the foresight of our musical director, Mr. Adams, we have an organ which has done much to improve the social life of the school.

Mr. Smalley has shown a deep interest in the school and among many other helpful things has made possible weekly subscriptions to the Independent, a State Traveling Library of fifty volumes, a permanent school library of approximately fifty volumes and up to date text books and Laboratory equipment.

The associations of the school have given several dances thus far and are very thankful for the liberal support which the townspeople have given.

We are much indebted to Miss Greenlaw for the interest which she has taken in all school affairs. Her basket-ball team has been both a credit to the school and town.

The latter part of this term the first annual Public Prize speaking contest, supplemented by a musical program under the supervision of Mr. Adams, is to be presented. Public Speaking Contests play an important role in the larger academies of the state owing to their value in training the youth for active participation in citizenship and I hope that they may become the custom in North Haven. The senior class is awarding the prizes this year, but we would feel much pleased if citizens of the town would award prizes in the future.

In the spring the boys plan to have a base-ball team and games are already being arranged with teams upon the islands and mainland.

Several of the seniors are contemplating college this fall and I urge that people of the town encourage them as much as they are able.

The school physician, Dr. Lyonborg, has taken a personal interest in the school children and few have been absent because of sickness.

Mr. Taylor visited high school in the early fall and the fact that the State Superintendent recently granted our superintendent a certificate of class A standing shows that he was satisfied with existing conditions. Class A standing does not allow graduates of the high school to enter all colleges without examinations, but it does make their entrance possible to many and after doing one year's work in college, good students can transfer to almost any college in the country.

In time we hope to be approved by the New England College Certificate Board and then graduates can enter almost any college without examination.

Thus far I have enjoyed a very pleasant year at North Haven and I wish to thank the townspeople and school board for the cooperation and help which they have given me.

Respectfully submitted,

Maynard C. Waltz.

To Edward A. Smalley, Superintendent of Schools.

I am submitting for your approval my second report as Director of Public School Music.

It gives me great pleasure to assure you of a highly satisfactory progress attained by all the students during the past school year. As you well know, our students performed in a very creditable manner at the last Festival held in Camden. I know this participation to have been productive of great good as it has created a marked enthusiasm for our next session this year. We hope to have a following to accompany our quota and we can assure them of a truly wonderful musical experience.

The regular routine work has been faithfully performed by students and teachers alike to whom at this time I take pleasure in extending my most cordial appreciation of their united efforts to further my work. At the same time allow me to suggest that for the good

of the work here, I deem it an imperative necessity that a whole time director be secured for next year at the latest. Music being one of the seven liberal arts and sciences deserves only trained instruction and therefore I consider it necessary that some one holding a degree in the Pedagogy of Music be secured for this important work. The present method of supervision is decidedly unsatisfactory from any point of view. The student body as a whole are very considerate under this present supervision and make up in enthusiasm what they lack in instruction.

To you, Mr. Smalley, I extend my sincere appreciation of your cordial support and never failing courtesy granted me.

Respectfully submitted,

Albert T. Adams,

Director Public School Music.

To the Superintending School Committee and Citizens of North Haven, Maine:

I herewith submit my second report as School Physician for the fiscal year ending February 1st. 1922.

This year I have examined 92 pupils and found the following defects:

Under weight	25
Defective teeth	20
Obstructive nasal breathing	8
Enlarged tonsils	46
Enlarged glands	13
Adenoids	8
Defective vision	3
Defective hearing	0
Deceased skin or scalp	3
Number vaccinated	6
Total defects	146

The analysis of these figures does not give us residents of North Haven anything to be proud of, for our children are shown to be only average from a physical standpoint, if they are even that.

There is a great need of medical inspection in the State of Maine if the State is to continue to raise up the same sturdy stock it has in the past. Our modern educational system makes it more necessary than ever before, for pupils are driven through our schools at high pressure, which adds to the burden already borne by the underdeveloped and delicate child. The modern city high school of today is but a little below the standard of a small college of twenty or twenty-five years ago. To be able to prepare for this work and to succeed in it the child must be physically fit.

I feel that there is no better field for preventive medicine today than this same work; getting hold of the child, finding his defects, making him as near physically fit as we can, and then instructing him how to keep so. A standardized program of health examinations and care of school children is needed for upon it depends both national safety and national progress.

I wish to express my sincere thanks to the Superintending School Committee, Teachers, and Parents for their loyal co-operation and support.

Respectfully yours,
FRANS LEYONBORG, A. B.—M. D.
School Physician.

Town Clerk's Report

Births, Marriages and Deaths for the year ending Feb. 1st.
1922

BIRTHS

1921

- Feb. 16 To Harry P. Baird and wife a son.
Mar. 5 To Herbert C. Parsons and wife a daughter, Grace Y.
Mar. 9 To Wm. H. Cooper and wife a son, Sherman B.
May 17 To Freeman Howard and wife a daughter, Norma I.
Aug. 25 To Emery H. Wooster and wife a daughter, Ida M.
Oct. 18 To Arthur W. Beverage and wife a son, Arthur W. Jr.
Nov. 27 To Corydon S. Brown and wife a daughter, Frances I.
Dec. 7 To Vernon L. Beverage and wife a son, Lawrence M.

MARRIAGES

1921

- June 18 Garnet H. Thornton and Eleanor M. Hopkins both
of North Haven.
Oct. 22 Frank W. Sampson and Orilla A. Ladd both of North
Haven.
Dec. 20 Maynard A. Greenlaw and Elizabeth B. Smith both
of North Haven.

DEATHS

1921

- Feb. 4 Athene Young aged 79 years, and 2 days.
Feb. 16 Infant son of Harry P. Baird and wife.
May 4 In Dorchester, Orrace L. Beverage, aged 60 years, 9
months, 23 days.
May 28 Irwin H. Dyer, aged 75 years, 16 days.
July 1 Bina C. Ames, aged 31 years, 11 months, 24 days.
July 22 Alexander G. Gillis, aged 59 years, 10 months, 17 days

Sept. 30 In Camden, Orrie V. Crockett, aged 62 years, 4 months, 14 days.

Dec. 12 Lenora F. Dole, aged 67 years, 4 months, 25 days.

Number of dogs licensed in 1921,
Male 10.

Respectfully submitted
J. O. BROWN,
Town Clerk.

Town Warrant

To C. O. Ames, Constable of the town of North Haven in the County of Knox, in the State of Maine—Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of North Haven qualified by law to vote in town affairs to assemble at Union Hall on Monday, the sixth day of March, A. D., 1922, at ten o'clock in the forenoon, to act on the following articles to wit:

1. To choose a Moderator to preside at said meeting.
2. To choose a Town Clerk.
3. To choose Selectmen.
4. To choose Overseers of the Poor.
5. To choose Assessors of Taxes.
6. To choose Town Treasurer.
7. To choose Town Agent.
8. To choose Auditor of Accounts.
9. To fix the salary of Superintendent of Schools.
10. To fix the salary of Superintending School Committee for the ensuing year.
11. To choose Superintending School Committee.

12. To see what action the town will take in regard to the collection of taxes for the ensuing year.

13. To choose Collector of Taxes.

14. To choose Constable or Constables.

15. To choose Surveyors of Wood and Park.

16. To choose Surveyor of Lumber.

17. To choose Fence Viewers.

18. To see what action the town will take in regard to hiring of an Engineer of the Water System for the ensuing year.

19. To see what action the town will take to fix the salary of the Engineer of the Water System for the ensuing year.

20. To choose an Undertaker and all other necessary Town Officers for the ensuing year.

21. To see what sum of money the town will vote to raise to defray Town Charges.

22. To see what sum of money the town will vote to raise for Repairs on Roads and Bridges.

23. To see what sum of money the town will vote to raise for the Support of Common Schools.

24. To see what sum of money the town will vote to raise to be expended on a Free High School.

25. To see what sum of money the town will vote to raise for Free Text Books.

26. To see what sum of money the town will vote to raise for School Supplies.

27. To see what sum of money the town will vote to raise for repairs on School Buildings.

28. To see what sum of money the town will vote to raise for clearing Roads of Snow.

29. To see if the town will vote Yes or No on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Sec. 20 of Chapter 130 of the Public Law of 1913.

30. To see if the town will appropriate and raise the sum of \$533 for the improvement of the section of The State Aid Road as outlined in the report of the State Highway Commission in addition to the amount regularly raised by the care of the ways, highways and bridges, the above being the maximum amount which the town is allowed to raise under the provisions of Section 19 of Chapter 130 of the Public Laws of 1913.

31. To see if the town will vote to raise money and what sum for the maintenance of State Aid Highway.

32. To see what sum of money the town will vote to raise for Memorial Day.

33. To see what sum of money the town will vote to raise for the Local Health Officers salary.

34. To see if the town will vote to raise \$75 per hydrant.

35. To see if the town will vote to raise \$30 for each school houses using water and each of the fountains.

36. To choose Fire Warden or Wardens.

37. To see if the town will vote to raise \$1.00 per poll tax payer for the benefit of the North Haven Library.

38. To see if the town will vote to accept the road laid out by the Selectmen and surveyed by O. H. Tripp beginning 14 feet North of the line between the Haven's Inn and Albert Beverag property on Town Road and extending North $82^{\circ} 22'$ East true meridian 790 feet through land of Nelson Mullin, F. H. Mills, Ossie Woodworth and Etta F. Noyce to Smith Street previously laid out by Mrs. Etta F. Noyce.

39. To see if the town will vote to take over the section of road surveyed by H. P. Foss extending from the main Street to the proposed new Street given by Mrs. Etta F. Noyce.

40. To see if the town will vote to discontinue the section of road across Leigh Witherspoon made by making the new turn on North side Bridge.

41. To see what action the town will take in regard to the School House Toilets as provided under Chapter 33. Section 1, Public Laws, 1921.

42. To see what action the town will take in regard to the Little Thoroughfare School House.

43. To see what action the town will take in regard to lighting the streets with electricity.

44. To see what sum of money the town will vote to raise for street lights.

45. To see if the town will vote to exempt the Knights of Pythias Hall from taxation for the year 1922.

46. To see if the town will vote to maintain a school in the North East District for the coming school year.

Given under hands this 15th day of February, A. D., 1922.

H. P. Stone

H. W. Crockett

Selectmen of North Haven.

A true copy attest,

CLYDE O. AMES,

Constable.
