REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens of
North Haven:*

I herewith submit for your consideration my sixth annual report of the condition and progress of North Haven schools for the year ending February 1, 1924.

During the past year the usual high standard, for which our schools are noted, has been maintained. There is nothing of greater importance in a municipality than the training of its future citizens. This matter depends primarily on the voters, who, at the annual town meetings raise the appropriations necessary to maintain a first class school system. The vital factors of a school system are three: the teacher, the equipment and the school building. To these should be added the cooperation of the parents and townspeople which, although mentioned last, is by no means the least for "in union there is strength." In this respect our townspeople are entitled to much credit, and we wish to take this opportunity to extend an expression of appreciation and to thank them for their generous cooperation and support.

We have an especially fine corps of teachers this year. All have had previous experience and with one exception, all have had some professional training. Frequent change of teachers is injurious to a school system, since a certain amount of time is required to establish familiarity between teacher and pupil, and during this time, the child's progress is retarded. We have had two changes in our teaching force since last year. One of these occurred in the high school and the other in the Thoroughfare Primary. At the close of the last school year Miss Viora M. Grasse resigned and Miss Bernice Clement, of the University of Maine, was elected to succeed her in the English, French and Latin departments. Miss Edith E. Beverage, a graduate of the

Gorham Normal School, was elected to succeed Miss Bernice R. Crockett in the Thoroughfare Primary School. Miss Crockett, (now Mrs. Carver) was with us a long time and we were sorry to lose her. The work of both our new teachers is highly commendable.

The fall term of the Center School was closed two weeks early on account of an epidemic of Mumps. This time will be made up later in the year.

The North Haven schools were represented in the annual meeting of the Maine Teachers' Association, which was held in Portland, October 25-26, by Miss Nettie E. Beverage, Miss Edith E. Beverage and Prin. Frank L. Milan. This shows a good professional spirit on their part, as it is the best possible way to keep in touch with the latest educational movements and the most up-to-date methods.

"To be not the first by whom the new is tried nor the last to lay the old aside," is a safe and economical motto for use in any system and is the motto by which this department is governed in the selection of equipment. We believe our text books and apparatus are as good as any on the market. Whenever a certain text or article of apparatus becomes out-of-date or worn out it is replaced by something more modern. In this way our equipment is kept up-to-date and the expense remains practically uniform year after year. The overdraft in the text book account is due to the increase of classes in the high school which necessitated the purchase of a number of new text books and considerable laboratory equipment. This is the first year that we have had all four classes represented in the high school and we believe the classes represented in the high school and we believe the classes will not be any larger than they are at present for some time.

Apparently there are still a few who do not thoroughly understand our grading system. For their benefit I wish to take this opportunity of offering a few words of explanation. The State Course of Study provides for eight grades in the elementary schools. In some of the larger towns and cities a Kindergarten Course of two years is maintained. Children may attend the Kindergarten between the ages of four and six years, if they

wish, but wherever Kindergartens are maintained, children are not admitted to the first grade until they are six years of age. In school systems where no Kindergarten is established, (like ours for instance), children are usually admitted at the age of five years. A five-year-old child of average ability can not thoroughly complete the work prescribed for the First Grade. Consequently it is necessary that they have a course of one year to prepare them for the First Grade. This one year course we call the Sub Primary. In this grade the children master the mechanics of reading and complete the Primer. In large schools, especially, it is generally necessary to keep children in the Sub Primary for the entire year. Of course the ability of children differs. Some may be obliged to remain in the Sub Primary two or even three years while others, who are exceptionally forward, may be able to complete the work of both the Sub Primary and First Grade in one year. The latter more often happens in small schools where the teacher has plenty of time for individual instruction. Our policy is to promote children as fast as their ability permits but in no case should a child be promoted prematurely nor should they be unduly retarded. Our elementary school system still has nine grades, viz., Sub Primary to Grade Eight inclusive and the pupil is expected to complete, in a satisfactory manner, the work prescribed in all these grades before he can be admitted to the High School.

The following repairs have been made on the school buildings. A new lavatory and bubbler have been installed in the Thoroughfare Primary School and the bubblers in all the other schools have been repaired. It is a difficult task to keep these fountains in good condition because of the fact that there is no basement under the school buildings. This leaves the water pipes exposed making it almost impossible to prevent the water from freezing. We hope it will be possible in the near future to construct basements under both the Center and Thoroughfare Schools, thus making provision for the installation of modern heating plants, sanitary toilets and fuel storage. The laboratory in the High School has been enlarged to meet the demands of the larger Science Classes. Two years ago this building was equipped with a unilateral lighting system which is the latest and best method in modern school architecture. We should now direct our attention to the heating and sanitation of this building.

In the Northeast School the blackboards have been slated, and new stove pipe set up. This building is now the only one in use that does not meet at least one of the three standard requirements: Light, heat or sanitation. Due to its extremely beautiful location it could be easily changed to a very attractive little school at a comparatively small cost by changing the lighting system and building a connected toilet.

According to Chapter 169, Public Laws 1923, it will be necessary to equip at least one of our buildings with some approved type of sanitary toilet this year. For although we have until Sept. 1, 1927, to finish the work, yet a definite portion must be completed each year prior to that date.

The Northeast School having failed to maintain the average attendance required by law a vote of the town will be required in order to continue it for another year.

The following appropriations are recommended for the ensuing year:

Common Schools	\$3,000.00
High School	2,400.00
Text Books	250.00
Supplies	300.00

No definite appropriation for repairs is recommended because this depends upon the amount of work the town proposes to undertake for the ensuing year.

In closing I wish to thank the superintending school committee, teachers, parents and pupils for their loyal cooperation and support.

Respectfully submitted,

E. A. SMALLEY, Superintendent.

TOWN WARRANT

To Ray M. Beverage, Constable of the town of North Haven in the County of Knox, in the State of Maine.

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of North Haven, qualified by law to vote in town affairs, to assemble at Union Hall, on Monday, the third day of March, A. D. 1924 at ten o'clock, in the forenoon, to act on the following articles to wit:

1. To choose a Moderator to preside at said meeting.
2. To choose a Town Clerk.
3. To choose Selectmen.
4. To choose Overseers of the Poor.
5. To choose Assessors of Taxes.
6. To choose a Town Treasurer.
7. To choose a Town Agent.

8. To choose an Auditor of Accounts.
9. To fix the salary of Superintendent of Schools.
10. To fix the salary of Superintending School Committee for the ensuing year.
11. To choose Superintending School Committee.
12. To see what action Town will take in regard to the collection of taxes for the ensuing year.
13. To see if the Town will vote to have its Treasurer receiver of taxes for the ensuing year.
14. To choose Collector of Taxes.
15. To choose a Constable or Constables.
16. To choose a Traffic Officer.
17. To choose Surveyors of Wood and Bark.
18. To choose Surveyors of Lumber.
19. To choose a Sealer of Weights and Measures.
20. To choose Fence Viewers.
21. To choose a Road Commissioner for the ensuing year.
22. To choose an Undertaker and all other necessary Town Officers for the ensuing year.
23. To see what action the Town will take in regard to hiring an Engineer for the Water System for the ensuing year.
24. To see what action the Town will take in regard to fixing the salary of the Engineer for the ensuing year.
25. To see what sum of money the Town will vote to raise to defray Town charges.
26. To see what sum of money the Town will vote to raise for repairs on Roads and Bridges.
27. To see what sum of money the Town will vote to raise for the support of Common Schools.
28. To see if the Town will vote to have music taught in the Public Schools for the coming year.
29. To see what action the Town will take in regard to the maintainance and regulation of the High School for the coming school year.

30. To see what sum of money the Town will vote to raise for the support of a Free High School.

31. To see what sum of money the Town will vote to raise for Free Text Books.

32. To see what sum of money the Town will vote to raise for School Supplies.

33. To see what sum of money the Town will vote to raise for repairs on School Buildings.

34. To see what sum of money the Town will vote to raise for cleaning Roads of Snow.

35. To see if the Town will vote yes or no on the question of appropriating and raising money necessary to entitle the Town to State Aid as provided in Sec. 20 of Chapter 130 of the Public Laws 1913.

36. To see if the Town will appropriate and raise the sum of \$533.00 for the improvement of the section of the State Aid Road as outlined in the report of the State Highway Commission in addition to the amount regularly raised by the care of the ways Highway and Bridges. The above being the maximum amount which the Town is allowed to raise under provisions of Sec. 19 of Chapter 130 of the Public Laws of 1913.

37. To see what sum of money the Town will vote to raise for the maintenance of the improved State Aid Road.

38. To see what sum of money the Town will vote to raise to be expended on the new road at the village.

39. To see what sum of money the Town will vote to raise to repair the Beach Bridge.

40. To see if the Town will vote to raise a sum of money to be expended on the Little Thoroughfare road from Frank Waterman's mail box to the turn at R. C. Gillis.

41. To see if the Town will vote to accept as a gift from Mr. Nelson Mullin the section of road running eastly of the new church from where it connects with the new road to the main road in the village, said section to be a public way only as far as it is of lawful width, the remainder to be kept in repair by the Town.

42. To see what sum of money the Town will vote to raise for Memorial Day.

43. To see what action the Town will take in regard to installing toilets in School Houses as prescribed by the State Laws.

44. To see if the Town will vote to raise \$75 per hydrant.

45. To see if the Town will vote to raise \$30 for each School House using water and each of the fountains.

46. To see if the Town will vote to raise \$1.00 per Poll Tax payer for the benefit of the North Haven Library.

47. To choose Fire Warden or Wardens.

48. To see if the Town will vote to maintain a school in the North East District for the coming school year.

49. To see if the Town will vote to hire a small room in Knights of Pythias Hall for Selectmen's Office.

50. To see what action the Town will take in regard to lighting the streets with electricity.

51. To see what sum of money the Town will vote to raise for street lights.

52. To see if the Town will vote to exempt the Knights of Pythias Hall from taxation for the year 1924.

53. To see what action the Town will take in regard to raising money and what sum for a sinking fund to take care of the next series Water Bonds.

54. To see if the Town will vote to have deposited at the end of the year all the Water System's earnings in actual cash beyond actual expenses as a credit to the sinking fund already established.

55. To see what action the Town will take in regard to hiring money and what sum to carry the Town along from March 3rd to July 1st 1924.

56. To see what action the Town will take in regard to the disputed water bill with the North Haven Golf Links Association.

57. To see what sum of money the Town will vote to raise

for a Local Health Officer's salary or as Town and School Physician.

Given under our hands at North Haven, this fourth day of February, A. D. 1924

H. P. STONE,

P. L. BROWN,

Selectmen of North Haven.

A true copy attest, Roy M. Beverage, Constable of North Haven.
