### REPORT OF SUPERINTENDENT OF SCHOOLS.

In Dist. No. 1, the spring term was taught by Thena N. Lowe. Miss Lowe is an energetic teacher and did excellent work. Miss Bernice Pickard of Detroit was employed to teach the fall term. She proved herself an efficient teacher. J. Woodsie Folsom taught the winter term with excellent results.

Woodsie Folsom was secured for the spring and fall terms in Dist. No. 4. She fully sustained her former reputation as a teacher. Excellent work was done in the winter term by Miss Florence Wilkins of St. Albans.

Miss Lula G. Millett has had charge of the school in Dist. No. 5 for the entire year. She gave excellent satisfaction in every respect.

Emma Johonnett was selected to teach the spring and fall terms in Dist. No. 6. She worked faithfully for the interest of her pupils. These were profitable terms. The winter term was taught by Miss Bessie Jewett of St. Albans. This was her first attempt at teaching, yet those present at the close of the term showed good advancement.

The Gale district was fortunate in securing Miss Addie 1. Davis for the spring, fall and winter terms. The examination of several classes at the close of each term showed thorough work and rapid advancement.

The spring term in Dist. No. 9 was taught by Miss Alice E. Homstead. She gave general satisfaction. Mrs. Bertie Hanson taught the fall and winter terms. She is a thorough disciplinarian and rapid advancement was made under her instruction.

Miss Nellie Hanson taught the spring term in Dist. No. 10. She was obliged to close the school at the end of eight weeks on account of the illness of her mother. The examination at the close of the term showed good progress. Miss Ethel G. Brown of Detroit taught both the fall and winter terms. She maintained good order, and the examination at the close of each term showed that the teacher and scholars had been united in their efforts in making them successful terms.

Miss Miriam Folsom taught all three terms in Madawaska district with good results.

Miss Maude Goodrich was employed for the entire year to teach in the South Union district. The closing examinations showed good advancement and thoroughness of work.

JOHN FURBUSH,

Superintendent of Schools.

### REPORT OF SUPERINTENDING SCHOOL BOARD.

In the management of the schools during the past year we have endeavored to exercise economy consistent with the maintenance of good schools. In the spring of 1901 we had a large number of applications from which to select the teachers for the spring terms, and the good work that has been done in most of the schools since then shows that the teachers were well chosen for their respective places as regards qualifications and skill in the school room. The most of these teachers were retained throughout the year. In two or three instances, however, teachers did not show themselves capable of what was expected of them, and changes were accordingly made, in every case with success.

The Board heartily commends the efforts which have been put forth by some of the teachers in the improvement of the school room and buildings. Some of these improvements were made under the direction of The School Improvement League, and where there was no league the improvements were made by the united efforts of the teacher, pupils and citizens. As examples of what can be done in this line to beautify the school room and its surroundings, we respectfully refer the citizens to the village school, the Goodwin school and the South Union school. We trust that the interest for the improvement of the school buildings, which has thus been shown, may increase both with teacher, pupils and citizens, until all our schools have been made as pleasant and attractive as the homes from which the children go out.

We would also urge parents to visit the sessions of the schools frequently, and thus become better acquainted with the work that is being done. There is a fair interest along this line in some schools, but it should be more actively shown in all of our schools.

By consulting the school expenditures it will be seen that the average costing of maintaining a school, exclusive of repairs, ap-

pliances, etc., was \$216.00, and it would seem necessary to raise a sum the coming year according to the number of schools, on this basis. The other amounts to be raised, we would recommend as follows:

For	repairs.	 															. \$2	250	0	0
	books.																	75	0	0
	applian											7						25	0	0

If a school is not maintained in the Madawaska house, the sum of \$150 would be sufficient for repairs. Should a school be maintained there, it is imperatively necessary to make quite extensive repairs to render the building comfortable for schools.

Respectfully submitted,

F. L. MORSE, L. H. APPLEBY, C. G. BRACKETT,
