Town Warrant

State of Maine

SOMERSET, SS.

To H. H. Hubbard, Constable of the Town of Palmyra, in the County of Somerset. GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Palmyra qualified by law to vote in town affairs, to assemble at the town house in said town on Monday the 5th day of March 1917 at 10 o'clock a. m. to act on the following articles to wit:

Art 1 To choose a Moderator to preside at said meeting.

- Art 2 To choose a Town Clerk for the year ensuing.
- Art 3 To hear such reports from the town officers as the town may think proper.
- Art 4 To choose three Selectmen, three Assessors and three Overseers of the poor.
- Art 5 To choose a Town Agent.
- Art 6 To choose a Town Treasurer.
- Art 7 To choose a Tax Collector and Constable or to ascertain in what manner the tax shall be collected.
- Art 8 To choose one or more Road Commissioners or instruct the Selectmen to appoint same.
- Art 9 To choose one member of the School Board.
- Art 10 To elect a Fire Ward.
- Art 11 To choose all other necessary town officers for the year ensuing.
- Art 12 To see how much money the town will vote to raise to defray town charges.
- Art 13 To see how much money the town will vote to raise for the support of schools.

Art	14	To see how much money the town, will vote to raise for school supplies.
Art	15	To see how much money the town will vote to raise for repair of schoolhouses.
Art	16	To see how much money the town will vote to raise for text books.
Art	17	To see how much money the town will vote to pay tuitions.
Art	18	To see how much money the town will vote to raise for the support of Public Library.
Art	19	To see if the town will vote yes or no on the adop- tion of the State road law necessary to entitle the town to State aid for 1917.
Art	20	To see how much money the town will vote to raise to build State road.
Art	21	To see how much money the town will vote to raise for State road maintenance.
Art	22	To see how much money the town will vote to raise for the repair of roads and bridges.
Art	2 3	To see if the town will vote to buy one or more small road machines for one pair of horses.
Art	2 4	To see if the town will vote to raise a sum of money to repair the Allen Hill, so called.
Art	25	To see if the town will vote to raise a sum of money to finish the board fence on Lenfest Hill.
Art	26	To see if the town will vote to raise a sum of money to build a board fence on Spring Hill.
Art	27	To see if the town will vote to raise a sum of money to complete the Ell Hill job.
Art	28	To see if the town will vote to raise a sum of money to fix the Shy road.
Art	29	To see if the town will accept the sum of \$50. (Fifty dollars) of the Estate of Effic H. Trundy for purpetual care of W. D. Mitchell's lot in Warren Hill Cemetery.
		4

- Art 30 To see if the town will instruct the selectmen to hire money for current expenses in anticipation of taxes.
- Art 31 To see if the town will accept the list of Jurors as prepared by the municipal officers.
- Art 32 To see if the town will vote to raise money to pay outstanding town orders on int.
- Art 33 To act on any other matters not pertaining to raising of money which may be lawfully brought before the annual town meeting.

The selectmen give notice that they will be in session at the town house on the day of said meeting at nine o'clock in the forenoon for the purpose of revising and correcting the list of voters.

Hereof fail not to make due returns of this warrant with your doings thereon, on or before the day and the hour of said meeting.

Given under our hands this 23rd day of February, A. D. 1917.

F. P. FOSTER CHAS. E. COLE R. J. GOODRICH Selectmen of Palmura

Selectmen's Department

Report of the School Board

We hereby submit the annual report of the Superintending School Committee of the town of Palmyra for the year ending March 1, 1917.

I. REVIEW

Nine schools have been maintained during the past year. Repairs have been made as follows: a platform at the Gale School at a cost of \$15; a fence for two sides of the school lot at Marsh's Corner, at a cost of \$17.50; raising of shed, a new toilet for the girls and new desks for the South Union School at a cost of \$140 of which \$50 was contributed by Pittsfield.

Other repairs contemplated were laid on the table until this spring in the hopes that they might be done with greater economy than seemed possible last fall.

The deficit in the common school account is explained by the fact that the wood bills which ordinarily have not been paid until after the annual town meeting, have this year been paid before, so that two years supply of fuel have been paid for out of the appropriation for the support of schools.

II. RECOMMENDATIONS

We recommend that the committee be authorized to maintain schools in the Egypt, Carr and Madawaska Schools for the ensuing year.

We recommend and urge emphatically, the appointment of a school physician.

We recommend that the town consider at the annual meeting, the advisability of selling or repairing the Goodwin Schoolhouse.

III. SUGGESTED APPROPRIATIONS

Support of Schools	\$1,500	00
High School Tuition	150	00 -
School Supplies	100	00
Text Books	125	00
Repairs	200	00
Medical Inspection	25	00
		40 400

\$2,100 00

In conclusion, we desire to express our appreciation of the co-operation and support that has been received from our constituents.

> Respectfully submitted H. V. FURBUSH R. J. GOODRICH A. P. HOWES School Board of Palmyra

Report of the Superintendent of Schools

Gentlemen of the School Board:

As required by law I hereby submit the annual report of the superintendent. The statistics taken for this report have been compiled from the teachers registers and from the town reports of the last five years and appear in the appendix which forms a part of this report.

These facts regarding attendance and finances for the five years ending Mar. 1, 1917 are presented in the belief that they may form the basis of a careful consideration of the town's resources, to see whether or not a slightly larger appropriation for school purposes may be made without distress or hardship.

While it is undoubtedly true that the per capita cost of education is greater in rural towns than in cities, it should also be noted that the rural communities are free from many items of municipal expense that are inevitable in any city.

BRIEF ANALYSIS OF STATISTICS

From TABLE 11 it will be seen that approximately \$4000 has been annually placed at the disposal of the school officials and that the same amount has been disbursed by them in the support of education. With an average annual enrollment of 129 pupils the average cost per year per pupil has been \$4.82

It must be decided whether the schools are getting all the financial support thep deserve, and whether the expenditure of an additional dollar on a thousand for school purposes is justified and within the means of the taxpayer.

I feel sure that every thoughtful citizen will agree with

BETTER SCHOOL BUILDINGS

Under this head I wish to say, first of all, that the chief aim of this report is to urge upon all concerned in the present and future welfare of the schools the adoption of the idea of a DEFINITE SCHOOL BUILDING IMPROVEMENT PLAN to the end "that no child may need to attend any school that does not meet reasonable standards in respect to heating, lighting, ventilation, sanitation, grounds and outbuildings." "While there has been very general improvement in the condition of most of the schoolhouses of Palmyra during the past ten years, all need considerable more attention, if they are to be made wholly fit for the occupancy of children."

The following paragraphs will offer criticisms of the existing conditions and make suggestions for their improvement.

Circulars have been more or less widely distributed describing an approved remodeled one - room schoolhouse. Shall we not study these plans together? Scan our recources to see if we cannot raise the funds to remodel at least one schoolhouse each year? And vote before we go back to our homes TO ADOPT A DEFINITE PLAN OF SCHOOL BUILDING.

The following I believe are just criticisms in relation to the fundamental features of the school buildings, common to this and surrounding towns. The usual type is sometimes spoken of as the box car type with windows on all four sides. In places I shall quote verbatim from the report of the State Agents for Rural Education, who have given us the privilege of consulting them freely in regard to our school problems, and who have visited the greater portion of our schools within the last year.

CRITICISM:

"The lighting in our buildings is incorrect. The proper lighting is for the windows to be on the back and left side. The window in front is particularly bad since it causes the children to face a bright light continually"

"The coat rooms are much too small, making it necesary to have the children's wraps hung in the room which gives a cluttered up appearance to such a small room and on rainy days particularly, it is not a sanitary arrangement." SUGGESTION:

"Platforms are not needed in the schoolroom. Coatrooms can be extended beyond the front windows—thus utilizing the window to light the hall and doing away with the glare in front of the pupils. The wraps could then be hung in the hall and hooks provided for each child. The windows on the right should be done away with and if the lighting seems insufficient others may be introduced on the left."

CRITICISM:

"The heating arrangements are not good. The oldfashioned box stove at the front of the stove causes the pupils in front to be in a blistered condition while those in the rear are cold. The long stove pipe is unsightly and apt to leak. The chimneys built with a view to the strictest economy barely extend below the ceiling, consequently often fill with soot and are a considerable source of annoyance to teachers and janitors.

SUGGESTION:

The chimneys should be made full length and with two itues, one for smoke and the other for foul air. The stove should be moved to the northwest corner of the room—much of the stove pipe thus done away with and a jacket put around it, to aid in radiating the heat.

CRITICISMS:

There is no definate provision for ventilation other than by the opening of doors and windows.

The following is from a circular of the State Department relating to better school buildings:

WHAT IS THE CONDITION OF SCHOOL BUILDINGS IN YOUR TOWN?

1. Are they in a good state of general repair?

2. Are the windows properly placed?

3. Are they properly heated and ventilated with means of securing a warmed, fresh air supply and outlet for foul air?

4. Are the floors, walls and ceilings such as you would have them in your house?

5 Are there wardrobes so arranged as to allow the children's clothes to be well cared for?

6. Are there closets for the protection of books and supplies?

7. Are the blackboards in conditions so that the teacher can make good use of them?

8. Are the seats comfortable and are the desks in good condition?

9. Are the drinking arrangements clean and sanitary?

10. Is there a flag and the means of flying it?

11. Are the out buildings in good repair, clean and decent? Are they so arranged that pupils may get to them without passing thru snow and mud and that they maybe kept permanently clean and decent?

12. Are the play grounds of a size to provide ample play space?

What is your answer for your school—"Yes" or "No"? If it must be "No" at this time to any or all of these questions, will you do what you can to make it possible to change the answer to "Yes" within a reasonable time?

WHY NOT REMODEL?

In order to improve school building conditions it is not necessary to abandon the old building. In a majority of cases it will be found that the one room school building, if of satisfactory size, and with sound timbers, may be remodeled into a building which will conform with modern requirements. Experience shows that the expense for such remodeling need not be great.

SCHOOL BUILDING PROGRAMS are being carried out successfully in many Maine towns. Such programs may have two aims;

(a) To remodel and modernize at least one, school building each year, or

(b) To add at least one needed improvement each year to the entire group of buildings.

RESULTS ATTAINED from such a program are far more

satisfactory than when repair money is used for patchwork. Such a plan when presented to the town is very likely to be received favorably A majority of citizens desire better physical conditions in the schools. After one building has been remodeled or one set of improvements has been made, the rest of the program may readily be carried out. The committee has something to show for the money expended. Will you help? By determining the condition of the school buildings in your town? By bringing the needs to the attention of the superintending school committee? By presenting to the town meeting a definite plan for school building improvement?

In conclusion permit me to express my appreciation of the co-operation and good feeling that has prevailed among committee, teachers, parents and pupils.

Respectively submitted

Harry E. Fortier Supt. of Schools

Twenty Years Old

We are this year. Twenty years of buying and selling. And the business that has come to us the past year certainly demonstrates that the greatest of these is buying. If goods are bought right, they will almost sell themselves. Buying in quantity at the lowest price for cash is the only way to do business in these years of war and war prices. The outlook is bright for all who will not shirk to "plow for reason of the cold" this coming nineteen hundred seventeen season.

You will need a Ford or a Saxon car to get there on time as time is money this year. You will need new tools, new machinery, new parts, gasoline, mobiloil, tires and tubes. You will need Pine Tree Timothy Ace Clover, Ace Red Top, Fodder Corn Seed Peas, Rice Seeds. You will need Groceries, Sugar, Canned Goods, and some of that good Coffee, ground fresh from the berry the only proper way.

(over)

YOU WILL NEED:

YOU WILL NEED:

Extracts	Hats
Medicines	Caps
Drugs	Pants
Stationery	Underclothes
Toilet Articles	Prints
Watches and Alarm Clocks	Percales

(and other Dry Goods)

You will need Shoes, Rubbers, Stockings, Leggins, Slippers, Tennis and other footwear.

All these and many more—we have them and you will need them, as this season (we shall predict right here) will be a hummer. So lets get an early start by making all your wants known to

Yours truly,

L. W. FROST

Our Twenty first year
