Report of Supt. of Schools.

To the Honorable Superintending School Committee of the town of St. Albans, Me.

condition and advancement of the schools in town for the year ending Feb. 20, 1907.

Number of scholars in town April 1, 1906.....	289
Whole number registered in common schools during the year	206
Average attendance for the year	152

Teachers and Schools.

Upon receiving from you authority to examine, certify and engage teachers an examination was held in the Town Hall, April 21, which was attended by twenty or more teachers, who, for the most part, passed satisfactory examinations.

Teachers were certified and engaged for twelve schools during the spring. These teachers with one or two exceptions gave entire satisfaction, and as far as it was deemed advisable the same teachers were retained for fall work.

The fall and winter work which has been done in two terms was done in one term of fifteen weeks with a recess of one week. This plan seemed the most practical at the time and clearly demonstrated that much time was saved which has heretofore been required in closing and opening terms.

There have been a few instances where the lack of support on the part of the parents has materially injured the progress of the school.

In most cases the pupils have made good progress and

I believe every teacher has performed her work faithfully.

Text Books and Appliances.

The text books were in very poor condition at the opening of the year. They were collected and repaired and new books purchased to replace those which were useless. New histories were bought, also enough readers, geographies and arithmetics to practically complete the uniform set of text books throughout the town. Other books have been secured as necessity demanded. I would recommend that \$175 be raised to pay the amount overdrawn and to purchase and repair text books for the coming year.

There was, and still is, a great deficiency in maps, charts, etc. We purchased about half the desired number of Grover's Outline Maps of Maine and the United States and suggest that enough be bought this year so that each school may have at least one.

Writing.

Pupils have not made satisfactory progress in writing during the past year. I feel safe in saying this will continue to be the case until writing books are furnished by the town and every pupil in the common schools is required to write daily.

High School.

The High School(now in session) is under the management of your superintendent, with what success it is for you to say.

We were very fortunate in securing the services of Miss Sarah E. Little of Merrimac, Mass., as assistant. Miss Little came highly recommended and has proved herself an efficient teacher by her thorough preparation of the work and by her

untiring efforts in behalf of the students.

Conclusion.

In closing this report I desire to express my thanks to the officers of the town for their kindly interest in this department, to the many friends throughout the town who have assisted me in my work and to your honorable board for your confidence, advice and unanimous support.

Respectfully submitted,
HAROLD C. ROBERTSON,
Superintendent of Schools.

St. Albans, Me., Feb. 23, 1907.

Report of Superintending School Committee.

We herewith submit our annual report, of the expenditures of the past year.

The superintendent was authorized to examine and certify teachers, procure text books, and look after transportation of scholars.

Schools.

There were twelve schools in town during the past year, with a total of thirty-five terms. The Hopkins school was suspended during the last term, owing to the condition of the building. The pupils from this school were transported to the Lyford school.

Transportation.

Scholars were transported for the year from Magoon district to Village. From Chambers district to Five Corners, and from D. D. Raymonds to Tracy school. During the

winter term from Fred Fenson's to Tracy school, and from Hopkins district to Lyford school.

Repairs.

One side of the roof of the Tannery schoolhouse was shingled. The school building at the Village was considered by the school board and the board of health, as unfit for school purposes. Therefore it was deemed necessary to make extensive repairs. The ceiling was lowered four feet, and the building sheathed throughout with hard pine, also filled and varnished; 18 feet of new chimney was built, extending six feet below the floor. The other school buildings remain in the same condition as reported last year.

Repairs of 1906-07 and Non-Expended.

Cleaning school buildings	\$29.25
Repairs (outside Village).....	45.00
Repairs (in Village)	458.73
Labor on Lucas school lot.....	4.00
