---

To Geo. A. Simmons, a Constable in the Town of Kingfield, in the County of Franklin, State of Maine,

Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said town of Kingfield, qualified by law to vote in town affairs, to assemble at French's Hall, in said town, on the fourth day of March next, at nine o'clock in the forenoon, to act on the following articles, to wit:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose a Town Clerk and all necessary town officers for the ensuing year.

Art. 3. To see what sum of money the town will vote to raise for the support of common schools for the ensuing year.

Art. 4. To see what sum of money the town will vote to raise for heating, janitor work, text books and supplies for Free High school, for the ensuing year.

Art. 5. To see what sum of money the town will vote to raise and appropriate for Free High school for the ensuing year.

Art. 6. To see what sum of money the town will vote to raise for text books for common schools for the ensuing year.

Art. 7. To see what sum of money the town will vote to raise for repairs on school houses and for school supplies, for the ensuing year.

Art. 8. To see what sum of money the town will vote to raise for the support of poor for the ensuing year.

Art. 9. To see what sum of money the town will vote to raise to defray town charges for the ensuing year.

Art. 10. To see what sum of money the town will vote to raise to pay town debts.

Art. 11. To see what sum of money the town will vote to raise for repairs of roads and bridges, for the ensuing year.

Art. 12. To see what sum of money the town will vote to raise to build and repair sidewalks for the ensuing year.

Art. 13. To see what sum of money the town will vote to raise for the collection of taxes for the ensuing year.

Art. 14. To see what sum of money the town will vote to raise for the abatement of taxes for the ensuing year.

Art. 15. To see what the town will vote in regard to the collection of taxes, when made payable, what discount to be allowed and interest charged.

Art. 16. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69 Public Laws of 1909, relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1912.

Art. 17. To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of four hundred dollars being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69, Public Laws, 1909.

Art. 18. To see what sum of money the town will vote to raise to pay hydrant rental, water rental, street lights and interest on town debt.

Art. 19. To see what sum of money the town will vote to raise for use of fire department for the ensuing year.

Art. 20. To see if the town will vote to raise the sum of \$150.00 for the use of the Webster Free Library.

Art. 21. To see what sum of money the town will vote to raise for teaching music in schools for the ensuing year.

Art. 22. To see if the town will vote to renew the contract with the Huse Spool & Bobbin Co. for street lights, or take any action relative thereto.

Art. 23. To see if the town will vote to request the Huse Spool & Bobbin Company to put two street lights on Salem street.

Art. 24. To see if the town will vote to request the Huse Spool & Bobbin Co. to put two street lights on Sumner St.

Art. 25. To see if the town will vote to request the Huse Spool & Bobbin Co. to put three street lights on Maple St.

Art. 26. To see if the town will vote to request the Huse Spool & Bobbin Co. to put one street light on the Chain Bridge.

Art. 27. To see if the town will vote to pay the Road Commissioner \$2.50 per day for work on roads and bridges.

Art. 28. To see what action the town will take in regard to sewers, and raise money for the same.

Art. 29. To see how much money the town will vote to raise to repair the foundations of the town office, and appoint a committee to oversee the work.

Art. 30. To see if the town will vote to raise \$150.00 to purchase Standards for the purpose of sealing weights and measures, as provided by Chap. 82 of the Public Laws of 1911.

Art. 31. To see how much money the town will vote to raise to buy a safe for the town office.

Art. 32. To see how much money the town will vote to raise to pay for insurance on school house and town office.

Art. 33. To see how much money the town will vote to raise to pay for a lot and building to house rollers, road machine and tools.

Art. 34. To see what sum of money the town will raise for the purpose of planting trees on the Stanley school grounds and appoint a committee to oversee the work.

Art. 35. To see if the town will vote to discontinue the road leading from the County road near C. H. McLoon's house to the Milton Savage place.

Art. 36. To see if the town will vote to discontinue the road leading from the corner near Walter Gatchell's buildings to Soule's mill, so called.

The Selectmen hereby give notice that they will be in session for the purpose of revising and correcting the list of voters at French's Hall, at eight o'clock A.M., on the day of said meeting.

Given under our hands at Kingfield, this 21st day of February, A.D. 1912.

I. L. ELDRIDGE, } Selectmen  
F. E. BOYNTON, } of  
O. C. DOLBIER, } Kingfield.

## Annual Report of the Supt. of Schools.

---

To the Citizens of Kingfield:—

In assuming the duties of Superintendent of Schools of a town, one has to learn just what has been done and to study the policy of the town in matters pertaining to the education of its youth. It is not often difficult to ascertain the conditions and needs of the schools, but the difficulty lies in making the proper adjustments to produce the most efficient results at the close of the school year.

The educational interests of a community are its most valuable assets. Any policy which tends to curtail the development of these interests is a direct thrust at the boys and girls who are to carry on in the future the commercial, political, and religious activities of our Town, State, and Nation.

The system of schools established in the town accords, in general outline, with the systems of other towns as progressive as our own. There is need of development, need of closer articulation in the several departments of the work. There is no reason why Arithmetic, History, or Geography should be taught as isolated subjects, nor is there any reason for giving more emphasis to one study than to another. All subjects are mutually dependent and have an equally important bearing upon a well founded training. As in nature we do not find all the butterflies in one field, all the birds in another, and all the animals in still another, so in the various occupations of life we do not find the demands for information, needed at a particular moment, limited to a grammatical, geographical, or arithmetical groove.

During the summer vacation an Outline Course of Study was prepared for the Village Grades. The aim being to apportion the work to the grades according to the age and capabilities of the pupils. Teachers were instructed to use the Outline as a guide and not to sacrifice thoroughness in order to accomplish the maximum provisions for the respective grades. The grades are now being built up to the commonly accepted requirements.

Reading is the fundamental step in an education. It is the key to all knowledge. In the early school years the child should not be hampered with too many school subjects, for this reason much of the Number Work in the Lower Grades has been eliminated. This has enabled the teachers to devote more time to Reading and to give attention to Nature Study within the understanding of the child. It is a pleasure to note the great improvement in Reading in the Primary Department and much credit is due to these teachers in working out the true aim of Primary Reading:—namely, the ability to get thought, and to give Thought. The Reading in the other grades shows improvement, but this improvement is commensurate with the subject matter that we have been able to provide. There is a dearth of suitable reading material for these classes.

The popular notion often underestimates the necessity for correct expression both oral and written. It is most desirable that pupils be able to express themselves in appropriate language. Careful attention has been given to language work in the schools throughout the year. The teachers understand that the Language Class is not the only one in which they are to insist upon correct expression. The language of the pupils in each recitation must be noted.

Generally speaking the work in other lines has been profitable. The pupils are to be commended for the interest and diligence shown in their work. The teachers have been faithful and sympathetic, and look rather to the ultimate good of the children entrusted to their care, than to a brilliant showing of their classes.

The West Kingfield School has been more fortunate than the ordinary Rural School. These pupils have had the benefit of an experienced and well-qualified teacher. Her efforts have been calculated to arouse the interest of the scholars and create the desire to know.

Our schools cannot accomplish the highest amount of good without the active co-operation of parents and teachers. Youth is very quick to discover the attitude of the parent toward the school. If, then, parents would have their children manifest a judicious, strong, and abiding interest in all their school performances, they must first, themselves, exhibit a lively interest in the school system. They are often—unconsciously, I doubt not—guilty of causing much injury to schools, by manifesting an interest in all the little antipathies which their children may have contracted, and by sympathizing with them in all their little wrongs, real or imaginary, to which they have been subjected. Probably there is no individual whose motives and proceedings are so often and so greatly misconceived and misrepresented, as are those of the teacher. This, we may readily see, arises from the very nature of his employment. He has to deal with the mind in its various workings, and that at an age when reason and prudence have but a very limited sway. Many a teacher is tried, found guilty, and almost executed, without being afforded the least opportunity for self-defense, and entirely unconscious of the crimes for which he is under sentence.

## HIGH SCHOOL.

It is a noteworthy fact that a large per cent of the pupils who complete the Common School Course enter the High School, and the greater part of the High School scholars choose the College Preparatory Course. Yet a certain part of each class does not plan to enter college, hence there is a distinct demand for two courses in our school. With the courses as arranged it was impossible for two teachers to do justice to the work. As the funds available for this school did not permit the employment of a third teacher, it was decided to revise the course and to omit some of the half year courses. In so doing more time has been available for the remaining courses. A further revision and reduction will enable us to keep within the requirements of a Class A School. A thorough working knowledge of a few studies is better than a superficial knowledge of many.

## TEXT-BOOKS.

The needs of the text-book department, both for the High School and the Grades, are ever present. It will be necessary to provide new books for First Year Latin, Physical Geographies, and to make additions to books now in use. It is to be noted that the Reference Books for the High School are inadequate. For the Grades, Reading Material, and Advanced Arithmetics should be provided.

Respectfully submitted,

JOHN W. FOSTER,

Superintendent.
