---

State of Maine,  
County of Franklin, ss.

To L. P. Hinds, a constable in the town of Kingfield,  
county of Franklin, state of Maine,

Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of Kingfield, qualified by law to vote in town affairs, to assemble at Webster Hall in said town, on Monday, the fifth day of March next, at nine o'clock in the forenoon to act on the following articles, to wit:

Article 1. To choose a moderator to preside in said meeting.

Art. 2. To choose a town clerk for the ensuing year.

Art. 3. To hear reports of town officers and take action thereon.

Art. 4. To choose all other town officers for the ensuing year.

Art. 5. To see what sum of money the town will vote to raise for elementary and secondary schools, including teachers' wages and board, fuel, janitor service, conveyance, tuition, and board of pupils, text books, reference books and school supplies for desk and laboratory use.

Art. 6. To see what sum of money the town will vote to raise for repair on schoolhouses for the ensuing year.

Art. 7. To see what sum of money the town will vote to raise for the salary of Superintendent of Schools.

Art. 8. To see what sum of money the town will vote to raise to pay insurance premiums.

Art. 9. To see what sum of money the town will vote to raise for the support of poor for the ensuing year.

Art. 10. To see what sum of money the town will vote to raise to pay town charges for the ensuing year.

Art. 11. To see what sum of money the town will vote to raise for the repair of roads and bridges for the ensuing year.

Art. 12. To see if the town will vote Yes or No in regard to adopting Daylight Saving Time for the same period as is customary throughout the State.

Art. 13. To see what sum of money the town will vote to raise for the collection of taxes for the ensuing year.

Art. 14. To see what sum of money the town will vote to raise for the discount and abatement of taxes for the ensuing year.

Art. 15. To see what the town will vote in regard to the collection of taxes, when made payable, what discount to be allowed and interest charged.

Art. 16. To see what sum of money the town will vote to raise to pay hydrant rental, street lights, and interest on town debts.

Art. 17. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Section 20, of Chapter 28, of the Revised Statutes of 1930.

Art. 18. To see what action the town will take in regard to appropriating and raising money for State Aid Highway construction as provided in Section 19, of Chapter 28, or Section 22-28, of Chapter 28, of the Revised Statutes of 1930.

Art. 19. To see if the town will vote to raise the sum of \$159.00 for Third Class Maintenance in accordance with the provisions of Section 46, Chapter 28, of the Revised Statutes of 1930.

Art. 20. To see what sum of money the town will vote to raise for the maintenance of State Aid Highways during the ensuing year under the provisions of Sections 8-17-26-27 and 28, of Chapter 25 of the Revised Statutes of 1916.

Art. 21. To see what sum of money the town will vote to raise for the use of the fire department for the ensuing year.

Art. 22. To see what sum of money the town will vote to raise for the care of cemeteries.

Art. 23. To see what sum of money the town will vote to raise for aid of dependent mothers.

Art. 24. To see if the town will vote to raise the sum of fifty dollars for books for Webster Free Library.

Art. 25. To see what sum of money the town will vote to raise for the repair of sewers for the ensuing year.

Art. 26. To elect or appoint a budget committee.

Art. 27. To see what sum of money the town will vote to raise for the services of the County Nurse.

Art. 28. To see what sum of money the town will vote to raise to pay town debts.

Art. 29. To see if the town will vote to purchase a snow-plow.

Art. 30. To see what sum of money the town will raise to purchase a snow plow.

Art. 31. To see if the town will vote to extend the sewer from a point in front of R. L. Kimball's house, along Curve Street, to land of Herbert Walker's, a distance of about 260 feet.

Art. 32. To see what sum of money the town will vote to raise for construction as outlined in article 31.

Art. 33. To see what the town will vote in regard to playing baseball on Sunday between the hours of two P. M. and six P. M. only.

Art. 34. To see if the town will instruct the Selectmen to procure temporary loans in anticipation of taxes.

Art. 35. To transact any other business that may legally come before said meeting.

The Selectmen hereby give notice that they will be in session for the purpose of revising and correcting the list of voters at Webster Hall at 8.30 A. M., on the day of said meeting.

Given under our hands at Kingfield, this 26th day of February, A. D., 1934.

R. M. SIMMONS,

*Selectmen of Kingfield.*

NOTE. A copy of this report will be mailed to each family in town. Please preserve same as duplicates will not be given out at town meeting.

## REPORT OF THE SELECTMEN OF KINGFIELD

To the Citizens of Kingfield:

We, the Selectmen of Kingfield, feel that a brief printed statement to supplement and explain certain accounts in the financial report would be of interest and assistance to the citizens of Kingfield, and we take this opportunity to submit the same.

**TAXES**—You will note from the report, that \$1114.94, have been collected on back taxes; also the total uncollected taxes for 1933 amounts to only \$1237.10, or less than 6% of the commitment. We feel that this is a wonderful showing by our collector, L. P. Hinds, and that he should be congratulated on his good work.

**TEMPORARY LOANS**—This account has been increased over last year by \$1000.00. This increase is due to several causes, prominent among which is cost of snow removal and town aid.

**SEWERS**—We have relaid quite a portion of sewer on Riverside Street, using men already paid through town aid, to the amount of 77 days, together with several other men who were in serious need of work. This account is slightly overdrawn, but we feel that the result justifies the overdraft.

**FIRE DEPARTMENT**—In this regard we would only call to your attention that we have purchased new hose and equipment amounting to \$534.47, and our big fire at the French Block cost for out-of-town equipment, \$624.75.

**SUMMER AND WINTER ROADS**—It is needless to elaborate on the obvious cost of plowing snow, this winter. We think you all realize the condition without further comment. We used, on

our summer roads, in the town, 460 days labor already paid through town aid. It was, however, necessary to supply a foreman, truck, and several men on this work not receiving town aid, and this expense, together with the extra cost of snow removal previously mentioned, we feel is sufficient explanation of the overdraft in this account. From the favorable comment received by us from the townspeople, we feel that the improved condition of our town roads, and the work supplied to the people receiving town aid, more than justified the expense.

Through the C. W. A., we have brought approximately \$2000.00 into the town. This money was expended on the West Kingfield road where it was much needed. The work was not performed under the most favorable conditions, and we do not know just how the spring weather conditions will affect this work. However, we have placed from 6 to 12 inches of gravel, 16 to 18 feet wide, for a distance of approximately 2 miles. The money paid for wages has been expended in town and we believe that next summer will show some real results for the money expended.

TOWN AID—This past year we have furnished necessary aid to about 60 individuals. In the report we have grouped the various items under the headings, "Rent, Clothing, Food, Fuel, Dr. & Med. Care & Hospital, Milk & Miscellaneous Expense". The latter heading includes all expense not grouped under some other head. We have furnished aid for 14,348 pauper days, or the equivalent of 39 people for 365 days and one person for 113 days, at a total expense of 33.7 cents per day. You will note from your report that the necessary expense due to sickness has been exceptionally large ranking next to the item of Food.

We feel that the work accomplished by our people receiving aid, serves to quite an extent to reduce our total cost of poor account.

RESOURCES AND LIABILITIES—Under Resources we have listed item due from the State on paupers amounting to \$1035.01; this item has appeared each year for some time and increases about \$30.00 per year. It seems to be impossible to get a check from the State on this account as is proven by the fact that your selectmen and auditor have tried individually and collectively to get a statement from the State to no avail. We believe, however, that this amount has been built up from year to year, by the difference between what the town furnishes State paupers, and what the State pays back to the town. This always leaves a balance due from the State, and for the reasons above stated, we believe this resource is of doubtful value and should be investigated this coming year. Under Liabilities, the item "Balance on State Tax" has been reduced by \$531.00, a credit which came in after the books were closed.

SCHOOL DEPARTMENT—While this department is not under the direct control of the Selectmen, in fact is entirely outside of their direction, we believe that a word to the tax-payer at this time would not be amiss. The public was informed two years ago that any cut in the school department would mean a reduction in standards. There have been several reductions made in school expense over the past two years. Our school is still rated as A 1 High School and our students who attain satisfactory grades are admitted to practically all New England colleges without examination. There was a period in the past when we were paying much higher salaries than now, that our A 1 rating was lost and our students entered most New England colleges by examination only. The above facts, we believe, show that the quality of instruction is not in direct proportion to expense. For last year, taking the state and county tax from the total money raised which gives the net amount, the school department expended \$8407.69, or 44% of the net amount available to meet all other town expenses. The tax rate in

this town is high and the tax burden is placing many classes of property on the side of liabilities, rather than resources to the owner. In view of these facts, we believe, since the school department spends such a large proportion of the tax money, that every effort should be made, and every available means used to reduce this expense so far as possible, consistent with adequate instruction.

C. E. CHAMBERLAIN,

R. M. SIMMONS,

J. E. VOTER,

*Selectmen of Kingfield*

## COUNTY NURSE REPORT

To the Citizens of Kingfield:

I hereby submit my sixth report as the Public Health Nurse for the fiscal year February 1, 1933 to February 1, 1934.

All the students were reweighed in February; also those who had defective vision retested, as Mr. Adams offered to take them to have their eyes examined.

In the spring all students except the first and second grades had their hearing tested with the audiometer. This is a very accurate test, and 40 students can be tested at one time.

A student was taken to an eye specialist in Lewiston, and later taken to the Orthopedic clinic at Memorial Hospital, as he has been lame some time. He was referred to the hospital for operation, the nurse providing transportation, and later took him to and from the hospital clinics.

During the summer ten students received the necessary Dental treatment at the Memorial Hospital.

All students in the late fall had their annual routine health examination. 200 were examined, 144 found defective, 64 students had had corrections, 88 Seven Point Pins and Certificates were awarded during 1933. 14 home calls were made to advise parents of needed corrections and 92 notices sent to parents.

The nurse and the North Franklin County Public Health Committee again extend thanks and appreciation to the teachers and others who have co-operated with them in the Health Work.

*Respectfully submitted,*

ADA H. STAFFORD, R. N.

North Franklin County Public Health Nurse,  
Affiliated with the  
Maine Public Health Association.

## SCHOOL DEPARTMENT

### Report of Superintendent of Schools

---

To the Superintending School Committee and Citizens of Kingfield:

Ladies and Gentlemen:

I take this opportunity to present my first annual report of the work accomplished in, and the plan for the future of our schools.

We have, this year, enrolled in our high school 68 students and in our elementary schools 143, making a total enrollment of 211. The total cost of operating our schools during the past year was \$7,796.57, making a yearly cost per pupil for the education received here in our secondary and elementary schools, \$36.86. For the school year ending 1933 the average cost per pupil was \$85.00 in the State of Maine. These figures show that our schools cost us very much less than the average in the state as a whole. It is rather interesting to carry these figures a bit farther to show that our weekly cost per pupil is \$1.02 and the daily cost of 20 cts.

These figures in comparison to the cost of the town of Strong, a school system which is similar to ours in the number of pupils enrolled and teachers employed: Strong has spent for their schools during the past year, \$9,013.33, with a total enrollment of 204 pupils, making a yearly cost of \$44.18, a weekly cost of \$1.23 and daily cost of 24 cents.

The salary paid to the teachers in both elementary and secondary schools is far below the average that is paid in the State of Maine. The average salary paid to High School Principals in the State of Maine during the past year was \$64.01, the salary that is paid to our principal here in Kingfield is \$47.22 per week. The average salary paid to women teachers in the High Schools of the State of Maine was \$35.39, our average salary is \$22.22. The average salary paid in the State of Maine for elementary women teachers during the last year was \$24.26. The average salary paid for such positions in the schools here was \$14.67. It seems to me that these figures would be of interest to the citizens of Kingfield in measuring the actual cost in dollars and cents of our schools.

INSTRUCTION—The schools in this system have been under my supervision only during the last 22 weeks. The quality of the instruction that is being given to the boys and girls is good. The whole teaching corps works faithfully, and I believe that every teacher is doing his or her possible best to accomplish satisfactory results. A course of study has been compiled for the use of the teachers to make a uniformity of work and furnish a definite outline with aims for them to accomplish

Miss Rowell was engaged to fill a vacancy in the High School caused by the resignation of Miss Rollins. She has taught languages and music in both the high school and elementary grades. Miss Eine Vainio was engaged to fill the position left vacant by the resignation of Mrs. Christine Davis.

Four teachers' meetings have been held during the year and at this time we have tried to discuss some of our many problems and have had experts in different lines of school work talk to us and offer suggestions and helps. One evening session of school was held during the year and was very well attended by the parents who seemed glad to take advantage of the opportunity to see their boys and girls under every day school conditions.

REPAIRS—During the fall term it was found absolutely necessary from a viewpoint of safety and economy to repair the chimney in the high school building. We had no appropriation for this purpose but the work had to be done. The total cost of this repair work was about \$200. It was also found necessary to repair the steps of the primary grade building at a cost of \$50.00. These two unanticipated repairs caused the over-draft of our repair account.

Assistance from the Civil Works Administration was secured on a project to grade the athletic field connected with the school. A strip of land was purchased and paid for by the athletic association at a cost of \$10.00. Grading has been carried out on the south side of the field which will ultimately make it possible for us to move the diamond back, giving a much better out field for our baseball grounds. Posts have been erected for a back stop and a fence has been built across the south side. It is estimated that about one-third of the fill has been made. Because of the adverse weather conditions it seems to me that satisfactory results have been accomplished.

RECOMMENDATIONS—During the coming year it is to be the policy, as far as can now be foretold, to keep the salary of teachers at their present level and if possible increase some of them. If this is done here in the town of Kingfield it will mean that at our annual meeting we will have to have an appropriation of at least \$6,200.00. The schools would like to avail themselves of C. W. A. assistance to the extent of being able to finish the project on which they are now already engaged, and to repair the outside and interior of the two buildings. The Stanley High School building is very badly in need of paint both on the exterior and interior. The condition of the toilets in the primary building should be remedied and the sewer in this building, which has given us more or less

trouble during the past two years, should in some way be fixed. The interior of the primary building is sadly in need of repair. It is estimated that the amount of material that will be necessary for these necessary repairs besides that to be furnished by the C. W. A. will cost at least \$400.00. Of course, the unforeseen and necessary overdraft in our repair account of this year should be undoubtedly taken care of.

HIGH SCHOOL—The citizens of the town of Kingfield have a justifiable pride in Stanley High School. Under the skillful direction of efficient teachers our boys and girls are not only acquiring the fundamentals of education but are learning the elements that go to make up happy and useful citizens of tomorrow. There is more to be learned in the good schools of today than the ability to read, write and cypher. Here in Kingfield it seems to me that this is being done in a way that cannot help but be of lasting benefit to our youth. Following is a brief report submitted by Principal Rhuland:

#### REPORT OF PRINCIPAL OF STANLEY HIGH SCHOOL

Mr. T. A. DeCosta, Superintendent of Schools, and the Citizens of Kingfield:

The High School opened for the current year on September 4, 1933, with a total registration of 71 pupils. The enrollment was distributed as follows: 32 freshmen, 13 sophomores, 10 juniors, 14 seniors, and 3 post-graduates. From the total enrollment 6 have left school leaving a working registration of 65 pupils. The entering class last fall was increased considerably by the addition of several pupils from Carrabassett. Such registration should be encouraged for the state pays a tuition charge to the town of King-

field for each tuition pupil enrolled. The following is a list of the pupils in their classes.

Strout, Albert	Tufts, Christine
Wing, Muriel	Witham, Margaret

There has been one change in the faculty this year. Miss Eleanor Rowell, Colby '33 is teaching the Latin and French courses. Miss Rowell is teaching music one period each week in both the elementary grades and the high school. This has been made possible by the revision of the class schedule.

I am pleased to report that the New England College Certificate Board has again renewed the certificate privilege of Stanley High School. This entitles all graduates maintaining certificate grades to admission without examination to all New England Colleges which are members of this board, and reflects much credit upon the quality of work being done by our graduates in the various colleges.

In addition to the above honor Stanley High School is again classified, as for many years, by the State Department as a Class A High School, fulfilling all requirements as to curriculum and faculty for such schools.

A recent addition to school equipment is a large radio of the finest type. Made possible by a gift of twenty dollars by the Parent Teachers Association and the profit from the sale of magazines and refreshments. As a result of this investment the many educational features now on the air are constantly available in addition to the entertainment possibilities at various school parties.

Continued improvement in the athletic field has been carried on with the hope that our field will soon be the best in this section. Through the generosity of Dr. C. J. Dunlap, a very fine tennis court will be available this spring.

I wish to express to you as Superintendent and to the members of the School Committee my sincere appreciation for the cooperation and assistance which I have received throughout the year.

*Respectfully Submitted,*

M. M. RHULAND,

*Principal of Stanley High School.*

At this time I personally want to thank the school committee for their kindly advice and help to me in taking up the supervision of their schools of this town. I also want to thank the citizens who have shown such a helpful interest in our schools.

*Respectfully Submitted,*

T. A. DECOSTA,

*Superintendent of Schools.*
