COUNTY NURSE REPORT

To the citizens of the Town of Kingfield I hereby submit my seventh report as the Public Health Nurse for the fiscal year, February 1, 1934 to February 1, 1935.

Each spring the students are re-weighed and usually those 10% underweight in the fall have gained several pounds (so that if they have no other defects) they receive their 7 Point pins.

Thirty-one students had their hearing tested with the audiometer, almost all from the 3rd and 4th grades.

Several visits were made to interested individuals and a short talk at the Parent-Teachers meeting in regard to the summer round-up of pre-school children. Where this is done the mother can be advised before school opens of needed corrections, and the child be ready to enter school with teeth, throat, etc., in good condition.

Some very important Social Service work was done; often the nurse can help where the patient hesitates to consult friends.

Home Nursing was demonstrated at the July meeting of the Farm Bureau, practical teaching of those who may have the care of the family should prove of great benefit to nurse as well as patient.

All students had their annual Routine Health Examination in the fall and during the year 75 received 7 Point pins and certificates.

Respectfully submitted,

ADA H. STAFFORD, R. N.

North Franklin County Public Health Nurse,
Affiliated with the
Maine Public Health Association.

SCHOOL DEPARTMENT

Report of Superintendent of Schools

TOWN OF KINGFIELD

To the Superintending School Committee and Citizens of Kingfield,
Ladies and Gentlemen:

It is a pleasure to present to you my second annual report of the schools for the fiscal year ending February 15, 1935.

We have had, during this year, enrolled in our high school, 63 students and in our elementary schools 148 pupils, making a total enrollment of 211. The total cost of operating our school, other than the amount spent for repairs has been \$8,146.10.

INSTRUCTION: We have been able to retain the same teaching force as that of last year and at the time of their reelection small increases in salary were given to several teachers in the system. During the summer vacation one of the high school teachers was offered a new position and it was the opinion of the superintendent that rather than to let her go that an attempt should be made to make an offer equal to that made to her by the other town. This was done at that time. Making the following salary schedule effective:

High School Principal	\$ 1,750 00	per year
First Assistant	1,100 00	" "
Second Assistant	750 00	" "
Seventh and Eighth Grade	25 00	" week
Fifth and Sixth Grade	16 00	" "
Second, Third and Fourth	14 00	" "
Primary and First	16 00	" "
Janitor	13 00	" "
1 Conveyance Team	8 00	" "

It is rather interesting to compare this scale with wages paid in other towns of this district:

	AVERAGE SALARY HIGH SCHOOL	AVERAGE SALARY ELEMENTARY	JANITORS
Kingfield	\$ 1,200 00	\$ 17.75	\$ 13 00
Strong	1,230 00	18 00	16 20
Phillips	1,137 00	13 77	15 00

It is my recommendation that in most instances the salaries for the coming year should not be decreased but should be maintained at their present level with the exception of one elementary salary that should be brought to the same level as the others.

The instruction given in our school during this year has, on the whole, been satisfactory, although we realize that at present a great deal must be accomplished in securing better preparation for our boys and girls who are entering high school. Two years ago a primary grade was added to the system with the result that we now have nine years of elementary school work and the results obtained from this addition will be apparent in a few years to come. We have also more definitely outlined the work. Six teachers' meetings have been held during the year and these have been faithfully attended by the Kingfield teachers. At these meetings an attempt is made to take up in a practical way the discussion, and if possible, solution of some of our own local problems.

One evening session of school was held on the evening of Oct. 18, and at this session we had an excellent attendance of interested parents and friends. In view of the interest shown the evening session, it will be continued as an annual event.

REPAIRS: In this department it was pointed out last year, that the toilets and sewer connected with the primary building were in a very unsatisfactory condition. During the year these have been repaired at an estimated expense of approximately \$500.00. A condition existed that was in immediate need of correction and while the sewer was being repaired it was felt advisable to have the whole thing remedied. In anticipating these repairs it was felt that we would have the assistance of the FERA, but this was not forthcoming as Kingfield's allocation was used for roads and we had none available for the schools.

It was also pointed out last year that the exterior and interior of the high school building should be painted. We have been able to accomplish the painting of the interior with many repairs and alterations, making a much more attractive, and from an instructional standpoint, a much more workable interior.

RECOMMENDATIONS: In view of the recommendation that I have already made in regard to keeping our salary scale at its present level, it will be necessary for us to have an appropriation equal to that of last year. This appropriation was \$6,000.00.

The matter of repairs should be settled by the voters at their annual town meeting. As has already been pointed out, the exterior of the high school building is in need of paint. The present paint is peeling away from the surface and in many places exposing the building to the wear of the elements. To my mind it will not be good economy to delay its painting for a longer period of time.

If this is to be done, an appropriation of \$300 for this one purpose will be necessary. The interior of the primary building is in need of paint and rearrangement. This could be done at an estimate cost of \$150. Then of course, the unforeseen, but unavoidable overdraft in our repair account of this year should undoubtedly be taken care of.

HIGH SCHOOL: The work carried on in Stanley High School has been of a satisfactory nature. A higher standard is being expected and in most instances is being obtained. The teaching force has worked faithfully, and that work has been productive of good result. Following is a brief report submitted by Principal Rhuland:

REPORT OF PRINCIPAL OF KINGFIELD HIGH SCHOOL

Mr. T. A. DeCosta, Superintendent of Schools, and the citizens of Kingfield:

The Kingfield High School opened for the current year on September 4, 1934, with a total registration of 64 pupils. The enrollment was distributed as follows: 19 Freshmen; 24 Sophomores; 10 Juniors; and 8 Seniors. From the total enrollment, 6 have left school, leaving a working registration of 58 pupils. Kingfield High has joined with Strong and Phillips High Schools in a project of one-act plays, this year. One set of plays has already been presented and another set will soon be given to the three towns by the three schools. A contest of One-Act Plays will be held at Farmington in April, and the winning school will compete at the State Contest at Bowdoin College, in May.

I am pleased to report that the New England College Certificate Board has renewed the certificate privilege of Kingfield High School. This time the renewal is extended to the year 1938. This entitles all graduates maintaining certificate grades to admission without examination to all New England Colleges which are members of this board, and reflects much credit upon the quality of work being done by our graduates in the various colleges.

In addition to the above honor, Kingfield High School is again classified by the State Department as a Class A High School, fulfilling all requirements as to curriculum and faculty.

I wish to express to you, as Superintendent, and to the members of the School Committee, my sincere appreciation for the cooperation and assistance which I have always received.

Respectfully submitted,

M. M. RHULAND,

Principal of Kingfield High School.

CONCLUSION: Of course the results obtained in a school system show, to some extent, the interest that the citizens of that community have in their schools. It has been my observation that it is the desire of the citizens of Kingfield to find for their boys and girls as good school facilities, both physical and professional, as it is in their power to provide. With this fact in mind, I have made this report and recommendations.

The cooperation of citizens and school officials who have greatly assisted in improving our schools is appreciated by the Superintendent and teachers.

Respectfully submitted,

T. A. DECOSTA,

Superintendent.
