F. A. Noyes.	

To the Citizens of the Town of Sullivan:

In accordance with the instructions of the School Board, I hereby submit a brief report of the financial standing and condition of our schools for the year ending March 1, 1904.

The whole number of pupils in town is three hundred and forty-seven. The entire enrollment in the schools for the past year has been two hundred and forty-six, the average attendance two hundred and nineteen. The length of the school year has been twenty-eight weeks, divided into three terms, one of ten and two of nine weeks each.

At West Sullivan the grammar school has been successively under the management of Mr. John W. Higgins, Mr. Everett Ober and Mr. Andy P. Havey.

Miss Pease went back to the intermediate school for the year. Miss Bunker had the primary. Because of the crowded condition of this school, Miss Gussie Robertson was employed as assistant for several weeks during the spring term.

The spring term at Sullivan was taught by Miss Evans. Miss Patten taught the fall and winter terms.

Miss Smith was at the Centre for the year.

At East Sullivan the spring term was taught by Miss Patten. Miss Farnsworth began the fall term, but at her request was released. Miss Evans finished the term and also taught the winter term.

Miss Clara Chilcott was at the Ash district for the spring term, Mr. George Patten for the fall and winter terms.

The teachers at Tunk were Miss Dunbar, spring; Miss Simpson, fall; and Miss Urann, winter terms.

Our teachers have been uniformly successful the past year, but to do the very best work we must have the co-operation of the parents. Many parents do not seem to realize what a vast deal they could help their children in their school work by just a little of the right kind of encouragement. One of the evils of the present day and one which could be in a great part corrected by the parent or guardian, is a dislike on the part of many children for regular attendance or determined effort in overcoming difficulties. There seems to be an ever increasing feeling that school is not a serious occupation, and that it may be put aside for almost anything that occurs. It may be a ball game or the county fair, but it is the excuse for a day's or perhaps for a week's absence.

HIGH SCHOOL.

In the high school we have not deviated to any great extent from the general plan adopted last year. The course of studies has been modified somewhat but not essentially changed. Nearly all the pupils are coming into line and by another year all ought to be taking the regular work. A crying need of our

school is a permanent schoolroom. Each time we are compelled to change, our text books, library and apparatus suffer, and until we have this there will be little to encourage us to add to the library and collections.

REPAIRS.

A wood shed has been erected at West Sullivan. The school house is very much in need of paint both inside and out.

At Sullivan the seats have been turned, the school room painted and the windows opened at the back of the room. The outside of the building, however, needs painting.

The school house at the Centre has been painted. The building needs to be raised and the wood shed to be enlarged.

At the Ash district the wood room ought to be taken out and a window placed in the back. This room also needs other repairs, such as papering, etc.

The school room at Tunk has been put in thorough repair. The East Sullivan school house should be painted.

THE TUNK SCHOOL.

In explanation of the article in the warrant relating to the Tunk school, I will quote from the school laws. "Schools having an average of less than eight can be continued only by a vote of the town at the regular annual meeting, after a written recommendation by the S. S. committee."

The board recommends that the school be continued.

I respectfully recommend that the following amounts be raised for school purposes for the ensuing year ;
