## School Superintendent's Report.

The schools, in general, have made good progress.

The teachers have been capable in every instance.

If any scholar has not made the progress that he should it is because he has been evil in the matter himself.

If each parent will be sure that his own scholar uses school property right, it will bring great improvement.

The parent has a duty in this matter that neither the school officers, or the law can perform.

Repairs have been quite well kept up, but some more are needed, especially on out buildings.
