		\$4,545	62
	Overdraft	\$1,245	29

The approach to Ticonic Bridge was made at an expense of about \$500.00 and charged to road account.

On examination of Gilman street bridge we found it necessary to thoroughly repair it, which we did at an expense of about \$350.00.

\$87,530 00

APPROPRIATIONS RECOMMENDED FOR THE ENSU-ING YEAR.

For Common Schools	\$6,000
Free High School	2,250
Highways, including deficiency	6,200
Support of Poor, including deficieny	6,200
Night Watch	1,500
Lighting Streets	1,000
Current Expense, including deficiency	3,000
Fire Department, including deficiency	3,500
Police Services	200
Town Bonds	5,000
Interest on Bonds	2,000
Interest on Interest-bearing Orders, including deficiency	1,500
Interest-bearing Orders	3,950

The Interest-bearing Orders have been increased \$7,000 the past year, \$6,000 of which went to the construction account of Ticonic Bridge, and \$1,000 was applied to deficiencies in overdrawn accounts.

Your Selectmen would recommend that the town raise by assessment \$3,950, to pay that amount of interest-bearing orders, and that the town issue Bonds to the amount of \$20,000, the proceeds of which shall be used to pay the balance of the interest-bearing Orders.

C. E. MITCHELL, Selectmen
D. P. BUCK, of
J. F. MERRILL, Waterville.

W. B. ARNOLD,		
	Committe	•

CERTIFICATE OF AUDITOR.

I hereby certify that I have made a careful examination of the accounts and vouchers of E. H. Piper, Collector and Treasurer, also of the Selectmen for the Town of Waterville, showing the receipts and expenditures for the year ending February 20, 1886, and find that the same have been carefully kept, correctly cast and properly vouched, and that the amount in the hands of the Collector and Treasurer at the close of the year is Four Thousand, Nine Hundred and twenty-eight dollars and eighty-two cents (\$4,928.82).

I further certify that I have examined the accounts, vouchers and securities of the Cemetery Committee, and find the same correct as per report.

I further certify that I burned, in the presence of Selectman C. E. Mitchell and Treasurer E. H. Piper, bonds which fell due January 1, 1885 and Jan. 1, 1886, amounting to Four Thousand, Nine Hundred Dollars, viz.: nine bonds of One Hundred Dollars each, numbered from 51 to 59 inclusive; four bonds of Five Hundred Dollars each, numbered 125, 133, 135 and 136; two bonds of One Thousand Dollars each, numbered 165 and 166. I also burned coupons amounting to Two Thousand, One Hundred and Seventy-seven Dollars and fifty cents (\$2,177.50), all of which had been paid during the year by orders on the Treasurer.

H. D. BATES, Auditor.

Waterville, March 4, 1886.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER, 1885.

The Fire Department force is the same as last year.

J. D. HAYDEN, Chief Engineer.

R. L. PROCTOR, Asst. Engineer.

STEAMER F. C. THAYER CO., NO. 1.

A. H. Plaisted, Foreman; I. Robinson, Ass't Foreman; E. A. Vose, Clerk and Treasurer; and thirteen men.

APPLETON HOOK AND LADDER CO., NO. 2.

Wm. B. Proctor, Foreman; A. H. Gilman, Ass't Foreman; H. P. Bush, Clerk and Treasurer; F. G. Bridges, Stewart; ten men.

The equipments for truck are the same as last year, but are now located at old No. 3 Engine House.

TICONIC ENGINE CO., NO. 1.

F. A. Knauff, Foreman; E. F. Longman, 1st Ass't; D. A. Withee, 2d Ass't; Samuel Osborn, Hose Master; M. F. Davis, Clerk and Treasurer; Charles Wheeler, Ass't Clerk; Robert Gulifer, 1st Pipeman; George Spear, 2d Pipeman; J. B. Wendall, Steward; and eighteen men.

NEPTUNE HOSE CO.

F. W. Davis, Foreman; C. A. Hall, Clerk and Treasurer; and eight men.

WATERVILLE ENGINE CO., NO. 3.

Joseph Matthieu, Foreman; Levi Bushy, Ass't Foreman; George Landry, Foreman of Hose; Paul Perry, Clerk; James Ronco, Ass't

Clerk; Joseph Carey, Steward; Standing Committee, Levi Bushy, George Landry, Paul Perry; and 35 men.

The fire apparatus is the same as last year, with the exception of one thousand feet of new hose added. The old leather hose we exchanged for new cotton hose, making in all now, 3,250 ft. rubber lined cotton hose, and 850 ft. rubber-lined linen hose. Also, we have a fine pair of horses which are kept in new stable, or Steamer house. And, let me say here, I do not think when the Town sees how little extra expense outside of what they have earned on the streets the past year, they will want to part with them. If they do, they can get their money back, for a finer pair of horses for the place cannot be found.

A steam-heater, to keep the water hot in the boiler, and a pair of swing harnesses are now needed to make everything complete in the Steamer house.

FIRES DURING THE YEAR.

In 1885, May 1st, false alarm; May 22d, false alarm; July 18th, false alarm.

July 19th, alarm of fire caused by burning of Charles Gilman's barn Loss, \$2,000. No insurance. Cause of fire unknown.

Oct. 26th, alarm caused by slight fire in Lockwood Co. tenement house, Winslow. Loss small.

In 1886, Jan. 13th, alarm caused by fire at Dr. Pepper's house, caused by hanging clothes too near stove. Loss, \$46.00. Insured.

Feb. 17th, alarm of fire caused by burning out of chimney and taking fire around chimney in Hanscom block. Loss, \$10.00.

Feb. 29th, alarm of fire caused by burning of Lockwood tenement house, at the Head of the Falls. Loss, \$300.00. Insured. Cause of fire, defective chimney.

Thanking the officers and members of the Companies in the Department for their promptness and assistance at all times, and also the hearty support received from the citizens, my wish is that in the future they give the Engineer, whoever it may be, as cordial support as they have me.

J. D. HAYDEN, Chief Engineer.

REPORT OF S. S. COMMITTEE.

To the Citizens of Waterville:

The S. S. Committee of Waterville respectfully submit the following report:

The schools are generally in good condition. Creditable work has been done both by teachers and pupils, and yet it would show a want of knowledge of educational needs or a want of interest therein, to say that we are wholly satisfied with what has been done. It is possible to advance, to make the schools more efficient, to raise them to a higher level, and in order to accomplish results so desirable, much earnest work on the part of school officers and teachers still remains to be done.

When we say the schools are in good condition, we mean that they are orderly, that the routine work is well done, that the attendance is, in general, regular, and that there is less tardiness, fewer dismissals, and less truancy, in proportion to the number of pupils, than formerly. A better condition still is possible, and we hope, probable.

We believe that the interest, enthusiasm, in short, the tone of the school-room may be such that the majority of the pupils would greatly prefer it to any other place. Children have as a rule, great curiosity. This under proper stimulus and direction renders the work much more efficient and agreeable. Hence, as has often been said, teachers need "to be in love with their work," to be firm, kind and charitable; to allow no personal considerations to diminish their interest, or interfere with their zeal in the work of their schools. Teachers need to be wise. Not only that, but they must grow wiser every day. If they do not they are losing, going back every day; and the strain of the school sometimes draws them back very rapidly.

How many of our teachers are satisfied with their work? It is a poor sign if any are. How many have an object of personal interest to attend to after the regular school work is over for the day? If so, how many hurry through the recitations of their classes sometimes in order to gain a little time to devote, directly or indirectly to that object? How many hail with delight a "one session day?" How many sit all day on the platform instead of showing their interest by frequently moving about the room? How many break into the children's Saturday holiday for the purpose of making up lost time, whether caused by sickness or otherwise? This list of questions might be extended to great length, but enough are given to indicate to some extent some of the means by which teachers can discover whether or not they are on the road to the highest development of their schools.

CHANGES IN THE TEACHING FORCE.

The teachers employed are nearly the same as last year. Only one resigned during the year. Miss Turner gave up her school on the Plains at the close of the summer term. Miss Addie True, who had done very acceptable work in the Oakland St. school, was appointed to the place left by Miss Turner. Miss Belle Soule of the Webb school was promoted to the Oakland St. school, and Miss Hattie Tibbetts, a teacher of considerable experience, was employed to take charge of the Webb school. Since the commencement of the Fall term, teachers have been temporarily employed in the schools of Miss Foster and of Miss Morse. These teachers have done good work. They are young, but with experience will become first class.

PHYSIOLOGY.

The chief purpose of this study as a branch of common school instruction is to give useful, practical knowledge of the laws of health. That there is great need of such knowledge all will readily agree. The law requiring the addition of this study to the curriculum of the schools, gives special prominence to a particular class of subjects to be taught, viz: the effect of stimulants and narcotics on the human system.

To start right in this matter much care and thought on the part of the committee was necessary. Teachers needed preparation.

The best books were greatly to be desired and an arrangement for time was to be made. In the High School we retained the book which had been in use there for several terms, with an understanding that the teacher should supplement the same with all necessary and proper oral instruction. A new book was put into the Grammar School, "Our Bodies and How We Live," by Prof. Blaisdell, and for the Intermediate and the upper classes in the Primary Grade a small book called the Primer of Health was introduced. For the Sub-Primary grade, instruction is given orally by the teachers. The importance of this branch of study is well understood both by committee and teachers, and we hope soon to have the matter so arranged as to produce the best possible results.

SCHOOL-HOUSES,

The new school-house on Oakland street was completed last year, in season for the summer term. The site is pleasant, but the lot needed considerable filling, particularly about the building. During the first term we found that the cellar contained water several inches in depth. Sanitary reasons required that this water be removed. Consequently we put in a drain. This accomplished the object desired. The bottom of the cellar was also covered with gravel. These improvements added something to the appearance and much more to the healthfulness and convenience of the premises.

The High School lot has been improved by filling and grading. The roof of the building has also been much improved by tinning the valleys.

The trouble with the closets in the building, still exists. It is the opinion of the committee that they should be removed from the building and other provisions made for them. Two years ago the town raised and appropriated \$300 for that purpose. Being desirous of retaining them in the building if possible, the removal was postponed. Great efforts have been made to keep the atmosphere about the rooms in a healthful condition, but in spite of all efforts it frequently becomes foul. To accomplish what is needed to be done will require some two or three hundred dollars more.

During the year all the rooms and halls in the No. Brick, So. Brick, and So. Primary buildings were thoroughly overhauled, repaired, whitened and painted, making them much more healthful, cheerful and agreeable.

The first grammar school-room has, in addition to other repairs, been supplied with new furniture, greatly adding to the comfort and convenience of both teacher and pupils and making the general appearance of the room much more agreeable.

FRONT STREET PRIMARY.

The paint shop on Front street still does duty as a school-room. It is wholly unfit for the purpose, yet the children attending there seem to enjoy it and very much prefer it to the convenient rooms on Mill and Pleasant streets where a goodly number of them could be accommodated. From term to term and from year to year they carry along the old, old complaint, "Clothing very poor and distance too great."

Under such circumstances the committee have thought it proper to recommend the construction of a comparatively inexpensive building, and to lease a lot somewhere in the vicinity of the Head of the Falls on which to place it. In this way we could afford the people residing there fair school accommodations, and when it should become necessary for them to remove, such building could also be removed to any other part of the town without great expense.

NECK SCHOOL.

The sum raised and pppropriated last year for the purpose of building a school house on the Neck has not been called for. The committee did not think it advisable to build a new building for the very small number of children who would attend there. It appeared also that the amount raised was hardly sufficient to purchase a lot and build and furnish even a small school house. Instead of building it was thought best to repair the old school house which we accordingly did, and opened a school in the same at the beginning of the fall term. The first day the whole number in attendance was two. After a few days there were three present. This number finally diminished to one and we closed the school.

CONCLUSION.

In conclusion we would again urge upon the attention of parents the great good which would result if they would more frequently visit the schools. By doing so they would come in closer proximity to the educational process through which their children are passing, un derstand better whether the complaints the children sometimes make are just or unjust, and have a better conception of their own duty to their children. Frequent visits, particularly on the part of the mothers of the children of the Primary grade, would greatly assist in the work of these schools and benefit themselves, their children and the entire community.

S. S. BROWN,

J. G. SOULE, A. W. SMALL

NUMBER OF TERMS TAUGHT.

High School, 4 terms of ten weeks each. All other schools, 4 terms of nine weeks each.

NAMES OF TEACHERS.

High School—Warren C. Philbrook, Principal; Minnie L. Smith, 1st Ass't; Nellie G. True, 2d Ass't.

1st Grammar School-Alice V. Drummond.

2d Grammar School-Carrie E. Fuller.

North Intermediate—Florence L. Drummond.

South Intermediate—Elizabeth H. Stevens.

South Primary—Laura F. Fifield.

Sub-Grade—Georgia A. Wells.

Plains Primary—Addie True.

North Primary—Lema C. Goodell.

Oak Street Primary, 1st grade—E. T. Wyman.

Oak Street Primary, 2d grade-Barzie Nowell.

Oak Street Primary, 3d grade-Mary C. Morse.

Mill Street Primary—Kate B. Edwards, a substitute for Carrie Foster.

South Plains Primary-Addie Soule and Lizzie A. Hodgdon.

Front Street Primary—Lena Martelle.

Oakland Street Primary—Mabel A. Soule.

Webb District, Hattie Tibbetts.

COURSE OF STUDY AND TEXT-BOOKS.

PRIMARY GRADE.

Reading, Spelling, Writing, Arithmetic, Geography, Oral Lessons on Languages, Plants, Animals, Physiology.

Text-Books.—Primary Reading Charts, Eclectic First, Second and Third Readers, Harvey's Speller, White's Primary and Intermediate Arithmetics, Warren's Introductory Geography, Primer of Health.

INTERMEDIATE GRADE—COURSE OF TWO YEARS.

Reading, Spelling, Writing, Arithmetic, Geography, Grammar. Oral Lessons on Plants, Animals, and Organs of Organic Bodies, and Drawing.

Text-Books.—Eclectic Fourth Reader, Swinton's Word-Book, White's Intermediate Arithmetic, Warren's Introductory Geography, Swinton's Grammar (First Lessons).

GRAMMAR GRADE.—COURSE OF TWO YEARS.

Reading, Spelling, Writing, Drawing, Arithmetic, Geography, History of the United States, Grammar, Oral Lessons in Natural History, Physiology and Natural Philosophy, and weekly exercises in English Composition.

Text-Books.—White's Complete Arithmetic, Warren's School Geography, Swinton's Grammar, Swinton's Word Book, Scudder's School History, Eclectic Fifth Reader, Scholar's Manual of the Constitution, and Blaisdell's Physiology.

HIGH SCHOOL COURSE.

FIRST YEAR.

First Term.—Algebra, Reading and Spelling, English Grammar or Latin.

Second Term.—Algebra. Reading and Spelling, English Grammar or Latin.

Third Term.—Algebra, English History, Physical Geography or Latin.

Fourth Term.—Algebra, English History, Physical Geography or Latin.

SECOND YEAR.

First Term.—Arithmetic, English History, Book-keeping (Single Entry) or Latin.

Second Term.—Arithmetic, General History, English Composition or Latin.

Third Term.—Geometry, General History, English Composition, five weeks, and English Literature, five weeks, or Latin.

Fourth Term.—Geometry, Botany, English Literature or Latin.
THIRD YEAR.

First Term.—Geometry, Natural Philosophy or Greek, Science of Government or Latin.

Second Term.—Geometry, Natural Philosophy or Greek, Science of Government or Latin.

Third Term.—Physiology, Chemistry or Greek, Rhetoric or Latin.

Fourth Term.—Physiology, Chemistry or Greek, French or Latin.

FOURTH YEAR.

First Term.—U. S. History (review), Geology or Greek, French or Latin.

Second Term.—Algebra (review), Shakespeare's Julius Cæsar or Greek, French or Latin.

Third Term.—Arithmetic (review), Astronomy or Greek, French or Latin.

Fourth Term.—Geography (review), Astronomy or Greek, Book-keeping, Double Entry and review of Single Entry, or Latin.

ENGLISH DEPARTMENT.

Text-Books.—Wentworth's Algebra, Warren's Physical Geography, Steele's Zoology, Wentworth's Plane and Solid Geometry, Thalheimer's English History, Hutchinson's Physiology, Norton's Physics, Dana's Geology, Alden's Science of Government, Lockyer's Astronomy, Steele's Chemistry, Gray's Botany, Meservey's Book-keeping, Swinton's Gen'l History, Greenleaf's Arithmetic, Warren's Geography, Swinton's Grammar, Lippincott's Reader, Hill's Rhetoric.

CLASSICAL DEPARTMENT.

Harkness' Latin Grammar, Latin Reader and Latin Prose Authors, Hanson and Rolfe's Selections from Virgil and Ovid, Otto's French Grammar and Reader.

TOWN WARRANT.

Io E. H. Piper, a Constable of the Town of Waterville in the County of Kennebec:

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Waterville, qualified by law to vote in town affairs, to meet at the Town Hall, in said town, on Monday, the fifteenth day of March, A. D. 1886, at nine o'clock in the forenoon, to act on the following articles, to wit:

- ART. 1. To choose a Moderator to preside at said meeting.
- ART. 2. To choose a Town Clerk, Selectmen, Assessor, Overseers of the Poor, and one or more Superintending School Committee.
- ART. 3. To see what method the Town will adopt to collect the taxes for the ensuing year; also to see if the Town will fix a time when taxes for the ensuing year shall be due and payable; order an abatement to be made on any of said taxes which shall be paid within certain periods; charge interest on taxes not paid when due and payable, or take any action under this article.
- ART. 4. To choose a Treasurer, Collector, Town Agent, Auditor of Accounts and all other necessary Town Officers.
- ART. 5. To see if the Town will vote to raise a sum of money for the support of schools.
- ART. 6. To see if the Town will vote to raise a sum of money for the support of the Poor.
- ART. 7. To see if the Town will vote any instructions in relation to the management of the Poor or of the Town Farm.
- ART. 8. To see what method the Town will adopt to repair the roads, bridges, drains and sidewalks and raise a sum of money to pay for said repairs the ensuing year.
- ART. 9. To see if the Town will vote to raise a sum of money to pay the current expenses of the Town the ensuing year.
- ART. 10. To see if the Town will vote to raise and appropriate a sum of money to pay its interest-bearing debt or any part thereof, or take any action in regard to the same.
