Wm. H. Arnold, Legacy Fund for special Cemetery purposes.....	5,000 00	
	\$76,879 19	\$76,879 19

The Wm. H. Arnold legacy fund for special cemetery purposes, which the town voted to accept under article No 36 in the warrant for annual meeting for 1883, was paid to the selectmen March 4, 1886, by the executors of Mr. Arnold's Will. Your selectmen with

the view to have the fund safely invested, and at the same time yield a fair income, invested the same in the Mortgage Loans of the Lombard Investment Company (John Ware Agt.) which pay six per cent interest per annum, payable semi-annually, and the payment of principal and interest are guaranteed by the Lombard Investment Company.

SCHEDULE OF PROPERTY BELONGING TO THE TOWN
FEB. 20, 1886.

W. B. ARNOLD,

For Committee.

Certificate of Auditor.

I hereby certify that I have examined the accounts and vouchers of the late E. H. Piper, Collector and Treasurer, showing his receipts and expenditures from Feb. 21, 1886 to Sept. 18, 1886, and find that there is due from the estate of said Treasurer and Collector the sum of Sixteen Hundred and Seventy-five Dollars and thirty-two cents. (\$1,675.32).

I further certify that I have examined the accounts and vouchers of A. H. Plaisted, Treasurer and Collector, showing his receipts and expenditures from Oct. 2, 1886 to Feb. 20, 1887 and find that the same have been carefully kept, correctly cast, and properly vouched, and that the amount in the hands of said Collector and Treasurer, at the close of the year is Four Thousand Nine Hundred and Twenty Dollars and sixty-four cents (\$4,920 64).

I further certify that I burned, in the presence of C. E. Mitchell, Selectman, bonds of the Town of Waterville, and coupons of same, paid by A. H. Plaisted, Collector and Treasurer, viz: Ten bonds of \$100 each, Nos. 61 to 70 inclusive; six bonds of \$500 each, Nos. 137 to 142 inclusive and one bond of \$1000, No. 167, amounting in all to Five Thousand Dollars. Coupons amounting to Fourteen Hundred Forty-seven dollars and fifty cents (\$1,447.50). I also burned the following bonds and coupons, same having been paid by the late E. H. Piper, Coll. and Treas., viz: Four bonds of \$500 each, Nos. 130, 131, 132, and 134 and one bond of \$100, No. 59, amounting in all to Two Thousand One Hundred Dollars. Coupons amounting to One Thousand Seventy-seven dollars and fifty cents (1,077.50). I further certify that I have examined the securities, accounts and vouchers of the Cemetery Committee and find the same correct as per report.

H. D. BATES, *Auditor.*

Waterville, March 3, 1887.

FIRE DEPARTMENT.

WATERVILLE, FEB. 21, 1887.

To the Selectmen of Waterville :

GENTLEMEN :—As required by Sec. 4 of the Fire Ordinance I have the honor to submit for your consideration the following report of the condition of the Department for the year ending Feb. 20, 1887, embracing the force of the department, a schedule of the property of the town and where located, a record of all the alarms of fire which have been responded to by the Department with the loss and insurance on the same and the cause as far as can be ascertained, and such other information and recommendations as may be of interest to you and the voters of the town.

The Apparatus of the Department consists of One Steam Fire Engine and Reel, One Hose Carriage, One Hook & Ladder Truck, One Hand Engine and Reel in active service and One Hand Engine and Reel held in reserve.

The Force of the Department consists of one Chief Engineer and Two Asst. Engineers, Two Engine Companies, one Hook and one Hose Company as follows :

A. H. PLAISTED, Chief Engineer.

R. L. PROCTOR, 1st Asst. Engineer.

A. L. MCFADDEN, 2nd Asst. Engineer.

STEAMER F. C. THAYER CO., NO. 1.

Increase Robinson, Foreman ; A. Thompson, Asst. Foreman ; E. A. Vose, Clerk and Treasurer ; and 12 men.

APPLETON HOOK AND LADDER CO., NO. 2.

R. L. Stewart, Foreman ; H. C. Morse, Asst. Foreman ; G. S. Dolloff, Clerk and Treasurer ; and 12 men.

WATERVILLE ENGINE CO., NO. 3.

Joseph Perry, Foreman; Edward Baldic, Asst. Foreman; Paul W. Perry, Clerk and Treasurer; and 37 men.

NEPTUNE HOSE CO. NO. 6.

Frank W. Davis, Foreman; E. Gilpatrick, Asst. Foreman; C. H. Hall, Clerk and Treasurer; and 12 men.

The houses of the department are all in fair condition and will not need any extensive repairs the coming year.

SCHEDULE OF PROPERTY.

Property in the house of F. C. Thayer Engine Co. No. 1 :

1 Button Steam Fire Engine and Reel, 1500 feet of Fabrick hose, 2 horses, 1 pair of swing harnesses, 1 pair of work harnesses, 14 rubber coats and straps, 1 axe, 2 bars, 4 discharge pipes, 12 nozzles, 7 ladder straps, 14 spanners, 4 spanner belts, 2 monkey wrenches, 2 oil cans, 2 suction spanners, 3 S wrenches, 3 small wrenches, 1 screw driver, 2 packing wrenches, 1 wheel wrench, 1 hammer and coal shovel, 1 jack screw, 1 whip, 1 crossbar and whiffletree, 1 steam heater, 2 stoves, 70 ft. 1 inch rubber hose, 1 pair steps, 1 duster, 2 brooms, 1 shovel, 1 force pump, 1 coal shovel, 4 lamps, 1 stable lamp, 1 lantern, 2 horse blankets, 2 fly nets, 2 rubber covers, 4 halters, 2 stable pails, 2 pitchforks, 1 pair cut nippers, 1 punch, 1 kerosene can, 1 window brush, 1 comb and brush, 1 gin block, 1 wash tub, 1 sprinkler, 1 bedstead and mattress, 1 stand, 2 carpets, 19 chairs, 1 office desk, 14 lamp chandelier, 30 bales of hay, 1 bale of straw, 25 lbs. of cotton waste, 100 feet of 3 inch rope, 1 1-2 tons stove coal, 2 tons steamer coal, 1 ash barrel.

Property in charge of Appleton H. & L. Co. No. 2 :

1 H. & L. Truck, one 50 foot Bangor extension ladder, one 19 and one 20 foot roof ladder, one 26 foot ladder, two 24 foot ladders, two 20 foot ladders, 2 large fire hooks on poles, 4 small fire hooks, 4 axes, 2 lanterns, 2 torches, 4 buckets, 1 iron bar, 1 door opener, 1 fire hook and chain, 1 pair ladder dogs, 2 coils rope, 2 ladder cranks, 1 carriage wrench, 1 carriage jack, 1 horse pole, 8 rubber coats and straps, 14 fire hats, 3 engineers' coats, 1 whiffletree, 1 carpet, 1 office desk, 30 chairs, 1 4 lamp chandelier, 4 lamps, 2 stoves, 1 broom, 1 shovel.

Property in charge of Waterville Engine Co. No. 3 :

1 Button Hand Engine and Reel, 900 feet of Fabrick hose, 2 axes, 6 spanners and belts, 1 wrench, 1 crossbar and whiffletree, 2 lanterns, 3 discharge pipes, 6 nozzles, 6 rubber coats, 1 stove, 1 wooden pail, 40 chairs, 3-4 cord of wood. The company owns its hall furniture and I would recommend that the town should purchase it so as to have uniformity in that respect throughout the Department.

Property in charge of Neptune Hose Co. No. 6 :

1 four wheel hose carriage, 1300 feet of hose, 2 discharge pipes and nozzles, 4 lanterns, 16 rubber coats and straps, 12 fire hats, 7 spanners and belts, 7 ladder straps, 2 hydrant wrenches, 1 carriage wrench, 28 chairs, 2 tables, 1 six lamp chandelier, 1 mirror, 1 carpet, 1 ice urn and 3 goblets, 3 silver (?) trumpets. 2 silver (?) torches and 2 stoves.

In this house is stored the Ticonic Engine, a Button Hand Engine, which during the past year has had no organized company, but has been kept in perfect order and held for reserve if needed.

During the past year 2 reservoirs of 150 hhds.capacity each, have been built on the plains giving that part of our town a protection long needed. There has been placed in the Steamer house one Button Steam heater and a pair of Berry swinging harnesses, the value of which was recently fully shown at the fire in our Town Hall.

List of alarms answered by the department during the year :

In 1886, April 29, 11.30 P. M., still alarm given for brush burning near the factory. Answered by Steamer 1. No loss.

May 4, 10.30 A. M., still alarm. Fire in a house on the Plains owned by Fred Pooler. The shed was destroyed and ell damaged. Loss \$50 covered by insurance. Cause unknown. Extinguished by Waterville Engine No. 3.

May 7, 5.30 P. M., alarm given for chimney in the house of D. J. Halde burning. No loss.

Aug. 5, 11.20 P. M., false alarm.

Oct. 20 4.15 A. M., alarm given for fire in the store of W. T. Haines situated on the Plains and occupied by C. C. Coro as a grocery store. Store destroyed. Loss \$300, insured. Loss of goods \$700, insured. Cause unknown.

Nov. 2, 12.30 A. M., alarm given for fire in the shed of one of the Lockwood houses in Winslow. Loss \$300. Insured. Incendiary.

Jan. 28, 1887, 12.10 A. M., alarm given for fire in the Town Hall. Loss \$500. Not insured. Caused by wood work being in contact with an overheated chimney.

While this department is not excelled by that of any town of its size in the State there are a few recommendations that I would respectfully make to the voters of Waterville :

There is very urgent need of a more perfect system for giving an alarm. At present the common one is by striking the bell in the Unitarian church and in a stormy and windy night it is impossible that it be heard and the efficiency of the department is so much diminished.

I would also recommend that one of the hand engines be sold as with the prospect of water works it will not be needed under any circumstances.

If the land in the rear of the Steamer house could be purchased for a reasonable sum I think the town would do well to purchase it as before many years a new house will probably be erected and that land would be essential.

I would recommend that the Asst. Engineers be of equal rank and that their pay be the same. Also that the Fire Department year may be changed so as to begin the first Monday in March in place of the first Monday in May in order that the reports of the different companies may be made to the Engineers when first elected. The ordinance governing the Fire Department might also be changed in some respects to better suit the present condition of the service.

In concluding my report I wish to return my most sincere thanks to the municipal officers of the town and to the Engineers associated with me for their ever ready aid in assisting me in the discharge of my duties ; to those gentlemen who have preceded me in office for their interest and valued advice, and to the officers and members of the different companies for the uniform courtesy which they have always extended to me.

All of which is respectfully submitted.

A. H. PLAISTED, *Chief Engineer.*

REPORT OF S. S. COMMITTEE.

In presenting this our annual report of the condition of the schools, we are glad to note in general that the proficiency made by the pupils has been good, in many cases excellent, and that the usual success has attended the modes of instruction and government of the teachers. It would hardly be worth while, and perhaps not profitable, to take up the schools separately and discuss the personal qualifications and methods of each of the teachers, as is sometimes done in school reports, nor enter upon extended discussions of different methods and management in the school work. These are nearly the same in all the schools of the same grade, differing only in the different grades, because, as every one knows, older and more advanced pupils require treatment different from that of younger children. It has been the aim of committee and teachers to use such methods as shall produce thorough and careful instruction, and such as are naturally adapted to the age, capacity and disposition of the pupil.

TEACHERS.

The teachers have labored very patiently and industriously for the advancement of the schools under their respective charges. They have done good honest, hard work. They desire to be in the front rank of teachers, not so much for the name of it, as for the good which they may be able to accomplish by their intelligent and skillful labor. Of course they differ somewhat, in natural adaptation to the work assigned them. Some too have had long experience, a qualification of great value, while others have had comparatively little, yet all, or nearly all are interested in their work and bid fair to take high rank in the difficult art of teaching.

CHANGE OF TEACHERS.

In all grades above the Primary the teachers are the same as last year. A few changes have taken place in the Primary schools. At the close of the winter term of last year Miss Goodell of the No. Primary resigned her place in that school, and at the close of the summer term following, Mr. Wyman of the Oak St. school, Miss True of the Plains Primary and Miss Tibbetts of the Webb school also resigned, and their places were filled as follows: Miss Lizzie Hodgdon of the Lower Plains school was promoted to the No. Primary, Miss Barzie Nowell of the Oak St. school, middle grade, was promoted to the school vacated by Mr. Wyman, and Miss Edwards was placed in charge of the Plains Primary, left vacant by Miss True, resigned. Miss Morse of the sub-Primary at Oak St. followed Miss Nowell, promoted, in the middle grade of the same school. This disposition of teachers left two vacancies to be filled, one at Oak St. and one at the Webb school. Miss Delia O'Donnell of Waterville, a graduate of our High School, was elected to the Oak St. School, and Miss Cora Lincoln, a teacher of experience, to the Webb School. Miss O'Donnell and Miss Lincoln are new additions to the teaching force of Waterville, but their work thus far, has been most satisfactory both to the pupils of those schools and the committee.

Mr. Philbrook, the present popular principal of the high school has tendered his resignation, to take effect at the close of next term, thus leaving a long time in which to make a selection of his successor. As yet no action has been taken in the premises. Floods of applications have poured in upon us and still they come almost daily. They will undoubtedly be useful in making a selection.

RELATIVE SIZE OF THE SCHOOLS.

The schools, during the past year have varied considerably in size. In the Primary department some of them have been large, while others have been comparatively small. In the grades above the Primary all have been large. The Grammar and High schools have been, and still are full, while the Intermediates have been crowded. At present we have provided for the overflow from

these schools by sending a class from each to the less crowded Primary rooms, thus affording them better opportunities than they could possibly have in a crowded condition.

STUDIES.

The studies pursued in the schools are about the same as heretofore. More attention, however, has been given to reading, writing and Physiology than for the past few years. On the subject of reading, in addition to the usual text books, much collateral matter has been introduced for supplementary reading. Simple works on the History of the United States, on Natural History and on Physiology; pamphlets, containing short, select stories, and sometimes newspapers have also been introduced with very gratifying results.

The useful art of writing, during the year, has been made prominent in the school curriculum. A professional teacher has been employed, and much greater advancement has been made than for many years before. It is the practice now in our schools to begin instruction in writing in connection with the first lessons in reading. This is done by the teacher and when the pupil reaches the super Primary he is taken in hand by the special teacher who gives such instruction in the principles of writing as is approved by the best teachers in the Commercial Colleges.

Physiology, particularly in the lower grades, is taught orally and by brief lessons, such lessons usually receiving attention in the morning, immediately after the opening of the school.

For the purpose of doing extra work in Arithmetic, tablets containing problems not in the text books have been put into the Grammar and Intermediate schools. This has lately been done, and we cannot yet discover whether or not the effect will be all that may be desired. But little extra expense to the town has been produced in the purchase of these needed aids.

EVENING SCHOOL.

Owing to what seemed to us a necessity we started an evening school on the Plains. The school was opened Oct. 11, 1886. It has been in almost continual operation since that time, with fair success. Seventy-five pupils ranging in age from 10 to 45 years have been in attendance. The average attendance for the whole time has been thirty.

Mr. Wyman, now of Colby University, who had taught most acceptably in the Oak St. school for several terms, was selected to take charge of this school and during the winter it had grown to such proportions as to need an assistant teacher. Mr. A. B. Patten of Colby was elected to assist Mr. Wyman, as long as a necessity for his services should remain. Mr. Patten, continued in the school eleven weeks, till the school had become so reduced in numbers that his services were no longer required. The school is still in session under Mr. Wyman.

SCHOOL HOUSES.

The school buildings, in the main, are in good repair, better perhaps than usual. Some extra labor has been expended on the High School building. It will be recollected that for several years much inconvenience has been experienced on account of lack of proper ventilation, particularly in the closets of the building. A system of flues has been put in, which very effectively abate the nuisance arising from the closets, and the sanitary condition of the rooms adjacent has been greatly improved.

It will also be remembered that the S. S. Com. last year recommended that a cheap building be erected, at or near the Head of the Falls, to provide the children living there with better accommodations than those furnished at the "Paint Shop" which they had previously occupied as a school room. We searched long and carefully for a lot, but were unable to secure a suitable one. At every place upon which a building might be erected, objections to its occupancy were so serious that we were obliged to abandon the project.

We then applied to the agent of the Lockwood Co. for a lease of the building, the upper room of which we had previously occupied for school purposes, and secured a lease of the same, with the understanding that we could make whatever repairs we might need for school purposes in the lower room and have the use of the entire building and lot for an indefinite period. Accordingly we leveled up the building, finished the room, furnished it with seats, taken from the Grammar school room, when that room was refurnished, and during the fall term moved the school from above into this room. This furnishes the pupils of that school with very comfortable and convenient quarters. The school, however, has

grown beyond the capacity of the room and we have been compelled to divide and put a part of it back again in the upper room. Thus both rooms are now utilized and will be sufficient to accommodate all who may attend here for some time to come.

There is need of a new school building somewhere on College street above the upper crossing, so located as to be easily accessible to pupils as far up as the town line, and at the same time to those who may come from the vicinity of the new railroad shops and also to those living on High and other streets in that quarter of the town, particularly to those who have passed into the Intermediate grade. Of course this arrangement would necessitate the starting of a new Intermediate school which would be accommodated in the proposed new building. Thus the great pressure on the No. Intermediate would be relieved, and we earnestly recommend this unless it should seem best to the town at this time to erect on the No. Brick lot a building large enough to accommodate all Grammar and Intermediate scholars in town which your committee feel would be the best course to pursue, and in a long run less expensive. In case such a thing should be done, several rooms in the lower part of the town would become vacant. Those in the High School building could be used, as the school grows, for High School purposes, the one in the Mill Street building for a Primary school, the So. Primary would be left vacant for the town to dispose of as it should see fit. This arrangement carried out would still require a Primary school building on College street.

RETROSPECTIVE AND PROSPECTIVE.

In the year 1874 there were in the town of Waterville eight schools. The High School, which then received instruction at the Classical Institute, was a school without a school room belonging to the town. All told then we had nine schools, besides the two small schools carried on in connection with West Waterville. We now have nineteen different schools, requiring twenty-two teachers to do the school work. During the years intervening between that time and the present twelve school rooms have been added to the number then existing. Ten of these have been provided with modern school furniture. Six of the old school rooms, including

the two additional rooms, secured when the South Brick was remodelled and enlarged, have also been provided with the same and altogether a large amount of work has been done to make the rooms pleasant, convenient and attractive. Sometimes when pupils were increasing in numbers at a rate of one or two hundred a year, in spite of all efforts of the management, certain of the schools would become crowded, an exigency which even to this day we are compelled to meet and overcome.

Taking a prospective survey of the situation we are led to ask ourselves certain questions, correct answers to which may have an important bearing on the future of our schools.

The prosperity of the town is undoubtedly assured and a large growth in our school population may be reasonably expected. Under such a condition, almost sure to come, what best thing can be done for the schools? Shall we continue to purchase school lots and build new buildings as they may be needed in different sections of the town, for the purpose of accommodating the older as well as the younger pupils of every different locality? It is undoubtedly a correct policy to locate primary school houses in different parts of the town, so that each, in its district shall be as nearly central as possible. But for pupils of a larger growth, those who have reached the Intermediate and Grammar Schools, will it not be better to try a "new" departure by concentrating them in some locality, as convenient as possible for all concerned, and under one management? This is done in most large towns in New England and many other States in the Union, and it is claimed that far better results are secured than it is possible to secure under any other arrangement.

J. G. SOULE,
A. W. SMALL,
MRS. R. W. DUNN.

 Assistant in No. Primary—Florence Titcomb, \$8 per week, according to time.

COURSE OF STUDY AND TEXT-BOOKS.

PRIMARY GRADE.

Reading, Spelling, Writing, Arithmetic, Oral Lessons, on Language, Plants, Animals Physiology.

Text Books.—Same as last year. Much of the teaching is done from Chart and Blackboard.

INTERMEDIATE GRADE—COURSE OF TWO YEARS.

Reading, Writing, Arithmetic, Geography, Grammar, Oral Lessons on Language continued, also on the Natural Sciences and Map Drawing.

Text Books.—Fourth Reader, Melleny's Speller, White's Elementary Arithmetic, Warren's Elementary Geography, Swinton's Language Lessons.

GRAMMAR GRADE—COURSE OF TWO YEARS.

Reading, Spelling, Writing, Drawing, Arithmetic, Geography, History of the United States, Physiology, Oral Lessons in Natural History, Natural Philosophy, Geometry.

Text Books.—White's Complete Arithmetic, Warren's School Geography, Swinton's Grammar, Melleny's Speller, Scudder's School History, McGuffey's Fifth Reader, Scholars' Manual of the Constitution, Blaisdell's Physiology.

HIGH SCHOOL COURSE.

FIRST YEAR.

First Term.—Algebra, Reading and Spelling, English Grammar or Latin.

Second Term.—Algebra, Reading and Spelling, English Grammar or Latin.

Third Term.—Algebra, English History, Physical Geography or Latin.

Fourth Term.—Algebra, English History, Physical Geography or Latin.

SECOND YEAR.

First Term.—Arithmetic, English History, Book-keeping (Single Entry) or Latin.

Second Term.—Arithmetic, General History, English Composition or Latin.

Third Term.—Geometry, General History, English Literature or Latin.

Fourth Term.—Geometry, Botany, English Literature or Latin.

THIRD YEAR.

First Term.—Geometry, Natural Philosophy or Greek, Science of Government or Latin.

Second Term.—Geometry, Natural Philosophy or Greek, Science of Government or Latin.

Third Term.—Physiology, Chemistry or Greek, French or Latin.

Fourth Term.—Physiology, Chemistry or Greek, French or Latin.

FOURTH YEAR.

First Term.—U. S. History (review), Rhetoric or Greek, French or Latin.

Second Term.—Algebra (review), Shakespeare's Julius Cæsar or Greek, French or Latin.

Third Term.—Arithmetic (review), Astronomy or Greek, Book-keeping, Double Entry and review of Single Entry, or Latin.

Fourth Term.—Geography (review), Astronomy or Greek, Geology or Latin.

ENGLISH DEPARTMENT.

Text Books.—Wentworth's Algebra, Warren's Physical Geography, Wentworth's Geometry, Gardiner's English History, Hutchinson's Physiology, Norton's Physics, Dana's Geology, Lockyer's Astronomy, Cooley's Chemistry, Gray's Botany, Messervey's Book Keeping, Barnes' General History, Greenleaf's Arithmetic, Warren's Geography, Swinton's Grammar, Lippincott's Reader, Hill's Rhetoric, Young's Science of Government, Steele's Zoology.

CLASSICAL COURSE.

Harkness' Latin Grammar, Reader and Prose Authors, Hanson's and Rolfe's Selections from Virgil and Ovid, Otto's French Grammar and Reader.

TOWN WARRANT.

To A. H. Plaisted a Constable of the Town of Waterville in the County of Kennebec : GREETING :

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Waterville, qualified by law to vote in town affairs, to meet at the Town Hall, in said town, on Monday, the fourteenth day of March, A. D. 1887, at nine o'clock in the forenoon, to act on the following articles, to wit :

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose a Town Clerk, Selectmen, Assessor, Overseers of the Poor, and one or more Superintending School Committee.

ART. 3. To see what method the Town will adopt to collect the taxes for the ensuing year ; also to see if the Town will fix a time when taxes for the ensuing year shall be due and payable ; order an abatement to be made on any of said taxes which shall be paid within certain periods ; charge interest on taxes not paid when due and payable, or take any action under this article.

ART. 4. To choose a Treasurer, Collector, Town Agent, Auditor of Accounts and all other necessary Town Officers.

ART. 5. To see if the Town will vote to raise a sum of money for the support of schools.

ART. 6. To see if the Town will vote to raise a sum of money for the support of the Poor.

ART. 7. To see if the Town will vote any instructions in relation to the management of the Poor or of the Town Farm.

ART. 8. To see what method the Town will adopt to repair the roads, bridges, drains and sidewalks and raise a sum of money to pay for said repairs the ensuing year.

ART. 9. To see if the Town will vote to raise a sum of money to pay the current expenses of the Town the ensuing year.

ART. 10. To see if the Town will vote to raise and appropriate a sum of money to pay its interest-bearing debt or any part thereof, or take any action in regard to the same.

ART. 11. So see if the Town will authorize the Selectmen to appoint a suitable number of persons to be measurers of wood and bark and surveyors of logs and lumber.

ART. 12. To see if the Town will vote to raise a sum of money to pay a night watch the ensuing year.

ART. 13. To see what action the Town will take in regard to lighting the streets and raise a sum of money for the same.

ART. 14. To see if the Town will vote to raise a sum of money for the support of a Free High School.

ART. 15. To see what action the Town will take in regard to the management of the Town Hall.

ART. 16. To see if the Town will vote to furnish Text Books for the scholars of the public schools.

ART. 17. To see if the Town will vote to raise and appropriate a sum of money for the support of the Fire Department.

ART. 18. To see if the Town will vote to raise a sum of money for Police Services.

ART. 19. To see if the Town will vote to raise and appropriate seventy-five dollars to W. S. Heath Post, G. A. R., to be used in decorating the graves of deceased soldiers and sailors, and in defraying the expenses of Memorial Day.

ART. 20. To see if the Town will vote to tax dogs the ensuing year.

ART. 21. To see if the town will vote to allow the schools free use of the Town Hall for their school exhibitions.

ART. 22. To see if the town will make any contract with the Waterville Water Company to supply the town with water for fire, municipal and other purposes. And to see if the town will authorize its selectmen, in behalf of the town, to formally sign and execute any contract which the town may make with said water company.

ART. 13. To see if the town will vote to purchase of Lucius Allen a lot of land adjoining the Town Hall lot and raise eight hundred dollars for the same.

ART. 24. To see if the town will vote to purchase the raised platforms now in the Town Hall for the sum of forty-five dollars.

ART. 25. To see if the town will vote to build a large school building on the No. Brick school house lot for the accommodation of the Grammar and Intermediate schools and raise a sum of money for that purpose.

ART. 26. To see if the town will vote to build a school building on College street above the R. R. crossing and raise a sum of money to purchase a lot and build the building.

ART. 27. To see if the town will accept the north side of the abutment of the bridge between Waterville and Winslow as the north line of Bridge street between Water street and the bridge, and permit the abuttor to use the wall as a party wall.

ART. 28. To see if the town will vote to build the road accepted by the town last year from Gilman street, to the Neck road, and raise two hundred and fifty dollars therefor.

ART. 29. To see if the town will vote to abate the bill against the High School for use of the Town Hall on Jan. 25 and 26, for their school exhibition.

ART. 30. To see what action the town will take to encourage manufacturing and induce outside manufacturers to establish their business in Waterville.

ART. 31. To see if the town will accept a town way laid out by the Selectmen and described as follows, to wit: Beginning in the west line of Water street at the southeast corner of land of Gott Pooler and wife, thence westerly about twenty-nine rods on said Pooler's south line and Daniel Moor's south line and in the same course to land of Fred Pooler, thence on said Fred's south line and in Edward Baldic's south line to the southwest corner of said Baldic's land; said way to be next southerly of the above described line and two rods wide measuring parallel with Water street. We award no damages to any party or parties. And to see if the town will name the above described way "Paris Street" or give any other name to said above described way.

ART. 32. To see if the Town will accept a town way laid out by the Selectmen, and described as follows, to wit: Beginning at the northeast corner of Joseph Perry's land thence southerly about fourteen rods on said Perry's last line, and on the east line of the Peter Shortie lot, and the east line of the George and Charles Gero lots, and on Fred Pooler's east line to Grove street, said way to be next east of the above described line and to be two rods wide measuring parallel with Grove street. We award no damages to any parties or party. And to see if the Town will name the above described way "Pine street" or give to it any name.

ART. 33. To see if the Town will accept a town way laid out by the Selectmen and described as follows, to wit: Beginning at an iron bolt on the southeasterly line of Summer street and two hundred and twenty feet southwesterly from the northwest corner of A. E. Hanson's homestead lot, thence south thirty and one-fourth degrees east three hundred sixty-eight and ten-twelfths feet to a granite monument, thence north sixty-two degrees fifty-five min-

utes east two hundred and eighty-three feet to a granite monument ; thence south sixty degrees ten minutes east about two hundred and twenty-three and nine-twelfths feet to west line of Water street. The line described to be the southerly line of the highway, and the highway to be forty feet wide on first described course, and thirty-five feet wide the last two courses ; and we agree with the owners of the land over which the road passes, that no damages be awarded. And we recommend upon the request of the parties interested that the above way be named South Redington street.

ART. 34. To see if the Town will accept a town way laid out by the Selectmen and described as follows, to wit : Beginning on the northeasterly line of a proposed way known as South Redington street, and at an iron bolt two hundred and forty-five feet southeasterly from the southeast line of Summer street, thence north fifty-nine and three-fourths degrees east, two hundred and thirty-nine and ten-twelfths feet to an iron bolt in the southwesterly line of land of Harriet A. Redington, said way to be thirty-five feet wide and to lay on the northwesterly side of the above described course ; and we agree with the owners of the land, over which the way passes that no damages be awarded. And we recommend upon the request of the parties interested, that the above way be named "South Redington Court."

ART. 35. To see if the town will accept a town way laid out by the Selectmen and described as follows, to wit : Beginning at southeasterly corner of land of R. L. Proctor where the same intersects with Pleasant street, thence westerly on a line parallel with Winter street extension four hundred three and four-twelfths feet to a monument, said way to lie on the southerly side of said line. And we award no damages to any party or parties.

ART. 36. To see if the town will vote to construct a drain or sewer, to remove the surface water from Main street or any part thereof and appropriate a sum of money therefor.

And you are alike to notify the inhabitants of said Town that the Selectmen will be in session on Thursday, Friday and Saturday, March 10th, 11th and 12th from 1 to 5 o'clock P. M., at their office in Waterville, for the purpose of correcting the list of voters.

Hereof fail not and make due return of this warrant, with your doings hereon, on or before the day of said meeting.

Given under our hands this seventh day of March, A. D., 1887.

C. E. MITCHELL,	}	<i>Selectmen of Waterville.</i>
