Don't make a mistake when you buy your Spring Suit or Overcoat.

You see other men stylishly dressed and wonder why your clothes do not look and fit as well. We can explain to you the reason if you will just take the trouble to call at our store and see our immense spring stock which is double in size any stock shown in this section

CLOTHING

Our clothing has a character and distinction about it that other clothing does not have and the prices are no more

Others can show you suits that are all right on the outside perhaps, but it is the work on the inside that most people do not think about that is the all important feature.

Do not buy your spring suit or overcoat until you have seen our stock as you can then readily see the difference between the best and ordinary male clothing.

If we cannot show you that our suits are made better, are more stylish and have more handwork in them than those shown by other dealers, we will not ask you to buy.

Our spring hats and caps are now ready for your inspection.

NECKWEAR

We have Neckwear every 2 weeks direct from the best manufacturers.

The largest line of Odd Pants in both Worsteds and Cassimere ever shown in this section.

R. M. Goodwin,
49 Main St. Newport, Me.

All suits pressed up smooth before leaving our store.

LIBRARY REPORT.

The work of the Public Library has increased through this its second year as it did through the first. The average number of books let out each week has increased from 75 to 125. There have been 140 books purchased and some given by Mrs. Oliver Rowe, J. M. Sanborn, Esq., and Mr. Wm. Town. The whole number now reaches 862. The traveling libraries have been sent to East and North Newport as much of the time as anyone could be found to care for them. Reference books have been placed in two school districts and it is hoped this work may be extended as the number of our books increase.

The library is open every Wednesday from 2.30 to 5 and Saturday evening from 6 to 9. The books are loaned under the following rules:

Rules.

1. Any person of good character, over fourteen years of age, who has been a resident of Newport for three months, is entitled to a card. Each card shall entitle the holder to the home use of one volume at a time under the Library rules.
2. Residents of neighboring towns or visitors in Newport may be allowed home use of books by the purchase of a temporary card or the payment of one cent per day. The librarian shall have authority to require of any applicant for a temporary card, a satisfactory reference or a deposit of money, when necessary, for the protection of the library.
3. When a card is lost it may be replaced by the payment of two cents.
4. All subscribers are responsible for damage or loss of books.
5. Books are not to be loaned out of the family on penalty of one dollar.
6. A book may be kept out two weeks. Any person who detains a volume longer than the regulations permit shall pay a fine of two cents for each day of detention.
7. All teachers and students in Newport shall be considered residents of the town during term time.
8. Books will not be issued to members of households in which a contagious disease is known to exist.

9. No person will be allowed to take a book from the library who appears by the records accountable for a book taken, or for a fine imposed.

School Committee's Report.

Free High School.

Prof. E. P. Dyer has completed his third year as principal of the high school. Through his efforts several pupils have come in from other towns, and are well satisfied with the amount and quality of the work accomplished. Owing to sickness Prof. Dyer was unable to keep but eleven weeks of the winter term. It is expected, however, that the full amount of work will be made up in the spring by a little extra hard study.

Length of terms, 12 weeks. Spring term—whole number pupils, 24; average, 22; visitors, 15. Fall term—whole number pupils, 24; average, 22; visitors, 48. Winter term—whole number pupils, 24; average, 22; visitors, 8. Wages of principal, \$70.61 per month.

GRAMMAR GRADE.

The Grammar School has been under the instruction of Miss Eva M. Hilton, who is a teacher of wide experience, having taught many terms in this and adjoining towns. This school is progressing finely, and is setting a good standard for the rural districts. Those who were present on the parents' days can judge for themselves as to the quality of the work.

Length of terms—12 weeks. Spring term—number of pupils, 31; average, 23; visitors, 1. Fall term—number of pupils, 33; average, 31; visitors, 25. Winter term—number of pupils, 34; average, 30; visitors, 4. Wages of teacher, \$7.50 per week.

INTERMEDIATE GRADE.

This grade has been taught throughout the year by Miss Flora A. Boyd. Little need be said about this school, as all are acquainted with Miss Boyd's success as a teacher. The required amount of work has been accomplished and most of the scholars will be able to go on with their classes.

Length of terms—12 weeks. Spring term—whole number of scholars, 32; average, 29; visitors, 17. Fall term—whole number of scholars, 40; average, 36; visitors, 16. Winter term—whole number of scholars, 38; average, 34; visitors, 4. Wages of teacher, per week, \$7.50.

PRIMARY GRADE.

This school was taught the entire year by Mrs. Geneva Merrill. This is one of the hardest grades of our schools, but has been handled very successfully by Mrs. Merrill. The school has been better supplied this year with charts and apparatus, making the work much easier and more profitable. We would have been glad to have seen more of the parents visit the school, as it has been somewhat neglected in this line.

Length of terms—12 weeks. Spring term—whole number of scholars, 43; average, 37; visitors, 1. Fall term—number of scholars, 41; average, 37; visitors, 12. Winter term—number of scholars, 41; average, 34; visitors, 10. Wages of teacher per week, \$7.50.

SUB. PRIMARY.

The first four weeks of the spring term was taught by Mrs. L. M. P. Dickey. The term was finished by Mrs. P. S. Littlefield. The fall and winter terms were taught by Miss Addie Miles. It is to be regretted that Miss Miles could not have had the school throughout the year (but owing to sickness it was impossible) as she is especially adapted and trained for this grade of work. Considering the place in which Miss Miles has to work, and what she has to do with, the school has accomplished a great amount of work.

Length of terms, 10 weeks. Spring term—whole number of pupils, 32; average, 28; visitors, 15. Fall term—whole number of scholars, 28; average, 20; visitors, 12. Winter term—whole number of scholars, 31; average, 25; visitors, 15. Wages of teacher, \$6.50 per week.

Rural Schools.

BILLINGS HILL.

Miss Mary Eldena Pratt of North Newport has had charge of this school for the past year. Miss Pratt is a teacher of several years' experience and possesses a great amount of tact and ability. She has

never taught in town before but has certainly done credit to herself and the school. She has conformed to the course of study as far as possible with marked results. Good will has been maintained on the part of the pupils and parents throughout the year. This is one of the surest proofs of a successful school.

Length of term, 12 weeks. Spring term,—whole number of pupils, 23; average, 17; visitors, 3. Fall term,—whole number pupils, 24; average, 19; visitors, 5. Winter term,—whole number pupils, 25; average, 20; visitors, 15. Wages of teacher, per week, \$7.50.

NORTH NEWPORT.

This school has been taught by Miss Arrie L. Pratt, a well-known teacher, and one who has always met with the best of success. This year's work has been an exceptionally good one, from the fact that there has been little sickness and good attendance. The school is making rapid progress and is well graded.

Length of terms, 12 weeks. Spring term,—whole number of pupils, 22; average, 19; visitors, 6. Fall term,—whole number of pupils, 21; average, 17; visitors, 10. Winter term,—whole number of pupils, 20; average, 16; visitors, 8.

GILMAN DISTRICT.

This school was taught the entire year by Mrs. L. B. Foley of Palmyra. Mrs. Foley has had a wide experience and is a hard-working and painstaking teacher. Although this school is small, it has done a good amount of work and is well graded.

Length of terms, 12 weeks. Spring term,—whole number of pupils, 13; average, 11; visitors, 15. Fall term,—whole number of pupils, 12; average, 10; visitors, 9. Winter term,—whole number of pupils, 8; average, 7; visitors, 5. Wages of teacher, per week, \$6.50.

With the exception of the Sub Primary school there have been no changes in the teachers for the past year. I think this is the quickest and surest way of raising the standard of the schools to its proper level.

The thirty-six week school year, although criticised by some, has proven a great success, and I trust the custom will be followed. The cost of running the schools for the past year is somewhat larger than

the year previous, owing to the fact that the North Newport school was not closed up at the time of our last report, and no orders were paid in that part of the town for the winter term. A greater interest has been shown in the schools during the past year, as may be seen by the number of visitors. This is highly gratifying to the teachers as well as to myself.

Very respectfully,

P. S. LITTLEFIELD,

Supt. of Schools.

Newport People

are by this time well acquainted with us and our business methods.

If YOU have never traded with us you have probably heard your neighbors telling how cheap we sell Good Goods.

NOW IT'S UP TO YOU!

Are you satisfied with the merchandise you are getting for your money? REMEMBER, that we buy our goods for SPOT CASH and also sell for cash ONLY. If you are in doubt COME IN, we will be glad to see you and it is always a pleasure to show goods.

We KNOW we can sell you the best goods on the market for from 10 to 25 per cent. less than you can buy inferior goods elsewhere.
