IN BOARD OF MAYOR AND ALDERMEN, }  
March 20, 1893. }

ORDERED, The Common Council concurring, That the Committee on Printing be instructed to have fifteen hundred copies of the Auditor's Report printed for public use.

Read, passed and sent down.

M. A. COYNE, *City Clerk.*

IN COMMON COUNCIL, }  
March 20, 1893. }

Read and passed in concurrence.

C. H. McCARRON, *Clerk.*

## MAYOR'S ADDRESS.

---

*Gentlemen of the City Council:*

We have been selected by the suffrages of our fellow citizens as their public servants for the ensuing year. We have taken the oath of office agreeing to discharge, to the best of our ability, the duties incumbent on us in our respective stations. The taking of this oath is more than a mere formality. It is a solemn covenant on our part to serve with zeal and fidelity our fellow citizens who have reposed in us a great confidence, and have charged us with a great responsibility.

Our duty is purely a business one, to administer the business affairs of the city for the coming year in practically the same way that a careful, prudent and intelligent business man would conduct a large and important business. We shall collect from the people more than \$200,000 in taxes and shall expend the same. If we shall apply that large sum of money, in an economical manner, to the proper objects of expenditure, we shall prove faithful public servants. If we waste and misuse it, we shall be unfaithful public servants. If partisanship and politics usurp the place of business, and the year is given up to quarrels and disputes over petty offices, the people will very soon class us as unfaithful and useless servants. It is our duty and our privilege to labor together, to co-operate. I ask with confidence and sincerity your assistance and support, and I pledge you that I will endeavor to treat you all in a spirit of fairness and justice.

### FINANCES.

The financial condition of the city, in view of certain permanent improvements which I think the city ought

to make in the near future, and in view of the conditions of our two sinking funds, presents an interesting and important question.

We have now a floating debt aggregating \$224,600. Of this sum, \$68,800 has been taken from our municipal and water loan sinking funds, leaving the debt outside of those funds \$155,800.

This money was spent in the erection of the Main street school-house, the Oak street school-house, and the new City Hall. The people demanded the erection of these splendid public buildings and are willing and able to pay for them.

The question is, how shall it be done? We can, if we see fit, and no legal objection is raised by the tax-payers, continue to carry along our floating debt as we have been doing; but it is a serious question whether we are not violating the constitution of the State in exceeding our debt limit.

We have been for several years disregarding the city ordinance, which directs us to appropriate a sum not less than two per cent of our city debt for our sinking fund. This is a wise, business-like provision and I should be glad if we could adhere to it.

We have among the city's assets \$225,000 par value of stock in the Lewiston & Auburn Railroad Co. It is estimated that this stock could be sold at 150, so that on a sale of this stock the city could realize the sum of \$337,500. If this were done, the city could pay its floating debt, restore its sinking fund to its proper legal condition, and in addition have means to do some paving and establish better sewerage. I shall speak of paving and sewerage in another place.

I have consulted with some of our best business men and I find that there is a difference of opinion among them as to the wisdom of selling this stock. It is claimed by some that we ought to control a majority of the stock. The total amount of stock in the company is

\$300,000 par value. One share over \$150,000 of the par value is therefore a majority of this stock. So that it appears to me that the city might sell not quite \$75,000 par value of this stock and yet control a majority of this stock. We could realize from such a sale \$110,000 if it sold for 150. I do not feel willing at this time to advise a sale of this stock, but I do think we should consider the matter at an early day, and, after full counsel with our citizens best informed in this matter, determine whether it may not be best to sell this stock or a portion of it.

The following is a statement of the debt of the city:

## FINANCIAL STANDING.

## LIABILITIES.

4 per cent bonds due 1893.....	\$100,000 00
4½ " " " " 1894.....	80,000 00

Total liabilities.....	\$1,214,600 00
Total resources.....	205,572 96
	<hr/>
Net debt... ..	\$1,009,027 04

## SEWERS.

Owing to the low situation of the land in the upper part of the city it is impossible to conduct the sewerage of that section into the river at a point below the pumping station. The result is that people there have no system of sewerage. They are, however, contributing their proportional shares of taxes to maintain sewerage in other portions of the city. This condition of affairs must tend necessarily, to retard the growth of the city in that direction; and were this condition of things rectified there is no question but a large amount of taxable property would, in the near future, be added to the valuation of the city.

But the manifest injustice to a large number of our people is not the most serious phase of the situation. Though there is no sewer built and leading into the river above the pumping station, yet every intelligent citizen knows that the natural flow of surface water is nature's substitute for sewerage, and that, of necessity, a large amount of matter is thrown into the river at a point seriously threatening the purity of our water supply.

The result is, that our people are fast losing confidence in the purity of our water for drinking purposes, and a very large class of our people are buying, at a large expense in the aggregate, the water used by them for drinking purposes. Were they obliged to pay into the treasury of the city as a tax the sums they are annually paying for water the city is supposed to furnish, they would be justly indignant at the situation.

But the poorer people of our city cannot afford to buy their drinking water. They will drink our city water, and therefore it is our highest duty, not only to keep the supply as pure as possible, but to take every reasonable precaution that public confidence may not be shaken in the purity of our splendid water system. The general public health demands it, and the prevalence of those diseases due to an impure water supply in our city, not yet specially alarming, it is true, admonishes us to look carefully into this matter. I would be glad to co-operate with you in dealing with this important question in an intelligent and business way.

#### THE SANITARY CONDITION OF THE CITY.

I feel it my duty to call the attention of the city council to the necessity of taking means at all times to preserve the public health. Several portions of our city are very thickly populated, and the presence of contagious disease would cause great suffering among our people. We have been warned by the prevalence of cholera, which reached our shores last year, to take extra precautions. Our city was once afflicted by this terrible scourge, and while we may not be again, there are other diseases of a like nature, which are apt to be found where filth is allowed to accumulate. The board of health should be aided and encouraged in their work of keeping the city in a clean and healthy condition.

#### POOR DEPARTMENT.

The expenditures of this department for the past year have been \$24,997.71. The average expenditures of this department for the eight years ending 1892 were \$16,200. The expenditures for the past year have been more than 50 per cent. larger than the average above given from 1885 to 1892 both inclusive.

I recommend justice and charity to our poor, but I think I voice the sentiment of a majority of our intelligent business men in saying that greater economy

should be adhered to and a stricter oversight be had in this department.

The mayor and board of aldermen are the overseers of the poor and they ought to oversee and direct the expenditures of this department and not leave the matter wholly in charge of their clerk. This department should not be run for the purpose of paying political debts, nor as an adjunct to the politics of either political party. It is not business, and the people, irrespective of party, do not approve of it. Let us endeavor to cut down the expenditures in this department and keep within the appropriation.

#### POLICE.

The police department is one of the most important in our charge. We rely upon our officers for the protection of our persons and property and for the preservation of the public peace. Our officers upon the street are especially our agents who meet the people and deal with them from day to day. They ought to cultivate gentlemanly manners and gentlemanly deportment and be well informed in their respective duties. I am pleased to say that the two gentlemen now at the head of the police force, the marshal, Mr. McDonough, and his deputy, Mr. Lajeunesse, are highly reputed for their courtesy and zeal in serving the public. Good discipline should be maintained at all times. There should be proper appreciation of honest, faithful work on the part of good officers; and, if any of the force become neglectful and indifferent in the discharge of their duties, a remedy should be quickly found for the disease. The laws should be administered with zeal, fidelity and impartiality, and no officer should be allowed to wear a uniform who is in league with crime.

#### THE FIRE DEPARTMENT.

This department is now in the charge of a special board who administer its affairs. Its great importance

is universally acknowledged and its high standing is conceded by all. While insisting on economy in the expenditures, I think we should treat this department with a fair degree of liberality. The men in the service of this department are often called upon to face great dangers and endure severe and sometimes terrible exposure. An immense amount of property is in their keeping, and faithful services on their part is certainly worthy of our grateful recognition. I think the board of engineers during the past year have been careful and businesslike in the discharge of their duties.

#### PAVING.

Some paving has been done by the city nearly every year, for several years past, and our business men are quick to see the value of such permanent improvements in our streets. It is the desire, often expressed by our business men, that a considerable sum should be expended in this work at an early day, and that several of our streets where heavy trucking is done be paved. If arrangement be made, so that the finances of the city will warrant the expenditure, I would recommend a liberal appropriation for this work. But if, in order to do this work, we must increase our floating debt, I should hesitate to make the expenditure. It is high time to stop running into debt.

#### HIGHWAYS.

The street department is one of the most important in the government of the city and I trust the council will elect a faithful, honest, and practical street commissioner to expend the money appropriated for the care of our streets. This department has been run for many years, I regret to say, with too much regard to its political importance and too little regard to business and public interests. The people are always in a state of chronic complaint at the condition of the streets and

sidewalks, and if we could conduct this department to the satisfaction of the public, we would do them an important service.

The street commissioner has expended annually for many years between \$30,000 and \$40,000 in the several appropriations and it would seem that such an amount of money, wisely expended, might produce more satisfactory results. Our severe winters and deep frosts cause much of the difficulty, but I am persuaded that we need at the head of the department a man specially skilled for the work, one of better knowledge and more experience in the work of building and maintaining highways than we are apt to get.

#### NEW STREETS.

Petitions will be presented to the city council asking for the location of several new streets. I trust careful consideration will be given to these matters, for the opening of new streets means new homes, new taxable property and increased prosperity to the city.

#### SCHOOLS.

The expenditures in this department during the past year have been \$45,659.10. Of this sum \$19,557.75 was received from the State. This is indeed a liberal provision for our public schools, but their high standing and splendid reputation all over New England is the result of our liberality and fostering care. They attract men of property to settle in our midst, and in this way we are, in a measure, re-embursed for the expenditure. Our people are coming more and more to appreciate the great opportunities our schools afford for the education of our children, and they would regret exceedingly to have any backward steps taken with regard to them.

In conclusion, gentleman, allow me to say that I hope our relations may be pleasant to ourselves and

profitable to the city. We have an opportunity for genuine and important public service. Let us not neglect it: and whatever measure of success may attend our joint labors, I shall be glad to render to the city council larger praise than I would keep for myself.

SETH CHANDLER, *Mayor.*

## CITY OF LEWISTON.

---

*To the Honorable City Council of the City of Lewiston:*

In conformity with the requirements of the CITY ORDINANCES, the undersigned presents the following statement of receipts and expenditures in the aggregate, as classified in the several department accounts, together with the appropriations for the financial year ending February 28, 1893, the balance undrawn and overdrawn at that date, a schedule of the city property, and a statement of the liabilities and resources then existing.

Respectfully submitted,

W. P. LEONARD, *Auditor of Accounts.*

# REPORT OF WATER COMMISSIONERS.

---

*To the Honorable City Council:*

In compliance with the requirements of the City Ordinances, we submit this, our thirteenth annual report of the condition of the works.

The receipts and expenditures for water during the year has been as follows:

Cash collected and paid to City Treasurer,	\$39,050 00
Cash on hand,	425 17
Uncollected bills,	\$1,461 75
	<hr/>
	\$40,936 92

Increase over last year, \$684 86.

Paid salaries, labor and bills,	
on account of running expenses,	\$12,140 50
Interest account,	24,870 00
	<hr/>
	\$37,010 50

Net profit for year, \$3,926 42

The expenses this year have been very large caused by extensive repairs on the pumps and breaks in main lines.

For a more detailed report we refer you to the accompanying report of the Superintendent.

Respectfully submitted,

JOHN G. KELLEY,  
JOSEPH H. DAY,  
R. C. REYNOLDS,  
C. J. CALLAHAN,  
JOHN B. SMITH,  
WILLIAM H. NEWELL,

*Water Commissioners.*

# REPORT OF SUPERINTENDENT OF WATER WORKS.

---

*To the Water Board of the City of Lewiston:*

Gentlemen.—I have the honor of submitting the annual report of the Superintendent of Water Works for the fiscal year ending March 1, 1893.

The works are in good running order. The increase in running expenses this year is owing to the large outlay made at the pumping station in changing over the pumps, which has placed the pumping machinery in good condition and shows good judgement on the part of the Water Board. Owing to the increasing demand for water, the pumps and machinery can be kept in none to good a condition. Running expenses includes all labor as shown by pay-roll, which includes salaries of Superintendent, Clerk, and Engineer at pumping station, cost of changing over pumps and for all tools and supplies used in running expenses and construction. There have been seventy-three old services relaid this year with one-inch galvanized pipe, and the demand will continue until all old services are relaid. Thirty old wooden service boxes have been dug up and replaced by iron boxes. The expense on old services this year has been about the same as last year, twelve hundred dollars for pipe and fittings used in relaying old services. There has also been purchased this year a tapping machine for tapping main pipe lines at the cost of three hundred and fifty dollars (350), which has been charged to running expenses.

## PUMPING STATION.

The outlay for repairs on pumps and machinery will be larger this year than any year since the works

have been in operation. There have been purchased this year two new crank shafts at a cost of eleven hundred and ninety dollars (\$1,190); two new main gears for pump at a cost of ten hundred and fifty dollars (\$1,050); four new stands and pedestal boxes for bearings on pumps at a cost of five hundred and forty dollars (\$540), all of which has been charged to running expense except the cost of one crank shaft and two stands and pedestal boxes which will be charged to next years account. There has also been an outlay of two hundred and fifty dollars (\$250) for mason work and one hundred and thirty-five dollars (\$135) for carting gear from rail road to station and labor of putting on gears, all of which has been charged to running expenses. There is on hand for use when needed, one set of teeth for level gear and about four hundred and fifty duplicate teeth for main gear on pump. The machinery is now in good running order with the exception of one wheel which may need a little repair next year, but the repairs will be very light. I would recommend that a hard wood floor be laid in the wheel house and the pumps and station be painted all over and a duplicate shaft ordered for the pumps.

#### LEAKS.

There have been seven leaks in main pipe lines, two gates have leaked around the stuffing boxes, eight service pipes have split or rusted out, six lead connections have given out, and one, one and one-half inch service pipe has blown out. So few leaks in main pipe lines after running as long as the works have, show the careful manner in which the work was done. This has been an unusually severe winter, the main pipe on Main Street below the canal being frozen up. This is only a two inch pipe and should be replaced with a larger pipe. Quite a few service pipes have been frozen up but the greatest trouble has been that they were old pipes and were filled

up with rust so that there was no force to the water. The largest leaks were in the main pipes on Lincoln Street, which were repaired at a cost of about six hundred and fifty dollars (\$650) which has been charged to running expenses.

#### HYDRANTS.

There are now one hundred and fifty-six (156) public hydrants for fire service; in addition to these there are two hundred and sixteen (216) hydrants on the premises of the different corporations for private service. Two hydrants have been dug up and reseated and three have been dug up and lengthened out one foot. All the hydrants are now in good condition.

#### RESERVOIR AND GROUNDS.

The reservoir and gate house are in good condition, but the fence around the reservoir needs painting. The reservoir should be drawn off and cleaned out as soon as it can be conveniently done. Some of the paving at the top of the reservoir has been misplaced by the action of the ice and should be repaired when the reservoir is drawn off.

#### EXTENSION AND SERVICES.

There has been 8,943 feet of pipe of all sizes laid during the year, as follows: In extensions, 588 feet of 6-inch pipe, 280 feet of 4-inch pipe, 90 feet of 3-inch pipe for services, 115 feet of 2-inch pipe for services and 165 feet of 1½-inch pipe for services. The amount of extensions made has been 746 feet. The following table will show where it has been laid. Fifty-seven new services have been laid requiring 3,500 feet of 1-inch pipe.

#### CONSTRUCTION.

There has been a fair amount of construction this year. The fifty-seven new services laid during the year

are charged to this account, the cost of which amounts to \$1,125.

#### CONSUMPTION OF WATER.

The total amount of water pumped this year is 1,269,659,300 gallons, average daily consumption of water has been 3,217,265 gallons; an increase of 545,659 gallons per day for the year ending March 1, 1893.

#### ABATEMENTS.

The amount of abatements for the year  
has been \$1,128 50

This large amount of abatements being caused by the abating of two large bills of \$250 dollars or over.

#### RECEIPTS FOR FISCAL YEAR 1892.

Cr.

For all water purposes, repairs,	
etc., uncollected bills,	\$40,511 75
Cash on hand,	425 17
	\$40,936 92
Total receipts,	

In the tables annexed will be found the classification of water supply, pumping record, monthly and annual expenditures, showing location and size of gates laid in extensions, inventory of stock and tools, meters, location, size, abatements, etc.,

In closing this report I wish to express to your honorable board my appreciation of your kindness and assistance to me during the past year.

Respectfully submitted,

J. L. KENNEY, *Superintendent.*

## REPORT OF CHIEF ENGINEER.

---

*To the Board of Fire Commissioners of the City of Lewiston:*

Gentlemen:—As required by city ordinance, the undersigned, Chief Engineer of the Fire Department, has the honor of herewith submitting for your consideration, the annual report of the condition and operations of the department under his charge, together with a list of the members, with their rank, age, residence and occupation, location of fire alarm boxes, fires and alarms, their causes, loss and insurance as near as could be ascertained, inventory of the property in possession of the department, and such suggestions as I think will be for the improvement of the department.

### MANUAL FORCE OF THE DEPARTMENT.

The force of the department consists of a Chief and four Assistant Engineers, Superintendent of Fire Alarms and Engineer of Steamers, who has charge of the engine house and general apparatus, one permanent driver of Hose No. 1, fifty-four (54) call men, making a total of sixty-one (61) men.

### FIRES AND ALARMS.

Whole number of alarms in Lewiston,	41
Additional alarms from Auburn,	23
	<hr/>
Total,	64
Chief's call,	2
Telephone,	7
Private,	3
Number in which property was destroyed,	17
Total amount of property destroyed,	\$7,185 79

## APPARATUS.

The apparatus consists of two steamers, two hose wagons, two hose carriages, one two-wheel hose reel, four hose pungs (for winter service), one Aerial and one Village Hook and Ladder Carriage.

## HOUSES.

The house on the corner of Bates and Ash streets is in very good condition. The Hook and Ladder House on Park street is in *very poor* condition.

## HOSE.

We have now ten thousand eight hundred (10,800) feet of cotton rubber-lined hose; of this amount four thousand three hundred (4,300) feet is in good condition, five thousand three hundred (5,300) feet in fair condition and one thousand two hundred (1,200) feet unfit for use. One hundred feet has been sold by the department during the year. Forty-eight (48) feet of stiff and thirty-two (32) feet of flexible suction hose in good condition except twelve (12) feet of the stiff hose which is in poor condition.

## WATER SUPPLY.

Our water supply is one of the best. We have one hundred and fifty-four (154) hydrants, all in good working order; the pressure will range from 45 to 120 pounds.

## FIRE ALARM TELEGRAPH.

The fire alarm, under the supervision of Mr. F. R. Whitney has given good service during the year. We have, at the present time, 28 alarm boxes including box 45, Bates Mill, and box 6, Androscoggin Mill, which are private, and about 21 miles of wire.

## REMARKS.

I would recommend the following:

A new building for the Hook and Ladder Trucks on Park street, to replace old one now there as it is unfit for the use of the department. One pair horses to be stationed at this house permanent, and one call team. One set swinging harnesses. One permanent driver and tiller-man. Hook and Ladder Truck No. 1 to be varnished.

ENGINE HOUSE, ASH STREET.

A permanent team for Engine No. 3.

A permanent horse for Hose No. 3.

A Chemical Engine.

Engine No. 3, to be painted, and the three hose trucks varnished; also one set new springs for hose wagon No. 2.

Two thousand (2,000) feet hose.

Six Fire Police to assist the department at fires.

A tapper placed in the house of every member of the department; this could be done at an expense of about three hundred and fifty (350) dollars, and would be a great benefit to the department.

One new hose wagon.

One new hose pung.

A fire alarm striker on Main Street.

Fire Alarm box on Bleachery Hill.

To dispose of the two-wheel hose reel and the old four-wheel hose reel.

For remarks and recommendations in regard to Fire Alarm Telegraph, I refer you to the enclosed report of the Superintendent of Fire Alarms.

CONCLUSION.

In conclusion, I desire to express to the officers and members of this department, my sincere thanks for the earnest and faithful manner in which they have discharged their duties during the year, and I also desire to extend to you Gentlemen, constituting the Board of

Fire Commissioners, my most cordial thanks for the interest which you have manifested in the affairs of this department, as well as for the prompt action which you have taken towards securing every needful appliance for the use of the service.

Respectfully submitted,

M. J. MORIARTY, *Chief Engineer.*

## REPORT OF SUPERINTENDENT OF FIRE ALARMS.

---

OFFICE OF SUPERINTENDENT OF FIRE ALARMS, )  
ASH STREET ENGINE HOUSE, LEWISTON, ME. )

*To the Honorable Board of Fire Commissioners of the  
City of Lewiston:*

Gentlemen:—I have the honor to submit herewith my annual report showing the work of this branch of the Fire Department for the fiscal year ending February 28, 1893.

The full number of alarms received at the Ash Street Engine House was 76 of which 66 were transmitted over the fire alarm system, 7 by telephone and 3 still alarms, a detailed statement of which is hereto annexed.

The additions to the system were box 81 placed in Auburn, and a direct acting tapper placed in the residence of the foreman of the Hook and Ladder Co.

There have been more than the usual number of troubles on the lines; a large number of them were caused by the moving of buildings and the repairing of buildings where the wires were connected to them. A large number of these troubles could be prevented by changing the wires from the house-tops to poles which I think ought to be done as far as we can without setting too many poles.

The efficiency of the department depends very much on the reliability of the alarm system and there are a few things I should recommend to make it more reliable and better. The old style boxes should be changed to the mechanical non-interfering style which would make them more reliable and would cost less to run them.

Our general alarm and individual call system is very unsatisfactory and I would recommend that there be a tower striker put on the Maine Street Church bell,

and that a circuit be run and a bell put into every fireman's house in the department.

I would also recommend that a signal box be placed on Bleachery Hill and one on Eastern Avenue, between box 74 and Bleachery Hill, also an auxiliary box in City Hall and Music Hall.

The wires and apparatus belonging to this department consist of the following:

#### IN LEWISTON.

One 3-circuit repeater (Gamewell System), 28 signal boxes, 21 miles of wire, 2 engine house gongs, 2 engine house indicators, 1 stop clock, 2 door-openers, 3 strong current protectors, 4 galvanometers, 1 switch board with switches, 1 tower striker, 1 2000 pound bell, 5 mechanical gongs, 4 direct acting tappers, 100 jars of battery.

#### IN AUBURN.

Twelve signal boxes, 1 engine house gong and indicator combined, 1 door opener, 1 tower striker, 3 mechanical gongs, 7 direct acting tappers, 1 magneto generator, 7 magneto call bells, 10 miles of wire.

There is also under my care the private mill circuit, consisting of 4 signal boxes, 1 engine house gong, 7 mechanical gongs, 20 jars of battery and 3 miles of wire.

Also R. C. Pingree's private line from the planing mill to the Ash Street Engine House, consisting of 2 signal boxes, 1 engine house gong, 5 jars of battery.

These private boxes do not give the alarm on the city bell but only in the Ash Street Engine House.

The following is a list of property belonging to the City in this department:

One tower striker run by 1,200 pound weight, 26 signal boxes, 2 circuits in the repeater, 1 switch board with switches, 3 galvanometers, 100 cells of battery, 2

strong current protectors, 6 sets of master keys, 209 box keys, 2 engine house gongs, 2 indicators, 2 door openers, 5 mechanical gongs, 3 direct acting tappers, 21 miles of wire, 1 tripod, 5 pounds of cement, 2 hammers, 1 battery syringe, 1 brush, 3 sieves, 1 hydrometer, 3 cross arms, 2 ridge irons, 15 rubber hooks, 50 glass insulators, 1 sink, 1 pair of pliers, 1 pair of cutting pliers, 1 hand vice and strap, 1 pair of climbers, 150 lbs. of wire, 25 wooden pins, 25 side brackets, 3 gross of screws, 175 feet of rope, 4 ladders, 2 iron bars, 2 spoons, 2 brick drills, 1 shop axe, 2 draw shaves, 2 long bits, 1 auger bit brace, 3 pike poles, 100 pounds of sulphate of copper, 25 pounds of old copper, 15 pounds of old zinc.

In closing this report I wish to thank the Fire Commissioners, Chief and board of Engineers, officers and members of the Department for their kindness and help to me in the discharge of my duties in the Department.

F. R. WHITNEY, *Superintendent.*

## FIRE-ALARM BOXES

### IN LEWISTON.

- No. 6.—Androscoggin Mill, (Private.)
- 12.—Barkerville, Upper Main Street.
- 14.—Main Street, near Geo. B. Bearce's.
- 15.—Russell and Bardwell Streets.

## REPORT OF STREET COMMISSIONER.

---

*To the Honorable Mayor and City Council:*

In compliance with the city ordinance, I herewith submit the following report of the receipts and expenditures for the year ending February 28, 1893; also an estimate of the appropriations necessary for the proper maintenance of the streets and for such permanent improvements as come under the direction of the Street Commissioner.

The expenditures have been as follows:

General repairs,	\$29,747 10
Sewers,	2,916 98
Permanent walks,	4,129 13
New streets and bridges,	666 68
Paving,	748 55
	<hr/>
	\$38,208 44

### GENERAL REPAIRS.

More than the usual attention has been given to the streets and bridges during the past year, and although the frost has penetrated to an unusual depth this winter but little labor will be required in the spring to keep the streets in good condition for travel.

A new stone crusher has been purchased and set up at an expense of \$1,398.23; it is in first class condition and is a great improvement over the old machine. This extra expense together with \$275 paid for a horse, has drawn heavily from the appropriation for repairs.

The following streets have received a thick coating of broken stone: Chapel, from Main to Lowell; Main, from Chapel to Jepson Brook; Bates, from Main to Spruce; Park, from Main to Chestnut; Lisbon, from Chestnut to the Bleachery; Lincoln, from Main to the

paving and from Chestnut Street to Cedar: Maple, from Lisbon to Blake; Ash, from Park to Howe; Walnut, from Bates to Blake; Bartlett, from the French Church to Pine; College, from Union to Skinner, and Pine, from Lisbon to Bates.

On all the above streets the broken stone was covered with fine gravel and then rolled when wet, making a smooth road bed and they are all in first class condition.

The city was fortunate in securing a large amount of gravel of the very best quality for street use from the lots on Lower Main Street, and the following streets have been thoroughly graveled at a comparatively small expense:

Cross, from Lincoln to Oxford; Oxford, from Cross to Chestnut; Chestnut, from Oxford to Hines Alley, and from the Railroad to Park; Cedar, from the South Bridge to Lisbon; Lower Lincoln, from Cedar to Morris Goff's; Park, from Chestnut to Maple; Knox, from Birch to Maple; Bates, from Maple to Spruce; Blake, from Main to Maple; Spruce, from Bates to Lisbon; Birch, from Bates to Pierce; Pierce, from Birch to Pine; Horton, from Pine to Sabattus; Pine from Bates to Sabattus; Sabattus, from Main to Skinner; Bartlett, from French Church to Sabattus; Wood, from Sabattus to Holland; Howe, from Sabattus to Pine; Holland, from College to Nichols; College, from Blake to Sabattus; Lowell, from Chapel to Hammond; High, from Hammond to Main; West Bates, from M. C. R. R. to Summer; Spring, from West Bates to Bridge; Mountain Avenue, from Main to College; Main, from Jepson Brook to the Fair Grounds.

The Road Machine has been in general use on the Country roads and they are in as good condition as the nature of the material near at hand will admit; many of them need gravel to make them passable in the Spring or wet weather. One thousand six hundred and twenty-

two feet of post and rail fence has been built to protect the highways, and one hundred and seventy-six plank boxes have been laid under drive-ways.

Extensive repairs were required on the bridges; nineteen have been replanked, seven of them requiring new stringers. The repairs on Main Street Bridge alone cost \$357.47. Six thousand one hundred and fifty feet of plank side-walk has been taken up and replaced with gravel or coal ashes well rolled. New gravel walks have been built on Mountain Avenue and Pine Street.

#### NEW STREETS.

The time given by the County Commissioners in which to build the road leading from Russell Street to the Windsor Mineral Spring having elapsed, a beginning had to be made in July or a Commissioner would have been appointed to construct it. The road has been built from the Spring to Montello Street, a distance of some 118 rods and also about 50 rods of the southerly section across the land owned by the heirs of D. B. Strout, the whole costing \$640: the balance will probably have to be completed the following year.

#### PERMANENT WALKS.

Two thousand five hundred and forty-four lineal feet of curbstone has been purchased and set, and 1,325 lineal feet of old curbstone has been reset; where the new curbstone has been set the earth has been removed and replaced with gravel ready for the brick; where the curbing has been reset the bricks have been relaid. Six new crossings have been laid requiring 519 lineal feet of flagging two feet wide. In addition to the brick side-walks above mentioned, there has been laid 969 square yards of concrete.

#### PAVING.

About 70 square yards of paving has been laid on Middle Street across the land of the M. C. R. R. Com-

pany; the Company furnishing the blocks and the City doing the work. The curves of the Horse Railroad track at College and Skinner Streets, College and Sabattus Streets, and Lisbon and Cedar Streets have been paved inside and eighteen inches on the outside of the track, a much needed improvement. I would recommend that all the curves of the Horse Railroad, and Pine Street from Lisbon to Park and Park Street in front of the City Building be paved the coming season.

#### SEWERS.

One thousand eight hundred and seventy-five lineal feet of sewer has been constructed the past year as follows: On Cedar Street, 130 feet of ten inch pipe from the center of Lincoln Street toward Hines Alley; on the lower end of Horton Street discharging into the gully 560 feet of ten inch pipe; on Milk Lane, 130 feet of ten inch pipe; on Mountain Avenue, 90 feet of ten inch pipe; on Lowell Street, from Milk Lane toward Hammond Street, 130 feet of ten inch pipe; on Park Street to drain the Stanley block, 200 feet of ten inch pipe, and from Pettengill Brick Yard on Main Street to Jepson Brook, 575 feet of ten inch pipe has been laid. The large brick gully sewer below Walnut Street has been extended some 60 feet. In addition to the above sewers three catch basins have been built and twelve old ones repaired. There is now on hand some 258 feet of ten inch pipe. This pipe was ordered by the City Council to be laid on Main Street, but so late in the season that the frost rendered it impossible to excavate the trench to receive it. This should be attended to in the Spring as there is no drainage for the large tenement block now being finished on that Street. The main sewer on Franklin Street is not sufficient to carry off the water during heavy showers and many of the cellars on this and adjacent streets were flooded during the severe showers of last Summer. The citizens of this section of

the City, rightfully demand that this danger that threatens this property be speedily removed.

PROPERTY OF STREET DEPARTMENT.

The property in my charge belonging to the Street Department is as follows: 18 horses, 11 sets of double harnesses and 2 single harnesses, 9 double dump carts, 2 single dump carts, 7 double sleds, 2 single sleds, 1 breaking sled, 1 jigger, 1 platform wagon, 2 road machines, 1 new stone crusher and engine, 1 street sweeper, 2 stone rollers, 1 iron roller, 8 snow plows, 8 pairs of lead-reins, 10 curry combs and brushes, 7 pitch forks, 12 lanterns, 2 large stable lanterns, 2 feed bags, 9 blankets, 9 sursingles, 1 derrick, 2 jack screws, 145 snow shovels, 50 dirt shovels, 8 long handle shovels, 46 picks, 14 grubs, 17 hoes, 2 gravel screens, 8 wheel-barrows, 3 plows, 12 crowbars, 30 drills, 3 striking hammers, 2 hand hammers, 3 paving hammers, 2 tool boxes, 17 augers, 1 grindstone, 11 bridge wrenches, 1 anvil, 4 monkey wrenches, 5 cart wrenches, 4 cart jacks, 2 tool stamps, 1 branding iron, 2 vises, 1 oilcloth suit, 2 wood saws, 1 cross-cut saw, 4 hand saws, 2 pairs of rubber boots, 600 feet of hose, 7 iron pails, one 100 foot tape, 2 cant dogs, 2 sledge hammers, 1 spoke-shave, 2 chisels, 1 gauge, 1 try-square, 2 iron and 1 steel squares, 1 oil stove, 1 rule, 2 nail pouches, 6 spare collars, 2 pair spare hames, 48 whiffletrees ironed, 3 shop axes, 9 sets lead chains, 4 ice chisels, 2 tampers, 2 straight edges, 4 timber lugs, 2 tamping bars, 300 feet of oak plank, 10 spare yokes, 50 feet of hand hose, 1 bit stock, 60 feet of spare chain for the crusher, 3 stoves, 4 office chairs, 1 writing desk.

ESTIMATES FOR THE ENSUING YEAR.

The City Ordinances require the Street Commissioner to estimate in detail the sum necessary to be expended by the Street Department for the ensuing year. I present the following estimate:

For general repairs,	\$25,000 00
New streets and bridges,	1,500 00
Sewers,	15,000 00
Permanent walks,	2,000 00
Paving,	5,000 00
	<hr/>
	\$48,500 00

The expenses for the support of the insane at the Insane Hospital were \$3,780 80.

The present number of persons who are being cared for at the Insane Hospital is nineteen (19.)

The past year has been in many respects one of the hardest for our poor people to "*get along*" that has ever been our lot to observe.

Far more than the usual amount of sickness has prevailed and many deaths have occurred.

The expenses have necessarily increased both at the city farm and about town.

Our difficult and delicate duties we have tried to perform in such a manner as to protect the interests of the city, and at the same time render such aid to the poor that no reasonable person could complain that we had dealt harshly, or unjustly to them.

We have undoubtedly made some errors in judgment in dealing with the hundreds who have sought aid from the city, but we have endeavored to do our duty, and "if to err at all, to do so on the side of humanity."

We believe it to be in the interests of good government, of the future and the rising generation, to "*be good to the poor*," to aid them in every proper way to be good citizens and gain the influences and advantages of our public institutions; to bring them up out of poverty and low dens of filth and ignorance into the light of day, thus sending new hopes and gladness into their hearts, enabling them to over-ride obstacles and finally becoming not only self-supporting but good thrifty people.

As will be seen by the Auditor's report, a comparatively small portion of the expenses comes from food, fuel and clothing furnished to the outside poor in and about the city.

A considerable expense is that of medicines, but this is a matter wholly under the care and judgment of our

city physicians who are especially qualified to judge of these matters.

One thought suggests itself and that is, that the large portion of our destitute people are aged, infirm, sick and helpless, for were it not so they would not demand aid from the city. "It is the sick who need the physician, not the well."

With the advice of our city physician and other competent medical gentlemen, we have taken quite a large number of our sick people who called for the aid of our city, to our hospitals where they could be properly treated, nursed and cared for; and while this has been done at more or less expense, yet the results have shown that we were fully justified in our actions in that regard, for in nearly every instance the patients recovered and have resumed their arduous labor in the mills and other places wherever they may have been employed.

While there has been a large number of deaths in many parts of the city, from Pneumonia, Typhoid Fever and other causes, thus bringing an expense for burials which cannot be avoided, it is worthy of the assertion to say that in only a small and limited number of the above, were they attended by Dr. Harvey our city physician. He has performed his work and attended to the duties of his office in a prompt, competent and satisfactory manner. He having been called to New York several times during the year on matters in the line of his profession, we were obliged to obtain other medical men to attend the sick ones in his absence.

It is a matter of regret and almost shame that we have a considerable number of "old soldiers" and widows of soldiers left to depend largely upon the appropriation which the city may make for the support of its paupers.

It is well known that our legislature several years ago wisely enacted a statute that no soldier, or soldier's

widow should be compelled to go to the poor-house, but should be aided at some other place. We are boarding several "old soldiers" at the city's expense in private families and in the corporation houses instead of compelling any to go to the farm. We believe the statute to be humane, whether it be constitutional or not, and have conformed to it.

We have continued in the same line of policy regarding the care and custody of our unfortunate insane as we have done in the past three years.

During the school months and especially in Winter, we have been obliged to purchase quite an amount of suitable clothing for children whose parents are too poor to furnish them with sufficient and suitable clothing to attend school.

Quite a large number of people who have become unable to work and who have been residents in the city but a short time, have been sent to Canada and other places from whence they came.

It is believed by many, and the opinion seems to be founded on good judgment that much sickness can be avoided and many lives saved by a rigid and thorough enforcement of the laws relating to the duties of the local Board of Health. It is hoped for the safety of our people that the proper authorities will be diligent in seeing to it during the coming Summer months that all places and houses where cleanliness does not exist and the laws of nature are unobserved, are put in proper condition for health and safety.

The care and protection of our people at the city farm is a matter in which all good citizens are interested, and it is with great satisfaction that we announce that in no instance have we known any ill-treatment to any of our people there. Cleanliness, order and harmony have prevailed and a general homelike appearance has been manifested throughout the year.

The Superintendent and his wife are peculiarly adapted to the places they occupy, and although the expenses have increased for the past year the number of inmates have correspondingly increased.

The room is already too inadequate to our present needs and in the near future our city will be obliged to make additions or build anew for the accommodation of our ever increasing pauper population.

The work and services of our Police Matron, Mrs. Mary S. Foss are so well and favorably known that no words of mine can add to her good name. Some of her work is done indirectly in the line of this department and while she has saved much more than her salary in this department alone, yet she has done an inestimable amount of good where no one else could reach. She is deserving the highest praise for her devotion to her work and the faithfulness in the discharge of her duties.

The work of this department, (hard and perplexing as it is,) has been made lighter by courtesies from several of the officers of the police force, and especially do we appreciate the ever ready and obliging services of the Deputy Marshal in giving information relative to very many whose circumstances he well knew.

Accompanying this report, we herewith submit an inventory of the city farm and almshouse, furniture and supplies, farming tools and stock on hand, also income from various sources during the year.

Respectfully submitted,

OVERSEERS OF POOR,

BY LEVI GREENLEAF,

# REPORT OF SUPERINTENDENT OF CITY FARM.

---

STOCK, TOOLS AND PROVISIONS AT CITY FARM.  
MARCH 1, 1893.

2 horses,	1 nail hammer,
12 cows,	1 hatchet,
2 yearlings,	8 augers,
12 hogs,	1 saw,
42 hens,	5 axes,
1 express wagon,	1 post auger,
1 beach wagon,	1 monkey wrench,
1 sleigh,	5 wood saws,
1 pung,	2 cross-cut saws,
2 sets double harnesses,	2 chisels,
1 single harness,	1 bit-brace and bits,
1 ox-cart,	1 steel square,
1 hay-cart,	2 planes,
1 dump-cart,	1 boring machine,
2 hitch halters,	2 sets of scales,
1 traverse sled,	1 drag,
yokes and whiffletrees,	20 tons of hay,
2 spreaders,	50 bushels of oats,
6 ox-chains,	5 tons straw,
3 plows,	60 cords of manure,
1 mowing machine,	1 Stillson wrench,
1 horse rake,	3 barrels of pork,
1 drag rake,	40 bushels of turnips,
1 dish harrow,	2 picks,
1 spring tooth harrow,	2 iron picks,
1 spike tooth harrow,	1 grindstone,
12 hay forks,	3 meal chests,
5 scythes and snaths,	1 feed trough,
1 adze,	4 corn cutters,
1 draw shave,	6 hoes,

3 garden rakes,	1 hoisting-wheel and fixtures,
1 street blanket,	
12 shovels and forks,	75 cords of stove wood,
1 set of blocks and fall,	150 bushels of potatoes,
1 snatch-block,	20 pounds of tea,
6 meal bags,	4 pounds of soda,
2 ladders,	27 pounds tobacco,
1 cant dog,	6 baskets,
14 hand rakes,	2 boxes of bar soap,
1 horse hay fork,	35 bushels of beans.

HOUSEHOLD FURNITURE AT ALMSHOUSE, MARCH 1, 1893.

1 chamber set,	40 gallons of molasses.
1 lounge,	12 cuspadores,
1 desk,	12 brushes,
1 table,	7 dust-pans,
2 extension tables,	3 sugar buckets,
5 woolen carpets,	8 clothes horses,
1 stair carpet,	6 clocks,
1 oil-cloth carpet,	1 spice chest,
104 common chairs,	1 tea kettle,
18 rocking chairs,	5 bread knives,
3 sick chairs,	2 graters,
6 tables,	1 potato masher,
68 iron bedsteads,	3 wash bowls and pitchers
3 cradles,	4 lanterns,
5 looking glasses,	14 lamps,
6 heating stoves,	1 spinning wheel,
1 cook stove,	2 wooden bowls,
1 cooking range,	1 ice chest,
11 wash tubs,	2 shovels and tongs,
9 wash boards,	2 stew pans and kettles,
2 clothes wringers,	6 stone jars,
16 wooden pails,	6 bean pots,
1 churn,	2 tobacco cutters,
2 barrels of flour,	7 clothes baskets,
1 rubber stamp,	15 smoothing irons,

100 pounds of sugar,	1 pair shears,
2 jugs,	2 sugar bowls,
82 milk pans,	2 platters,
8 tin dippers,	1 dinner bell,
1 coffee pot,	90 straw beds,
35 baking pans,	8 table cloths,
6 feather beds,	100 chambers,
8 bed spreads,	80 spoons,
6 tin pails,	100 knives and forks,
3 tea pots,	2 pairs clipping shears,
10 wash basins,	14 blankets,
2 tunnels,	23 window curtains,
1 boiler,	1 hanging lamp,
3 skimmers,	150 puffs,
1 colander,	70 feather pillows,
1 five-gallon can,	26 straw pillows,
1 one-gallon can,	150 sheets,
1 match bucket,	200 pillow covers,
4 waiters,	18 napkins,
50 bowls,	1 baby carriage,
190 plates,	2 rubber blankets,
100 cups and saucers,	11 wooden bedsteads.
6 pitchers,	

## DEATHS AT THE ALMSHOUSE DURING THE YEAR.

Bridget Green, March 20, 1892, age 55; Katherine Fitzgerald, April 19, aged 90; Robert Wright, June 24, aged 50; Bridget Jones, Sept. 8, aged 72; Baby Jacob, infant, Sept. 13; James Scott, Sept. 17, aged 59; James B. Lyons, Oct. 18, aged 54; Louis Lapeau, Oct. 23, aged 39; Patrick Goulding, Jan. 25, 1893, age 72; Bridget Magee, Feb. 16, aged 67.

# REPORT OF CITY MARSHAL.

---

LEWISTON, MARCH 1, 1893.

*To the Honorable Mayor and Aldermen of the City  
of Lewiston,*

Gentlemen:—I have the honor to submit, as City Marshal, the following doings of the Police Department for the year ending February 28, 1893.

The number of complaints made before the Municipal Court for the year and causes which have resulted in the conviction or binding over to the S. J. Court, are shown in the following table:

Assault and battery,	44
Bastardy,	3
Assaults on officers,	7
Breaking and entering,	5
Drunk and disturbance,	265
Disturbance,	3
Insane,	6
Larceny,	30
Receiving stolen goods,	4
Search and seizure of liquor,	29
Single sale,	1
Liquor nuisance,	2
Vagrancy,	4
	<hr/>
Total,	403
Lodgers and tramps,	232
Lost children returned to parents,	11
Dogs destroyed,	275
Amount received for licenses less expense,	\$356 00
Amount received for sale of kegs, etc.,	45 00
	<hr/>
	\$401 00

All of which has been paid to the City Treasurer of Lewiston.

In conclusion I may say that in the discharge of my duties as City Marshal, it has been my utmost endeavor to act in all matters promptly and impartially. And for the assistance I have received from the Deputy Marshal, members of the police force, and citizens, I return my sincere thanks.

To his honor Mayor Newell, the Committee on Police and members of the City Government as well as to the Honorable Judge and Clerk of the Municipal Court, for their earnest endeavors to assist me in the discharge of my duty, I am sincerely grateful.

Respectfully submitted,

A. E. McDONOUGH,

*City Marshal.*

## REPORT OF POLICE MATRON.

---

The year just closing has brought with it much the same amount of work to be done which usually falls to this department. Although we have not been afflicted with the Grippe of last year, still there has been a great amount of sickness among the poor. Through the Summer and Fall there were quite a number of old people sick, who have since died, who required especial attention and personal oversight to make them comfortable. Through the severe cold of the Winter there have been many cases of Typhoid fever where daily visits were required. Seventeen deaths have occurred during the year, where I have given personal attendance, endeavoring in all cases to render their last days as comfortable as circumstances would allow. In this work, I have had the help and co-operation of Dr. Harvey, who deserves praise for his untiring efforts among the sick and suffering.

I have made daily calls to the Police station, giving what assistance I could to the female prisoners.

I have made frequent visits to our City Farm always going through the rooms and talking with the inmates at each visit. I have invariably found good order and perfect neatness prevailing in every department.

Good homes have been provided for seven children taken from the almshouse. I have distributed literature in all places where I thought it would be appreciated. I have made frequent calls on our patients at the Hospitals giving all possible encouragement and comfort.

During the year I have made 1,437 calls, distributed 1,560 articles of clothing, bedding and household furnishing, besides 37 pairs boots and shoes, 17 pairs

rubbers, 15 pairs mittens and a large amount of food given from entertainments and sent by kind ladies who are ever ready to extend a helping hand to the poor.

I have received many donations from the citizens, and also cloth from the different corporations which has been made into garments for the poor by willing hands. At Christmas I was very pleasantly surprised by a very generous donation from the Lend a Hand Club; it included clothing and all kinds of articles both useful and pretty, which enabled me to carry joy and gladness into poor homes where Christmas gifts rarely find their way. The young ladies of this club have my sincere thanks and I am sure they will be happier all the year for the pleasure they gave others at Christmas. I have tried to the best of my ability to use the utmost caution in the distribution of gifts among the poor, for I have found from experience that keen discrimination and a careful investigation of each case is needed lest charity be wasted.

In my calls in some portions of our city, I have found a great lack of cleanliness; it has been said that "filth and crime go hand in hand," and if so I felt there was need of impressing upon these families the value of cleanliness in their homes as a help to enforce lessons of morality, and I think I have seen good results in the improvement of their surroundings, thus promoting health and comfort.

I feel under great obligations to Mr. Greenleaf, the efficient manager of the Poor Department, for his hearty support and co-operation in all my efforts to improve the condition of the destitute and suffering, and in aiming to do justice to the poor and supplying their needs, to practice strict economy in order to do justice by the city also.

I have assisted quite a number of young girls who came to this city as strangers in obtaining employment and boarding places, and others who had gone astray

have been induced by kind words and tender helpfulness, to give up their evil ways and seek honorable employment.

As you are aware this department differs so much from all others, that a large part of my work cannot be recorded, and therefore you cannot fully understand the great amount of personal effort required to be done only in a silent way, which must await the ingathering of the final harvest to know the result.

I have met with some failures in this part of my work but it has not discouraged me. I have tried to do the work that has come to me, carefully and prayerfully, leaving the result with Him who has said, "your labor is not in vain in the Lord." I feel under obligations to his honor, Mayor Newell, for the kind approval of all work done in this department, and also to City Marshal McDonough, and Deputy Marshal Lajeunesse, for their kindness during the year.

Respectfully submitted,

MARY S. FOSS,  
*Police Matron.*

## REPORT OF CITY SOLICITOR.

---

*To the City Council,*

Gentlemen:—The following cases in which the City of Lewiston is interested have been disposed of during my term as City Solicitor, and are as follows:

Auburn vs. Lewiston had been tried by my predecessor and the evidence reported for the Law Court with a verdict against the defendant for four hundred and thirty-three dollars and fifty-two cents; the case was argued at the July term of the Law Court and recently was reported back that the verdict should stand.

The case of Lewiston vs. Van Buren for pauper supplies furnished by Lewiston to one Dubé, has been settled by a default by consent of defendant, and judgment for one hundred dollars and costs.

The case of Harrison vs. Lewiston, for pauper supplies furnished to Emma Smith was tried at the December term of the Superior Court of Cumberland County; after the evidence was all out, the case was reported to the Law Court.

The claim of Lewiston vs. the inhabitants of Webster, for pauper supplies furnished to Cora B. Butters has been settled to the satisfaction of the physician furnishing the supplies, and the cash paid by the city for medicine was fully paid.

The case of John Ryan vs. Lewiston, for services in the Fire Department was heard by the presiding justice at the last term of Court; judgment was ordered against the City for fifty dollars; exceptions were filed and allowed and the case is in order for hearing in the July law term.

The following cases against this City are now pending in the Supreme Court for this County:

Sadie Richards for personal injuries, claimed on account of an alleged defect in the side-walk on Cedar Street, near the end of Broad Street Bridge; amount claimed, one thousand dollars.

Edgar Ellis, for personal injuries alleged to have been caused on Lower Main Street from a depression in the road bed beside the horse railroad track. Amount claimed, two thousand dollars.

Both these cases are in order for trial at the April term of Court.

Respectfully yours,  
 EDGAR M. BRIGGS,  
*City Solicitor.*

# FINANCIAL REPORT OF SCHOOL COMMITTEE.

---

*Gentlemen of the School Board:*

The Committee on Finance of the School Board, agreeably to the duty prescribed for them, submit the following report of the receipts and expenditures for the financial year ending February 28, 1893, and also their estimate of the amounts needed for the proper maintenance of the schools for the ensuing year.

## RECEIPTS.

City appropriation,	\$26,000 00
From State Mill and Bank Tax,	19,132 10
Free High School Fund,	250 00
Tuition and Books, estimated,	308 50
Error,	67 15
	<hr/>
Total,	\$45,757 75

## EXPENDITURES.

Superintendent's salary,	\$ 1,700 00
Teachers' salaries,	30,445 65
Janitors' salaries,	2,653 77
Books,	2,448 35
Supplies,	2,082 91
Fuel,	3,197 50
Printing,	602 92
Water,	666 00
Rural janitors' salaries,	293 97

School house repairs,	848 89	
Census,	175 00	
Miscellaneous,	543 14	
Total,	—————	\$45,659 10
Unexpended balance,		98 65
		—————
		\$45,757 75

Last June, the pay of all the teachers below the High School was increased; this, added to the cost for teachers for the two new schools opened and for one special teacher, has increased the teachers' pay-roll \$3,451.36.

From as careful an estimate of the receipts and expenditures of the coming financial year as can be made, we think there will be needed the sum of \$28,000 as an appropriation to meet the wants of this department.

This estimate does not include what will be needed for the maintenance of evening schools, for which we ask an additional appropriation of \$1,500.

Respectfully submitted,

C. O'CONNELL,

D. J. CALLAHAN,

*Committee on Finance.*

---

IN SCHOOL BOARD,     )  
March 7, 1892.     )

The preceding statement of the receipts and expenditures for the fiscal year, 1892-93, and the request for an appropriation of \$28,000 for ordinary school expenses, and of \$1,500 for evening schools, were unanimously adopted, and ordered to be sent to the City Council.

[Attest.]
