Auditors Report

Having examined the vouchers and the books of the Selectmen and Treasurer I find them to agree and the statements therein to be correct to the best of my knowledge and belief.

E. L. Tarbell, Auditor
Superintendents Report

To the Citizens of Mapleton:

We have every reason to be satisfied with our schools during the past year and I feel sure that they were never in so satisfactory a condition as now. Of our present teaching force, seven are normal or college graduates, and the others have taken partial Normal courses and are teachers of experience. I believe no town has a better qualified teaching force than the town of Mapleton. While our school population fell off five in number, our school enrollment increased by fourteen and our average attendance is about 2% higher than last year. This is well, and if the proposed bill before the legislature becomes a law, we shall receive all the more money from the State by this higher average of attendance. We hope to see a still higher attendance another year.

The Parent-Teachers' meetings which were held through the instrumentality of Mrs. Baird have been a source of great good to the schools throughout the whole town. I am heartily in sympathy with them and their work. Any co-operation between teachers and parents must be mutually helpful. Parents' day should be a part of each term's program, and no teacher should let a term slip by without giving a special invitation to every parent in the district to spend a half-day at the school and see its work at first hand. This would be of great benefit to all concerned, but to none more than the pupils themselves. Many parents have visited the schools this year and I know of many cases where these visits resulted in closer co-operation between teacher and parent.
Our new schoolhouse at Creasy Ridge is an honor to the town, and there is not a better rural school building in the county. It is built upon modern plans and is well built in every particular.

Owing to the cost of material the appropriation was overdrawn, but the building is well worth every cent it cost. We now lack proper school facilities in but one school, the Lovley district. The schoolhouse there is cold and lacks seating capacity for the number of pupils in the district. At a recent committee meeting the committee recommended the sum of $2,500 for a new school building for that district.

HIGH SCHOOL.

The town has a fine High school building and the High school conducted there by Mr. Gove is doing very satisfactory work. The High school has certainly acted as a stimulus on the grade school and is one of the reasons for the better attendance in the common schools. We were certainly fortunate to get Mr. Gove for the salary we pay him, or $700.00. Let us give him our heartiest co-operation.

REPAIRS.

During the past year a new cement wall, basement and steps have been put in at the Park school and the building lot has been well graded. The plastering in the building is in very bad condition and steel ceiling and wall should be placed there this coming year. The Packard schoolhouse and outbuildings, and the Dennett outbuildings were painted, besides many minor repairs. Several of the school houses are in actual need of a coat of paint, for the sake of economy if
not for looks. And every school lot should be graded and also fenced so that the scholars may not encroach on the rights of the neighbors of the schools.

The school committee recommended the sum of $800 for repairs.

TEXT BOOKS.

Though no allowance was made for High school text books we provided for them out of the sum voted last year, with a slight overdraw. We would recommend the same sum of $300 for next year.

Respectfully submitted.

R. L. SINCLAIR.
