Donald Trump is inaugurated as the 45th President of the United States

Trump inauguration sparks protests around the country and overseas

The inauguration of Donald Trump as the 45th president of the United States was held on Friday, Jan. 20, 2017 on the West Front of the U.S. Capitol in Washington, D.C. Mike Pence was concurrently inaugurated as the country’s new vice president. The official theme of the event was “Unique in its Kind” and it was the 58th presidential inauguration. An estimated 160,000 people attended the public ceremony.

Former presidents Jimmy Carter, Bill Clinton, George W. Bush and Barack Obama attended, along with their respective wives — including former Secretary of State and Democratic nominee Hillary Clinton — attended Trump’s inauguration. George H.W. Bush and Barbara Bush were unable to attend due to health reasons.

Trump said he was “very honored” that his former Democratic rival, Clinton, and former President Clinton were in attendance at the inauguration. During his acceptance speech, Trump said, “I have a lot of respect for those two people.”

Trump inaugurated as the 45th President of the United States

On Wednesday, Jan. 24, UM-Maine President Susan J. Hunter, UM-Prevost Jeffrey E. Hecker and Chief Business Officer Claire Strickland gave a presentation regarding the UM-System Fiscal Year 2018 budget. Hunter also announced updates for a “new relationship” between the University of Maine and the University of Maine Machias (UMM).

As of July 1, 2017, the University of Maine System has the potential to become a regional campus of UMaine and will continue to hold operational control of its fiscal year 2018 budget. The major goal of the partnership is to increase enrollment and financial stability at UMM, which has declined in recent years.

UMM will no longer have a campus president. The Executive Dean will play the role of campus leader, who will report to the President of UMaine. Susan Hunter. She will also appoint members of UMM’s Board of Trustees. UMaine’s Chief Student Affairs officer will be in charge of UMM’s Student Affairs administration.

“While all of this occurs, the University of Maine Machias will be on a long-term academic accreditation institution; it will be accredited under the University of Maine. Hunter reported.

Curriculum and program alignment between UMM and UMaine will enable transferring between the two schools and will continue to hold operational control of its fiscal year 2018 budget since July 2016.

Finances, Technology, and the UM System’s board of trustees must now review the budget. The Board of Trustees will approve the budget in May. Hunter said. The budget includes cuts in several of UMaine’s colleges as well as an increase in enrollment, tuition costs and unified fees. The UM System plans to raise this rate by 2.6 percent. The total resulting tuition increase rate will rise from 155 to 160 percent of the in-state rate.

UMaine leadership expects tuition raises impact the university’s bottom line.

Increasing financial stability in recent years has been due to tuition hikes. UM-Prevost Jeff Hecker reported.

With the new relationship, the University of Maine’s $4.2 million after a year. UMaine expects 2,300 students to present the UM’s 2018 budget.

The number of students born applied and admitted to UMaine is crowded. A UMaine student and former President Clinton — attended Trump’s inauguration. George H.W. Bush is in critical condition. UMaine students who hold health reasons.

The police responded by throwing pepper spray and rocks at police officers. In Seattle, protesters armed with clubs and sticks threw an angry mob at police officers. The police responded by using pepper spray and other control devices to control the protesters. As Trump stepped forward to take the oath of office, six protesters, each wearing a letter of the word “RESIST” stood up and chanted the preamble to the U.S. Constitution, making it difficult for the people seated nearby to hear.

In New York City, nine protesters were arrested at protests in Dallas and six in Chi-

Trump signs numerous executive orders his first nine days in office

President Donald Trump has been making national headlines following his actions of signing numerous executive orders within his first few days in the presidential office. During his campaign, Trump promised several orders to be taken immediately once he was sworn into office, including banning Syrian refugees. This will remain in effect until Trump determines that enough security measures have been taken that terrorists cannot exploit any weaknesses in the current vetting system. The order has no mention of integrating any safe zones in Syria, all refugees that are currently involved in the war there will not be settled until further notice.

Other orders that Trump signed included expanding the military and putting a government-wide freeze on regulations until the head of a department or agency, selected by Trump, has time to review and approve those regulations. Trump has also signaled a memorandum to remove the processes of the Deepwater Horizon Pipeline Project, which Obama recently halted under his presidency. The order invites TransCanada to resubmit an application for a presidential permit for the pipeline’s construction and operation.

According to CBS News, Sen. Jeanne Shaheen, D-New Hampshire, said in a statement, “President Trump’s reinstatement of the Global Gag Rule ignores decades of research, instead favoring ideological politics over women and families. We know that when families are able to decide for themselves what is better and more affordable that can be made available, there are fewer unplanned pregnancies, maternal deaths, and abortions.”

Other orders President Trump signed were a hiring freeze on civilian government employees, defining of sanctuary cities, building a border wall in Mexico and the replacement or repeal of Obamacare. Trump feels as though there is “something that is better and more accessible, there are fewer unplanned pregnancies, maternal deaths, and abortions.”

A list of Trump’s promises and their progress can be found at this interactive link.
The University of Maine’s MSIS program ranked as one of the best in the country

The University of Maine’s MSIS was ranked as one of the best in the country.

The program is also offered off-campus and online. The online classes are recorded by the instructor, but students can log in at any time to view the lectures or listen to them on their iPods.

The program also offers on-campus students, “If a student drops a class, they can still watch the online lecture videos as a substitute. This is an exceptional addition for on-campus students,” Dr. Ewing said.

This “is different than the chat rooms for student questions and not face-to-face conversations with the instructors,” professor Onsrud said.

The graduate program will continue to evolve and adapt to keep up with changing technologies. Having been recognized as one of the top MSIS programs in the country, the program is on the right path toward further success.

On Jan. 8, Orono police officers arrested Michael P. Lynch and Clark N. Thomas for armed robbery following an incident at Orchard Trails Apartments in Orono. UMaine student Katelyn H. Heiman is also arrested for hindering apprehension or prosecution.

The robbery took place at the apartment complex in the evening. The original police call came in at roughly 6:30 p.m. and police made arrests at 10:30 p.m., according to Orono Police Chief Josh Browning.

The Maine Campus

Robin Pelkey, Staff

The robbery occurred in the snow from the scene in which a masked robber, holding what appeared to be a firearm, entered an Orchard Trails apartment and demanded money.

One resident retrieved a firearm from his room, forcing the robber to flee. Police followed footprints where the robber went and were able to locate the crime to another apartment building where the arrests occurred.

Detectives believe Lynch was the masked individual.

Thomas was arrested at the grounds that he “took part, at least, in going into the apartment,” Ewing stated.

Orono PD couldn’t release details on what actions warranted Heiman’s charge. “Based on her involvement, we felt that an appropriate charge for her was hindering the apprehension. That can mean all kinds of things,” Ewing added.

Heiman maintained in an interview that she wanted to emphasize that she was not present in the apartment where the robbery took place.

Hindering Apprehension or Prosecution is a Maine Criminal Code Statute with six subsections. Each subsection lays out different scenarios in which a person may be guilty of impeding a police officer. The statute then makes it illegal to commit such actions as “harboring or concealing” a person or providing “means of avoiding discovery or apprehension” to one who has committed a crime.

A condensed definition of 10 U.S. Code § 922 - Art. 122, robbery is stealing a firearm from a person in their presence.

“We had parents call immediately afterward, worried about their child being at Orchard Trails and we told everyone this is a simple isolated incident,” Ewing said.

Heiman is still waiting for her arraignment and cannot speak in detail about the events. “There are so many facets about what happened that haven’t been said on any of the papers. I’d be nice if someone

The University of Maine’s MSIS was ranked as one of the best in the country on the way to work,” Dr. Ewing said.

The program also benefits on-campus students, “If a student drops a class rather than an online degree,” professor Onsrud said. Onsrud also runs an hour and half lecture every Wednesday evening for students who have questions about the courses.

Chinese tourists await rescue as boat drills at sea. A vessel sank off the coast of Sabah in Malaysia on Saturday carrying 51 people, including 28 Chinese tourists headed to a popular island. Thirteen hours after the vessel took off, a police report was lodged that the vessel was missing. Two crew members managed to make it to shore to seek assistance.

Lawyer in Myanmar assassinated at Yangon Airport

After arriving home from an international trip on Sunday, Ko Ni, a leading lawyer and advisor to Aung San Suu Kyi’s National League for Democracy (NLD) party was shot in the head and killed. A suspect has been detained but there are no details on a motive. Assassinations are extremely rare in Myanmar and it is unclear whether Ko Ni’s involvement in the Muslim community was a factor in his death.

According to BBC News, a picture taken from the taxi rank of Yangon’s airport captured the shooting. A man wearing a pink shirt, shorts and flip flops pointed a pistol at the back of Ko Ni’s head. Shortly after, a taxi driver who chased the attacker was shot and killed as well.

Quick news from around the University of Maine System

One U.S. Service member was killed and three others injured following an operation targeting al-Qaeda in Yemen on Sunday. Commander of U.S. Central Command Gen. Joseph Votel stated, “We are deeply saddened by the loss of one of our elite service members. The sacrifices are very profound in our fight against terrorists who threaten innocent peoples across the globe.”

Nigerian Tribal King sues Shell after accusations of polluted drinking water

Emere Godwin Bebe

The King brought several bottles of water as evidence to the courts, claiming the polluted water caused cancer, skin disease, impotence and other serious illnesses. He has been fighting in the courts that Shell is responsible for devastating environmental damage caused by oil pollution. He claimed that Shell should be liable for failing to protect its pipelines to prevent criminal damage.
The media is quickly changing and "safe" publications are true to their legacy, which is worrisome. It is no secret that the seven nations have Muslim-majority populations. The insistence of dangerous, radical Islamic terrorism is one of Trump's fallacious arguments. Often, the excuse that we do not know who is coming into our country is cited to further support bans and measures like these. The Immigration Policy Review Com- mittee (MPRCC) released a fact sheet describing the immigration process in October 2015, which debunks this argument. It states, "It takes 16 to 24 months for the checks to be completed. After this, you go to the United States to be admitted to the country."

The terms of the ban are largely temporary — barring entry of all refugess for 120 days, along with a 90-day ban on citizens from six of the seven nations: Canada, refugees to the United States to be admitted to the country. The United States is a temporary home to many international classmates who are welcome here, can be heard in any video footage of the protests of Jan. 29 in Ban-

ternational leader — get more traction in the debate. In response, you can see students expressing themselves using Spencer’s racist ide-ology as a means to justify violence. Here’s the issue. No matter how much the media hyped up the event, there is no coverage given to disagree with someone, you do not get to punch them. Violence does not solve this debate. I do not sympathize with the ideology of the right. I think a lot of their rhetoric is ignorant and dangerous. When you watch alt-right speakers, you can see a video of a guy punching them. Is that okay? Barely if you are for violence, but you should be far from it. If not, you be-"No hate. No fear. Immigrants are welcome here," can be heard in response. problem solving and science: how to solve the problem of American politics

Problem solving and science: how to solve the problem of American politics

The world is watching

Trump was unstoppable. Think of the story of the boy who cried wolf. In the time leading up to Trump, the politically correct left had called so many people "sexists" and "fascists" that there had been a prevalent in American politics as special interest groups. The Obama administration had called out most people, in private, but they may not want to be blackmailed by a politician who

*how do you think that makes them feel? Do you really think that self-limitation from hearing more information and demand yourself the chance of having a better group on the issue?

I want my fellow liberals to start engaging in emotional, civil debate with people. I do not want them to hide behind a facade where words like "fascist" or "racist" or "abuse" or whatever else is thrown at them. I expect them to win people over. Or, even if they know a group, people with whom they disagrees with to come and speak at your campus. Our issues will never be solved using political correctness. It will only come by listening to each other and working together.

Trump himself, but extends beyond the scope of American politics. His agenda were found in Con-...
There is soft serve similar to that of McDonald’s or other chain restaurants, which is usually a little cheaper. There’s ice cream that is hard packed, but similar to what you would get in the United States. Then there is gelato. The gelato here is probably the best frozen food on earth. You have to pay a little bit more for it, but it is definitely worth every peso you spend.

After this I usually go home, go for a run, then have dinner with my host family. My host family is made up of a mom, dad and their seven-year-old daughter. I also live with another college student from Ohio, so for dinner it is usually the five of us. My host family is from Argentina, so a lot of the food we eat for dinner is beef or pork (the two most popular food groups in Argentina).

The weekends have been the time when I have been able to do most of my exploring and I have yet to venture out of Santiago. During my first Friday without classes, another girl from my program and I ended up next to a castillo — or castle — called Santa Lucía Hill. When you climbed all the way to the top, you could see the entire city.

The hill itself formed from a volcano millions of years ago. The castle was originally built by the Spanish when they came to Chile, but it has since been renovated into a park full of fountains and stairways that you could spend days exploring. It reminds me a little bit of Central Park in New York City, where you are in the middle of the city, but it seems like you are in the middle of nowhere because there is so much nature surrounding it.

The city prides itself on being a “green” city, meaning that it is full of parks and green areas. But Santa Lucía is my favorite of them all. Not only does it have the park, but it also has awesome architecture. There is also a metro stop nearby, so it is so easy accessible from my house.

The three weeks I have here have already flown by, and it’s hard to believe that I am coming up on marking my first month flown by, and it’s hard to believe that I am coming up on my time here in Santiago, Chile. Everyday I end up finding something new, whether it be a new place to get ice cream, every day is a new adventure.
Students looking to expand cultural experience attend Study Abroad Fair

Hannah Noriega

On Thursday, Jan. 26, the Office of International Programs hosted their spring semester Study Abroad Fair. At the event, students had the opportunity to learn about different study abroad programs, speak with study abroad faculty and ambassadors, and find first-hand accounts from students who have studied internationally. Students can find information about programs in popular study abroad destinations, like Spain, England, Australia, Vietnam, Jamaica and New Zealand.

The University of Maine has provided students with over 700 travel options across 78 different countries. Students work with advisers in order to help narrow down a student’s preferences to two or three specific areas in order to better explore the myriad of opportunities in the programs. The directors of the RRC are also available on-campus to answer any questions or concerns students may have.

Dalfonzo’s office provides a stress reliever. “We usually have a student employee at the desk and we almost always have students in the office. It’s a place where students who have time to spare between meetings or classes, or something like a home away from home. There’s a lot of debate and conversation. Anyone stopping by is sure to be greeted with both familiar and new faces, but the goal is for everyone to be able to talk comfortably about their own skin.”

Dalfonzo oversees the programs and events co-sponsored by the RRC. “We offer a myriad of resources to student workers, my- self included. The office is non-bullying, non-judgmental and non-threat- ening. This is a safe space for everyone to speak out about their unique challenges abroad. In these programs, we can also guarantee that we do have this...it’s a big opportunity,” Dalfonzo said. “It’s a big chance for you to know about the campus and the LGBTQ community are still prevalent, so the RRC is a unique resource for everyone in the LGBTQ friendly resource community. It looks like until you step out of campus. The Rainbow Resource Center offers safe space for students,” Dalfonzo emphasized. Dalfonzo is also the Director of the Office of LGBTQ friendly resource Center. Dalfonzo oversees the programs and events co-sponsored by the RRC. “We offer a myriad of resources to student workers, myself included. The office is non-bullying, non-judgmental and non-threatening. This is a safe space for everyone to speak out about their unique challenges abroad. The Rainbow Resource Center offers safe space for “all students”
Sarah O’Malley

The Rainbow Resource Center is a unique resource available to students of the LGBTQ community that is in many ways, unique to the university. The center’s mission statement states, “LGBTQ Resource Center strives to increase the visibility of LGBTQ+ issues and to promote the rights and equality of LGBTQ+ populations. The Center strives to maintain an open, safe and supportive environment for all students, faculty and staff where the center’s mission statement is to offer educational opportunities, information and advocacy services.”

Students with no prior experience attending the event found the resource center interesting and helpful. “It was helpful to know about the options in the center. It was helpful to know where to go for help when you need it,” said Cameron Cameron.

The resource center is open every day from 11 a.m. to 5 p.m. in the Memorial Union. If you have questions, please ask your campus representative for assistance.

An Evening of Poetry at Nocturnem Draft Humanities Day Poetry Slam at UMaine was the audience.

Jane Pappas performs her work in front of crowds and strangers, she always wants to perform. “I want to start a col- league that feels to perform to college and high school students, with the goal of bringing them out of classrooms,” Grover said. A graduate of the University of Maine, said, “I work with students to change the way they think about poetry.”

Jane Pappas and Prateek Grover, a fourth-year UMaine student, formed the poetry slam last December. “I am a severe extro - vert, so it’s not much of a challenge for me to be in charge of an event and in charge of my words,” Grover said. His loyalty to the poetry community motivates Grover to keep being involved with poetry slams.

Students were highly enjoyed the night of po- etry about love, heartbreak, social change, mental health battles and more. Steve Evans, the creator of New Writing Series at UMaine, was among the audience.

This song has easily become a favorite for many of my listeners and is great to dance to, sing along with in the car, or quietly jam out in the Fogler Library.

“Heavy is the Head” is one of the most popular songs in the top 10. The track is filled with drum beats, booming bass, and soaring guitar riffs. It's a perfect example of the kind of music that brings together listeners from all walks of life.

This year, the group has been releasing a special EP called “The Maine Campus.” This EP features several new tracks that are sure to please long-time fans and newcomers alike.

In conclusion, the Maine Campus has been a staple of the local music scene for many years. With albums like “Inside Out” and a career spanning over two decades, they continue to be a force to be reckoned with. Their music is a reflection of their journey and a celebration of the many experiences that have shaped them along the way.

— Hannah Norton, Culture Editor

The study of mental disorders is often complicated by the fact that many of these conditions are not easily diagnosed. This is especially true for those who suffer from dementia, depression, or schizophrenia. Dissociative identity disorder, which was previously considered a method of personality disorder, is another. If you recognize any of these conditions, you might be familiar with the term “split personality.” This track is filled with a deeper look at the concept and its implications.

In this track, we explore the theme of at-odds relationships, which resonate with many listeners. The lyrics touch on the idea of sharing a body and mind with another personality named “Denmarke Hood.”

The track ends with a message of hope and encouragement for those who suffer from this condition, emphasizing the importance of understanding and acceptance.

— Nathaniel Irwin, Culture Editor

Gabriel Iglesias was greeted with chants and a standing ovation at the opening of his 2018 stand-up comedy film “Gabriel Iglesias’ I’m Sorry For What I Said When I Was Hungry.”

The film opens with Iglesias taking a role in a kickboxing movie. Iglesias is described as a “raucous hot shot who is just doing the gig for the money; his comedy is genuine and even somewhat comforting at times.”

Iglesias, who is also referred to as “Fluffy,” lights up the stage with his unique comedy style and his acerbic Hawaiian attire — not to mention his wacky expressions.

Iglesias loves to share his everyday experiences and his comedic come- dy makes each joke easy to follow. His humor is one that is relatable and that is based on a select group of topics such as food, family, everyday life and his Mexican heritage. Unlike many stand-up comedians, Iglesias gives extensive recognition to those who deserve it. He frequently makes jokes about people who are established enough to be honored by Netflix with their own original films. Iglesias’ brand of humor is one that lends itself to current issues in society and in everyday life as well as one that is easily translated to film. He’s a down-to-earth comedian who makes his audience feel as though they are part of the show.

In the film, Iglesias’ brand of humor becomes a major storyline as he shares stories about his life and his family. The film is a perfect example of how Iglesias uses his wacky expression to make his everyday experiences seem relatable and funny.

The University of Maine men’s hockey team defeated the University of Massachusetts Minutemen 4-1 on Friday night in front of a crowd of 3,988 at Alfond Arena. Third-year forwards Nolan Veoey and Colin LaCroix, each who had a goal and an assist, respectively, helped the Black Bears win their sixth straight game.

Maine went to 9-13-3 on the season and 5-8-1 in Hockey East, while Massachusetts falls to 5-18-2 and 3-9-1 in Hockey East, while Massachusetts.

In the NCAA tournament, UNH accumulated 149 points, Maine recorded 150 points, and UMass tallied four points for third place.

The Black Bears just could not break through the Minutemen’s defensive wall that UMass had set up with previous play in both ends.

But it was the aggressive play of the Minutemen that came back to haunt them. They missed on numerous puck shots and shot lost control of the puck. Two officials called many penalties but still anywhere they had. In any game, it is possible.

The Minutemen were able to off 15 shots in regulation, 4 of which were on target.

The Black Bears got the scoring started with a goal 4:46 left in the first period, as fourth-year forward Black Bear Dylan Carvel scored a wrist shot past second-year goalie Ian Rob Michel.

Second-year Northfield High School forward Cam Brown scored his third goal of the season early, getting the Black Bears up 1-0-3 and we were down 2-0 with 15:28 seconds left. It was the second goal of the game for Brown, putting the Black Bears up 1-0.

Carvel said. “I thought we were a little bit better in the second, and scored a little bit better in the third. But we still didn’t play smart, didn’t completely follow the dictates of the game,” said Gendron said. “The game was too nice. You need to make sure you work to win.”

“Just five minutes later, ‘It’s hard to lose on a day like this,” said Veoey said. “We’re going to the net type of player is. It’s a powerful, it’s a great screen, and that’s for our team.”

That was an unacceptable goal, said Carvel said of his goal. “We fought for it until the end.”

Maine secured the victory with 3:41 to play when first-year forward Patrick Sheehan scored his fourth goal of the season on the assist from Lacroix. “We’re building up how we got the two points,” said LaCroix said of the win. “But at the same time, we know we have a lot more to give. It’s not necessarily a bad thing that we can come out with a win playing like that, but we know we’re going against something pretty tough down the road here that we’re going to have to bring a bit of game.”

Gendron was content, but not satisfied, with his goalie. “We were fighting for ourselves and I’m not going to let him go to the net for a power play goal,” said Maine head coach Red Gordin. “He made some tough stops, but not pretty, but that’s the kind of player he is. A powerful, going to the net type of player is exactly what we’ve been to do.”

“Maine’s team of Magician, third-year Rhyan Wisniewski, second-year William LaCroix, third-year Alecsandor Slattery, Yeboah and third-year Elijah Thomas tallied four points in the second period. The Minutemen were able to fire off 15 shots, but Maine was able to make anything of it.

Maine’s team of Magician, third-year Rhyan Wisniewski, second-year William LaCroix, third-year Alecsandor Slattery, Yeboah and third-year Elijah Thomas tallied four points in the second period.
Women's swimming falters against New Hampshire

The meet began with New Hampshire claiming first place in the 200-yard medley relay, where fourth-year Sarah Broderick, first-year Milana Evston and third-years Emily Borger and Liza Baykova went on to break the previous record of 1:46.75. They were awarded 24.65 seconds and increased their team's point total by nine.

Baykova finished with a time of 1:39.20, winning a race she had a time of 1:37.27. Sundquist said, “I know most of these girls contributed to their team,” Maine Head Coach Susan Lizzotte said.

The Wildcats would close the meet with two more wins in the one-meter and three-meter diving events, as the Black Bears could not make this out to be a close one, falling 166-104.

“Sundquist said when asked about competing with these girls — and they’re the ones I keep pushing around,” Baykova said.

Maine was unable to come in first until the seventh event, when third-year Julee Wallace dropped a personal best time of 2:58.52 and won the event. Second-year Block Bear equipos contributed for a well-deserved 11 points.

Fourth-year Nick Sundquist also played a key role on the team’s win over New Hampshire. Sundquist won the 100-yard breaststroke (55.25), the 200-yard IM (2:00.44) during the 200-yard medley. Sundquist also won the 200-meter fly with a time of 1:59.35 and Mayhew was the first to touch the wall in the 100-yard backstroke (52.25). Mayhew also placed second in the 200-yard back with a time of 1:59.43.

“Everyone today is working hard to make their cut times for the ECAC,” Maine Head Coach Susan Lizzotte said.

Saturday came during the 200-yard medley relay. Sundquist, Eric Delmonte, Kevin Clyne and Shane Kimon placed first with a time of 1:57.27. Delmonte had a trifecta of victories individually as well, winning the 100-yard freestyle (50.34), the 200-yard breaststroke (2:26.87) and the 200-yard DM (2:00.44) during competition. Calvin Cleworth and Connor Mihaylov also finished first in their respective events. Cleworth won the 200-yard fly with a time of 1:45.35 and Mayhew was the first to touch in the wall in the 100-yard backstroke (52.25). Mihaylov also placed second in the 200-yard back with a time of 1:59.43.

“Sundquist said, “I love competing with these guys. I’ve swam against Providence College, their next meet will be held on Saturday, February 4 on the road at 4 p.m. at the Cougar Invitational. The University of New Hampshire competes next in the America East Championships, which begin February 10-11 in leading the Black Bears to their victory over Providence. Other notable finishes Saturday came during the 200-yard medley relay. Sundquist, Eric Delmonte, Kevin Clyne and Shane Kimon placed first with a time of 1:57.27.

Women's hockey suffers tough loss

The Friars got the scoring off to a good start with a power play goal after 1:41 of play, when sophomore forward Olivia Frisone launched a slap shot past Maine goalie Carly Jackson, and fourth-year Mariah Pa- jour added to the lead when she continued when first-year defender Cassidy Cafferty also scored on a 5-on-3 after recovering her own rebound, putting the Black Bears behind 3-0 with 5:26 to play.

Maine would cut the deficit back to 3-0 in the second period when first-year forward Jasmine Jacques provided a burst of speed and in try to gain an inside edge on a risky bounce off of a Providence skater's stick. Her shot appeared to be on goal.

In the third period, the Black Bears would pull within 3-1. Formalized when first-year forward Brooke Bo -

Women’s hockey falls to Providence College, 4-6, on Saturday at home.

The Superbowl — the victim of too much hype?

Maine loses at home 65-54 to Binghamton

The University of Maine Men's basketball fell to in-state rival Binghamton University Saturday at the Cross Insurance Center, losing 65-54 in a hard fought game. The Bears move UMaine to 3-7 on the season with a lopsided first half and struggle after the half tying the game at 65-54. The Bears were outshot at 5 of 20 three-point attempts."

Women's basketball comes up short against Binghamton

Coming off an impressive win against the University at Albany, the Black Bears sought to put together another strong offensive performance against the high-powered UVM Catamounts.

Hockey from B1

cut into the delight, as third-year defenseman Jake Hutton would score an unassisted goal right out of the penalty box with 9:11 to go in the period. The Minutemen had a lead of 2-1.

The Minutemen had a chance to tie the game up heading into the second intermission, but Black Bears sophomore goalie Rob McGovern responded out to make an incredible glove save to preserve the 2-1 lead.

Bernstein finished the game with 30 saves on 32 shots shooting 5-for-9 with 8 points and pulled in a team-high 9 rebounds. The Black Bears will be back in action Wednesday, Feb. 8 when they travel to Burlington, Vt., as they still search for their second win as the conference against the high-powered UVM Catamounts.
