137275

TOWN CLERK'S REPORT.

MARRIAGES, DEATHS AND BIRTHS.

Jan. 1, 1904 to Jan. 1, 1905.

Number of Marriages.....	8
“ Deaths.....	21
“ Births.....	20

I desire to call the attention of parents to the importance of reporting the Christian names of their children to the Town Clerk, immediately after naming them, as a large percentage of the births are reported by physicians and as children are seldom named until sometime after birth, the physicians are unable to report the name selected.

Parents are requested to call and examine the Record of Births and make the addition necessary to complete the record.

DOG LICENSES RECORDED.

Males 101.....	\$101 00
Females 5.....	15 00
	<hr/>
Total paid Treasurer.....	<u>\$116 00</u>

The school room at No. 2, was sheathed in hard pine and varnished. School No. 14, at Moody's Mill was located at Boyd's Corner to combine with Dyer's district. The building lot and repairs so far have cost about \$260. The town voted \$250. Other repairs including grading of lot and placing rock foundation will have to be made this year.

Only two terms were taught at No. 3, the pupils being conveyed to No. 4 during the fall term.

Paid expense getting Fred Bolan to Hospital	\$2 70
“ I. S. Young, care of tramps	1 50
	<hr/>
Total orders	<u>\$452 74</u>

The case of B. A. Vinal proved to be one of the most serious pauper expenses in four years. He was reported in the early spring of 1904 to be violently insane at Etna and unable to be moved. The expense of doctor and attendance soon became a large bill unknown to us. After investigating the case the original bill was reduced nearly one-half and Vinal taken to the Eastern Maine Insane Hospital for treatment, from which institution he was discharged as cured Sept. 10, 1904. He was then allowed to return to his family on condition that they would incur no further expense from that date. When other expenses are made he will be removed to Town Farm.

“ other miscellaneous accts.	9 70	
“ Transferred to Road Acct.	1.000 00	2,407 69
Balance unexpended		<u>\$3,073 87</u>

The unexpended balance of this account had become large enough to warrant the transfer of \$1000 to the road account which was overdrawn about \$950 on account of unusually large winter bills. This we hope may make it unnecessary to raise more than the usual amount for roads this spring and at the same time keep the balance at about \$3000, the amount which is needed to offset the uncollected taxes and leave cash enough in the treasury at the end of the year to pay all bills as they become due. This is the second time that we are able to report every order paid to date and a balance of \$500 on hand to meet current bills as they mature. We would not recommend that the unexpended balance of the miscellaneous account be reduced much less than \$3000 especially so, if the other accounts are overdrawn very much.

I have examined the accounts of the Selectmen and Treasurer of our town for the year 1904-5, and find them correctly kept, with vouchers on file for all orders drawn.

S. H. MORGAN, Auditor.

Report of the Superintendent of Schools

OF THE

TOWN OF WINTERPORT,

For the year ending March, 1905.

Fellow Citizens:—

Another school year has closed. It is my duty to report to you the result of the year's work in this important department of our local government. The schools during the year have been successful, there has been none that was a failure; we would have had some more of a success than they were but in such cases, it was more the fault of parent than teacher. In our form of government where each enjoys the utmost freedom, it is of great importance that the habit of willing obedience to rightful authority be taught and developed. I firmly believe that a person who has all the qualification for a teacher except that of government can never be successful as a teacher in our public schools, while one possessing the qualification for a good teacher who is not thus deficient will be successful. Parents who uphold children in disregarding the common requirements of good manners and propriety are in error far beyond their comprehension. In case of difference of opinion between teacher and pupil, it is safe to assume the teacher correct and the pupil in error instead of parents assuming the pupil correct and the teacher in error, as has been the case with a few but I am pleased to say such cases are not frequent.

A hearty co-operation of all is essential to success and such has been the case in almost every school in town during the past year; it should be universal and there be no exception to the rule in the future.

Good schools are the gateway to progress, prosperity and power and the best security for the liberty and independence of the people. A good school free to all, evidences the highest type of advanced civilization; it is the strongest rock of the foundation, the most enduring

stone of the temple of liberty; our surest stay in every storm, our present safety, our future hope of influence and honor. Surely such a noble institution deserves the honest support of all citizens; the private whims and narrow notions of a few should not be permitted to stay the wheels of advancing civilization.

SCHOOL HOUSES.

The town by vote directed the Selectmen to provide a schoolhouse for district No. 14 and they located the same near Boyd's Corner, this will accommodate the scholars of that district and those formerly of district No. 11. The sum voted for that purpose was not sufficient to enable them to provide a woodshed, it should be arranged so that they have one at once; the old seats used in the schoolhouse at No. 14 were used in the building at Boyd's, as there was not sufficient money available for that purpose to make other provisions. It would be wise to raise a sum to provide different seats for the building and also to provide better seats for the school house at White s Corner

HIGH SCHOOL.

The town is wise in maintaining a high school. It should be continued as it is a necessity and is successful. There are sufficient reasons why every citizen of the town should be an earnest advocate of it as a permanent part of our school system; those who have no interest in such a school should realize that without it, we must by law pay the tuition of all scholars from this town, who attend approved schools of standard grade in other towns, provided not more than thirty dollars for each pupil per year shall be paid by the town for that purpose.

Without such a school here, the result would be that we should pay out more money for tuition than it costs us to maintain our school, this should not be permitted to occur, but of more importance is the fact that you would deprive many of the opportunity to acquire an education. "The chief difference between an educated and an uneducated person is not that the first is acquainted with regions invisible to the second, away from common sight and interest but that he understands the common things which the second only sees."

As the town must make provisions to educate its children, we should decide to maintain our High School permanently. What a marvelous conception is the public school system of our State; to our schools all the scholars of the town are wanted and welcome without money and

without price; they are supported with boundless generosity by the people and are open to the children of the humblest citizen as freely and ungrudgingly as to the children of the most wealthy; within its jurisdiction all distinction, social, political and religious is banished, all differences hushed, all barriers removed; it recognizes neither party, creed, condition nor station but all have an opportunity for advancement in proportion to the work they will do and its bounties and benefits fall in equal measure upon all. We have endeavored, "With malice toward none, with charity for all" to perform the duties required. We thank all who have in any way worked for the good of our schools and the people generally, for their interest and assistance.

ELLERY BOWDEN,
Superintendent of Schools.
