The State road money was expended on river road, beginning on hill near Merrill's lane to bottom of hill near Charles McDermott's, a little over one mile, turnpiking, graveling and building over culverts besides putting two hundred dollars of the amount into Lowe's Brook Bridge, which was rebuilt this year. We would like very much to have all who have not seen this job on the State Road and Bridge, look it over, for we consider it an extra good piece of work for the money it cost.

In accordance with my duty, I have examined the accounts of the selectmen, treasurer and overseers of the poor of our town for the year 1906-7. I find them correctly kept, a proper voucher is on file for each order drawn; and all moneys paid to the treasurer have been properly accounted for.

# *Report of the Superintendent of Schools 1906-7.*

---

The success and welfare of the schools in town during the past year has been materially aided and advanced by the renewed and continued interest on the part of parents and citizens. It is encouraging to notice in some localities the large increase in the number of visits by citizens to the schools. I am firm in the belief, which I think is founded on common sense, that it is an imperative duty citizens owe the public, to visit the schools. They can in this way be of great benefit in aiding a cause worthy of the best efforts of every person. In some localities there is an indifference on the part of parents which should not exist. All should have a live continuing interest in this important branch of government. The interest is increasing but should continue to grow and should be manifest by practical work. The first step is to become familiar with the work done in your school. In no way can this be done as well as by visits to the schools.

No practical person would employ laborers and send them to work, even if they employed what they considered a competent foreman or superintendent, without occasionally making observations of the way work was progressing. This should be made a practical illustration about visits to those institutions where the mental development of the children is being conducted. Of vastly more importance is the welfare of those who are to become citizens;

---

there is the carrying on of some material construction. Therefore with emphasis I say, look well to the conditions and aid in the success of our schools.

Don't be a chronic kicker and growler, but be always ready to convey to those in authority your honest ideas about conditions and with all fairness offer to the school officials such practical suggestions as occur to you, so that remedies may be adopted to improve existing conditions.

This plan prevails now more than formerly, but should become the custom and invariable rule of all and thus will better practical results be obtained.

Repairs which could not be deferred were made on the school house at Boyd's Cor., (Dist. No. 14) and new seats were placed in the schoolroom.

The most urgent needs at present are—new seats for White's Cor. schoolhouse; repairing belfry to prevent rapid decay of roof of school building at Upper Village, also repairs on school rooms of this building. The school building at West Winterport is in need of extensive repairs,

The High School has been well attended. The class graduated in June 1906, numbered ten. The class to graduate this year will be made up of thirteen members. There will be at least eighteen scholars who will enter that school at the fall term. They will come from different parts of the town. The school should be continued and liberal provisions made for its support so its present high standard may be maintained. To check or dwarf its usefulness by an insufficient appropriation, would be poor business policy and false economy, similar to the philosophy of some who think "A penny wise and a pound foolish" system is economical.

Be comprehensive and business-like in your treatment of this school which is a valuable aid to the young people of this town, and thus show by your acts that you believe

in permanent progress and prosperity for those who work so diligently and faithfully to acquire that valuable attainment, an education.

The one important thing a town can do for the future citizens, is to give them an opportunity to acquire a liberal education; therefore deem it a privilege as well as a sacred duty to "Act well your part for therein all the honor lies."

ELLERY BOWDEN,

SUPERINTENDENT OF SCHOOLS.
