In accordance with my duty, I have examined the accounts of the Selectmen, Treasurer and Overseers of the Poor of our town for the year 1908-9. I find them correctly kept, a proper voucher is on file for each order drawn, and all moneys paid to the treasurer have been properly accounted for.

W. S. LITTLEFIELD, Auditor.

Report of the Superintendent of Schools 1908-9.

Fellow Townsmen:—

The cause of education must always be regarded as of the very first importance by those who desire the perpetuation by our free republican form of government. The right of the people to govern themselves is of no value unless coupled with the capacity to govern themselves well. It is essential, then, that all classes of the community should enjoy the benefit of a liberal and enlightened educational system. This has been as well cared for in this town as our resources would warrant. I am glad to say I sincerely believe that during my term of office such progress has been made as was required, so far as our means justified. No request made of the voters was ever refused. Every effort has been made to receive full value for all money expended and I believe such has been attained.

My efforts have been directed to have the teachers cause the pupils to do for themselves their own work, and thus by exercise of the organ of thought—the brain—grow in mental power. The logical result of such method of teaching is to make the pupils self reliant, and thus be prepared for the duties of life.

There are many theories advanced about school management which must be tried by others and its value determined, before it is advisable to change well known, safe methods, for new theories, but when it has become a demonstrated fact that any system or method is an improvement over the one in use, I have never hesitated to advise its adoption. The teachers have endeavored to give to the pupils under their charge the instruction most needed for their proper advancement and true success.

The parents have continued to manifest a deep interest in the success of our schools. This is one of the most encouraging factors, that indicates progress will be demanded and our school privileges as adequate, as advancing enlightenment demands they should be.

The schoolhouse at West Winterport was thoroughly repaired and is now in good condition. This completes repairs on rural schoolhouses where the outlay will call for any considerable amount, for some years to come. This has been to me one of the very pleasant features of my term of office to see these schoolhouses all put in good condition.

The schoolhouses at Districts No. 1 and No. 4, should be provided with modern seats. When this is done each rural schoolhouse will be furnished in fair condition. The school rooms at District No. 2 were sheathed in part during the year. This was a necessity and could not well be delayed.

It would be very gratifying if some citizen would present to the town, a lot near the centre of the village of adequate size for school grounds so at some future time, when the town thought advisable, a new central school building could be constructed that would be sufficient for all the village schools. The lot required for this purpose should be of sufficient acreage to have grounds, adequate to the needs of such a building. I have, during the past few years, called the matter to the attention of some of our well to do citizens, with the suggestion that they furnish such a lot for that purpose, but as yet they have not seen it to be a duty or a privilege so to do. I shall not enter upon extended comments as to the desirability or final economy, of such a course being taken by the town, but consider it sufficient at present to express my firm conviction of the desirability of such results, and an abiding hope some citizen may yet see it is a privilege, and that they will exercise it to secure such a lot for the town, for the purpose herein named.

Other towns have had citizens as public spirited, so why may we not hope for as good fortune at some future time? I think it proper to give this matter attention in this report. It may convey the knowledge to some one who may desire, at some future time to make provisions to supply a very desirable lot and building as herein suggested.

The appropriation for the High School made it possible to have an assistant teacher, and thus maintain the school as an approved secondary school of standard grade. The employment of an assistant made it necessary to have a recitation room, which was arranged in the school building where the High School is located. The expense of making such changes as were required will be provided for in part by proceeds from entertainments given by the students of that school. It should be gratifying to all to know of the willingness and desire of the students to help defray the expenses of providing a recitation room. The school board was fortunate in the selection of an assistant teacher as well as in the selection of teachers for each of the schools in town. The school year has shown they exercised rarely good judgement in placing teachers in each school, whose work has been successful and therefore very satisfactory.

I thank all the people and especially those who have served as members of the school board during my term of office for their deep interest in the success of the schools for their devotion to duty, their loyal and hearty cooperation for better conditions and to attain the best results possible. In the future, as always in the past, may we realize that our duties as citizens cannot be fully discharged in a commendable, creditable or honorable way, unless we look well to the education of all those who are soon to become citizens, and provide the necessary surroundings, conditions and instructions, so it may be well and thoroughly done.

ELLERY BOWDEN,

Superintendent of Schools.
