REPORT OF THE SUPERINTENDENT OF SCHOOLS.

It is, on the whole, a gratifying report that I am able to make to you of the schools, for the year just ending.

There have been three terms of eleven weeks each, making thirty three weeks in all, as last year. Eight schools have been maintained, including the union school at Sheepscot.

Six of the eight schools have had the services of the same teacher for the entire year, and one other would doubtless have done the same but for the serious illness of the teacher in charge. I find that there is a decided advantage in having a good teacher stay with a school, as she will do her best work after teacher and scholars become used to working together. Our teaching force is a credit to our town, and every reasonable inducement should be offered to retain their services.

One important change has been made in the school books for the year. In place of text books in use in physiology, the Gulick Health books have been substituted. You will recall that this change was suggested a year ago.

The new books adopted have done for our school all that was hoped for them. Physiology has been a dry and uninteresting study, but this year it has held the attention of the scholars and been as attractive as it has been helpful. All our teachers speak in the highest terms of these text books. The books are now very satisfactory, and I would suggest no changes except the adoption of a new primer, which would not involve much expense.

I would like to speak also of a decided improvement that I have observed both with teachers and scholars in the care of books. A new chalk crayon has been adopted that is practically dustless and more economical, as they wear much longer than the common crayons. Erasers with felt instead of wooden backs have been placed in nearly all the schools which the teachers find less noisy than the old ones. These are small changes that add materially to the good work of the school room.

Eleven scholars from our schools entered the academy in the fall, and one from a neighboring town moved here and became a town scholar, although fitting for the academy before coming here, making twelve in all. One dropped out at the end of the fall term. The other eleven are doing creditable work.

As two of our schools are not yet closed, and the registers are not in my hands I am unable to give any statistical report of attendance, etc.

District No. 2.

Our grammar school in the village has maintained its own high standard of work under the direction of Miss

Beulah Holden. I am glad this efficient teacher is content to stay with us. Her school room is a hive of industry and recitations are highly satisfactory. During the year a very good piano has been donated to the schools in the building, and at my suggestion general exercises are held in one room. The piano, which was the gift of Mrs. J. M. Glidden, fills a long felt want, and it is to be hoped that arrangement may be made for instruction in vocal music, in the near future.

District No. 5.

The primary school has been in charge of Miss Louise Robbins for the entire year. I have only words of praise for her work which has been systematic and thorough. The discipline of the school has been excellent. Miss Robbins has also been doing good work in the way of systematizing the school. By another year it is to be hoped that these two schools will be doing regular grade work in all their classes.

District No. 3. The Mills School.

Miss Elsie Dodge has been the teacher for the entire year and has won the confidence and affection of scholars and parents. I cannot refrain from speaking of the wonderful change that has come over this school in the four years that I have been superintendent. Comparisons are not pleasant and I will not make them; but allow me to say that there is not a more orderly and industrious school in town, and the credit is due to the earnest young women who have been in charge. The scholars from Pond Road have been attending this school for the past year, and have been among the most industrious scholars of the school.

District No. 6.

The spring term was in charge of Miss Jesse Kelly, who has had considerable experience as a teacher in our

town. The fall and winter terms have been under the direction of Miss Annie Herbert of Bristol. Miss Herbert is what may be called, a born teacher. She has a faculty for governing but her strong point as a teacher is as an instructor. This is one of our most interesting schools, if properly managed. At present it seems to be receiving the proper management. This school is suffering from inadequate quarters, and seven of the scholars of the district have been transported to district No. 8, because of the congested condition that would exist at No. 6, if all the scholars in the district were to attend their own school.

This is a matter that should be carefully considered at the coming town meeting and such changes made in the housing of this school as seems best. Something should be done about this right away.

District No. 7 South Newcastle.

Miss Edith McCurda has been in charge for the entire year and the school has been somewhat larger than for some time previous. Several small scholars have come in and the teacher has shown much skill and patience in distinctively primary work.

District No. 8. The Kennedy School.

Miss Ella Sherman has been teacher for the entire year and has done good work. Seven scholars transported from No. 6, have brought the enrollment up to twelve, and the attendance has been good for the year.

District No. 9. Sheepscot School.

Miss Cora McLain who has done such excellent work here in the past, and for the first half of the year was taken seriously ill and had to give up teaching. The winter term of ten weeks was taught by Miss Helen Woodbridge. Miss

Woodbridge is a young teacher, this being her second term. She has, however done satisfactory service and with further experience will doubtless become one of our best teachers. It seems to be the unanimous opinion that the plan of a union school be given up, and the citizens of the town will be asked to take action on this matter at the coming town meeting.

District No. 10, No. Newcastle.

Mrs. W. B. Erskine has been the teacher for the entire year and has maintained her usual high grade of work. Illness in her family made it necessary to engage a substitute teacher for a short time and the breaking out of a contagious disease compelled the closing of the school for a week during the winter term. Two scholars from the school entered the Academy in the fall, and there is one who ought to make the Academy in the coming fall.

Several of the teachers took special pains at the Christmas time to have appropriate exercises, and remembered the children in the way of small but appropriate gifts, and in every school it can be said that the relation between teachers and scholars and between teachers and parents has been exceedingly pleasant.

The following scholars have attended Lincoln Academy and tuition has been paid for them for the year ending Dec. 15th, 1911:
