SUPERINTENDENT'S REPORT

To the School Committee and Citizens of Newcastle:

I herewith submit my annual report of your schools.

Considering the change of teachers a reasonable amount of good work has been done, but, as I reported last year, these frequent changes have been and are now doing much to hinder the progress of our schools.

The only schools that have retained teachers for the year are North Newcastle, South Newcastle and the village grammar school.

The maximum salary paid to teachers is \$18, the minimum \$12. We cannot expect an experienced teacher who receives \$15 per week, pays from that amount her board and other living expenses, to remain on our teaching force for any length of time, and certainly we cannot think of securing an expert teacher for any one of our schools who pays her board from a weekly stipend of \$12. The only way to relieve the situation is by paying our teachers a living salary and retaining them.

Mrs. Emily Chandler is teaching her second year in the grammar school. Mrs. Chandler has worked hard for the interest of her school and has met with a good degree of success. Three from this school entered Lincoln Academy last fall. Total attendance, 28. Average, 25.

In the primary room Miss Keyes taught the first term of the year, Mrs. Elsie Reed the second and Miss Hilda Morrison the third. These teachers are well qualified and have done good work, but the changes have meant a loss somewhere. Total attendance, 30. Average, 20.

At Damariscotta Mills, Nettie Clark taught the first term, Miss Winnifred Wood the second and Mrs. Elmira Hale the third. The program left by one teacher

has been so successfully taken up by the others that there has been no noticeable break in the advancement of the pupils. Total attendance, 13. Average, 12.

District No. 4 has also been unfortunate in its changing teachers, Mrs. Mary Sherman teaching the first term, Mrs. Bellamay Bosworth the second and Mrs. Sanford Bartlett the third. One from this school entered Lincoln Academy last fall, and if we are able to retain our present very efficient teacher two will enter the Academy next fall. Whole attendance, 11. Average, 9.

Charles Sherman is teaching his second year at North Newcastle. This is a real rural school; the attendance large and the classes many. Mr. Sherman, in spite of difficulties, has kept up the interest and done good work. Whole number registered, 22. Average, 19.

In Sheepscoot Mrs. Alice Dodge taught the spring term, Miss Isabel Lewis the fall, and Rev. John A. Stevens the winter. This is also a real rural school, but of small attendance and few classes. Let teachers try as they will in schools of this kind, the interest will flag. The attendance, seven, is so small that the school can only be continued by vote of the town.

This is Elsie Sherman's sixth year at South Newcastle. Miss Sherman lives a long distance from her school but she is on duty when the roads are almost impassable. One scholar from this school entered Lincoln Academy last fall.

The school has not the average attendance, eight, required by law and can be continued only by vote of the town.

Miss Lurie Glidden taught the first term of the year at District No. 6, Mrs. Alice Dodge the second, and Miss Winnifred Wood the third. With the present interest and efforts of the scholars four should enter

Lincoln Academy next fall. Total attendance, 22. Average, 18.

All teachers noted above have been faithful to their duties and painstaking in their efforts.

In the report of last year was inserted a notice from the State Laws of Maine relative to the fact that on and after the first day of September, 1924, all school buildings shall be provided with toilet facilities which will meet the requirements of the State.

No appropriation was made and nothing has been done concerning this law.

I would advise that a special appropriation be made for a beginning of this work and that the school board attend to the work as soon as possible, otherwise the expense will be crowded into one year.

Other needed repairs should be made this year, real repairs that will be lasting for a year or two at least. Too much patching has been done; the method of repairs means a greater expense to the town later.

The building at South Newcastle needs a new floor as soon as possible. The little shabby uncomfortable desks in this room have become unsanitary through age.

I repeat that the building at Damariscotta Mills needs a new platform, doors repaired, and furnished with proper locks and bolts.

There are many minor repairs to be made at North Newcastle and Sheepscot. North Newcastle should receive first attention to its toilets. If these two buildings could receive the repairs they need during the summer vacation, a greater interest would be shown in regard to the schools than heretofore.

The outside platform and steps of the village school must be put in better shape.

Tuitions of Newcastle scholars at Lincoln Academy: Winter, 41 scholars; spring, 39; fall, 37.
