Mr. and Mrs. Reed are engaged to run the farm until April 1st, when a new Overseer will have to be hired.

They have kept everything about the place neat and clean and the inmates have been well cared for.

Inmates on the farm during the year were Maggie Alexander and Joe Jordan, for the entire year. Mrs. Sanborn was an inmate until July, when we took her to Sadie Barr's at East Poland, where she is at the present time. This change was made owing to the expense of a nurse who was required to care for her.

REPORT OF BOARD OF HEALTH AND HEALTH OFFICER

February 18, 1929

To the Citizens of Poland:

As a town we were very fortunate in regard to the health of our citizens up to October and since that time there has been much sickness especially among the children.

We have had reported the following cases:

Chicken Pox,	5
Diphtheria,	2
German Measles,	2
Influenza,	41
La Grippe,	9
Measles,	109
Mumps,	11
Pneumonia,	21
Typhoid,	1
Whooping Cough,	15
	<hr style="width: 10%;"/>
Total number,	216

During November we had 65 persons cultured for diphtheria, all reports coming from Dr. A. G. Long from the State Laboratory were negative. One culture was sent to the Central Maine General Hospital in Lewiston which report was positive. The sputum from one person was sent to Augusta for examination, this report showed negative.

Twenty persons have been inoculated with anti-toxin for diphtheria and 36 have been given free vaccination against

small pox. Two houses have been disinfected for diphtheria and 755 health certificates have been issued to food handlers.

I would like to warn our inhabitants to be very careful in opening cans of lye. It seems that when the air comes in contact with the contents a combustion is formed which throws the lye with great force. This is very injurious to the eyes and one cannot be too careful in opening same. I have asked the State Department to investigate this with the report that the matter had been turned over to the Agricultural Department with no further report to date.

Free vaccination against small pox will be given in March, those wishing to take advantage of this will please communicate with me at once.

We wish to express our appreciation for the co-operation given this year in reporting the different diseases to this office. We wish our citizens would continue to bear in mind the necessity of making these reports.

Respectfully submitted,

GEO. P. PULSIFER,
Health Officer,

GEO. P. PULSIFER,

GEO. E. CHIPMAN,

AUDITOR'S REPORT

February 27, 1929

To the Chairman and Board of Selectmen, Town of
Poland, Maine.

Gentlemen:

We have completed our examination of the accounts of the Town of Poland for the year ending February 15, 1929.

The Treasurer's records have been examined and are hereby certified correct. We have determined, from all sources available, that income due the town has been properly accounted for and that all disbursements made by the Treasurer are supported by orders drawn by the Selectmen and signed by two or more members of the board. Other town funds in the custody of the Treasurer were found to be in proper order.

The Tax Collector's records have been examined and satisfactorily account for the entire commitment plus the supplementary list of taxes due.

Payrolls submitted by the Superintendent of Schools and the Road Commissioner were examined and found properly signed and authorized by the School Committee and the Selectmen.

The Treasurer of the Ministerial Fund accounted for the funds in his possession and showed proper records of the income and expenditures. The present plan of distributing this fund to the various churches is to draw checks payable to the trustees of the churches. We advise that this practice be discontinued and recommend that checks be drawn payable directly to the churches.

Respectfully submitted,

JORDAN & JORDAN,

Accountants and Auditors.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Poland:

The Superintending School Committee have carefully considered the needs of your schools for the coming year and recommend, for your consideration, the following budget:

Common Schools,	\$ 8,500 00
Free High School Tuition,	3,000 00
General Repairs,	1,500 00
Graduation, Common School,	50 00

Respectfully submitted,

CHARLES L. PULSIFER,
MARY B. CHIPMAN,
ROGER L. GOWELL,
Superintending School Committee.

Our schools are better in materials and methods than they were.

A system is efficient only as it presents equal and universal opportunities; prepares the youth to do better the desirable things of life which he must inevitably do; prepares him physically for the tasks of life; inspires him with a desire for worthy home membership and for vocational and professional efficiency; gives him a sense of civic responsibility; builds in him an ethical character.

The following essentials mark an efficient school system:

1. An intelligent and sympathetic public.
2. Adequate support.
3. A school plant adequate to the needs of the community, which safeguards the health and morals of the children and has the equipment for efficient instruction.
4. A school year of sufficient length to assure the continued growth of the child.
5. A program of studies which is connected with life lessons and problems.
6. Capable and conscientious teachers of sound judgment and character.

There is a fine spirit on the part of the people which is exceedingly gratifying.

There are many difficult problems yet to be solved, among them the question of transportation of school children who live in sparsely settled sections and who are handicapped in their endeavor to secure an education.

Each day that a pupil is in school is worth to the town about $.02\frac{1}{2}$ per day. The town draws from the State this amount for aggregate attendance.

It is very plain to see that the pupils should be in school every day that school is in session. During the winter term the attendance has been unavoidably low. There has been a loss to both the pupils and town.

A few recommendations follow:

1. Qualified teachers.
2. A longer school year.
3. School nurse.
4. More reading material to be placed at the disposal of the pupils.

HEALTH WORK

All teachers are required to give instruction in health principles, in health projects.

During the past year the support of the Superintending School Committee was obtained and the services of a Red

Cross Nurse was secured. The nurse examined 332. The following points were observed: eyes, teeth, ears, skin, weight and height. These reports were sent home. The nurse also visited some 30 homes giving advice and instructions to mothers. If this can be followed up, in a few years most of the worst defects can be corrected, and the habits of health and cleanliness of the children greatly improved.

READING

A very decided improvement in the ability of pupils to read has been gained. Teachers were encouraged to study the subject and to teach from every conceivable angle, posting themselves on the several methods that are advanced so that they might select the one which gave the best results. They are still studying. It is believed that by improving the quality of reading in our schools; we shall materially enhance results in every other study.

GIFT

The Superintending School Committee wish to express their appreciation to Mr. Tripp for his kindness in furnishing and setting a fine new flag pole in the Lower White Oak Hill District.

TEACHERS' MEETING

The Poland Teachers' Association has become a very important factor for good to our teachers.

Six very helpful and interesting meetings have been held during the year. Programs have been so planned that several professional speakers have been enjoyed.

It is our belief that the meetings of the teachers' association are of increasing benefit and constitute a valuable factor in our educational program.

CONCLUSION

The year has been filled with unavoidable breaks, with much sickness and hardships which we have tried to overcome with courage.

Our teachers are a splendid group. I wish to thank them for the fine spirit and kindness which they have shown in all of the hardships which they have met. Their kindness to me is sincerely appreciated. They are a painstaking and faithful group. It is a pleasure to work with them.

Respectfully submitted,

HARRIET M. SPILLER,
Superintendent of Schools.
