Mr. and Mrs. Elmer Tripp were engaged April 1, 1929 to run the farm until April, 1, 1930.

Mr. and Mrs. Tripp have given good satisfaction, the inmates have received good care and we have found them very reasonable in their expenditures.

There are two inmates at the farm, Joe Jordan and Maggie Alexander. Mrs. Sanborn is still being cared for by Mrs. Sadie Barr of East Poland.

 Town Clerk.

REPORT OF BOARD OF HEALTH AND HEALTH OFFICER

February 18, 1930

To the Citizens of Poland:

Since our last report we have had reported, and likewise have sent these, weekly, to the State Department of Health at Augusta, Maine, the following cases:

| | |
|-----------------|----|
| Chicken Pox, | 14 |
| German Measles, | 1 |
| Influenza, | 1 |
| Measles, | 1 |
| Mumps, | 1 |
| Pink Eye, | 1 |
| Pneumonia, | 6 |
| Scarlet Fever, | 1 |
| Whooping Cough, | 32 |
| | — |
| Total number, | 58 |

I have disinfected a school house and one dwelling house for scarlet fever. Attended four Board of Health meetings and issued 780 health certificates to food handlers. Eleven persons have availed themselves of free vaccination against small pox. For the month of March 1930 we again offer free vaccination for small pox. Anyone wishing to take advantage of this will please communicate with me.

Elmer Walker, South Poland was recommended for plumbing inspector for the town and was so appointed by the State Department.

I notice some people still insist in depositing their rubbish within the limit of the highway. We should have more pride in our town than to let anyone do this, so please discontinue this practice.

Respectfully submitted,

GEO. P. PULSIFER,
Health Officer.

AUDITOR'S REPORT

February 26, 1930.

To the Chairman and Board of Selectmen, Town of
Poland, Maine.

Gentlemen:

We have completed our examination of the accounts of the Town of Poland for the year ending, February 15, 1930.

The Treasurer's records have been examined and are hereby certified correct. We have determined, from all sources available, that income due the town has been properly accounted for and that all disbursements made by the Treasurer are supported by orders drawn by the Selectmen and signed by two or more members of the board. Other town funds in the custody of the Treasurer were found to be in proper order.

The Tax Collector's records have been examined and satisfactorily account for the entire commitment plus the supplementary list of taxes due.

Payrolls submitted by the Superintendent of Schools and the Road Commissioner were examined and found properly signed and authorized by the School Committee and the Selectmen.

The Treasurer of the Ministerial Fund accounted for the funds in his possession and showed proper records of income and expenditures.

Tax deeds held by the town should be carefully filed and records kept of the same which may be properly checked.

Respectfully submitted,

JORDAN & JORDAN,

Accountants and Auditors.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Poland:

The Superintending School Committee have carefully considered the needs of your schools for the ensuing year and recommend, for your consideration, the following budget:

| | |
|----------------------------|-------------|
| Common schools, | \$ 9,000 00 |
| Free high school tuition, | 3,000 00 |
| General repairs, | 1,500 00 |
| Graduation, common school, | 50 00 |
| School flags, | 25 00 |

Respectfully submitted,

MARY B. CHIPMAN,
ROGER L. GOWELL,
CHARLES L. PULSIFER,

Our schools are better in materials and methods than they were.

A system is efficient only as it presents equal and universal opportunities; prepares the youth to do better the desirable things of life which he must inevitably do; prepares him physically for the tasks of life; inspires him with a desire for worthy home membership and for voca-

tional and professional efficiency; gives him a sense of civic responsibility; builds in him an ethical character.

The following essentials mark an efficient school system:

1. An intelligent and sympathetic public.
2. Adequate support.
3. A school plant adequate to the needs of the community, which safeguards the health and morals of the children and has the equipment for efficient instruction.
4. A school year of sufficient length to assure the continual growth of the child.
5. A program of studies which is connected with life lessons and problems.
6. Capable and conscientious teachers of sound judgment and character.

There is a fine spirit on the part of the people which is exceedingly gratifying.

There are many difficult problems yet to be solved, among them the question of transportation of school children who live in sparsely settled sections and who are handicapped in their endeavor to secure an education.

Each day that a pupil is in school is worth to the town about \$.02½ per day. The town draws from the State this amount for aggregate attendance.

It is very plain to see that the pupils should be in school every day that school is in session. During the winter term the attendance has been unavoidably low. There has been a loss to both the pupils and town.

A few recommendations follow:

1. Qualified teachers.
2. A longer school year.
3. More reading material to be placed at the disposal of the pupils.

HEALTH WORK

All teachers are required to give instruction in health principles, in health projects.

During the past year the support of the Superintending School Committee was obtained and the services of a Red Cross Nurse was secured. The nurse examined 332. The following points were observed; eyes, teeth, ears, skin, weight and height. These reports were sent home. The nurse also visited some 30 homes giving advice and instructions to mothers. If this can be followed up, in a few years most of the worst defects can be corrected, and the habits of health and cleanliness of the children greatly improved.

READING

A very decided improvement in the ability of pupils to read has been gained. Teachers were encouraged to study the subject and to teach from every conceivable angle, posting themselves on the several methods that are advanced so that they might select the one which gave the best results. They are still studying. It is believed that by improving the quality of reading in our schools, we shall materially enhance results in every other study.

TEACHERS' MEETING

The Poland Teachers' Association has become a very important factor for good to our teachers.

Six very helpful and interesting meetings have been held during the year. Programs have been so planned that several professional speakers have been enjoyed.

It is our belief that the meetings of the teachers' association are of increasing benefit and constitute a valuable factor in our educational program.

CONCLUSION

The year has been filled with unavoidable breaks, with much sickness and hardships which we have tried to overcome with courage.

Our teachers are a splendid group. I wish to thank them for the fine spirit and kindness which they have shown in all the hardships which they have met. Their kindness to me is sincerely appreciated. They are a painstaking and faithful group. It is a pleasure to work with them.

Respectfully submitted,

HARRIET M. SPILLER,
Superintendent of Schools.
