Realizing that the past year has been a hard one on the tax payers we wish to thank all for the hearty co-operation in which they have shouldered the burdens and made things pleasant for those in charge of the different departments, who, we feel, have done their best to see that full value is received for every dollar spent, keeping in mind that the money is supplied by the community at large, and not by a few.

Thanking you sincerely, we submit the forgoing report.

Chas. C. Moody / Selectmen W. J. Carleton / of Llewellyn Clark / Winterport

AUDITOR'S REPORT

This is to certify that I have examined the records and accounts of the officers of the Town of Winterport for the year ending February 18, 1921, and find them correct, with proper vouchers for all accounts paid.

Charles M. Conant,

Auditor.

Winterport, March 1921

JOSHUA TREAT JR., TREASURER, IN ACCOUNT WITH THE TOWN OF WINTERPORT.

SCHOOL REPORT

To the Citizens of the Town of Winterport; -

We respectfully submit the following report of the schools and of the financial standing of the school department for the school year ending Feb. 20, 1921.

The general conditions of our schools are excellent. The weather conditions, also the traveling conditions have been so good throughout the year that the attendance has been above the average and the results obtained are very satisfactory.

As often occurs, a number of changes have been made in our teaching force during the year, but we are able to report about the same number of home teachers employed.

The table found elsewhere gives the teachers, number of weeks, and the wages per week.

The services of our janitors must have been good as we have heard no complaint of the work. We can safely report a year of most commendable service in all departments.

CONVEYANCE.

Mr. Albert Twining conveys the children to the Whittier School; Mr. Frank Hall, Mr. L. A. White and Colby Brown convey to the Martin School; and F. E. Dunton conveys the children on the river road to the village school and Mr. John Fields conveys from Boyd's Corner to the Fisher School. The average weekly cost of a team is \$8.40.

FUEL.

Fuel has been engaged as usual by the members of the School Committee.

REPAIRS.

General repairs have been made. Floors have been oiled and the blackboards painted. At the High School room the ceiling has been washed and painted, and the toilets painted.

TEXT BOOKS.

Text books in common with other commodities have increased very much in price, therefore in order to furnish the necessary books we have been obliged to exceed the appropriation.

Our Geographies have become badly worn and need to be replaced with new ones. A larger appropriation in this account will be needed.

MUSIC.

We are very glad to report that we are having instruction in music in our schools by a specially trained music teacher. This is filling a long felt want and we hope it may become an established part of our school course. Miss Baker's report gives more definitely the character of the work and the results.

Through the efforts of Mr. Young and the kindness of Mr. Hill, the Grammar School is enjoying a piano. The efforts and kindness are much appreciated.

Learning of the existing need for a piano in the High School and of the desire for one by the teachers and the students Mrs. Harriett P. Lewis very generously presented hers to the school. We highly appreciate this kind deed and we join with the school in thanking Mrs. Lewis for the piano.

PHYSICAL EDUCATION.

The present demand is for physical fitness as well as for mental fitness. That the need of medical attention is very great is being forced upon us by the large percentage of ailments found in schools where a physician is employed.

Of about 2,000 school children living in a union of good, healthful, rural towns in New England, who were examined by school physicians during the past year, the reports show troubles as follows:—

Mental defects	6	Defective breathing	87
Hypertrophoid tonsils	381	Defective teeth	395
Cervical glands	301	Pulmonary diseases	14
Orthopedic defects	62	Skin diseases	9
Cardiac disease	48	Malnutrition	54
Pediculosis	12	Defective vision	43

So far as our study of the subject extends we believe that this may be taken as a fair representation of the condition that prevails among our school children. Many of these ailments if taken in season yield to proper treatment and the child grows into a healthy being, both in body and mind, capable of rendering to the community in which he lives the full measure of usefulness for which he was intended. Are we not responsible to some extent, for the health of our future citizens? We have asked for an appropriation of \$150 to start this movement.

Health lessons are being given and arrangements have been made for instructions in physical culture. A copy of "Clark's Physical Culture" has been placed on every teacher's desk.

Intelligence tests have been given and the results are used as a basis of authority for the promotion of scholars during the year and for grading them according to their mental ability.

HIGH SCHOOL.

Our high school with 44 students registered is doing excellent work. With Principal Andrews as its leader we expect no other than good results. For further information I refer you to the principal's report.

SPECIAL EQUALIZATION FUND.

We have received from the State \$250.00 to be expended for our High School as follows.

Applying to teachers' wages	\$	150 00
Providing equipment		50 00
library books	*	50 00

We have also received from the state to be credited to the common school account and to be used for increasing wages of better qualified teachers—\$250.

FINANCIAL NEEDS.

Practically the same amounts as were raised last year are needed.

Common Schools\$4	,000 00
High School	,700 00
Text Books	400 00
Repairs	300 00
Insurance, Apparatus and Supplies	200 00
School Physician	150 00

In closing we wish to thank all who have in any way contributed to the welfare, comfort and success of our schools.

C. C. Clements (1921)

W. S. Littlefield (1922)

W. H. Lord (1923)

Superintending School Committee.

By Frederick M. Nickerson, Secretary.

Report of the High School Principal.

To the Officers and Citizens of the town of Winterport.

The following report of the high school for the year 1920-21 is respectfully submitted:

The attendance during the present year has been rather better than last year, fewer cases of unnecessary absence being noticed. Excuses are required for all cases of absence and each unexcused absence results in a deduction of 5% in the student's marks for the term. This system is similar to the absence system in operation at Bates college. Forty-five students are registered at present and are classified as follows:

	Boys	Girls	Totals
Senior	1	4	5
Junior	1	8	9
Sophomore	5	12	17
Freshman	7	7	14
Total	14	31	45

A tabulation by courses shows the following classification:

	Classical	Course.	English Cou	irse.
Senior -	0	1	5	
Junior	7		2	49-8
Sophomore	7		10	
Freshman	5		9	
	1()			
Total	19		26	

The average scholarship of the students is high. An honor list is posted at the end of each half term showing the names of all students who have attained a rank of A in all studies during the half term and the names of those who have attained a rank of not less than B in all studies. About 40% of the students have retained their places on this list throughout the year. An average of 70% or over in each course is required for passing work and all courses in which the final rank falls below 70% must be repeated. A minimum of 15 units on subjects completed in the four years' course is required for graduation according to the State law.

There is some lack of preparation noted in the entering classes which hinders the progress in high school. This may be overcome by close co-operation among parents, teachers and children. Teachers should not promote children who have not thoroughly mastered the fundamentals of the grades, and parents should co-operate with the children outside of school hours and see that home work is properly attended to.

The course in music is proving very satisfactory and without doubt is a distinct addition to the school curriculum. The piano presented by Mrs. Harriett Lewis is highly appreciated and many thanks are due her for her generosity.

In order that the school may be thoroughly efficient the following plans should be carried out.

- (a) The mathematics of the senior year should consist of courses in solid geometry and advanced algebra, rather than the review of plane geometry, elementary algebra and arithmetic now in the curriculum. Students entering college find themselves greatly handicapped by the lack of these courses.
- (b) The treatise on civics now in use in the school is antiquated and a more modern and practical course should be provided.
- (c) The following repairs are not only desirable, but actually necessary for the efficiency of the school.
- (1) New black-boards, should be provided for the main room.
- (2) The fallen plaster should be replaced in the hall and recitation room and the walls painted.
- (3) A new stove is needed for the recitation room and the box around it should be repaired.
- (5) Provision should be made for the display of the flag on the school house. The school has a flag, but the halyards for raising it are lacking.

In closing, I wish to thank the superintendent of schools, the school committee and all other officers and citizens who have contributed to the success of the school.

Respectfully submitted,
H. P. Andrews,
Principal,

Winterport, March 7, 1921.

Report of the Supervisor of Music.

To the School Committee and Citizens of the Town of Winterport:—

By request of the Superintendent of Schools I herewith submit a report of my work as Supervisor of Music in the schools of Winterport.

OUTLINE OF THE WORK.

Music in the schools! What does it mean? To some it may mean something about as definite as "music in the air." It conveys, perhaps, a vague idea of pleasant times spent in learning and singing songs to break up the heavy routine of other school studies, with sometimes a little talk on music and statement of facts about its structure. This is all right as far as it goes, and, alas, is all that some schools are getting; but it is not what we mean by public school music in the strict sense of the term.

By public school music, we mean a definite, carefully mapped-out, carefully followed system of vocal music, under the direction of a trained supervisor. Beginning with the primary grades, the work is carried through step by step, grade by grade, until a course is completed which gives every child a training in sight reading and singing, and a practical knowledge of all the fundamental principles of music.

The little child entering upon school life is taught first how to use his voice. Children lacking in the sense of correct pitch are patiently worked with; their listening faculties aroused to hear the difference in tone, and to imitate tones correctly.

Correct breathing and tone production are taught from the start, and voices are never ruined by being allowed to sing too loud, too harsh, or too throaty.

In the first three grades is established the most important thing of all—the memorizing of tone. This is done by the use of the syllable names for our scale tones, do, re, mi, etc.

At the end of the third grade, pupils should be able to sing at sight fairly difficult melodies. The teaching of time goes constantly with the study of tone. With each succeeding grade, exercises become more difficult, mental demands are greater, reasoning powers are developed, powers of thought and intense concentration.

VALUE OF MUSIC IN THE SCHOOLS.

It does not seem as if, in this age of the world there should need to be any argument over public school music. But if one were needed, the strongest would be this: that music calls for as great mental study, develops the reasoning and concentration as much as, if not greater than, any other school subject. This is truer of public school music than it is of the study of any kind of instrumental music.

It is impossible to give to every child private lessons on a musical instrument, but it is the right of every child to be taught to use his singing voice and to interpret correctly the signs and symbols which constitute our musical language.

We cannot get along without music No public program is complete without it Churches, lodges, societies, patriotic and political gatherings—all must have it. If there is music in the schools, there will be music in the home

PUBLIC SCHOOL MUSIC IN WINTERPORT.

Winterport made no mistake in putting music in its public schools, in keeping with the best schools all over our state and country. The great mistake would be if the standard of the teaching of music is ever allowed to slip; if, through fake ideas of economy, the imitation is ever substituted for the genuine

The regular teaching of music began in our Winterport schools about the third week of last April. From that time until the close of school it was carried on in the grades of the village schools; two visits by the supervisor being made to each room during the week. It was impossible to carry it to the rural schools at that time. Neither could it be taken up in the high school, owing to the pressure of high school work in the absence of an assistant.

The first public appearance of the pupils, after some work in music, was at Union Hall last Memorial Day, when intermediate and grammar school pupils sang with good effect, two flag sones during the exercises.

Every holiday, patriotic or otherwise, is always prepared for in the schools with appropriate music. The little tots could sing at a moment's notice, 'Marching Proudly, Went Our Soldiers,' 'Out to Fight in Battle,' Now They Sleep Beneath The Stars.'

MUSIC IN THE HIGH AND RURAL SCHOOLS.

With the opening of the fall term, the music was started in the high school and the rural schools, one day a week being given to visiting our five rural schools. A good start was made in the work in these schools, but with the coming of winter, it had to be discontinued during the winter season.

NUMBER OF LESSONS AND LENGTH OF LESSON PERIOD.

One lesson a week, of from forty to forty-five minutes' duration, has been given in every room in the village during the fall and winter terms.

It is not only the actual teaching of these lessons in the school-rooms that takes up the time of the supervisor. All these lessons most be carefully prepared in advance. Exercises covering points being taught must be written and left with the grade teachers, to enable them to carry on the work during the week. A supervisor must give up many hours to her work outside the school-room. When books containing desired songs are lacking, the copying of songs also requires much time. Some songs also have to be transposed, put into another key, the given key being, perhaps, too high or too low.

PIANOS IN THE SCHOOL ROOMS.

Pianos in the rooms of the grades are not at all a necessity. It is very pleasant and helpful to have a piano in a school building for use in assembly singing, and to use after songs have been learned.

The town is fortunate in having pianos in the Grammar and High School buildings. Mrs. Harriett Page Lewis very graciously gave us her piano for the High School. It has been much enjoyed, and has added greatly to the school life.

In November an entertainment was given by the grammar and intermediate pupils, the proceeds from which bought a second-hand piano for their building.

These pianos have rosewood and mahogany cases of value.

Another gift for which we are deeply grateful came from one also born in, and loyal to, the town of Winterport, Mr. Frank R. Atwood, of Bangor, gave us about ninety books, containing many of the old, familiar songs and patriotic ones. These are being used in the high and grammar schools for supplementary singing.

OUR NEEDS.

We need, very much a set of school music readers, adapted to the work of each grade, for sight reading and singing. There are five sets of these readers, published by different firms.

Books especially for high school singing are a very great need, and must be procured in the near future. Blackboard work is a great feature of public school music. Exercises must be put on the board, the staff lines large and clear and all notation likewise. The upper primary and intermediate rooms have fine blackboards. There are good ones in the rural schools. In the grammar, lower primary and high school they are very difficult to write upon, and unsatisfactory for work of any kind even, beside music.

It is to be hoped that after the beautiful new library stands before us in completion, the citizens will turn their attention to a new, modern school building, centrally located, with modern equipment for efficient work.

CO-OPERATION OF THE TEACHERS

I have only words of praise for the co-operation and helpfulness given me by all the teachers in my work. They have all very kindly adapted their hours to suit mine, and have given me always all the time I desired.

THE GREATEST BENEFIT.

The children who will get the most good out of our public school music are those who are now in our primary and intermediate grades. The work was started rather too late for those now in the high school, or even in the upper grades of the grammer school. This work must be begun with the primary children and advance in the same way as they advance in other studies. It is work that cannot be hurried. It means constant drill, reiteration, repetition of ideas and facts. All the time the children are advancing toward a definite goal. By the time the high school is reached the foundation work should be over. We should have a school of young men and women able to sing pleasingly and well, anything set before them; a source of pleasure to themselves; an asset to the musical life of the community.

SYSTEMS OF PUBLIC SCHOOL MUSIC.

There are several fine systems of public school music. The one being used in the Winterport schools is the Weaver system; and was studied by the supervisor in Boston in 1914, followed by a course at the Institute of Pedagogy, Northampton, Mass., in 1915. It is used extensively in the schools of Massachusetts and Connecticut, such as Boston and Hartford.

RESULTS ALREADY SEEN.

The recent entertainment in celebration of Washington's Birthday showed well some results of our work up to this time.

The clear, sweet tones of the children, their distinct enunciation, the fine musical effect of the choruses, all of which brought so much delight to the ears of the listeners, was, as one citizen expressed it, "quite worth while."

Because of its educational value, and its value from the standpoint of culture and art and moral betterment, public school music deserves the continued and increasing support of the town and all its citizens.

Respectfully submitted,

Jessie D. Baker,

Supervisor of Music.

Town Warrant

STATE OF MAINE

Waldo, S.S.

To Fred A. Merry, a Constable in the town of Winterport, in said County, Greeting:—

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said Town of Winterport, qualified by law to vote in town affairs, to assemble in Union Hall, in said town on Monday, March 21, 1921 at 10 o'clock a.m., to act on the following articles, to wit:

- Art. 1. To choose a Moderator to preside at said meeting.
- Art. 2. To choose a Clerk for the ensuing year.
- Art. 3. To choose three or more Selectmen.
- Art. 4. To choose a Town Treasurer.
- Art. 5. To see what sums of money the town will vote to raise for the support of Common Schools, for Free High School, for the repairs of Schoolhouses, for School Supplies and for Free Text Books.
- Art. 6. To see if the town will vote 'yes' or 'no' on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 20 of Chapter 130 of the Public Laws of 1913.
- Art. 7. To see if the town will appropriate and raise the sum of \$533.00 for the improvement of the Section of State Aid road, as outlined in the report of the State Highway Commissioner, in addition to the amount regularly raised for the care of ways, highways and bridges; the above amount being the maximum which the town is allowed to raise under the provisions of Section 9 and 18 of the Public Laws of 1913
- Art. 8. To see whether the town will vote to raise money, and what sums, for the maintainance of State and State Aid highway during the ensuing year, within the limits of the town, under the provisions of Section 9 and 18 of the Public Laws of 1913.
- Art. 9. To see what sums of money the town will vote to raise for the repair of Highways and Bridges and for clearing the snow from Roads during the coming winter.

- Art. 10. To see what sums of money the town will vote to raise for the support of Poor. Salaries of Officers, for Abatement of Taxes, for Hydrant Rental and other Miscellaneous Town Charges.
- Art. 11. To see what sums of money the town will vote to raise for Memorial Purposes, Free Library, Winding Town Clock and Lighting Streets.
 - Art. 12. To choose one or more Road Commissioners.
- Art. 13. To fix the compensation of the Road Commissioner also wages to be paid to teams and men employed on high-way.
- Art. 14. To fix the rate of discount, if any, for the prompt payment of Taxes and the time when such discount shall cease; to fix the time when the taxes due the town for the year 1921 shall become payable and collectable; to determine whether interest shall be charged on Taxes remaining unpaid after that date and the rate of such interest; to see if the town will vote to instruct its Collector of Taxes for the ensuing year to collect all such taxes within the limit made by State Laws for the Collection of Taxes and instruct the Municipal Officers to require the Collector to give a bond for his faithful compliance with the vote under this Article.
- Art. 15. To fix the compensation of the Collector of Taxes for the ensuing year.
 - Art. 16. To choose a Collector of Taxes.
 - Art. 17. To choose three or more Assessors of Taxes.
 - Art. 18. To choose three or more Overseers of the Poor.
- Art. 19. To choose one or more Members of the Superintending School Committee.
 - Art. 20. To choose a Town Agent.
 - Art. 21. To choose an Auditor of Accounts.
 - Art. 22. To choose one or more Constables
 - Art. 23. To choose one or more Fire Wardens.
 - Art. 24. To choose a Fire Inspector.
 - Art. 25. To choose one or more Fence Viewers,
- Art. 26. To choose one or more Measurers of Wood, Bark and Lumber, Shingles, Clapboards, Hoops and Staves.
- Art. 27. To choose one or more Sealers of Leather and Sealer of Weights and Measures.

Art 28. To see if the town will vote to accept a gift from Mrs. Harriet P. Lewis, of a lot of land on which to erect a Public Library Building and remainder of the land to be used as a Play Ground for the children.

Art. 29. To see if the town will vote to purchase the property of the Winterport Water Co. or continue Renting as previously done, and appoint a committee or instruct the Town Agent to represent the Town in the matter.

Art. 30. To see if the Town will vote to accept the list of Jurors as read.

Art. 31. To see if the town will vote to place a Patrolman on the road leading from Main street to the B & A. Station, thence across the New Road so called, to Stream Road, thence to the Monroe town line, thus making the road a State Maintenance Road instead of a State Aid Road, providing the State Highway Commission agree to do their share of maintaining the same.

Art. 32. To see if the Town will vote to sell the Goshen School House so called.

Art. 33. To see what action the Town will vote to take regarding the purchase of a Gravel Loader and Trucks for use on the highway.

Chas. C. Moody | Selectmen W. J. Carleton | of | Winterport
