Auditor's Report

February 23, 1939
10 Congress Sq.,
Portland, Maine

To the Board of Selectmen
Wells, Maine

Gentlemen:

This is to certify that we have audited the accounts of the Selectmen, Treasurer and Collector of Taxes of the Town of Wells for the year ending February 7, 1939, and that the financial standing of the Town as shown by the Comparative Balance Sheet is correct as of that date to the best of our knowledge and belief.

The Collector of Taxes has accounted for all taxes collected and all money collected was deposited with the Treasurer.

The Treasurer has accounted for all receipts and disbursements and the balance shown as due the Town was on deposit in banks. The Cash on hand of \$7112.99 was deposited after the books were closed.

The abatements of \$3183.13 include abatements of 1937 and 1938, due to the fact that the Collector of Taxes did not close his books until February 21. The overdraft in the Snow Removal account was carried forward due to the fact that no appropriation was made and no authority given the Selectmen to borrow money for this account.

Respectfully submitted,

(Signed) EDWARD T. SULLIVAN

Public Accountant and Auditor.

REPORT OF THE
Superintendent of Schools

Wells, Maine, February 1, 1939

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The School Census of April 1, 1938, showed there were 449 boys and 393 girls, a total of 842 persons between the ages of five and twenty-one years of age in the town on that date. There were 548 enrolled in the schools this fall as the following table shows:

There have been some changes in the teaching force which began the school year 1938-1939.

Miss Evelyn Whiteley was elected to fill the vacancy created by the resignation of Miss Somers.

Miss Ruth Palmer was transferred from Division 6 to Division 4, and Miss Mabel Harmon was transferred to Division 16. To fill the positions left by these transfers, Miss Evelyn Lord was elected for Division 6, and Miss Phyllis Barstow was selected for the Division 9 school. Mr. Dustin resigned as teacher at Division 2 Grammar to accept a better position out of the state and Mr. Kendall Adams was chosen as his successor. Mrs. Emery resigned as supervisor of music during the summer and Miss Margaret Ellis was elected to succeed her. All our new teachers have begun and carried on their work with enthusiasm, and our teachers from other years are giving their usual grade of service.

Our repair account is spent not only for actual repairs to buildings and grounds, but also for articles which last three or more years. A typewriter is a repair, while a typewriter ribbon is a supply.

In addition to the usual repairs, the following changes were made.

Slate Blackboards were installed at Division 3.

At Division 4 a steel fence replaced the old broken down wires which were unsightly and did not keep the children on the grounds.

About 500 feet of fence was also erected at the High School, and a moving picture machine was purchased for

the use of that school. In the Domestic Arts room a new cutting table and a display case were added to the equipment.

Some of the desk tops at Division 5 which had opened in the grain to an extent that it impaired the writing surfaces, were filled with liquid filler and refinished.

The interiors of the schools at Divisions 10, 14 and 16 were cleaned and renovated.

I am glad to report balances in nearly all accounts, showing the careful disbursing of funds by the school committee.

May I express my appreciation of the work of the school committee and the teachers, as well as for the assistance rendered by many friends of the school.

Respectfully submitted,

JOHN S. CARVER.

REPORT OF THE MUSIC SUPERVISOR

Dear Mr. Carver:

I am submitting a report of my work as music supervisor in the schools of Wells for the present school year.

My aim is to help each child to realize that music can and should be a necessary part of his daily life.

Each child in the grades is being taught the fundamentals of music reading. Rote songs, special songs and folk dances are included in the schedule. Work with harmonica and rhythm bands have also been carried on wherever circumstances permitted. Music appreciation has been included in the course for the upper grades.

At the high school we have two chorus classes, and a period for orchestra. At present the orchestra is small but we hope we may have more members later on. Recently we have organized a girls' glee club which meets once a week and the response has been very enthusiastic.

The students have participated in programs at the Parent-Teachers Association meetings several times and at Christmas time special music was prepared for programs in each school.

I wish to take this opportunity to thank you, Mr. Carver, the members of the school board, the teachers, and all the townspeople with whom I have come in contact, for their kind help and cooperation.

Respectfully submitted,

(Signed) ELAINE ELLIS,

Music Supervisor

REPORT OF THE PRINCIPAL, WELLS HIGH SCHOOL

Supt. John S. Carver:

The school year opened with an enrollment of one hundred and sixty-one pupils of which ninety were boys and seventy-one were girls. They were divided into classes as follows: Post Graduates, 1; Seniors, 32; Juniors, 28; Sophomores, 40; Freshmen, 61.

The Classical, Scientific, Manual Arts, Home Economics, and General courses are offered this year. An extra year of Manual Arts and Home Economics has been added to last year's curriculum.

Only one change in the high school faculty was made this year. Miss Evelyn Whiteley has replaced Miss Dorothy Somers as teacher of Home Economics. Miss Whiteley is coach of girls' basketball in addition to her regular duties.

Wells High School has received a renewal of its Grade "A" certificate, and is among the schools on the New England College entrance list. Thus any student who receives certificate rank may be admitted to college without entrance examinations.

A new sound motion picture machine has been purchased to replace the silent machine used in the past. In keeping with the modern trend in education, a visual education program may be carried out.

This has been the most successful year in athletics that the school has enjoyed for some time. Last spring the track won all its dual meets and finished second in the York County Meet. This fall the newly organized cross-country team won eight dual meets in addition to the county meet; and the six-man football team won the county championship. Trophies were won in all three of these activities. The basketball is enjoying a very successful season with victories over Biddeford High and Thornton Academy in addition to finishing near the top of the league. Much credit is due Mr. Bean for his excellent work with the team.

All members of the faculty, Mr. Freeman, Mrs. Rousseau, and the bus drivers have worked wholeheartedly to make this year a success, and their cooperation is greatly appreciated.

I wish to thank the citizens of Wells, the superintending school committee, the superintendent of schools, the teachers, and pupils for their cooperation in making 1938-39 a highly successful year; and I hope the same harmony may continue to exist in the future.

Respectfully yours,

AURA W. COLEMAN, Principal.

REPORT ON MANUAL TRAINING

Superintendent John S. Carver:

The Manual Training Course started on its second year with a total of 61 boys out of the 90 boys in school enrolled, meaning 67 percent of the boys in the school being served by the course. Of this number 27 were Freshmen. Out of the upper class boys who were enrolled last year only one boy did not elect Manual Training this year. Out of all the boys who were in school last year but did not take the course there are a total of five boys who elected to come into the course this year.

As for the material covered in the second year course, there is being offered an elementary knowledge of the construction of some of the more simple pieces of home furniture such as radio stands, tables, book-racks, wall racks, lamps and other similar projects. Of course in the process of constructing these various projects, the fundamentals of design are taken up. The different woods from which the projects are being built are some of the best cabinet woods known, namely, maple, mahogany, and walnut.

The upper class boys have had thorough instructions in the proper use and care of the power tools and they

are at liberty to use them whenever the instructor is in the room.

We were very fortunate in the fall to have added to our power equipment two very useful tools, a band saw and a drill press. The latter with a number of attachments which include a hollow chisel mortising device, a router attachment, and a shaper attachment. The latter is used to put fancy edges on, for example, table tops.

We have at present and I sincerely hope that we enjoy in the future the record of not having an accident with the power tools and no serious injury with the hand tools.

From the number and quality of projects which have been completed and are about to be completed I feel that we have had as successful a year as last and I wish to express my sincere thanks to those responsible for the opportunities which they are making possible for the boys of this town.

Respectfully submitted,

MONROE BEAN.

REPORT ON HOME ECONOMICS

To John S. Carver, Superintendent of Schools:

I submit the following report of the Home Economics Department in Wells High School.

This year's Home Economics work has been divided among three classes. One period has been devoted to the Freshmen class of eighteen students and consisted of Food Theory and Food Preparation, Home Nursing, both theory and actual practice, and Clothing Principles and Construction. The course of study has been somewhat changed as this year was introduced a more concise study of Home Nursing. The girls received enough practical work in this, so that they could very successfully take care of sick members in their home under a doctor's supervision. We were fortunate in having bought for this course an iron single bed, cotton mattress, Pepperell sheets, and a Pepperell

blanket and pillowcase. The remainder of the equipment needed was brought from home.

The Sophomore class consisting of eight students spent the first part of the year canning and preparing food a little more complicated than in the Freshman year. A course in Child Care and Development was offered next, and the last part of the year is being spent in more advanced Clothing Principles, Textiles, and Clothing Construction. Four of the girls in this class helped put on a supper for the Schoolmasters of this County and from the profit they bought pinking scissors to be used in connection with their clothing work.

The last Home Economics period is devoted to a combination class of Juniors and Seniors. There are ten members in all. A course in Nutrition was offered the first nine weeks. In this course the girls made out diets for different types of diet diseases, and worked on well-balanced meals for families on all income levels. The course was made as practical as possible in order to meet the needs of the High School girl.

A short course in First Aid including all types of bandaging and emergency treatments was given next.

After the completion of the above study the next few weeks were devoted to a course in Family Relationships. This course deals with family life, the relation of family to community, and relation of individual members within the home to each other. It fits the girls for better family living now and in the future. Such questions as various etiquette and courtesy problems appealed to this group. The last half of the year is being spent in Home Decoration. This deals with planning and furnishing of homes, and making of such articles that can add to pleasure of members in the home; such as knitting problems, embroidery work, silhouettes, needlecraft and others.

Last summer various changes were made in the department which made it more practical and better fitted to meet the need of larger classes.

Around fifty new books have been bought this year which have also been a valuable aid to my classes both for reference and as text book material.

I do feel that Home Economics is of vital importance to every High School girl and more time should be devoted to this course. The girls are interested in this type of work; that was shown when the greater number of Freshmen girls signed up for it last fall. By allowing more time for it, I think the number in the classes will increase, and it will become one of the most popular courses in the curriculum.

In closing I wish to thank Superintendent Carver and members of the School Board who have cooperated with me so well in trying to advance the study of Home Economics in Wells High School.

Respectfully submitted,

EVELYN WHITELEY,

Home Economics Teacher.

REPORT OF THE Public Health Nurse

To the Selectmen and School Committee of the Town of Wells:

The following report covers the activities of the Public Health Nurse from January 1, 1938 to January 1, 1939.

A total of 216 patients, other than those given as a part of the school health service, have had service.

Infants under 1 year	26
Pre-school children	46
School children	54
Prenatal patients	11
Crippled children	11
Post-partum patients	10
Tuberculosis	1
Adults	69
Family welfare	24

The type of service rendered has been as follows:

Bedside visits to give nursing care	345
Instructive visits to patients	339
Family welfare visits	174
Visits to crippled children	37
Total number of visits	895

The school children have had their annual inspection, and although figures show nearly the same number with defects as last year, this is because so many of the pupils entering school this fall are new and have defects.

OGUNQUIT SCHOOLS

Defective vision	5	Corrections	3
Defective tonsils	23	Corrections	2
Underweight	15	Dental corrections	47

GRADE SCHOOLS

Defective vision	22	Corrections	17
Defective tonsils	82	Corrections	10
Dental corrections			71

The interest that children have in securing corrections of defects is shown by the fact that 107 pupils won the Seven Point award.

Dental clinics were held during February, March and April at which time forty-six patients, including 1 adult and 1 preschool child were treated. Dental clinic facilities with transportation have been provided for those who otherwise would receive no dental care; this we believe will show results in later years. Dental work was paid for to the amount of \$79.00.

COMMUNICABLE DISEASE CONTROL

Number of cases reported:

Measles—School children	76	Preschool	35
Scarlet Fever—School children	1	Preschool	1
Adults	2		
Mumps—School children	3	Adults	1
Pediculosis—School children	8		

IMMUNIZATIONS

Small Pox vaccinations—School children			129
Preschool	25	Adults	4
Diphtheria toxoid—School children			
Preschool	38	Adults	
Schick tested—School children			110
Preschool	11	Adults	2

TUBERCULOSIS PREVENTION

Tuberculin tests	14	Chest X-rays	22
------------------	----	--------------	----

The usual school routine inspections have been carried out, and notices of defects sent to the parents, to bring to their attention conditions which appear to be other than normal. It is hoped that the parent will discuss with the family physician the necessity of making needed corrections.

The nutrition and general condition of the school children has improved. The milk lunch provided last spring helped those children who were chosen to assist in this experiment, and this luncheon in mid-morning will again be given to underweight children, in a part of the schools.

Hearing tests with the Audiometer, which was loaned to us by the Maine Public Health Association; helped to bring to our attention defects which were only suspected before. Many times the child was found to have hearing loss when previously he had seemed unattentive or indifferent. If corrected this should mean much to the children in the future.

Moving pictures were shown at the Nursing Committee meeting and in school on health subjects. These films were furnished free except for transportation charges, and were shown by one of the high school pupils.

Vaccination clinics have been successful as is shown by the number availing themselves of immunization against Small Pox. Fortunately Maine has been free from this disease for several years, but if this is to continue vaccination is necessary.

Toxoid immunization against Diphtheria has also been available for any child over eight months through the cooperation of the American Legion with the Wells Health Association. Many conferences have been held to explain this protective measure.

The Wells Baby Conferences are scheduled for the Nurses office from 2 to 4 P. M. the second Thursday of each month at the Grammar School building at Wells Corner. Mothers with babies or preschool children are urged to bring their children to conferences for weighing, diet and formula changes. The supervision of this group could be more satisfactory and would eliminate time spent in travel from home to home as well as make available opportunity for periodical check up, if mothers would avail themselves of these clinics.

Respectfully submitted,
