REPORT OF AUDITOR

February 25, 1946.

Board of Selectmen,
Winterport, Maine
Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the town of Winterport have been audited by Auditor Millard E. Libby for the period February 18, 1945 to February 9, 1946 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the town appear to have been satisfactorily handled.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,

FRED M. BERRY,
State Auditor.

COMMENTS

Re: Audit of the Town of Winterport
February 18, 1945 to February 9, 1946

Cash:

All cash recorded as received was found to have been properly accounted for and was deposited in the bank, with the exception of \$5.40 which was on hand.

Expenditures were made by check from properly authorized warrants.

The cash balance of \$12,816.41 reconciled with the amount reported by the depository bank.

Accounts Receivable:

The receivables include \$1,600 of special resolves due from the state and \$16 due from the Town of Monroe for charity supplies.

Taxes Receivable:

The 1945 tax commitment was reconciled with the Assessors' records. \$40,672.87, or 87.8% of the total assessment of \$46,311.50 charged to the Tax Collector, was represented by cash collections, abatements, or discounts; while \$5,638.63, or 12.2%, remained uncollected.

A reserve of \$483.53 was set up to provide for possible losses on collection of taxes receivable.

The detail of the several years' uncollected taxes was in agreement with the respective control accounts. Approximately 15% of the uncollected tax accounts were verified by letter.

Tax Liens:

The tax liens on file were examined. Payments had apparently been properly credited and the detail of uncollected liens was in agreement with the control account.

Tax Acquired Property:

The amount of \$419.35 was realized from the sale of tax acquired property during the year and \$36.70 was adjusted or charged off, leaving a balance of \$1,136.38 at February 9, 1946.

McKenney Fund:

Cash of \$1,352.69 on deposit represents the unused income of this fund. The Merrill Trust Company is trustee and the town receives the income only. This fund is for worthy poor and is to be expended at the discretion of the Selectmen.

Notes and Bonds Payable:

Bonds payable of \$2,000, representing the entire amount outstanding, were retired during the year under examination.

Notes amounting to \$2,000 remain outstanding and are to be retired in the next two years.

Surplus:

An increase of \$2,594.21 was noted in the unappropriated surplus, which was principally due to the retirement of bonds and notes by appropriation.

Trust Funds:

The trust fund investments were verified and the income was properly accounted for.

General:

A large percentage of the payrolls and vouchers were checked and all so examined appeared to be reasonable and proper charges.

The excise tax revenue was verified by examination of the Collector's copies of receipts issued and the income had been deposited with the Treasurer.

It was necessary to check the Treasurer's payments in detail in order to prove the cash balance.

The surety bonds covering the Treasurer and Collector were examined and appeared adequate.

REPORT OF PUBLIC HEALTH NURSE

1945

The following is a report of the Public Health Nursing Service carried in your town for the year 1945.

The nurse has made 34 visits to the town. During these visits the following nursing visits were made: three to expectant mothers, 37 to infant and 95 to preschool children.

In school work 30 nursing visits were made and teachers given an opportunity to discuss health program.

As in previous years crippled children have been kept under supervision with home nursing visits and attendance at Crippled Children's Clinics.

There is much need for immunization programs if the community is to be safeguarded against such diseases as smallpox, diphtheria, whooping cough and typhoid fever.

For making plans for health activities for 1946 a well organized community Health Committee can do much to improve cooperation among the several departments responsible for health education, namely: Town Officers, Health Officer, School Personnel and the Public Health Nurse.

Since community participation is essential for a successful health program, the chief aim of the nurse for 1946 is committee organization. Your assistance is vitally needed.

Respectfully submitted,

JESSIE B. SUTHERLAND,

Public Health Nurse.

REPORT OF WINTERPORT VOLUNTEER FIRE DEPARTMENT

During the year ending February 1, 1946, the Fire Department was called out on 39 alarms, an average of a fire every nine days throughout the year. Of this total, two fires resulted in complete losses, and the other 37 fires produced negligible or no damage to dwellings.

Interest in the work of the Fire Department and cooperation with it are on the increase, due to three factors:

First, the town officials have been most cooperative in making purchases of equipment needed to increase the efficiency of the department. Purchases of both 1½-inch and 2½-inch hose have kept the truck loaded to its full hose capacity, and fittings have been procured to allow the use of both sizes at major fires. Alterations in the design of the truck have increased the length of booster hose which can be carried, and this extra hose is now in use. A new scaling ladder and a new extension ladder, both built for fire department use, have replaced older and lighter equipment and increased the safety for climbing firemen.

Second, the town is now paying the regular members of the Fire Department on a monthly basis for time accumulated during the month. Payment is usually made to men who turn out regularly for all alarms, but payment is made also to other than regular members who do outstanding work at individual fires.

In the third place, some adverse publicity directed at the department has reacted favorably in driving home the fact that an organized department actually does exist, and that it is trying to accomplish results against handicaps that are, at times, almost impossible to overcome. Once fully appreciated and understood, many of the main problems of this strictly volunteer department will be overcome by increased aid from the willing citizens of the town.

With the spirit of cooperation which exists today, the town will have an improved Fire Department in the coming year. More equipment is needed but at the present time most items are needed only to supplement equipment already in use. No major purchases are under consideration at present.

The most important point requiring action during the coming year is to provide a building to house the fire truck and the department's equipment. This is very important, since the present set-up allows no means of caring for hose and drying it after each use. This lack of care results in such failures as was experienced at a recent fire when six lengths of 2½-inch hose burst under pressures of less than 100 pounds, causing delays in the delivery of water which might have been extremely serious. The material saving to the town in owning a proper fire house with provision for drying hose will be considerable. The sincere cooperation of all property owners and renters is urged to bring about this most important improvement in the affairs of the Winterport Fire Department.

DAVID B. TOLMAN, Chief,
Winterport Volunteer Fire Department.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

For the Fiscal Year Ending Feb. 1, 1946

SUPERINTENDING SCHOOL COMMITTEE

| Mr. Ernest Tuttle | Term Expires March 1946* |
| Mr. Norris C. Clements | Term Expires March 1947 |
| Mr. Norman B. Page | Term Expires March 1948 |

* Appointment to complete the term of Mr. Robert Nickerson

Chairman:—Mr. Page

To the School Committee and the Citizens of Winterport:

In accordance with the Laws of Maine relating to Public Schools, I have the honor to submit the following report on the conditions and progress of the schools in Winterport for the year ending Feb. 1, 1946.

Once again I am pleased to report that your schools have been successfully staffed with capable teachers. There have been four changes made in the teaching personnel, two at each school. Miss Mary Young is teaching language in the high school, replacing Mrs. Margaret Nelson, who resigned after twelve years of faithful service. Miss Aileen Holman, social studies teacher, filled the vacancy caused by the resignation of Mrs. Thelma Kennedy, who has rejoined her husband just returned from service. At the grammar school Mrs. Edith Averill was elected to fill the vacancy created when Miss Myrtle Condon resigned to take a better position in the schools of Sanford. Mrs. Celia Wallace was elected teacher of the fifth grade to fill the vacancy left by Miss Leda Knapp, and Mrs. Miriam Snyder of Bucksport was elected teacher of the third grade. Mrs. Snyder resigned after seven weeks to accept a position in her home town. Mrs. Ruth Anthony was elected to take her place.

Labor and materials have been very short again this year. However, some very important improvements have been made. A new door was hung at the northwest entrance of the grammar school, replacing the old one which had been repaired so many times that it would have been false economy to attempt to repair it again. A new ceiling has been put in the boys' basement at the high school. The heating systems in both buildings have been cleaned thoroughly and new valves were put in so that the systems could be balanced. The greatest improvement of all has been the installation of new lavatories with the addition of running hot water. From the viewpoint of health and sanitation, this is a very forward stride. Soap, towels and hot water are now available to everyone. It has been necessary to do much grading around the building foundations to prevent the washing of the gravel. It would seem advisable in the near future to tar near the foundations to prevent this action. A coat of tar at the entrances of the buildings would do much to reduce the quantity of mud tracked into the classrooms where it dries and causes dust. Appropriations for repairs another year will need be greater to cover the present deficit and allow for some much-needed fencing at the schools.

Several textbook changes have been made. The science series in the grammar school have been extended to include the fifth grade. A complete set of dictionaries has been placed in both schools to accommodate the largest class. This makes it possible for each pupil to have an individual dictionary with which to work when classes in this study are being conducted. Other sets purchased were sixth grade geographies, sixth grade histories, civics, freshman literature, and problems of democracy. This latter set was purchased to provide for a new course in social problems, a course recommended and much needed in all high schools. In addition, a modern set of 1946 World Book Encyclopedias has been purchased for the high school library.

The matter of conveyance constitutes a real problem. The two town-owned buses have reached the point wherein it would be poor economy to try to maintain them for operation after this year.

It is our duty to provide safe, comfortable and economical transportation. Their safety will be questionable, although everything possible is being done to keep them in safe operating condition. We know they are not comfortable. And certainly, they are not economical when in one year the costs of maintenance amounts to more than six hundred dollars.

I wish to call the attention of all citizens who are interested in the future of the schools of Winterport to two very important articles which your Superintending School Committee has had included in the warrant for consideration at Town Meeting. They are: Article 12, pertaining to the purchase of school buses, and Article 13, concerning the use of the proceeds from the sale of lots in the Cushing Cemetery Lot. Your sincere consideration and support of these articles is needed if we are to be prepared today for the future.

In closing, I wish to thank the Committee and Town Officers for their fine cooperation, and all others who have contributed to the welfare of the schools.

Respectfully submitted,

ARTHUR A. WEBB,
Superintendent of Schools.
