## REPORT OF AUDITOR

---

February 17, 1948

Board of Selectmen  
Winterport  
Maine

Gentlemen:

In accordance with Chapter 16, Section 3 of the Revised Statutes of 1944 and at your request, the records of the Town of Winterport have been audited by Auditor M. E. Libby for the period February 1, 1947 to January 31, 1948 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been appropriately handled, with such exceptions as may be noted in the accompanying Comments.

Exhibits and Schedules incorporated in this report present the result of the financial operations of the Town for the period designated.

All of which is respectfully submitted,

Very truly yours,

FRED M. BERRY

State Auditor

## COMMENTS

Re: Audit of Accounts - Town of Winterport  
February 1, 1947 to January 31, 1948

### CASH

The records of the Town Treasurer were examined and checked in detail. The recorded receipts were compared and reconciled with the bank deposits.

The cash balance of \$6,889.80 at January 31, 1948 was verified by reconciliation with the bank statement furnished by the Merchants National Bank of Bangor as of January 31, 1948, plus deposits made on February 2 and 5, 1948 which were verified.

All payments were made by check and were compared with the warrants authorized by the Selectmen.

### ACCOUNTS RECEIVABLE

This account is comprised of items due from the State for expenditures for Flood Control, Forest Fires and Educational Subsidies; an amount due from another municipality for pauper supplies furnished, and items due from individuals for various services.

### TAXES RECEIVABLE

The 1947 commitment of taxes was found to be in agreement with the records of the Assessors. The recorded collections were examined, the payments to the Treasurer were verified, and the abatements were checked with the records of the Assessors.

The current tax commitment was accounted for as follows:

Cash Collections	\$46,833.66	84.87%
Discounts	716.33	1.29
Abatements	308.60	.56
Taxes Receivable	7,332.53	13.28
<b>TOTAL</b>	<b>\$55,191.12</b>	<b>100 %</b>

The tax accounts outstanding at the time of the previous examination were checked and all cash collections and credits were traced to the credit of the individual accounts.

Requests for verification were mailed to a representative number of taxpayers whose accounts remained unpaid.

#### **TAX LIENS**

Examination was made of tax liens totaling \$2,508.78 which remained outstanding at the close of the municipal year.

Requests for verification were mailed to the majority of the taxpayers whose accounts remained unpaid.

#### **TAX ACQUIRED PROPERTY**

During the municipal year, one parcel of tax acquired property was sold for \$8.84, leaving a balance in this account of \$686.53.

#### **MCKENNEY FUND**

This Fund is in the custody of the Merrill Trust Company of Bangor, as Trustee, and the income is remitted annually to the Town. The amount on deposit of \$1,805.56 represents the balance of the unexpended income.

#### **NOTES PAYABLE**

The Fire Truck note of \$1,000 was paid by appropriation during the 1947 municipal year.

Notes amounting to \$3,000 were issued, the proceeds of which were to be used to purchase a school bus. These notes mature in 1948 and 1949.

#### **UNAPPROPRIATED SURPLUS**

The Unappropriated Surplus was reduced by \$3,015.03 during the year under examination. The principal items contributing to this reduction were the appropriation of \$1,293 for the purchase of the Union Hall and the net increase of \$2,000 in the notes payable.

A complete analysis of the change in this account is presented on Exhibit E of this report.

#### **TRUST FUNDS**

The trust fund investments were verified by examination of the savings passbooks.

It was noted that the records of the Town do not indicate the disposition of the Ministerial and School Fund.

## GENERAL

The surety bond furnished by the Tax Collector-Treasurer was examined and appeared to be adequate.

The excise tax collections were verified by examination of the copies of receipts retained by the Collector.

An examination of the vouchers and payrolls indicated that all were on file and appeared to be reasonable charges.

The records of the officials of the Town were found to be in a satisfactory condition.

Attention is invited to the overdrafts reflected in several appropriation accounts, the summary of which appears on Exhibit D. An opinion rendered by the Attorney General reads, in part,

“The municipal officers are bound by the terms of the articles in the warrant calling the meeting providing for the expenditure of money. The officers should not spend more than the taxpayers appropriated at town meeting, unless the statute expressly authorizes an expenditure in excess of the appropriation.”

The provisions of Chapter 84, Section 81 of the Revised Statutes of 1944, however, relate to expenditures of monies for highway purposes and permit overdrafts in cases of emergencies to the extent of 15% of the appropriation.

- Oct. 28—Bangor, Baby Boy Sanborn
- Nov. 1—Winterport, Gertrude Maude Arey, 76 yrs., 1 mo., 15 days.
- Dec. 3—Winterport, Freeman Grey, 73 yrs., 11 mos., 4 days.

# ANNUAL REPORT OF PUBLIC HEALTH NURSING

## 1947 TOWN OF WINTERPORT

---

Public Health Nursing is concerned with securing and maintaining good physical and mental health for everyone. This is attempted through a generalized health program in each community. Due to the still present shortage of Public Health Nurses, it was only possible to have a nurse part time during the first six months of the year.

A generalized health program consists of educational service to expectant mothers infants, pre-school and school children. To this end 67 home visits were made.

Communicable diseases, tuberculosis and venereal diseases are also Public Health responsibilities. To assist with this phase of the program, 12 visits were made and 4 x-rays were obtained.

Physically and mentally handicapped children are given service through State Crippled Children, Pediatric and Mental Hygiene Clinics. 10 follow-up home visits were made to assist in carrying out recommendations and also as a source of case findings.

The major part of the nursing service this year has been devoted to special projects.

This year, through the efforts of members of the Parent Teachers Association, a health council has been organized. The School Health Committee of this Council has been very active holding a meeting during the first week of each month to make plans for the coming activity. 3 School immunizations clinics have been held with a local physician in attendance. 106 were vaccinated against small-pox, 75 against diphtheria and 107 tetanus immunizations were completed.

Plans are being made to continue this program by offering these immunizations to the high school pupils at an early date.

We were fortunate to have the audiometer tests in the schools this year. 212 Hearing tests were given 5 defective hearings were found. Home visits will be made in an effort to obtain physical examinations. The Chairman of the School Health Committee and volunteers assisted with these tests.

Much credit is due the Health Council and especially to the School Health Committee for its excellent work in the School Health Program. The Health Council has many plans for the future, the most important one being the summer Child Health Conferences for infant and pre-school children. It is only through the cooperation of the entire community that an efficient and adequate Public Health Service may be rendered.

I wish to take this opportunity to thank the town officials local physician, school personnel and Health Council for their cooperation in making the Public Health Program so effective.

Respectfully submitted,

(MRS) EMMA CREAMER

Public Health Nurse

**REPORT OF THE SUPERINTENDENT OF SCHOOLS  
FOR THE FISCAL YEAR ENDING FEB. 1, 1948**

---

**SUPERINTENDING SCHOOL COMMITTEE**

Mr. Norman B. Page	Term expires March 1948
Mr. J. Henry Foley	Term expires March 1949
Mrs. Alton Fields	Term expires March 1950

To the School Committee and the Citizens of Winterport:

In accordance with the laws of Maine, it is my duty to submit the following report of the conditions and progress of the schools for the fiscal year ending Feb. 1, 1948.

It is intended to make this report very brief since the full report of the Survey Committee follows in this town report.

Schools opened on Sept. 8th with only one change in the teacher personnel. Mr. Bernard B. Pierce, a social studies teacher of long experience in the schools of Buffalo, N. Y., joined the High School faculty. It is advantageous for a community to keep its good teachers in the same system. The teacher is better acquainted with the community and the school. As a result there are many increased benefits for the pupil. For these reasons Winterport should feel very fortunate.

Teacher salaries were raised last year to conform with the minimums set by State law. At present four teachers, excluding the principals, are receiving salaries slightly above the minimum.

Transportation facilities have been expanded this year so that no child must wait long periods of time before or after school hours. The two new busses, operated by very capable drivers, are giving excellent service. When school opened, there were 74 children on

the bus route to West Winterport and White's Corner. To relieve this situation, Monton Nealley was hired to transport the children on his road and a few others at the Corner the entire distance to the schools. In November, realizing that with winter road conditions making traveling slower, it was voted to hire a third bus and make it possible to give all the children the benefits of one-trip transportation. The third bus is owned by Reginald Clements and driven by John Carleton. Winterport has excellent facilities for transportation.

Miss Zelda Gordon, elementary supervisor for the Department of Education, has been here within the last month to assist teachers with their problems. One important recommendation she made was that more books should be provided to meet the many levels of interest and reading abilities within each grade.

A teachers' club has been formed in this Union. Meetings are being held monthly. This affords an opportunity for the teachers to meet and discuss mutual problems, form study groups, and enjoy a period of sociability.

An extension course "Trends in Modern Elementary Education," is being given by the School of Education, University of Maine, this second semester. Classes are being held once each week with instructors from the University. For some teachers who find it difficult to attend regular summer schools, this is an opportunity to do professional study.

Since the opening of schools in January, Marion Whitmore, a former Supervisor of Music in Hampden, has been teaching music and directing glee clubs in the schools. The Parent-Teacher Association is to be commended for their efforts in helping to obtain a music instructor. It is desired to continue such a worthwhile activity next year.

School enrollments have increased so much this past year in both schools that the need for school seating has reached emergency proportions. Early in the Fall an order was placed for twenty-five new desks and seats, but to date delivery has not been made. The demand in all communities has been so great that a great shortage exists in all types of school seating.

To maintain existing levels of textbooks and supplies, increased costs ranging from 20-34 percent will, of itself, contribute to the need for greater appropriations.

Attention should be called to a recent law which is effective today and I quote:

“Any youth who resides with a parent or guardian in a town that maintains, or contracts for school privileges in, an approved secondary school which offers less than two approved occupational courses of study, and whose qualifications for such training are approved by the superintending school committee of the town, may elect to attend some other approved secondary school to which he may gain admission for the purpose of studying an occupational course not offered or contracted for by the town of his legal residence. . . .”

Since Winterport High School offers less than two approved occupational courses, this means that any youth desiring such type of course not offered here and providing that he has the approval of the school committee, he may elect to attend some other school offering such a course and the town must pay his tuition. Today there is one youth in Winterport who is attending another secondary school under the provisions of this law. Such a law is intended to help equalize the educational opportunities for youth residing in com-

munities operating small high schools, but it compels the people of Winterport to study their own high school offerings in a new light. I refer you to the recommendations of the Survey Committee.

I wish to take this opportunity to express by appreciation to all those who have cooperated in making this a progressive school year.

Respectfully submitted,

ARTHUR A. WEBB

Superintendent of Schools

## REPORT OF HIGH SCHOOL PRINCIPAL

---

As principal of Winterport High School, I submit the following report of the school year 1946-47:

After a graduation of only nine seniors in June, 1947, a total of thirty-one new pupils entered in September, making our enrollment for this year one hundred sixteen, an increase of twenty pupils over last year. Since we may expect an increase of about eighteen pupils in 1948-49, it is evident that we need some improvements here if we are to maintain standards. Our classrooms and seating are really not adequate this year, and further increases in enrollment will create an almost impossible situation unless some measures are taken for improvement.

We have made a change in the commercial department, which we hope will result in the graduates of this course being better prepared for positions, or higher education. Beginning this year, typing will be given to sophomores and juniors, while seniors will be given a course in transcription, which is composed of both typing and shorthand, designed to give the student practical experience. It is also our hope that we may buy each year, out of the school funds, one office machine, so that after a few years we may be able to offer our students a chance to practice on machines normally encountered in business offices.

In regard to extra-curricular activities, we have made some advances from last year. Under the able direction of Mr. Pierce, the school presented a three-act comedy which was very well received by the audience. We have been especially fortunate in securing the services of Mrs. Whitmore, an experienced music teacher, who has been conducting both a boys' and a

girls' glee club since the Christmas vacation. We feel sure that public appearances of these groups will add a great deal to the social events of the school.

At the time of writing, preparations are being made for the Junior Speaking Contest.

We have carried out an athletic program suitable to the size of our school. Fall baseball for the boys and a regular schedule of boys' and girls' basketball comprise our activities, so far. Baseball and participation in the Waldo County League Field Day (composed of both athletic and scholastic activities) will make up our spring program. Through the efforts of the Parent-Teachers Association, the high school will have the use of an area of land near the school. With the cooperation of all, this land can be cleared, some inexpensive equipment such as baseball standards and volleyball nets added, and an important need of the school will be filled.

In closing, I wish, on behalf of the school and the faculty, to thank all those who have helped to make our year a happy and successful one. We feel sure that we may depend on your continued support.

RICHARD W. HOPKINS

Principal, Winterport High School

#### **REPORT OF WINTERPORT SURVEY COMMITTEE**

The citizens of Winterport have been disturbed for some time at the inadequacy of their public schools. Official recognition of that general feeling was given at the regular Town Meeting in March 1947, at which time the School Committee was instructed to appoint three citizens to work with them in making a study of the present school situation and to recommend changes

to give to the town the type of education facilities it desires.

The committee has held several meetings and has made, in cooperation with the Superintendent of Schools, a very careful study of present conditions and future probabilities. The following report is respectfully submitted for consideration by the town.

### ELEMENTARY SCHOOL

The present physical plant housing the pupils in the elementary school has been found to be completely inadequate and conditions are such that the pupils are under a continual and serious physical and educational hazard. The present Grammar School was remodeled in 1934, with the assistance of WPA funds. While the rural school building at White's Corner was available, it was possible to operate a very important sub-primary group and grades one through seven in the present building. The rural school burned in 1940, necessitating the dropping of the sub-primary group and the housing of grades one through seven in a six-room grade school building. The committee has carefully inspected that building and wishes to present the following comments:

1. Proper work cannot be carried on with more than one grade in a room.
2. The rooms are so crowded at present that health conditions would not be acceptable by any modern standard. An epidemic could be expected to spread rapidly and might well prove serious.
3. Lighting conditions under the circumstances can be expected to result in eyestrain and in some instances permanent damage to the eyesight of the students.
4. Such overcrowding always leads to the possibility of tragedy in the case of fire.

5. It is the opinion of the Superintendent and the committee, and of most educational authorities that the sub-primary level is a very important factor in the education of children today, and that it should be restored to the Winterport school system.

In 1941 there were 224 pupils in the elementary school, including sub-primary through grade seven. A number of families left Winterport during the war and the enrollment dropped proportionately but not enough to alleviate physical and educational conditions. A number of new families moving to Winterport, and the probability that more will locate here, leads to the conclusion that conditions will get steadily worse rather than better, and that steps should be taken to correct the matter in the very near future. There are at present 207 pupils enrolled in grades one through seven, with such crowded conditions that departmental teaching in grades five, six and seven has been inevitable. Departmentalization at those levels is regarded as extremely poor educational practice.

The Superintendent of Schools has made a careful survey of the community as it now exists and has made the following report which will give some indication of what we may expect:

Number and Ages of Children as of Nov. 1, 1947

Age	Class	Number
5	'48	33
4	'49	23
3	'50	23
2	'51	26
1	'52	33
1 - 11 months	'53	36

These figures represent a normal and healthy growth in the community and indications are that with

new families moving to Winterport, these figures represent a minimum. The committee feels that a healthy growth in the town of residential people may be expected and will be a stimulus to the community and to the businesses of the town. The committee feels that Winterport will grow rapidly and satisfactorily, particularly if there is an extension of the present transportation facilities and expansion of the potentialities of the Public Library, but most of all, the providing of adequate educational opportunities for our children.

The State Education Department indicates that the standards for school grounds for a school of the size and type of our Grammar School should call for an available space of 15 acres. A physical education program worthy of the name obviously is impossible on the present site.

A classroom and a separate teacher are essential for each grade, including the subprimary, with a pupil-teacher ratio of approximately 20 or 25 to 1. The present ratio is 34 to 1. No teacher, however efficient and well-trained, can be expected to do an adequate job, nor to consider individual differences at the present level. The following recommendations are submitted:

1. That a suitable site be acquired by the town for the location of an adequate elementary school to house a sub-primary group and grades one through six.

2. That construction be started on a modern one-story, three-room school, in accordance with the plans suggested by the State Department of Education, permitting later expansion into an elementary school to house all grades from sub-primary through sixth, the three-room school being designed to take care of immediate needs,

and as the town can afford to do so, to be expanded by the addition of more rooms.

3. It is estimated that these recommendations will cost the community between \$35,000 and \$40,000, and it is suggested that the project be financed by a bond issue, based on the present real estate valuation of the town. The law permits a 5% normal borrowing capacity on that valuation and an additional 5% if the community forms a local school district. It is further recommended that the bond issue be retired over a period of 10 years, which will mean a total cost per thousand dollars valuation to the taxpayer of approximately \$6.00 per year. It is further recommended by the committee that every possibility of Federal and state aid and public subscription be explored with a view to reducing the above figures which have been given as a maximum, and that full advantage be taken of any such possibilities.

## SECONDARY SCHOOL

It is recognized by the committee that education is a continuing process from the cradle to the grave and that it is the function of the public schools to provide the formal phase of such education. Arbitrarily, divisions are made for convenience at different age and grade levels and it is impossible to separate them completely insofar as they affect any individual child. The recommendations made by the committee for the elementary school must, therefore, pre-suppose the adoption of some form of recommendations for the secondary school problem. For example, the establishment of a six-year secondary school will remove the seventh grade from the present elementary school building.

A careful survey was made of the present High School enrollment to determine by tests and discussion what their purpose is in attending school and what they expect the school to do for them. A brief questionnaire was sent to more than 200 graduates of the Winterport High School, covering the past ten years. Approximately 50% replied, which is regarded as an excellent sampling of the total. It was found that five are now studying at the University of Maine, most of them under the G. I. Bill; that one is attending art school; and one is studying at a business school in Boston. The rest are employed or are housewives and all of them terminated their formal education at the Winterport High School.

Of the present enrollment, it was found, for example, that 52 girls are interested in a homemaking course, and that 34 of the boys are interested in a course in agriculture, neither one of which is available to them in the present school. The Winterport High School offers only a college preparatory course, supplemented by an inadequate business course. The present figures show that only 5% of the alumni and the present students have entered or plan to enter college, and that if those figures are extended to include the entire high school enrollment, only 2½% have any ambition to go beyond high school. The students who have taken the business course offered in Winterport have reported that they find it inadequate. The committee felt that to offer a course which is of permanent value to only 2½% of those taking it is an unwarranted extravagance and a decidedly uneconomical use of school funds. It is regarded as imperative that the curriculum be drastically reorganized to meet the needs of the students.

A law recently passed by the legislature requires that each community shall pay the tuition, elsewhere, of

any student desiring an occupational course, provided that the school in his town of residence does not offer two or more approved occupational courses of study. Some parents are already availing themselves of this law by sending their children to school in Bangor at Winterport's expense. It is believed quite possible that the town may soon find itself forced to pay tuition in large amounts for students desiring courses not offered in Winterport and whose situation meets the requirements of the law. It will be more economical for Winterport to provide the type of education required than to pay large amounts to send our children to other schools. Even though the community is aroused to the inadequacy of the present High School and is desirous of improving it, the law quoted above makes it imperative that action be taken as soon as possible. The loss of a large number of students to other schools at Winterport's expense might also result in a reduction of the enrollment to a point where Winterport could no longer retain its High School. The following recommendations are respectfully submitted by the survey committee:

1. That the present Library facilities be expanded and properly administered in order that the schools and community may take advantage of that most important factor.
2. That the town decide between the following two possibilities:
  - a. Constructing a new High School in Winterport and modernizing the curriculum to meet the needs of the students. The committee believes that the cost of such construction would be prohibitive.
  - b. Join with neighboring communities facing similar problems for the purpose of form-

ing a consolidated six-year High School to serve all communities.

3. If the second of these two recommendations above be adopted, it is suggested that the town appoint a committee to meet with representatives from the other communities concerned on a fair and proportional basis to proceed with the necessary study and to formulate plans for a consolidated High School, which plans are to be reported back to each town for necessary action.

4. It is recommended that the Winterport representatives be instructed to suggest that the proper site for a consolidated High School shall be located as near as possible to the center of population of all towns; that it shall be a suitable piece of property, obtainable at a reasonable figure, as near to that center of population as transportation facilities permit.

5. That a permanent program of educational and vocational guidance be instituted in the present High School and in the consolidated school for the purpose of directing students into the occupation in which it is most probable they will succeed, and that the information obtained through such a program shall determine the curriculum, and that such curriculum shall be flexible in nature so that it may be adjusted to fit the needs of each generation of students.

	<hr/>	<hr/>
	\$47,079.50	\$48,184.50

\*Recommended by the School Committee

If the above recommended appropriations are followed the tax rate for 1948 will undoubtedly remain at its present level or perhaps go down slightly because of some gain in our total valuation during the past year. Any additional increase in the appropriations at Town Meeting will of necessity increase the rate of taxation during the coming year.

## WARRANT

---

WALDO, ss

To MORTON L. CARLETON, a Constable of the Town of Winterport, in the County of Waldo, GREETINGS:

In the name of the State of Maine, You are hereby requested to notify and warn the inhabitants of the said Town of Winterport, qualified by law to vote in town affairs, to assemble in Town Hall in said town on Monday, March 15, 1948, at 9:30 o'clock A. M., to act on the following articles, to wit:

Art. 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose a Clerk for the ensuing year.

Art. 3. To choose three or more Selectmen.

Art. 4. To fix the compensation of the Town Treasurer for the ensuing year.

Art. 5. To choose a Town Treasurer.

Art. 6. To fix the compensation of the Collector of Taxes for the ensuing year.

Art. 7. To choose a Collector of Taxes.

Art. 8. To fix the compensation of Road Commissioner or Commissioners and wages to be paid men, teams and trucks employed on the highways and choose one or more Road Commissioners.

Art. 9. To choose one or more members of the Superintending School Committee.

Art. 10. To choose a Fire Chief.

Art. 11. To choose a Fire Inspector.

Art. 12. To see what sums of money the town will vote to raise for the support of Common Schools, Free High School, Repairs, Insurance and Miscellaneous.

Art. 13. To see if the town will vote to authorize the Superintending School Committee to appoint a

School Physician and to provide proper facilities for the performance of his duties.

Art. 14. To see if the town will vote to accept the report of the School Survey Committee.

Art. 15. To see if the town will vote to authorize the Selectmen to appoint a Building Committee of 5 members to work in conjunction with the Superintending School Committee, in acquiring a lot, procuring plans for the erection of a new school building.

Art. 16. To see what sum of money the town will raise and appropriate to be expended in carrying out the above article (No. 15) or act thereon.

Art. 17. To see if the town will vote to authorize the Superintending School Committee to appoint a committee of 3 members to meet with the representatives from other communities to proceed with the necessary study and to formulate plans for a consolidated High School, which plans are to be reported back to each town for necessary action.

Art. 18. To fix the rate of discount, if any for the prompt payment of taxes and the time when said discount shall cease; to fix the time when the taxes due the town shall become collectable and payable; to determine whether interest shall be charged on taxes remaining unpaid after that date and the rate of such interest; to see if the town will vote to instruct its Collector of Taxes for the ensuing year to collect all such taxes within the limit made by the State law for the collection of taxes and instruct the Municipal Officers to require the Collector to give a bond for his faithful compliance with the vote under this article.

Art. 19. To see whether or not the town will vote to raise the sum of Fifty Dollars (\$50.00) to be paid to the State of Maine Publicity Bureau to be expended and used for advertising the natural resources, advantages and attractions of the State of

Maine in accordance with the provisions of Chapter 80, Section 95, of the Revised Statutes of Maine:

Art. 20. To see if the town will raise and appropriate \$125.00 for public health nursing in Winterport, said sum to be expended by the State Bureau of Health for local service.

Art. 21. To see if the town will vote to raise and appropriate the sum of \$100.00 for medical fees and supplies to be expended under the supervision of the Health Council.

Art. 22. To see if the town will vote to accept from the Twining Cemetery Association the approximate sum of \$168.00 as a trust fund. The income from the Twining Cemetery Trust Fund to be expended on the care of the Twining Cemetery.

Art. 23. To see if the town will vote to appropriate the sum of \$200.00 to be expended under the direction of the selectmen for the purpose of cutting grass and bushes in the public cemeteries within the limits of the town. This article shall not apply to the so called Oak Hill Cemetery located near Winterport village or the Pilgrim Home Cemetery located near the Monroe Town Line.

Art. 24. To see what sum of money the town will raise and appropriate for the care of roads and unoccupied lands in Oak Hill Cemetery or act there on.

Art. 25. To see if the town will vote to accept the sum of \$200.00 as a trust fund from Franklin B. Cole, the income from this trust fund to be expended on the Joshua Cole lot in the Ellingwood's Corner Cemetery.

Art. 26. To see what sums of money the town will vote to raise for the maintenance of State and State Aid Highways, also for the maintenance of Third Class Highways during the year within the limits of the town.

Art. 27. To see what sums of money the town will vote to raise for the repairs on Highways and Bridges and for clearing snow from the roads for the ensuing year, for cutting bushes and tarring village streets.

Art. 28. To see what sum the town will raise and appropriate for State Aid road construction (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Sections 25 and 29, Chap. 20 R. S. 1944, as amended.

Art. 29. To see what sums of money the town will vote to raise for Memorial Purposes, for Free Library, for Street Lighting.

Art. 30. To see what sums of money the town will vote to raise for Support of Poor, for Salaries of Officers, for Abatement of Taxes, for Hydrant Rental, for maintenance of the Public Dump and Sewers, for the Care of Abbott Park, for Interest on Town Debt and Discount on Taxes, for Aid to Dependent Children, for Fire Department Maintenance and Equipment, and for other Miscellaneous town expenses.

Art. 31. To see if the town will raise and appropriate the sum of \$500.00 to repair the road from White's Corner to the four corners near the Theodore Clements' place.

Art. 32. To see what sum of money the town will vote to raise and appropriate for the resurfacing and tarring of the Third Class Road from White's Corner to the present tar surface near the residence of Leslie A. White, a distance of approximately one and a half miles, or act thereon.

Art. 33. To choose three or more Assessors of Taxes.

Art. 34. To choose three or more Overseers of the Poor.

Art. 35. To choose one or more Constables.

Art. 36. To choose one or more Fence Viewers.

Art. 37. To choose one or more Measurers of Wood, Bark and Lumber, Shingles, Clapboards, Hoops and Staves.

Art. 38. To choose one or more Sealers of Leather and Sealers of Weights and Measures.

Art. 39. To see if the town, for the purpose of procuring a temporary loan or loans to and for the use of said town in conducting its municipal business in the current municipal year of 1948 and in anticipation of and to be paid out of the taxes of the current municipal year 1948, will authorize and direct the Town Treasurer, subject to the approval of the Selectmen, to borrow from time to time during said municipal year, a sum not exceeding in the aggregate the sum of seven thousand five hundred dollars, and to make, execute and deliver negotiable note or notes of the town therefor, payable within said current municipal year and upon such terms as shall be satisfactory to said Town Treasurer and Selectmen, any debt or debts incurred hereunder to be paid out of money raised by taxation during the present municipal year.

Art. 40. To see how much money the town will vote to pay on outstanding notes.

Art. 41. To see if the town will vote to instruct its Selectmen not to accept any bills against the town unless it is approved by the head of the department of town affairs for which the bill is rendered and unless the same is in proper form.

Art. 42. To see if the town will vote to authorize the Selectmen and Treasurer of the town to sell and convey in the name of the inhabitants of the Town of Winterport, the right, title and interest of the town

in and to any or all real estate conveyed to the inhabitants of the town in proceedings for collection of taxes.

Art. 43. To see if the town will vote to authorize the Selectmen and Treasurer of the town to release and convey in the name of the Inhabitants of the Town of Winterport, to the owner at the time of the assessment of the tax, or to his heirs or assigns, the right, title and interest acquired by the town in and to any or all real estate conveyed to the Inhabitants of the Town of Winterport in proceedings of collection of taxes, on payment of the amount of debt, interest and charges due on respective parcels.

The Selectmen hereby give notice that they will be in session at the Selectmen's Office on Saturday, March 13th, from 10:00 to 12:00 A. M. and 2:00 to 4:00 P. M. for the purpose of correcting the list of voters.

Given under our hand this day of March 3rd, 1948.

KENNETH C. NEALLEY

DAVID B. TOLMAN

HOWARD R. CLEMENT

Selectmen of Winterport
