IBRA K LAWRENCE

CLARA M REED, Supt.

Arrowsic has shared in the State Equalization Fund for several years, on account of the generous appropriation for school purposes, and expected to this year, as the appropriations were not less than last year, but so many towns increased largely the amounts raised for school and municipal purposes that Arrowsic was below the average in the state, instead of above, as formerly, and consequently did not share as heretofore, which accounts for the overdraw.

It is expected that the new School Fund Law passed by the legislature last winter will bring a measure of relief to the smaller towns of the state.

Under the late law town are required to put their toilet facilities at school houses in clean and sanitary condition by 1924, under penalty, consequently at least half must be done the coming year, so a large amount for repairs should be appropriated.

The teacher shortage question, brought about by the war, has passed the crisis, and more teachers are now available than for the past three years, which have been the most difficult for school officials in the history of education in this country.

While wages have not become lower for teachers of training or experience, more are available to select from.

The price of books is slowly, very slowly, declining, though still far above normal before the war.

The average wages in the elementary schools of the state the past year has been over twenty dollars per week for women teachers.

The teachers employed in Arrowsic have worked conscientiously, and both schools are in excellent condition, both in discipline maintained and progress made.

No changes have been made in the books in use, only such replenishing as seemed absolutely necessary since the prices remained so high.

Health Crusade work has been done in both schools the entire year, also physical training to some extent, and a start made in the winter in serving the hot lunch at the noon hour.

CLARA M REED, Superintendent.
