# Report of Superintendent of Schools

FOR YEAR ENDING FEB. 29, 1922

---

Members of the School Committee:

Directly to you and indirectly to the citizens of Hartland, I make my annual report for the present year.

The enrolment in the elementary schools is about the same this year as last. In the Academy the attendance has increased more than 50 %, due to the fact that half the eighth grade was admitted with the ninth and that we are drawing more pupils from other towns than formerly. The schools opened this fall with the following enrolments: I, II 32; III, IV 45; V, VI 23; VII, VIII, IX 39; Fuller's Corner 25; Webber 10; Academy 83.

The following teachers were placed in the schools this fall: Grade I, II, Mrs. Doris Colbath; III, IV, Mrs. Ada McCrillis; V, VI, Mrs. Mary Connelly; VII, VIII, Miss Annie Fuller, Fuller's Corner, Mrs. Linda Carver of North Haven; Webber, Mr. Frank Withee. In the Academy we continued Mr. Hal Crandlemire as principal and Miss Laura Pratt as first assistant. Miss Lula Harvey, of Bar Harbor, was engaged as second assistant. Her position was later taken by Mr. Lee Gorham of Wiscasset. Seven of these teachers have had three or more years of service with us and their efficiency completely disproves the old idea that frequent changes in teachers are a benefit. The four grade teachers receive an annual salary of \$810, Mrs. Carver \$900, Mr. Withee \$576, Mr. Crandlemire \$2,000, Miss Pratt \$1,000 and Mr. Gorham \$1,400.

The progress of the children in their studies has been good altho teachers and superintendent and constantly trying to improve it. Since we have maintained a 36-week school year, it has been much easier to teach the work thoroly. Under these conditions pupils receive as much schooling in eight grades as they formerly did in nine. In view of this fact we shall hereafter promote from the eighth grade to High School, omitting the ninth grade class but not the ninth grade work. In this we are following the lead of most of New England and the rest of the country. The Standard

Tests given last June indicate a gradual improvement in results obtained in our schools in the fundamental subjects. This fall we laid special emphasis on Composition work. We shall continue this thru the year and stress Arithmetic during the spring.

The teacher situation is very encouraging and it is up to the citizens of Maine to say whether or not this condition shall continue. The Normal Schools are once more filling with the pick of our High School graduates: former teachers are beginning to return to the work. The present teaching corps thruout the state is trying hard to improve itself thru attendance at Summer School, at teachers' meetings, by home study, etc.

If we begin lowering wages we start upon the backward way to the old conditions of poor teachers, poor interest in the work, and the child gets the short end of it. If we maintain the present rate of pay, the teacher supply will gradually improve in quality and quantity. The only sound policy, the only economical policy is, "Maintain the Standard"

You will recall that last year there was an overdraft of \$800 in the Common School Account, due to unforeseen conveyance conditions. This year there is more than \$1000 remaining unexpended in this account, due to much less conveyance, which also we could not foresee. The School Improvement Fund, contributed partly by the schools and partly by the town has brought decided improvements. Slate boards were placed in the village schools and sheet-iron jackets for the stoves in the Rural Schools. We shall ask you to continue this fund for another year by raising \$10 per school for Library material. Our schools have free use of the public Library but it is very helpful to have permanently in the schools supplementary reading books, reference books and at least a few biographies of famous men and women.

Children, parents, citizens, teachers and superintendent believe that there is one long felt need in our schools which should be filled at this time. The pupils ought to be receiving competent instruction in Music. The grade teachers have done their best in every way but they are not specialists in Music. They will be able to show excellent results when teaching under the leadership of a Music Supervisor. I have made inquiries regarding the salaries received by Music Supervisors and I believe we should appropriate \$600 for this purpose. We

shall wish to combine with some other town for this purpose or possibly secure any Academy teacher who can handle the work.

The total per capita cost of schooling the 161 pupils in the elementary schools this year has been \$56. The school dollar has been divided as follows:

Teachers 38 cents, Fuel 5, Janitors 5, Conveyance 12, Tuition 3, Books 3, Repairs 6, Supplies 4, High School 21, Supervision 3.

In closing my fifth report I wish to express to the School Committee and to the citizens of Hartland my appreciation of their spirit of courtesy and cooperation.

Respectfully submitted,

H. B. CLIFFORD, Supt.

School Department in account with town of Hartland for  
the year 1921-1922.

*To the Superintending School Committee:*

I beg to make the following report of the sanitary conditions of your school property, and the physical examination of your pupils.

Only two rural schools have been in session this year. The buildings and rooms were in good condition for school purposes, and the pupils all seemed to show a full degree of interest in their work yet their average health and personal appearance could be improved.

In the grades up to the high school the average health and general appearance of the pupils have been excellent throughout the year. In the high school the physical examination was less satisfactory. This is probably due to the age of the pupils at a time when we find an indifference to the hours of sleep, diet and other essential conditions.

No serious accidents have occurred. A form of skin disease has been somewhat troublesome. There have been two cases of diphtheria, which were easily controlled. In one case it was thought best to fumigate the Pleasant Street building and the school was closed one day for this purpose.

This year a system of ranking has been adopted so that a much more comprehensive idea of the degree of health conditions is shown. Each pupil submits to an examination of ten important physical conditions and is ranked in each. An average of these gives the physical rank, 100% being perfect. While many pupils were only a fraction below, only ten in the town obtained a perfect physical rank.

The following is a summary of the physical examination.

Whole number registered Boys	132	Girls	137	Total	269
Whole number examined Boys	132	Girls	134	Total	266

Number below 100% in the following physical conditions:

Vision .....	29
Hearing .....	3
Teeth .....	177
Throat .....	61
Tonsils .....	38
Glands .....	4
Weight .....	164
Pulse .....	73

Conditions 75% or less require professional advice. 74 were found deficient and were reported to their parents according to law.

Respectfully submitted,

February 20, 1922.

C. A. MOULTON, School Physician.

## Report of Fire Department

---

I report to the town of Hartland the equipment and condition of its Fire Department as follows.

Volunteer Fire Co. 50 active members, 1 hose cart, 3 hose reels, 1 hook and ladder cart, 1250 ft. of serviceable hose, 1 hose sled.

We have been very fortunate in regard to fires the past year, although the company has responded to several alarms which were nearly all chimney fires, which illustrates the fact that proper attention to our chimneys would reduce the fire hazards of our town to a large extent.

Respectfully submitted,

THOS. S. DEARBORN, Fire Chief.

# Preserve This Report

---

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
