of Medford, Mass., Assistants, both graduates of Colby College last June. The Principal receives \$2000, the Submaster \$1300 and the two Assistants \$1200. There are 85 pupils enrolled.

I wish to speak most enthusiastically of the Music supervision in the schools. Mrs. Harriet Pease of Connecticut was secured at a salary of \$400 to direct the teaching of vocal music in all the schools and to lead the Academy orchestra. Under her excellent leadership our own competent teachers have accomplished a great deal in the 22 weeks which have elapsed at the time of writing this report. Ability to sing with others or to play some instrument will be a source of pleasure to our young people long after they have forgotten the products of Brazil or the names of the Presidents in order. To those worthy citizens who feel that the cost of music instruction should rest upon the individual parents alone, it should be a sufficient answer that our school children are receiving the services of a specialist for 36 weeks at a cost of less than \$2.50 per pupil.

The School Improvement Fund this year has been used to place what we have termed Library Books in our elementary schools. These have included young people's lives of Washington and Lincoln, some reference material and much general good literature for both upper and lower grades. It is very much worth while to cultivate in boys and girls a taste for good reading. The books have been very much appreciated. We are asking that this fund be continued during the coming year with an appropriation of \$100 which we wish to use for playground apparatus. Our school grounds are without swings, teeter boards, volley balls, or other equipment that bring health and happiness to boys and girls. This should fill a long felt need in our schools.

Two major items of repairing have used up the greater part of the repair funds. The first was the sanitary work at the Ireland School which consisted in clearing out and cementing the cesspool and in placing the primary school toilets from the dark basement onto the first floor. The second large item was Hartland's half of the cost of shingling the Coston's Corner Schoolhouse, at North Hartland. The Fuller's Corner Schoolhouse has been much improved by a thorough painting.

For some time it has been our custom to place particular emphasis on one subject thru the year, while trying to teach

Hartland, Maine, Feb. 17, 1923.

I have examined the accounts of the Selectmen and Treasurer for the years ending 1918-1919-1920 and 1921 and find them correct.

R. C. RAYMOND, Auditor.

Hartland, Maine, Feb. 20, 1923.

I have examined the accounts of the Selectmen, Treasurer and Clerk of the Town of Hartland for the years ending 1922 and 1923, and find them correct.

H. H. WHITNEY

Report of Superintendent of Schools

For the Year Ending February 28, 1923

Members of the Hartland School Committee:

Directly to you and indirectly to the citizens of Hartland, I make my sixth annual report.

The School Census, or list of persons in town between the ages of 5 and 21, as taken last April, showed an increase from 291 to 314. The common school enrollment for the Fall term was as follows:

Grades I, II, 24; III, IV, 43; V, VI, 28; Fuller's Corner 27; Webber, 16; a total of 190 as compared with 174 a year ago. The attendance has been good during the greater part of the year. Sickness and severe weather have caused many absences during the winter term. Very few absences are due to lack of interest on the part of parents.

The following teachers were continued in the same schools: Grades I, II, Doris Colbath; III, IV, Ada McCrillis, V, VI, Mary Connelly; Fuller's Corner, Linda Carver. Irving Urann of Ellsworth was secured to take Miss Fuller's place in grades VII-VIII at \$23 per week. He was replaced at the end of the fall term by R. C. Raymond of Cambridge at \$25 per week. Blanche Ogden was placed in the Webber School at \$19 per week. The grade teachers receive \$22.50 per week and Mrs. Carver receives \$25. Our salary of \$22.50 has placed an exceptionally strong corps of local teachers in our village schools. This weekly wage minus the price of board is not large enough to attract even fair ability when it is necessary to search over the State for a grade teacher.

Hartland Academy is passing thru the most successful year of any of the six during which I have been acquainted with the institution. An entirely new corps of teachers has succeeded in improving all departments of the school. Not in the past six years has there been an interest in studies, such fine school spirit, such a sane and wholesome program of athletics and physical training. The teachers are: Elmer R. Biggers of Monson, Principal, a graduate of University of Maine, with eight years teaching experience; Ralph Keirstead of Fairfield, Submaster, with two years at Bowdoin College; Edith Harvey of Dover-Foxcroft and Berth Gillott

the other studies at least as well as before. This year we are giving special attention to the field of English. We have all studied what to teach and how to teach in oral and written composition and Grammar. As a result, the boys and girls are making excellent progress in ability to stand up and speak upon a topic briefly and well and to write an interesting letter or article without glaring mistakes in spelling, punctuation or correct speech. More Grammar has been taught in these two terms than in any previous period twice as long. The pupils in the lower grades are making better progress than ever in that most important of all subjects. Reading.

I have long been particularly interested in the problems of "small town" schools. I have come to the conclusion that the superiority of the famed city schools is due almost entirely to three things: a good teacher, remaining in the same school for a number of years, under good supervision. I confidently look for a much greater efficiency in the schools of country towns because these same factors can be brought to operate. Many Rural towns cannot afford, many more think they cannot afford, the teaching and supervision. Many excellent people believe that a teacher's stay in one school should be limited to one term, or at most to a year. The last ten years have seen much progress along these three lines, however. Most country people desire no Federal and or control of schools. They wish no further extension of State powers. If we are not going to accept the assistance of these agencies, it is squarely up to us to provide a reasonable efficient school thru our own local resources, even at considerable sacrifice. I feel that Hartland has done well by its schools.

The total per capita cost of schooling the 183 children in common school this year was \$53. The school dollar was divided as follows: Teachers, 39 cents; Fuel, 5; Janitors, 5; Conveyance, 12; Tuition, 3; Repairs, 4; Supplies, 4; High School, 21; Supervision, 4.

I wish to express thru the medium of this report my appreciation of the spirit of courtesy and cooperation shown toward my efforts by the school committee and citizens generally.

Respectfully submitted,

H. B. CLIFFORD, Supt.

Report of School Physician

To the School Committee, Town of Hartland:

The following is my report as School Physician of your town.

Number of schools visited	7
Number of scholars examined	284
Number with physical rank of 100%	20
Average Physical Rank	96
Imperfect care of teeth	51
Imperfect Vision, not corrected	22
Imperfect Hearing	4
Diseased Teeth	57
Diseased Throat	45
Diseased Tonsils	91
Adenoids	88
Skin Disease	6
Underweight	170
Pulse above normal	81
Number reported for treatment	71

All schools were visited at least twice. The duties of the School Physician have to do with the health, sanitary condition and comfort of the pupil while at school, and this duty has been performed so far as it has come to my knowledge.

My relations with the parents and pupils have been most cordial and I hope will profit to them.

C. A. MOULTON,

February 20, 1923.

School Physician

Report of Fire Department

I report to the Town of Hartland the equipment and condition of the Fire Department as follows:

Volunteer Fire Co., 50 active members, 1 hose cart, 1 hook and ladder cart, 3 hose reels, 1 hose sled, 1150 feet of serviceable hose.

There were several alarms of fire during the past year, all of which were responded to promptly by the Fire Company.

Two of these resulted in a total loss, owing to the fact that the fire was beyond control when discovered.

A large percentage of the calls were for chimney fires, none of which did any great amount of damage.

Respectfully submitted,

THOS. S. DEARBORN, Fire Chief.

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
