Municipal Officers

OF THE TOWN OF

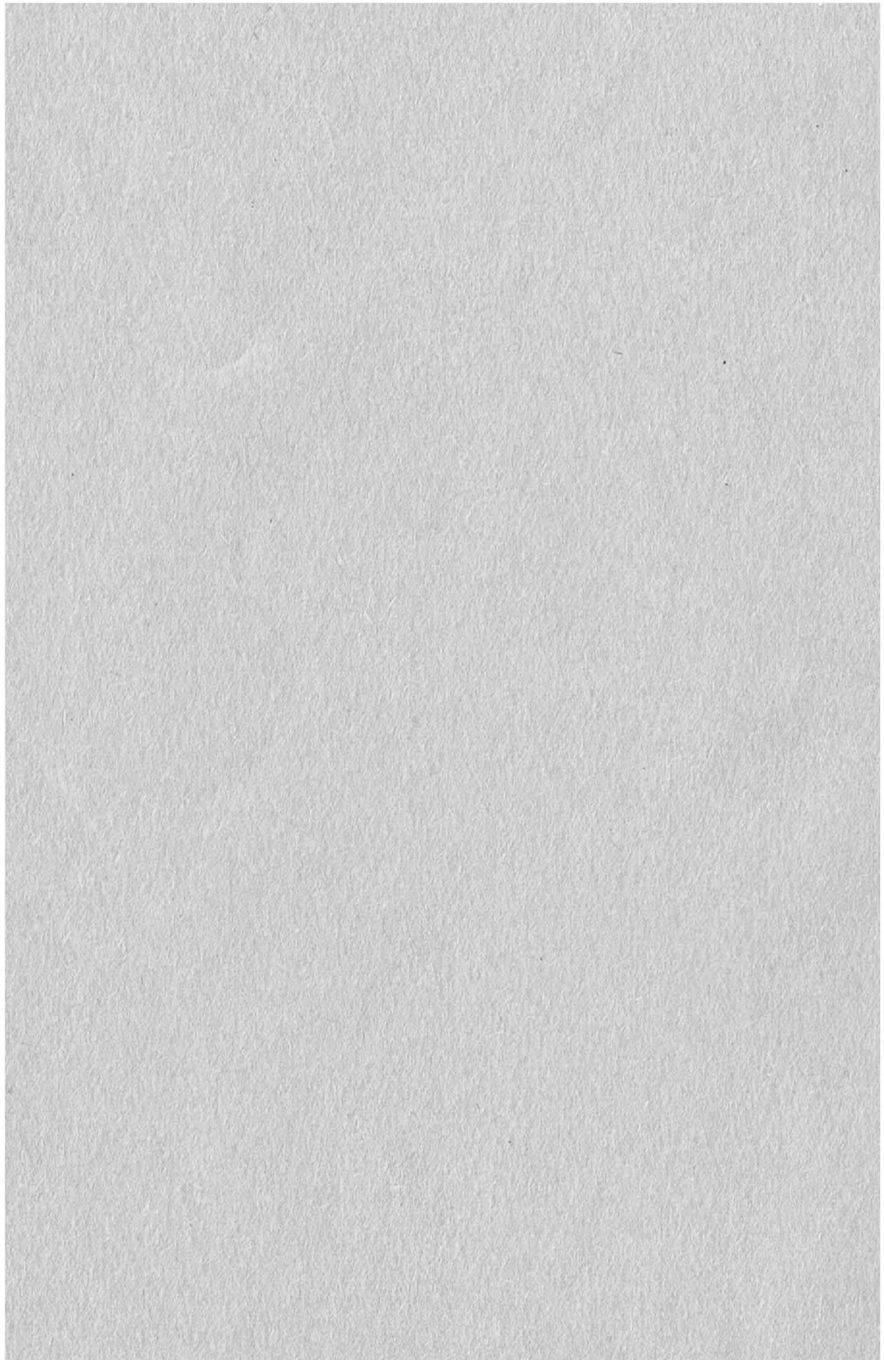

Hartland, Maine

FOR THE FISCAL YEAR ENDING

February 20, 1930

Preserve This Report!

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Report of Superintendent of Schools

To the Members of the S. S. Committee and Citizens of the town of Hartland, I submit for your approval, the following report of your schools for the municipal year, 1929-30.

The school census last April was 326, 167 boys and 159 girls. Of this number 201 are enrolled in the elementary schools. With 2 tuition pupils attending the Union school at Colson's corner and 58 students attending the Academy, we have a total 261 attending elementary and secondary schools.

The attendance in the schools has been very satisfactory. Mumps were reported in Mrs. Connelly's room about the fifth week of the winter term, but due to a complete exposure of practically all pupils, it was thought best to continue schools as long as the number out continue small. The winter term will close March 21. There will be a vacation of one week and the spring term will close Thursday, May 29.

The teachers and pupils have worked very hard and a very good grade of work is being done in our schools. We note that pupils entering from other school systems in the state find the work quite difficult and in many cases beyond the grade of work they have been doing. I believe that the ruling made by the S. S. Committee asking that children be 5 years old the 1st of April, prior to entering school the following September, is going

to give a great advantage to both schools and pupils. This makes the youngest child that would enter $5\frac{1}{2}$ years of age, and in most cases he will be stronger and capable of doing a better grade of work, the first year. This tends to give confidence to the child and his interest in school work will be greater. On the other hand the labor from the 16 year old H. S. graduate is not needed as much today as it was 20 years ago. Too, we can expect and do get better work from older and more mature students. I thank the parents for their cooperation with this ruling in the past and solicit it from others in the future.

We have had 239 visits from parents and citizens during the first 24 weeks of the present school year. While we are more than pleased for this many, we would like still more. This is less than one visit per student enrolled. The teachers and pupils need and solicit that cooperation, which comes from visiting. The parents need to know more about the work that is being done in the schools, and the grade of work that their children are doing. In behalf of the S. S. Committee, teachers and pupils, I invite the parents and citizens of the town to visit the schools. Why not plan to visit once a month or twice each term? You will find a visit most enjoyable and interesting.

'Time' has been, and is today, the cry of the rural school teacher, with so many grades to teach. 1 She has not the time to give to each pupil the individual help needed. 2 Class periods are only 8 to 10 minutes, which does not allow time to check the work and give proper assignments. 3 In order to hear each class during the day, the teacher becomes not a teacher, but a hearer of lessons. In order to overcome this condition we are slowly introducing a program of supervised study, where instead of having classes every day, in arithmetic, for example, the teacher takes the periods for arithmetic classes and gives to each pupil individual help and checks the work for understanding and application of the rules in the lesson. By this method the pupil receives help when it is most desired, instead of after one, two or three other classes have recited and his interest in the problem has ceased.

The music in the grades has progressed very well, also the vocal work in the Academy. Due to irregular attendance at orchestra rehearsals the members of the H. S. Orchestra have not done as well as they might. The G. S. orchestra has done very good work.

Janitor work has been done very efficiently, both, in the village and outside schools.

Conveyances maintained for the year are as follows:

W. A. Chipman to the village \$25. per week

C. W. Salisbury, Bean's Corner to Fuller's Corner \$10. per week, fall, \$6. per week, spring, \$7. per week, winter.

Alton MacPherson, Palmyra line to Fuller's Corner \$6. per week, fall and spring, \$7. per week, winter.

Chas. Walker, North Hartland to Webber, \$7. per week.

Carroll Ford, Bruce Hillman's to Fuller's Corner, winter term, \$7. per week.

All necessary supplies and books have been furnished. I recommend that a change in arithmetics and geographies be made next year.

The Academy enrollment Sept. 1st was 97 and is above 90 at the present time. In all rooms that I have visited the instruction has been very good. A percentage of the students had their lessons well prepared, while others showed very little preparation. In High School the average student needs to do from 2 to 3 hours preparation on their work each evening in order to get the most out of the subjects they are pursuing. Teachers are always ready to give assistance when needed.

There was a marked improvement in the health of our school children from that of last year. We have 85 with a rank of 100%. Let us try and bring this number to 185 next year. Dr. Moulton is doing a splendid piece of work in our schools and his suggestions should be carried out as far as possible. I trust

that Miss Robinson's work was beneficial to those whom she visited. Miss Robinson is County Health Nurse of Somerset County. She spent two days in Hartland.

The Fuller's Corner schoolhouse has been painted inside and out. The Pleasant St. building has been painted outside. The cost for painting both buildings outside was \$200.00. New seats will be bought for Fuller's Corner school and installed during the spring term.

My work of the past year has been very interesting and enjoyable. I thank the citizens, S. S. Committee, teachers and pupils for their splendid cooperation.

Respectfully submitted,
PERRY F. SHIBLES, Supt.

REPORT OF SOMERSET COUNTY SERVICE

Two days service was given in the town, one day in follow-up work; thirty-three home calls were made.

One baby conference was held but owing to the bad weather the attendance was small there being only six present. A room talk was given in the high school for the purpose of interesting the pupils in the Health Play Writing Contest.

Respectfully submitted,

EMMA McK. ROBINSON, R. N.
Somerset County Nurse.

MUSIC REPORT

Grade Schools

A few changes have been made since my last report. The large number of pupils in grades three and four, made it advisable to form an extra class in singing. This room has a Toy Symphony Orchestra and so has the Fuller's Corner school.

Many children who begin this rhythmic work, develop later into real orchestra players. The rural schools are taught in two classes. Grade IV are beginning two part singing. Much has been done with part singing in grades V, VI, VII, and VIII.

The grammar school orchestra has twenty players. Attendance at rehearsals and interest has been splendid. Much real musical ability has developed among the children in these grades. A course in music appreciation is being introduced this year.

High School Music

The High School chorus is taught in two classes. Chorus is elective in Junior and Senior years and required in the Freshman and Sophomore classes.

The elective chorus are studying short chorus numbers, the Cantata "Columbus" and also the Cantata "The Rose Maiden". The first and second year chorus are studying four part music of a select type.

The High School Orchestra has never been large. When we took up the work we found it a mixed orchestra of high and grammar school pupils. Now the two are separate. Most members of the High School Orchestra are loyal. A very small number who contracted the Jazz Craze outside of school have not contributed to the success of the orchestra.

Your director of music has taken the stand that if music is to be really the cultural subject it is supposed to be, cheap music has no more place in the school orchestra than cheap literature has in the English classes and has and will exclude it from school work feeling that if a few members are lost on this account, it is no great loss. Music should have no place in the schools if high standards cannot be maintained.

Prin. Murray has given our efforts hearty support. Miss Turkington of the faculty has given valuable aid as accompanist for the Senior chorus.

Walter Habenicht, eminent New York violinist gave a splendid concert at Academy Hall in Jan. which deserved large patronage. More concerts of a select type should be brought to towns people and students. For few are the opportunities a small town has of hearing such.

If further efforts are made along this line, we hope for a hearty response.

Yours for class of music that is elevating.

GRACE ROGERS
Director of Music
