Report of Superintendent of Schools

To the Superintending School Committee and Citizens of Hartland:

I herewith submit my report of the condition and progress of your schools.

My service covers the period from July 1 to date. This time has been largely spent in becoming acquainted with the school situation. I have found the schools up to grade with a group of well-trained, experienced teachers who are doing efficient work. This speaks well for the support given by the town and the previous administration of the schools. Good schools do not just happen. They are the product of adequate financial support and wise and careful administration over a long period of years.

The following table shows the schools maintained during the current year, names of teachers, wages per week, and enrollments.

School	Teacher	Wages	Enrollment
Sub and I	Nina F. Steeves	\$21.00	36
II and III	Ella B. Getchell	21.00	41
IV and V	Mary A. Connelly	21.00	33
VI and VII	Ada C. McCrillis	21.00	47
VIII	Annie F. Linn	20.00	23
Fuller's Corner	Audrey A. Annis	18.00	30

In addition to the above there are six pupils attending the Coston's Corner school in Athens for whom we pay proportionate cost.

Music has been under the supervision of Mr. Merle Walker. I wonder if the citizens really understand and appreciate the very remarkable work which is being done in music especially the work with the orchestras. The work of the grade orchestra is excellent considering the ages of the pupils and the Academy orchestra is remarkable for a school of its size. I trust the citizens will feel that they cannot afford to do without this very desirable feature of our school work.

No matter how good teachers may be they still may become better by study and training. Your teachers have sought to improve themselves by attendance at the county and state

teachers' meetings and also by study in their own local meetings. The Sebasticook Teachers' Club which includes the elementary teachers of this school union has been active. Outside speakers have been secured for lectures and demonstrations in addition to contributions by the local teachers and superintendent. The club has also made a special study of Character Education and its application to school work.

Janitor service is efficient and conveyance to the village is modern, comfortable and satisfactory. The town is fortunate in owning a motor bus which has already paid for itself and saved considerable conveyance expense besides.

The work of Dr. Moulton, the school physician, is to be highly commended. He is interested in his work and keeps very careful records of the examinations. These routine examinations are very important and their cumulative value is very great. In times like these a town cannot afford, it seems to me, to be without a school physician.

The Academy has had a successful year. There has been an enrollment of 104 of whom 56 were Hartland residents. The per capita cost to the town of Hartland has been less than \$50 per pupil while the tuition charge to other towns has been \$75 per pupil and this charge has been \$7 less than could have legally been charged and collected.

The chief interest of the public in the schools at this time seems to be a financial one. An examination of the financial situation of the schools reveals that the elementary schools have cost \$1,585.51 less than last year, a saving of over 16% and although the appropriation from the town was \$500 less and the amount received from the state school fund was \$165.17 less, yet the balance on hand at the closing of the books instead of being reduced has been increased slightly. The largest savings have been made in conveyance, \$663.52; teachers' wages, \$472.50; fuel, \$291.54; and supplies, \$193.47. The saving in high school tuition was \$810.00.

The committee and superintendent are agreed that costs must be less next year. Fuel, books and supplies and our share of the cost of Coston's Corner school are virtually fixed charges and we can hope to save but little in these items over the very low cost of the present year. Our janitor and conveyance charges have been reasonable but it is probable that some cut can be made in these items. The teachers, as always, are willing to make sacrifices and will accept reasonable cuts. I am convinced, however, that unreasonable cuts would result in the loss of some of our best teachers and our schools cannot afford this loss.

We are faced on the one hand by a demand for lower school appropriations and on the other by a heavy loss in income from the state school fund. We are informed that there will be a probable loss in this fund of at least 20%. This year we received \$2,133.43 from this source. Twenty per cent would mean a loss of over \$425.00.

It has been customary for some years to carry a substantial balance in the school fund so that there might be funds with which to run the schools immediately after town meeting. At one time, I understand, this balance was sufficient to run the schools until June. The balance this year is a little over \$1,200. The schools can be run on an appropriation of \$4,500 or \$600 less than was appropriated last year. The decrease in the state school fund of over \$400 would make an income of \$1,000 less than the year just closed and would necessitate the use of a substantial amount of the balance which, it seems to me, would be poor financial policy.

The Commissioner of Education has pointed out that the loss in the state school fund to towns is largely made up by decreased state tax and he urges that towns appropriate this amount in addition to the amount which would otherwise be appropriated. On this basis the amount which the town **should** raise would be \$4,900. This sum would run the schools efficiently, I believe, and not seriously impair the usual balance.

It is well for us to remember in these times the words of Lady Astor addressed to the people of her native America. "Don't forget your children! Time and again in England we have had to watch carefully so that when we make economies we didn't economize on our children. They must not suffer in this economic crisis. You can always build your roads and bridges. If you neglect your children, you can't build them again."

If in these trying times we lower the efficiency of our schools for a few years we are taking something from the children which can never be replaced. A CHILD CANNOT GROW UP TWICE! I am confident the citizens of this town will want to be fair to their children.

In closing I wish to acknowledge my appreciation of the helpful cooperation of the school committee, teachers, pupils, parents and of the former superintendent, Mr. Perry F. Shibles.

Respectfully submitted,

WALTER J. RIDEOUT,

Superintendent of Schools

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Dinner will be served in the basement of Opera House
at 12 o'clock by the Ladies' Aid of
the Methodist Church at
