NORMAN H. DRUMMOND, *Chairman,*
 MRS. SUSIE W. SNIPE,
 MRS. ORA NYE,
Superintending School Committee.

IN GENERAL

The town received from the State School Fund, \$375.30 and \$100.00, adjustments. The committee were pleased to have 35 weeks of school. As the resources were larger than the expenditures account this left an unexpended balance of \$146.02.

The teachers' wages were \$15.00 a week. The uniform wage in four of the towns in Union 48. The North

School has been very efficiently taught by Mrs. Georgie M. Walker.

The activities of the Senior School League have been a wonderful assistance to the teachers and pupils of the North School, We trust the good work will continue for years to come.

Last year the State Department of Education sent \$30.00 to the Arrowsic School to be set aside for the special project of enlarging the school library. Last April the Superintendent received a box of books on travel, history, poems and geography from the American Book Co. Mr. Robie Marriner visited the school a week later to learn how many of the books were accepted by Mrs. Walker and myself. The selections were considered a valuable addition to the North School Library.

The State Bureau of Health and Child Welfare asked the town for an appropriation for school nursing. Common colds which lead to influenza, this winter are attacking the whole country. It has divided the people into three groups: those who have had it, those who are having it and those who are afraid they are going to have it. What is flu? That is, it starts without any warning and presents the following symptoms; a general tired feeling, severe headache in most cases, no desire for food and general pains in the muscles, back and limbs. Influenza is an infectious and contagious disease. Contagious diseases are spread by the disease germs going from someone who has the disease to someone who does not have the disease. It is dangerous to use the same drinking glass. Fingers and food most easily carry the disease germs. We must not place in easy access the flu germs. Be out in the open as much as you can. Sleep in a well ventilated room. Protect others by not coughing or sneezing on them. Wash the

hands often and always before eating. All should follow careful habits useful for the prevention of the spread of this contagious disease.

A special note of appreciation is extended to the citizens of Arrowsic for all favors rendered.

Respectfully submitted,

JOHN H. CARTER,

Union Superintendent of Schools.
