## NURSING REPORT

---

### Annual Report of the Flander's Bay Nursing Service For the Past Year of 1935.

To the Citizens of Winter Harbor, Sorrento and Gouldsboro:

I hereby submit the following condensed statistical report of the activities of the past year of 1935. The service is an affiliation of the Maine Public Health Association, and is under its direct supervision. The personnel remains the same as in the past years, with Fletcher Wood as chairman, Charles Small as treasurer and Rubie Tracy as secretary.

1142 visits were made during this time. These visits include everything—bedside, instructive, social service, investigation and follow up.

Sixty-nine visits were made to the eleven school buildings; 48 full inspection, and ninety, for special reasons, were given. The special inspections were for detection of communicable diseases, mainly whooping cough and measles.

Sixteen children were excluded and referred to physician.

134 examinations were made by physicians and oculists. As a result of these inspections and examinations, 318 were found with defects that can be corrected, teeth taking the lead. Thirty-two were found to be 10 per cent. underweight and twenty-two were found to be 20 per cent overweight. One hundred and forty corrections were made since the last inspection by the nurse. Eighty-three children were personally taken to the dentist, four were taken to the physician,

fourteen adults and children were taken to the hospital, five were taken to the oculist and two to the sanatorium.

The child who is deaf frequently does not realize his condition. He does not hear the same words spoken by the teacher that are heard by his classmates, consequently he misunderstands what is said. He is criticised for something he cannot help and becomes sensitive to reminders of his failings, with the result that he stops trying and becomes inattentive. The removal of such a handicap often entirely makes over a boy or a girl, both in progress and attitude. Through the Woodman Audiometer—a hearing device loaned by the Maine Public Health Association—217 hearing tests were made, and those found defective were referred to the physician.

Five well-baby and pre-school conferences and two baby and pre-school clinics were held. The regular conferences were omitted by order of the board of health, due to an epidemic of whooping cough, measles and an active case of infantile paralysis.

Two T. B. clinics were held by the Maine Public Health Association in Bar Harbor. The tests and X-rays were given by the clinic nurse and the chest examinations by the physician from Fairfield sanitorium. As a result, one child was taken to Hebron, two were referred to their physician for further observation and one child was advised to attend only one session of school, the afternoon to be spent in a rest period.

Fifty-five individuals were given clothing and blankets. This was made possible through the social service section of the Maine Seacoast Mission and an interested summer resident.

Assistance was given with forty-one inoculations for whooping cough and typhoid fever.

In closing, I wish to thank all who have helped to make the program a success—the Maine Public Health for its advice and cooperation and help in educational possibilities, as well as health and welfare, the Maine Seacoast Mission, the teachers, parents and physicians, and all others who by their cooperation have contributed to the success of the service. I appeal for the continued interest and support that has made the past years successful.

Respectfully submitted,

M. A. HOLT, R. N.

## Superintendent's Report.

To the Superintending School Committee and Citizens of the  
Town of Gouldsboro:

I hereby present my first annual report of the condition, progress and needs of your schools.

I wish to express my hearty appreciation for the spirit of cooperation which I am privileged to enjoy in school committee members, parents, teachers and pupils with whom I have come in contact. During the short time I have been working in your schools I have become impressed with the efforts you have made for good school equipment, the fine quality of your schools and the progress of your children.

From a wise choice of teachers made before my arrival, together with several excellent selections since that time, we have this year a fine corps of teachers, who are, I believe without exception, doing a fine piece of work. Our school nurse is excellent and it is hoped that the service can be carried on. It should be remembered, however, that the nurse can only assist and that the real work should be done by the parents, teachers and pupils themselves.

In December, with the hope of becoming better acquainted with individual pupils, their attainments and needs, as well as to learn the standing of our schools in general, I gave a standard achievement test for grades two to eight inclusive. I believe the results of the test may be of use in remedial work, in determining more intelligently the grading of pupils and in the inspiration of the pupils themselves.

Through an attempt to assist, so far as I can, in finding a solution for our high school tuition problem in such a manner as shall be agreeable and of mutual benefit to all concerned, I here present such information as I am able. The comparative opportunities and obligations which a union

school and a contract school at Winter Harbor might present may be briefly summed up as follows:

Either type of school might accomplish the same purpose. The contract school, however, is preferable, because it is simple and clear cut in its establishment and operation, is free from legal entanglements, and offers every advantage of the union school with the possible exception of the prestige which a union school with a union name might enjoy. A vote of the town of Gouldsboro for a contract school with Winter Harbor for the schooling of Gouldsboro high school pupils, either by lump sum or pupil by pupil, would remove entirely the responsibility of Gouldsboro for the tuition of high school pupils attending other schools. State-aid would be pro-rated between the two towns. The Gouldsboro school committee would unite with Winter Harbor school committee in a joint committee for the administration of the contract school, for the reason that Gouldsboro would pay at least half the school costs. For maintenance of such a contract school a vote of the town of Gouldsboro would be necessary each year, together with a suitable appropriation.

Nearly all of our school buildings are well built and in good condition, needing only repairs of up-keep. However, I would call attention to the unsanitary conditions at Gouldsboro school. No one who understands the situation will hesitate for a moment to agree with me that some improvement must be made. I recommend that this offensive and altogether undesirable piece of equipment be removed from the front entrance, and that more sanitary equipment be provided at the rear of the building. No definite plans have as yet been made, but I am suggesting an adequate appropriation for the purpose.

I believe we are in the midst of a successful school year.

Respectfully submitted,

M. R. KEYES,

Superintendent of Schools.
