[No. 10 OF PRINTED REPORTS.]

✻FORTY-THIRD ANNUAL REPORT✻

OF THE

SELECTMEN

AND

SUPERVISOR OF SCHOOLS

OF THE

TOWN of SEARSPORT,

FOR THE

MUNICIPAL YEAR 1887.

BELFAST:
GEO. W. BURGESS, PRINTER.
1888.

THE WARRANT.

STATE OF MAINE.

To WM. B. SAWYER, a constable of the town of Searsport, in
the County of Waldo, Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Searsport, qualified by law to vote in town affairs, to assemble at the Town House in said town, on Monday, the 19th day of March, instant, at 10 o'clock in the forenoon, to act on the following articles, to wit:—

- 1st. To choose a Moderator to preside at said meeting.
- 2nd. To choose a Town Clerk for the ensuing year.
- 3rd—4th. To see if the town will accept the report of its officers as printed.
- 5th. To choose three or more Selectmen.
- 6th. To choose Assessors of Taxes.
- 7th. To choose Overseers of the Poor.
- 8th. To choose a Town Agent.
- 9th. To choose a Town Treasurer.
- 10th. To choose an Auditor of Town Accounts.
- 11th. To see if the town will abolish the district system and establish the town system of schools.
- 12th. To choose a Superintending School Committee or Supervisor.
- 13th. To choose School Agents.
- 14th—25th. To choose other town officers.
- 26th. To see if the town will establish a Free High School, and how much money it will raise therefor.
- 27th. To see how much money the town will raise for the support of schools.
- 28th. To see how much money the town will raise for the support of the poor, and other town expenses.
- 29th. To see how much the town will raise to repair the highways, and whether in labor or money; and how much to allow per hour for men, oxen and horses.

REPORT.

Balance to the town's credit,		<u>\$745 66</u>

Mr. Sweetser's bill for supervising schools the past year has not up to date (March 5), been presented; when paid it will reduce the above balance \$100 more or less.

We would respectfully recommend that the town raise for the ensuing year—for schools, \$2000; for a free high school, \$500; for the Sears Library, \$100; for the poor and other town expenses, \$2500; and for the highways, \$2500 in money.

Respectfully submitted,

MARLBORO PACKARD, } Selectmen
of
JAMES A. COLSON, } Searsport.

REPORT

—OF THE—

SUPERVISOR * OF * SCHOOLS.

To the Citizens of Searsport:

In accordance with the requirement of the law, the following report of the condition of the schools of this town for the past year is submitted to your attention.

DISTRICT NO. 1. (HARBOR DISTRICT.)

James R. Park, Agent. No. of scholars in the district, 69. Average attendance ; Spring, 34 ; Fall, 41 ; Winter, 38 (about).

There is cause for satisfaction in reviewing the work of this school through the year. The spring and fall terms (10 weeks each) were taught by Miss Carrie P. Perkins who, from her former experience, brought to this work some qualities that were necessary to cope with the difficulties there existing. She was successful in the position, and the school is to be complimented on the marked improvement in orderliness and industry, while, so far as I can judge, the work has at the same time been thoroughly done.

The winter term (10 weeks) showed a continuation of the good work of the earlier part of the year and the teacher, Mr. Clifton A. Snell, though having but little previous experience, carried on the work in a very creditable manner.

DISTRICT NO. 2. (NICHOLS DISTRICT.)

Daniel E. Richards, Agent. No. of scholars in the district, 104. Average attendance, Primary : Spring, 26 ; Fall, 29 ; Winter, 15. Upper School : Spring, 10 ; Fall, 10 ; Winter, 29.

The Primary School, through this year as during last, has been under the charge of Miss Caroline G. Packard, and from the appearance of the school and from other sources of information a favorable report can confidently be given.

In the Upper School the work of the first two terms (9 weeks each) can be regarded only in an unfavorable light. An evident lack of harmony between the people of the district, the agent, and the teacher, prevented the accomplishment of what might reasonably be expected.

Most gratifying results, however, have been attained in the winter term (10 weeks) just closed, as was evidenced by a renewed interest and increased attendance. To the teacher, Mr. T. C. Smart, belongs a great part of the credit of placing this school upon a good footing again.

DISTRICTS 3, 4 AND 5. (UNION DISTRICT.)

B. O. Sargent, Agent. No. of scholars in the district, 234. Average attendance, Third Primary : Spring, 7 ; Fall, 8. Second Primary : Spring, 18 ; Fall, 14. First Primary : Spring, 23 ; Fall, 29. Intermediate : Spring, 27 ; Fall, 34. High : Spring, 53 ; Fall, 47.

The Third Primary was taught by Miss Blanche E. Webber and, though small in numbers, seemed interested in the work in which it was engaged.

The Second Primary has progressed well under the management of Mrs. Mary R. Perkins, whose work is familiar to the people of the district. The number of scholars attending this school has been somewhat smaller than last year, but in other respects there is no special change to be noted.

The First Primary has been under the charge of Miss Caroline G. Nickels, and the Intermediate, of Miss Emma F. Mortland, to both of whom for their earnest and faithful work, the highest commendation is due. This was Miss Nickels' first experience in teaching, and it is certainly a beginning which should encourage a continuation of the work.

The classes that have passed to the High School from the Intermediate the last two years have been much larger than those coming from the Primary to the Intermediate. This will account for the diminished attendance of the Intermediate from last year's report.

The High School during both terms of this year has been under the charge of A. F. Sweetser, assisted by Miss Margaret B. Sweetser. The course of study which was adopted by the district at the last annual meeting (a copy of which is appended to this report) was put into operation as far as it was possible to do so, and at the close of the fall term the school, excepting a very few of the scholars, was arranged in regular classes. These exceptions may prevent the complete organization of the school for several terms, but no serious inconvenience will necessarily result. The effect of this gradation of the school has so far been beneficial. The number of daily recitations has been decreased allowing more time for each, while in addition to that, the keeping of all the scholars of one class together in the same studies must have the effect of stimulating the pupils to greater exertions and a deeper interest in their work.

As different classes will vary in ability, changes can be made in the established course to adapt it to the needs of each class. But to supply more work for those pupils who are able to accomplish more, I suggest that the study of Latin under proper limitations be allowed in the school. Its value as a study can not be doubted, and it seems that it may be pursued to advantage by a portion of the school.

Two other measures I would submit to the people of district: First, that the Second and Third Primary Schools be united. The number of scholars in these two schools is so small that the expense of maintaining two schools seems uncalled for, and after due consideration some plan can without doubt be devised by which all can enjoy the same privileges they now have and with less expenditure.

The other measure I would recommend is that the district take the steps necessary to maintain its schools for thirty weeks each year, and to that end, if the town money is insufficient for the purpose, I would urge the district to raise enough to make up the necessary sum. In case the town does not avail itself of the provisions of the High School law, the district could establish such a school and secure the same State aid. Any other plan, however, that will attain the same end will meet with general approval.

DISTRICT NO. 6. (SARGENT DISTRICT.)

Joseph Brock, Agent. No. of scholars in the district, 17. Average attendance: Spring, 7; Fall, 12.

The spring term (8 weeks) was under the instruction of Miss Aldie M. Sargent, and though this was her first term, the work does credit to her efforts and ability, giving promise of good results in a wider field.

Miss Susie E. Gould had charge of the fall term (9 weeks,) during which the number of scholars was increased by the attendance of several from beyond the limits of the district. Miss Gould is a teacher of long experience, and her work was attended with gratifying results.

DISTRICT NO. 7. (PORTER DISTRICT.)

Geo. W. Bowen, Agent. No. of scholars in the district, 31. Average attendance: Spring, 20; Fall, 21; Winter, 19.

The spring term (9 weeks) was taught by Mrs. Carrie Bowen, whose good work is well known to the people of the district. The fall and winter terms (8 and 9 weeks) with Miss Amanda K. Mathews as teacher, were in point of industry and profit, a continuation of the work which has characterized this school for the two years over which my acquaintance with it extends.

DISTRICT NO. 8. (MATHEWS DISTRICT.)

J. W. Nickerson, Agent. No. of scholars in the district, 42. Average attendance: Spring, 18; Fall, 24; Winter, 25.

Miss Mary E. Stevens taught all three terms (10 weeks each) and the work done has been more systematic than that of the year before. The discipline has been excellent, and in every way the people of the district are to be congratulated on having so profitable a year in their school.

DISTRICT NO. 9. (NORTH SEARSPORT DISTRICT.)

John Nickels, Agent. No. of scholars in the district, 32. Average attendance: Spring, 19; Fall, 14; Winter, 19 (about.)

The spring and fall terms (6 weeks each) were hardly long enough to get the full benefit of school privileges. Miss Hattie K. Marden was the teacher of both terms and, without previous experience, gave evidence of ability as an instructor. Though a slight laxity of discipline existed, no very unfavorable comment can be made.

The winter term (12 weeks) was under the direction of Mr. Frank L. Nickerson. The school was somewhat increased in numbers, and its appearance gave every indication of diligent study and a desire to profit by each opportunity.

DISTRICT NO. 10. (DODGE DISTRICT.)

Thompson S. Ford, Agent. No. of scholars in the district, 16. Average attendance: Spring, 9; Fall, 8.

Both terms (10 weeks each) were taught by Miss V. Etta Robbins, and both teacher and scholars showed a desire to make the school profitable.

DISTRICT NO. 11. (ROULSTONE DISTRICT.)

Samuel Mortland, Agent. No. of scholars in the district, 13. Average attendance: Spring, 7; Fall, 10.

The spring term (7 weeks) was taught by Miss Elonia Nickerson, and the fall term (7 weeks) by Miss Emma F. Mortland. This was Miss Nickerson's first experience in teaching and the school hardly received the benefit to be desired. Miss Mortland gave valuable aid, and the work of all was productive of the best results.

DISTRICT NO. 12.

Isaac Mason, Agent. (Swanville.)

This district, by a continuation of the former arrangement, forms practically a part of one of the Belfast districts.

The number of scholars in the town still shows a decrease. By the last census, there was 566, a decrease of 14 from the year before. The amount of money raised was \$2000, a decrease of \$500. The number of terms of school is 34, and the aggregate number of weeks 316, showing a decrease of 4 in the number of terms, and 16 in the number of weeks.

A committee was appointed at the last annual meeting, to select new Arithmetics and Readers for use in the town. The committee acted, and the result of their examination was the selection of Swinton's Readers and Greenleaf's Revised Arithmetics, both of which were accepted and introduced. All who have used them, both teachers and scholars, unite in their approval of the change and attest the merits of the new books.

I have caused to be distributed as widely as possible a pamphlet prepared by the State Superintendent of Schools, advocating a change from the district system of schools to the town system. In other places it has been found to work satisfactorily, and many of the changes which it effects commend themselves to those who are interested in educational matters. I would earnestly solicit your attention to this subject to the end that after mature deliberation, you may decide upon a question of such importance.

During the past year we have been without the aid of a Free High School, and have been deprived of assistance which the State gives to those schools. Considering the small amount that the town is required to furnish and the benefit to be derived from the maintenance of this school, I would advise that this school be re-established and that the same amount be raised for its support that was raised in former years.

The work which has been done in the schools of this town during the past year will, I trust, compare favorably with the work of former years. Some unfavorable circumstances have existed, not the least of which has been the decrease in the town appropriation for the support of schools. In view of the condition of business in this town, the necessity of economy must be admitted. But it would be false economy to make the schools the first to feel the effects of decreased appropriations. Other things for which the town raises money can be dispensed with rather than that the school interests should be crippled.

With confidence that these suggestions will receive your candid consideration and the hope that they may meet your approval, this report is

Respectfully submitted,

A. F. SWEETSER, Supervisor of Schools.
