NO. 2

There were seventeen lots sold in 1945, I sold fifteen. Geo. Kelley sold two, one to Ed Austin and one to Fred Robinson.

The following lots have not been paid for: Leon Drury's and Fred Robinson's.

Fred Robinson claims that he is entitled to a lot as he was a soldier, but he is not, all he is entitled to is a grave in the soldiers' lot that I know for a fact.

Now as this was my last year — I say what ought to be done the coming year — there should be 300 lbs. of ammonia nitrate on the Tuttle Cemetery, that will put it in good shape. It would be a good plan to put ashes on the Cemetery, too.

There are five Cemeteries to take care of — it is also the Sexton's job to cut the grass around the Church.

E. A. WARREN,

Supt. of Burials.

E. A. Warren, Supt. of Burials, claims two lots for soldiers, next to the Pauper lot.

TOWN OF ROME FOR YEAR 1945

Greetings:

1945, Victory in war, and we ask ourselves, have we been as faithful in our duties on the home front? Have we given sufficient thought to developing a stronger generation by building healthier bodies, cleaner minds, and better morals? Have we protected our children from communicable diseases? The State Bureau of Health through its Public Health Nursing Service has endeavored to help your community to do these things; by teaching the principles of good health, physically, mentally and morally. Our Staff is still depleted but we are trying to maintain these principles.

Some scheduled health work has been postponed due to communicable diseases in the community. Nevertheless, it gives me pleasure to report the following for the year 1945:

14 days of Public Health Nursing Service were given to your town. This was divided into home visits to expectant mothers, infants and preschools.

1 Child Health Conference was held with 7 attending, all receiving physical examinations and immunizations against whooping cough, diphtheria, and smallpox. The Child Health Conferences plan was discontinued for the year due to the prevalent communicable disease as mentioned above.

All 5 schools were visited and 59 tuberculin tests given. The positive reactors were x-rayed with no active tuberculosis cases found.

The following activities are suggested for Health work in 1946:

1. Child Health Conferences, at least 3 during the year.
2. Routine tuberculin testing of all children and adults if desired.
3. Audiometer testing for hearing loss in all schools.

Respectfully submitted,

EUNICE S. NOLLET,

Public Health Nurse.

Board of Selectmen
Rome,
Maine

January 15, 1946

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the town of Rome have been audited by Auditor Carl G. Hawes for the period February 18, 1944 to February 19, 1945 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. In the accompanying comments, you will find an exception noted as relates to this examination. This is briefly as follows:

The Tax Collector and Excise Tax Collector have not deposited their collections monthly with the Treasurer as required by Chapter 81, Section 105, Revised Statutes of 1944.

This should have your attention so that subsequent audits will not reveal the same condition.

Exhibits and schedules incorporated in this report impartially present the financial position of the town of Rome and the result of its operation for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,

FRED M. BERRY,
State Auditor.

COMMENTS

Re: Audit of the town of Rome
February 18, 1944 to February 19, 1945

All receipts as issued were examined and found correctly recorded. Deposits as entered on the bank statements were compared with the receipts.

Cash on deposit and subject to check as of February 19, 1945 reconciled with the bank statement.

Expenditures were made by check from warrants drawn by the Selectmen.

Payments received on tax liens appeared to have been applied against the proper accounts. Those remaining unpaid were checked.

The trust fund investments were examined and it appeared that the income received had been properly accounted for.

The tax commitment was compared with the records of the Assessors. It was ascertained that this commitment was accounted for by cash paid the Treasurer and abatements, or unpaid taxes as reflected on the records of the Collector.

It was necessary to check all payments as recorded on the Tax Collector's cash sheets.

The 1944 Excise tax collections were checked from the copies of the receipts and \$21.48 was found due from the Collector. The 1945 excise taxes collected to February 19, 1945 amounting to \$97.60 had not been deposited with the Treasurer. We would recommend that the Tax Collector and Excise Tax Collector deposit all collections with the Treasurer monthly.

The records of the Selectmen were examined and approximately sixty warrants were checked to the distribution book.

Payrolls were test checked.

EQUALIZATION

In December 1946, the Town of Rome will not receive any equalization money from the State. This is because the law states the school tax rate for a town must be above the average for the State if the town is to receive equalization; and the school tax rate for the Town of Rome is .01126, while the average tax rate of the several towns for school maintenance in the State is .01800.

Our school tax rate of .01126 is arrived at by dividing our local school maintenance appropriation, which is \$5,600, by the State valuation of the town, which is \$497,413.

During the month of November, the superintendents of schools in the State were called to Augusta for a week to listen to lectures by, and consult with, Dr. William H. Burton of Harvard University, consultant for the State Department of Education in the building of a new Elementary School Curriculum.

Much is being done to provide better educational opportunities for the children of the State of Maine, by requiring better training and preparation of teachers, planning a richer curriculum, and securing better materials with which to work.

Along with higher standards for teachers comes their demand for higher salaries. This has brought about a serious teacher shortage in the State of Maine. Many teachers have gone to other states which pay salaries more in keeping with the demands made upon them. Dr.

Harry V. Gilson, State Commissioner of Education, advises us that he expects an even greater shortage for the coming school year. In Rome we have been fortunate to secure teachers who live locally.

All grades from the pre-reading level through the eighth grade have now been equipped with the Scott Foresman basic reading series. This provides excellent material for a strong reading program.

The financial statement included in this report shows the total receipts and disbursements of the school department for the year ending February 9, 1946. The total receipts for the year in the common school fund account \$6,042.57, high school tuition account \$2,820.50, books and supplies account \$236.28, repairs account \$247.22, administration account \$287.51. The total disbursements in the common school account were \$4,692.95, in high school tuition account \$1,777.83, in books and supplies account \$225.29, in repairs account \$211.87, in administration account \$307.54. The unexpended balance in each account is as follows: common school account \$1,349.62, high school tuition account \$1,042.67, books and supplies account \$10.99, repairs account \$211.87. There is a deficit of \$20.03 in the administration account.

In conclusion I wish to acknowledge my indebtedness to the school committee, town officers, teachers and citizens for their helpfulness and support.

Respectfully submitted,

JAMES deWEVER,

Superintendent of Schools.
