Road Commissioner's Report

To the citizens of Hebron:

Owing to the heavy showers in the mountainous part of the town I was compelled to overrun the appropriation.

The town does not raise money enough to fix the roads as they ought to be, for it costs more to keep the roads up in shape now than it did ten years ago,—help being higher and more power vehicles to tear the roads up after they are fixed, and especially in a dry season.

Now I would recommend raising \$1,100.00 for roads and bridges and \$200.00 for bushes.

I have given the Selectmen itemized bills of all work done in town the past year so they know what it has cost.

Respectfully submitted,

W. W. HARRINGTON,

Road Commissioner of Hebron.

Report of Superintendent of Schools

In spite of many handicaps your schools are now in better condition than they were a year ago. There were several weak teachers during the spring term and their pupils did not make satisfactory progress. But in September the No. 4 school which was in very poor condition was taken in hand by Mrs. Ramsdell who gave the kind of service which Hebron would be fortunate to secure continuously. She made an excellent school out of it and her work has been ably continued by Miss Tibbetts. Miss Pugsley did the same service in the fall term for No. 3, and succeeded herself in the winter. The school made excellent progress under her instruction. No. 2 was a very weak school in the spring term, but Miss Sturtevant gave excellent service there in the fall term and did much to make it a better school. The other schools were all in better condition during the spring term, but have without exception developed during the other terms. It is to be hoped that the teachers now in service will in most cases be retained for the sake of continuity, even though the spring term be made thereby more expensive than the corresponding term of last year.

Your pupils have had two weeks more of schooling than previously—namely 30 weeks. This is a full month more than the State law requires, and compares very favorably with what other towns are doing.

At the opening of the year the schools were in need of new books and of more books. Another defect was that the books in use were not uniform, but many different primers and readers were in use. Much has been done toward putting the same line of supplementary readers into all the schools, and efficiency and economy will result if this principle of uniformity of text books can be carried farther.

Much has been accomplished, especially in No. 4 and No. 3, toward grading the pupils more effectively. There is need, however, of more and continued efforts in this direction.

There is a fundamental weakness in your school system which should be eradicated as soon as possible. It has probably never been more completely illustrated than this year when your Superintendent's hours of activity in following his own profession at Hebron Academy have been the identical hours needed for the effective performance of his duties as your Superintendent. It is not always true to that degree, but it is always inevitable that there shall be a conflict of interests which seriously handicaps your Superintendent and lessens much his usefulness so long as he accepts the duties of your office in addition to his own. The only way to avoid this is to join with other towns in securing a man of ability to give his entire time to the schools of the towns making the arrangement. Your retiring Superintendent most strongly urges this action.

H. C. NEWTON, Superintendent of Schools.
