**THE TOWN WOULD LIKE TO DEDICATE
THE TOWN REPORT THIS YEAR TO
ROBERT SMITH**

Robert Smith was born on March 24th, 1907 in South Carthage where he has lived all his life except for nine months when he worked in Nashua, N.H., at a box factory running a trimmer saw. He worked with his father (Harry L. Smith) cutting wood and growing vegetables which he took by horse and wagon to peddle in Rumford often walking along to take some load off the horse. In later years he worked with the Halls cutting wood and farming. His wife, Ruth, is the daughter of Perley and Bertha Noyes and grew up in Berry Mills.

Robert was a member of the First 4-H Club in Franklin County for ten years, twice being the assistant leader; and he was also a member of the Mystic Valley Grange.

He served the Town as Selectman in 1940, as a Deputy Fire Warden and Budget Committee Member during the 50's and helped organize the South Carthage Fire Co. in 1953. He was the Town Civil defense Director from 1960 through 1967 and a Budget Committee Member again from 1964 to 1967. In the fall of 1960 he assisted in the reblazing of the Carthage-Wilton Town Line from the Dixfield Corner to the Washington Plantation corner and later the Carthage lines with Washington and Perkins Plantations. He now serves the Town as a valuable source of Carthage History with his sharp memory and broad knowledge of rural life which he amiably shares with visitors. The picture shows him outside his shop where he makes numerous products including the chairs shown.

TO THE BOARD OF DIRECTORS AND CITIZENS OF SCHOOL ADMINISTRATIVE DISTRICT NO. 21

The excellence in school movement started in Maine 6 years ago. As a result of the increased emphasis to provide quality education for our young people local costs have increased.

In order to meet the challenge of upgrading our educational system in the United States numerous studies were conducted by government leaders, educators and the general public. The results of the many studies have been published and one common factor loomed above the rest. If excellence is to be achieved, many changes must take place and change costs money.

In 1985 new state requirements were adopted in Maine which governed reformed legislature that were developed by the State Board of Education and the Commissioner. As a result of new legislature our School District is undergoing changes to meet new State requirements. Recently the State of Maine Department of Educational and Cultural Services conducted a Reform Cost Study. S.A.D. #21 has experienced cost increases in several areas in order to meet the new requirements.

A Science teacher at the High School was hired in 1986 so as to comply with State Science requirements.

A plan for providing Guidance services to our K-8 students must be developed as part of the mandated School Improvement Plan.

The Elementary Library/Media requirements mean that additional space is needed at Dixfield Elementary School.

New teacher certification guidelines mean additional dollars are needed for staff development.

Updating Social Studies textbooks to meet State requirements will cost an additional \$12,000.00

The mandated minimum salary of \$15,500.00 for teachers in an attempt to raise salaries in Maine from its present rank of 48th in the Nation. We also know if the integrity of locally bargained salary scales are to remain intact all salaries must also be increased.

Maine School Management Association concluded in a report dated March of 1986 the following:

The legislature has enacted significant school reform legislature which will impact each school system in the State of Maine. The State Board of Education and Commissioner have developed rules which provide direction to local school systems on how the legislation should be

implemented. As a result, local school systems are faced with a challenge of responding to many changes. This effort will require a significant commitment of time, human effort and financial resources. If these changes are to affect teaching and learning in a positive way, the concept of a state/local partnership working for the best interest for the Maine students must be real.

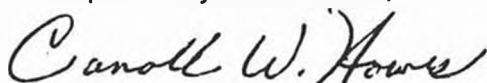

The effort to improve education in Maine is at a critical point ... the point at which both the State and local policy makers must make hard financial decisions.

To this end, Maine School Managements Association recommended the following steps to be taken:

1. State appropriations be made in an amount equal to 55% of the funds which are determined to be necessary in 1986 for implementation of the new law. This amount should be distributed by incorporating it into the existing school finance formula. (It is important to note that this was done by the 112th legislature.)
2. The legislature commit itself to increasing the state share of the Education Allocation in 1987-1988. The Maine School Board Association and the Maine School Superintendents Association are on record as supporting moving to at least a 60% state share. This should be above any funding which is made available for teacher compensation.
3. Those responsible for the implementation of the new law (Maine Department of Educational and Cultural Services, State Board, Local Board and Local Educators) study the school reform act, including the minimum salaries for teachers, and the teacher/administrator certification law with a specific objective of making recommendations to the legislature for relief of financial hardship which may be incurred by local school systems in the future. (Recommendations will be made to the 113th legislature.)
4. The legislature address the question of where the additional state funds needed to finance educational reform will come from.

School Administrative District No. 21 has an excellent reputation for providing our young people with quality educational programs for all. If we continue our commitment of excellence in education as well as meeting the state mandates, additional local dollars will be necessary.

Respectfully Submitted,

Dr. Carroll W. Howes Ed.D.

Senate Chamber
Augusta, Maine 0-1333

January 13, 1987

Dear Citizens of Carthage:

It is a great honor to represent the people of Carthage in the Maine State Senate. As I enter my third term as your State Senator, I look forward to a very challenging legislative session.

During the 113th Legislature, I will be serving as Chair of the Joint Standing Committee on Inland Fisheries and Wildlife. This committee will deal with issues of great importance to people of our area. We will work to balance the interest of hunters and fishermen with the responsibilities of preserving Maine's great wildlife heritage.

In addition to my committee responsibilities, I will be paying special attention to the issues of workers' compensation, education reform, liability insurance and reducing the local property tax. I look forward to hearing from you regarding these and any other issues.

Please write to:

Senator Edgar Erwin
Maine Senate
Station #3
Augusta, ME 04333

or call me at home, 364-4768 or (toll-free) at the State House, 1-800-423-6900.

Sincerely,

Edgar Erwin

Dear Carthage Residents:

It is an honor to be your representative in the 113th Maine Legislature and I hope that you will contact me whenever I can be of service to you.

I am pleased to have been appointed to the new 13 member Joint Standing Committee on Economic Development. We are working closely with the new Administration in Augusta in developing a comprehensive and workable long range economic development plan that will address all sections of Maine and include consideration of such items as job training and re-training, day care, enterprise zones, and improvement of our primary road system.

This term I am sponsoring legislation to pattern Maine's Workmen's Compensation system after model systems already in operation in a few other states which are said to be fair to injured workers and yet less costly to businesses; legislation to allow Megabucks winners the option of taking their winnings in a lump sum since the Tax Reform Act of 1986 does away with the tax advantages of deferred income; legislation designed to streamline the bureaucracy in Augusta by eliminating at least one agency - the Office of Energy Resources - and combining its essential functions with the State Planning Office, the State Development Office and the Department of Conservation; legislation to create a central clearing office for advance reservations for camping at our State Parks; and a few other bills that I hope will have some direct benefit to people here in District 54 or will lead to greater efficiencies in State Government. Don't hesitate to give me your input on these proposals or on other matters. You can call me at the State House at 1-800-423-2900 or at my home at 645-2333.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Armstrong".
