# Report of the Superintendent of Schools

---

To the School Committee of Hebron:

I herewith submit my third annual report of the public schools of Hebron:

I am glad to state that the teacher difficulties seem to have broken and it has been possible to get together a capable corps of teachers and therefore to be able to report a very satisfactory year.

## CONSOLIDATION OF SCHOOLS

The question of consolidating the Academy, Nelson Center and Number Eight schools into one union district was recommended to you in my last report. This year the question has been incorporated into the town warrant in order that it might be brought up for thorough discussion. The case rests about as follows: the so called Academy school is located in a small, overcrowded room and at present has 24 pupils, the ninth grade having, to relieve conditions of instruction and stop the necessity of paying conveyance to Mr. Bickford, children who were sent to No. Eight, been placed in the Academy as sub-Freshmen at the opening of the spring term, the conveyance charge paying the tuition cost. In the fall, realizing that the absence of one grade from the overcrowded school, no teacher can teach all nine grades successfully and being granted the continuance of the special rate, i. e. (\$10 per pupil, per term), this was continued and has resulted in a change from a slip shod school into one in which very creditable work is being done. However, as no sub-freshmen are to be taken into the academy next year, some other arrangement must be made and seating congestion there is now acute.

If some way two teachers could be used in this district and a graded primary and grammar school be formed, there would, in my judgment, be a vast improvement in the work accomplished. Now it is questionable if there can be expected to always be enough pupils in this district alone to warrant two teachers, though there is likelihood that there always will be too many for one teacher to capably handle, therefore if these four districts could be permanently combined, there would certainly be enough for the two teachers, no matter in what way population shifts might occur.

At present the Center is closed, and the Nelson with 10 and No. Eight with 8 pupils is being maintained. It costs to maintain one of the small schools about \$60 per pupil per year, while the expense in the Academy school is \$21.00, so that though it may work out fine for the small school where they get the entire time of a teacher for a few children it works a distinct hardship on the large school as the tax on school funds makes it impossible to provide them with adequate instruction. In regard to conveyance, the distance haul is in each case short and ought not to work hardship.

However, if the consolidation cannot be determined upon in a right manner, that is to be made of a permanent nature and with proper conveyance, I do not recommend that it be attempted. I trust that the matter will be given a thorough hearing at town meeting.

#### HIGH SCHOOL TUITION

The revised school law has developed an acute situation in regard to High School Tuition. The present revised law compels the town to pay tuition up to \$60 per year, but permits schools with actual cost in excess of this per pupil to charge more. This additional charge may be paid by the town up to \$100 per pupil.

During the past year when paying only the minimum required by law, we have overdrawn our account \$379 and still owe over \$150 in schools where bills have not been received for the winter term. For the winter term we had in high schools as follows: Hebron Academy 12; Buckfield High School, 5; Leavitt Institute, 1; Gould's Academy, 1; a total of 19. Estimating that there are to be next year an average of 20, we will need to pay the minimum charge, \$1,200, of this we shall get back \$600 from the State, leaving \$600 plus \$500 overdraw to be raised. Now additional tuition to pay the amounts as permitted by law in schools where the charge is over \$60 would be about \$500 more, so in order that we might know how the town would feel in this matter, I have placed a second article in the warrant to see if the town would vote, as permitted, but not compelled by law, to pay the extra tuition where it exceeds \$60. Where a parent as Mr. Bearce has three pupils in the Academy, the extra tuition cost alone being \$30 each amount to \$90, a stiff tax and discouraging to a parent to attempt to educate his children. It would personally seem to be that the town ought to shoulder part, at least, of this burden and pay up to \$75 at least. However, not being a taxpayer, I leave the matter with this recommendation in your hands to recommend the action you desire to your committee.

## SCHOOL STATISTICS

In last year's report you will notice that in the age-grade table prepared, 33 per cent. of Hebron's pupils were one or more years retarded in their grades and it was thought that the poor daily attendance might be the reason. Since last September a system of excuse blanks have been used so that some proportion of the causes might be noted, excuses received during the fall were as follows: for work, 50 per cent.; sickness, 27 per cent.; fairs, etc., 6 per cent.; weather conditions, 3 per cent.; all other, 14 per cent.

The percentage of children to be enrolled in school of our school population between 5 years and 21 has remained practically unchanged for the year ending June.

	1920	1921
Enrolled in school.....	67.9 %	68.1 %
Number remaining in same school for year.....	84 %	68 %
Average attendance.....	57.7 %	61.4 %
Average salary per week.....	\$10.14	\$15.35

Attendance year ending June 1921:

No. attending	No. 8	Alders	Brighton Academy	Sodom	Total	
140 to 150 days....	3	0	7	12	1	23
130 140 ....	2	0	5	2	4	13

Less than 100.....	4*	11	4	11*	9†	39
	—	—	—	—	—	—
Total.....	9	16	20	29	18	92

\*Of these 15 children 9 were in attendance in other schools in town and four were entered in spring as sub-freshmen into Hebron Academy.

†Of these, two came from Buckfield for three weeks, four moved away and 2 entered in middle of year.

In study of this table for attendance facts, the numbers under 100 can be disregarded as they represent transients, those above 100 were in actual attendance in one school for the year.

### WRITING AND SPELLING SURVEY

During the winter term I gave the children of the district the Russell Sage spelling and writing test with the object of seeing what per cent of the pupils were able to spell as well as their grade calls for, the results of spelling follow:

#### PER CENT. OF CHILDREN UP TO GRADE

Hebron	Buckfield	Hartford	Sumner
