# Town Warrant

---

*To S. A. Goodwin, a Constable of the Town of Livermore Falls,*  
GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Livermore Falls, qualified by law to vote in Town Affairs, to assemble at Murray Hall, on Monday, the 5th day of March, A. D. 1934, at 8.00 o'clock in the forenoon, then and there to act on the following articles, to wit:

Art. 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose by ballot the following Town Officers for the ensuing year in accordance with section 2 of chapter 70 of the Public Laws of 1921 for Maine, to wit: Town Clerk, First Selectman, Second Selectman, Third Selectman, Three Assessors, Three Overseers of Poor, Treasurer, Member of the School Board for three years. The Polls or Ballot boxes for receiving ballots for the above mentioned officers shall be closed at 12.30 P. M.

Art. 3. To see if the Town will accept the report of the Town Officers for the past year.

Art. 4. To see if the town will hire a night watchman for the ensuing year and raise money for the same or act anything relative thereto.

Art. 5. To see what action the town will take in regard to collection of taxes for the ensuing year.

Art. 6. To see how much money the town will vote to raise for lighting our streets in Livermore Falls for the ensuing year, or take any action relative thereto.

Art. 7. To see how much money the town will vote to raise for fuel, lights, insurance and supplies for the Municipal Building for the ensuing year, or act anything relative thereto.

Art. 8. To see how much money the town will vote to raise to pay their Town Clerk for attending and recording Town Meetings and State Elections for the ensuing year.

Art. 9. To see how much money the town will vote to raise to pay their Town Treasurer for the ensuing year.

Art. 10. To see how much money the town will vote to raise to pay their First Selectman, Second Selectman, Third Selectman, Assessors and Overseers of Poor, for the ensuing year.

Art. 11. To see if the town will vote to have a Health Officer for the ensuing year or act anything relative thereto.

Art. 12. To see how much money the town will vote to raise for our Free Public Library for the ensuing year, or act anything relative thereto.

Art. 13. To see how much money the town will vote to raise for Contingent Expenses for the ensuing year.

Art. 14. To see how much money the town will vote to raise for the support of paupers for the ensuing year.

Art. 15. To see how much money the town will vote to raise for the purpose of oiling our streets and roads in the town for the ensuing year or take any action relative thereto.

Art. 16. To see how much money the town will vote to raise for the maintenance and repairs of the roads and bridges for the ensuing year, or act anything relative thereto.

Art. 17. To see how much money the town will vote to raise for maintenance of State Highways during the ensuing year within the limits of the town under provision of Section 2, Chapter 272 of the Public Laws of 1915.

Art. 18. To see if the town will vote to raise the sum of \$337.00 for maintenance of Improved Sections of third class roads in accordance with the provisions of Sections 43 and 45 inclusive of Chap. 28 of the Revised Statutes of 1930.

Art. 19. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in Section 20, Chapter 28, Revised Statutes of 1930.

Art. 20. To see what sum the town will appropriate and raise for the improvement of the section of State Aid road as outlined in the report of the State Highway Commission (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Sec. 19, Chap. 28, Revised Statutes of 1930, or under the provisions of Sec. 3, Chap. 175, Public Laws of 1930.

Art. 21. To see what sum, if any, the town will recommend to take from the joint state aid account for the purpose of applying bituminous surface treatment to state aid roads built within the past five years in accordance with the provisions of Chap. 271, Public Laws of 1931.

Art. 22. To see how much money the town will vote to raise for snow removal for the ensuing year or act anything relative thereto.

Art. 23. To see if the town will vote to buy a truck suitable to use for plowing snow or act anything relative thereto.

Art. 24. To see if the town will vote to instruct their Selectmen to lay out Riley Terrace so-called which runs from Main Street west in front of the properties of Victor and Charles Langelier, Teague property so-called and the Franco-American Realty Co., property, or act anything relative thereto.

Art. 25. To see if the town will vote to raise the sum of \$500.00, as the town's share in building a bridge over Shuy Brook, so-called, on Route No. 133, near the property of Mrs. Frank Bean, or take any action relative thereto.

Art. 26. To see if the town will vote to build a concrete sidewalk on the north side of Depot Street and the East side of Main Street from the Dreamland Theater to the private way at the side of the Odd Fellows Block, and raise money for same or take any action relative thereto.

Art. 27. To see how much money the town will vote to raise to pay the Chief of the Livermore Falls Fire Department for the ensuing year or act anything relative thereto.

Art. 28. To see how much money the town will vote to raise to pay the running expenses of the Livermore Falls Fire Department for the ensuing year or act anything relative thereto.

Art. 29. To see how much money the town will vote to raise to pay for repairs to the Fire Alarm System for the ensuing year or act anything relative thereto.

Art. 30. To see how much money the town will vote to raise to pay the members of the Livermore Falls Fire Department for the ensuing year, or act anything relative thereto.

Art. 31. To see if the town will vote to raise the sum of \$450.85 to pay the funeral expenses of Victor Severy or act anything relative thereto.

Art. 32. To see if the town will vote to raise money to pay the hospital and doctors bills for services rendered to members of the Livermore Falls Fire Department who were injured in the pumper accident last year, that remain unpaid, or act anything relative thereto.

Art. 33. To see if the town will vote to raise money to pay the Livermore Falls Water District for sprinklers in the High, Grammar and Common Schools for the ensuing year, or take any action relative thereto.

Art. 34. To see if the town will vote to raise money to pay the Livermore Falls Water District for use of water hydrants in the town for the ensuing year, or take any action relative thereto.

Art. 35. To see if the town will vote to raise money to pay the Livermore Falls Water District for added fire protection given the High School by the new pipe line for the ensuing year, or take any action relative thereto.

Art. 36. To see if the town will vote to instruct their Selectmen to hire a man to drive any piece of Fire Apparatus, care for the Fire Apparatus, look after the Fire Alarm System, display the flag in the park, act as Janitor of the municipal building, raise money for the same, or act anything relative thereto.

Art. 37. To see how much money the town will raise for the care of the town clock for the ensuing year, or act anything relative thereto.

Art. 38. To see how much money the town will vote to raise for abatement of taxes for the ensuing year.

Art. 39. To see if the town will vote to raise the sum of \$100.00 for office supplies for the ensuing year.

Art. 40. To see if the town will vote to raise the sum of \$48.60 to pay for auditing the books of the Selectmen and Treasurer covering the year ending Feb. 1, 1934.

Art. 41. To see if the town will vote to raise the sum of \$285.00 to pay for the insurance as required by the Workmen's Compensation Act, or act anything relative thereto.

Art. 42. To see how much money the town will vote to raise to maintain the town team for the ensuing year or act anything relative thereto.

Art. 43. To see how much money the town will vote to raise to pay for Extra Constables for the ensuing year or act anything relative thereto.

Art. 44. To see how much money the town will vote to raise and appropriate for general school expenses, teachers salaries, conveyance, fuel, industrial education, janitors, text books, supplies, etc.

Art. 45. To see how much money the town will vote to raise for repair and replacement of school property for the ensuing year.

Art. 46. To see how much money the town will vote to raise for insurance, light and power for the schools for the ensuing year.

Art. 47. To see if the town will vote to raise funds for medical inspection in the schools or act anything relative thereto,

Art. 48. To see if the town will vote to raise and appropriate \$25.00 for flags for the schools.

Art. 49. To see how much money the town will raise to pay the members of the School Committee for the ensuing year or act anything relative thereto.

Art. 50. To see how much money the town will vote to raise to pay the Superintendent of Schools for the ensuing year or act anything relative thereto.

Art. 51. To see if the town will vote to raise the sum of \$100.00 for the observance of Memorial Day.

Art. 52. To see if the town will vote to raise the sum of \$100.00 for the observance of Armistice Day.

Art. 53. To see if the town will vote to raise the sum of \$300.00 for the Athletic Association or act anything relative thereto.

Art. 54. To see if the town will vote to raise the sum of \$1,000.00 for the year 1934 to pay their First Selectman, or act anything relative thereto.

Art. 55. To see if the town will vote to put an electric light opposite Taglienti's Store or act anything relative thereto.

Art. 56. To see if the town will accept the right of way leading from Highland Avenue to property of Michael Connors, described as follows: Beginning at a concrete monument on the easterly line of Highland Avenue, said monument being on the northwesterly corner of land of the Newlands Company and being located one hundred thirty-six and eight tenths (136.8) feet northerly from the intersection of the northerly line of Oak Street extended with the

easterly line of Highland Avenue; thence easterly at an angle turned from right to left of ninety degrees and forty five minutes (90-45) and by the property line between the land of said Newlands Company and land owned by the Town of Livermore Falls two hundred fifteen (215) feet to a concrete monument at the southwest corner of land of Michael Connors. The above line described is the northerly line of a right of way which is to be thirty three (33) feet in width and to lie entirely southerly of the above described line. No damages are to be paid and the abuttors must sign off that no future damages will be asked should the grade be raised or lowered, otherwise this vote will be void, or act anything relative thereto.

Art. 57. To see how much money the town will vote to raise to pay toward the support of the Public Health Nurse or act anything relative thereto.

Art. 58. To see if the town will vote to instruct the Selectmen to sell or dispose of the town hearse and building in which the hearse is stored, or act anything relative thereto.

Art. 59. To see if the town will vote to instruct the Selectmen to sell the Moose Hill School House or act anything relative thereto.

Art. 60. To see if the town will vote to authorize the Treasurer with the approval of the Selectmen to hire such sums of money as are necessary to pay the running expenses of the town until taxes can be collected.

Art. 61. To see if the town will vote to allow a discount on taxes and at what rate of discount they will allow, on taxes paid on or before April 1st, May 1st, June 1st and July 1st, 1934, or take any action relative thereto.

Art. 62. To see what date the town will fix when all taxes assessed in the year 1934 shall be payable.

Art. 63. To see what interest the town will vote to charge on all taxes paid after the same are payable.

Art. 64. To see what amount of money the town will vote to raise on principal and interest of the town debt for the ensuing year or act anything relative thereto.

Art. 65. To see if the town will vote to raise money to build Green Avenue, so-called, as laid out by the Selectmen Oct. 18th, 1932, and accepted by the town at the annual town meeting March 6th, 1933, or act anything relative thereto.

Art. 66. To see if the town will vote to raise money to build Bean Street, so-called, as laid out by the Selectmen Oct. 18, 1932, and accepted by the town at the annual town meeting March 6th, 1933, or act anything relative thereto.

Art. 67. To see if the town will vote to authorize the Treasurer on the approval of the Selectmen, to issue a series of bonds to the amount of our individual loans. These bonds are not to bear more than 4% interest, and less if obtainable. The issue shall be so dated that three bonds of a par value of \$1,000.00 each shall become due and payable each year, plus the interest due thereon. The cost of issuing these bonds shall be paid for out of contingent expenses, or act anything relative thereto.

Art. 68. To see if the town will raise the sum of \$1,317.25 to pay the Trustees of the Ministerial and School Fund the note which they hold of the Town, or act anything relative thereto.

Art. 69. To see if the town will vote to buy a snow plow suitable to use on a large truck, raise money for same, and leave the buying of same in the hands of the Selectmen, or act anything relative thereto.

Art. 70. To see if the town will raise and appropriate

money to pay for the support of Robert Crockett and family until such time as he is able to return to work, or act anything relative thereto.

Art. 71. To see if the town will raise money to grade Cargill street from a point in front of Robert Williams' property extending to Knapp street or act anything relative thereto. No damages are to be paid and the abutters must sign off that no future damages will be asked should the grade be raised or lowered, otherwise this vote will be void, or act anything relative thereto.

Fail not to make due service of this warrant and return with your doings thereon at the time and place of said meeting.

The Selectmen hereby give notice that they will be in their office on March 1st., 2nd. and 3rd., 1934 from 1 o'clock P. M. until 5 o'clock P. M. for the purpose of revising and correcting the list of voters.

Given under our hands and seal at Livermore Falls this 17th. day of February A. D. 1934.

E. N. FRENCH,

A. G. MORRISON,

M. G. DAVENPORT,

## AUDITOR'S STATEMENT

---

Augusta, Maine, February 5, 1934.

To the inhabitants of Livermore Falls, Maine.

Gentlemen:—

This is to certify that we have examined the accounts of your Collector, Treasurer and Board of Selectmen for the year ending January 31, 1934 and the attached reports taken from their records show proper accounting in all transactions. These reports are correct to the best of our knowledge and belief.

All outstanding notes were verified as of February 1, 1934.

Respectfully submitted,

STATE DEPARTMENT OF AUDIT

By H. E. CRAWFORD

## REPORT OF TREASURER OF MINISTERIAL AND SCHOOL FUNDS

---

The Trustees of the Ministerial and School Funds of the town of Livermore Falls make their report for the year ending March 1, 1934.

The last meeting was held in the Municipal building on March 23rd, 1933. S. A. Goodwin was chosen President, F. A. Pike secretary and H. M. Wilkins treasurer.

The Ministerial Fund of the town is	\$1,215.00
The School Fund	1,001.00

Total both funds	<hr/>	\$2,216.00
------------------	-------	------------

The funds are loaned and secured as follows:

Notes of Town Clerk of Livermore Falls	\$1,378.25
Loaned on endorsed notes	837.75

	<hr/>	\$2,216.00
--	-------	------------

The interest on the Ministerial Fund amounting to \$72.90 was paid to the religious societies in town as follows:

Methodist, North	\$14.58
Methodist, South	14.58
Baptist	14.58
Universalist	14.58
Free Baptist	14.58

The interest on the School Fund amounting to \$60.06 was paid to Town Treasurer.

Respectfully submitted,

H. M. WILKINS, *Treasurer.*

# **Report of Superintending School Committee**

## **Superintendent of Schools**

## Report of School Committee

The problem of maintaining the efficiency of the school system during the year just passed has not been a small one. With a reduction of \$5,000. in the amount appropriated for the school fund and no special appropriation for Industrial Education, serious problems arose. It was essential that a large reduction should be made in all salaries, and that general expenses should be greatly curtailed.

It has been the earnest effort of the School Committee to make the necessary adjustments with as little loss of efficiency to the system as possible. After making a heavy cut in wages, it was found that it would still be necessary to drop two teachers from the pay roll. The fact that no appropriation had been made for Industrial Education suggested that these two teachers be dropped. After careful consideration of the matter, however, it was the unanimous opinion of your committee that the interests of both the school system and the tax payer would be better served if these two teachers were kept and others dropped. The music teacher and one grade teacher were accordingly eliminated.

The saving which has resulted in the cost of heating the High School building since it has been equipped with weather strips has proved large. It is the hope of your committee that similar results can be obtained in the Grammar School building.

During the past year the Primary building has been painted and some repairs made inside it, but more are needed. Many of the shades in the various buildings have been in bad shape for some time. Some of these have been replaced, and others should be as soon as funds are available.

The CWA program which was started early this winter presented an opportunity to get some work done on the High

School grounds. This will no doubt result in a great improvement in the appearance of this property and therefore be a real asset to the town.

It is not without some uncertainty that the budget for the coming year is drawn up, as no one knows just what is to result from the government's policy of inflation and higher prices. The following estimates are based on conditions as they now exist.

---

SCHOOL FUND BUDGET, FISCAL YEAR ENDING  
FEBRUARY 1, 1935

---

Grade Schools:

Teachers' Salaries	\$12,000.00
Fuel	1,300.00
Janitor Service and Supplies	1,300.00

# Report of Superintendent of Schools

---

*To the Superintending School Committee and Citizens of  
Livermore Falls:*

I hereby submit my third annual report of the schools of Livermore Falls for your consideration.

## TEACHERS

Owing to a drastic cut in our appropriations we were obliged to reduce our teaching force in the Grammar School by one, and to let our Music Supervisor go. Miss Bennett, the music supervisor, was very fortunate in securing a desirable position in Vermont. We were very sorry to lose her as she was an excellent teacher and always ready and anxious to co-operate whenever and wherever she could help.

Miss Marcia Savage, who had taught in our schools for several years resigned to marry. Miss Savage had the love and respect of many of the pupils and parents. Miss Millicent Dolloff, a local girl and a graduate of Farmington Normal School was transferred from the Shuy School to fill this vacancy. Miss Dolloff is doing excellent work for so young a teacher with so short a teaching experience.

Miss Dorothy Brown, another local girl and graduate of Farmington Normal School, was transferred from the Stricklands School to the Shuy School. Miss Brown had taught in the Stricklands School about a year and a half with good success and is doing excellent work in the Shuy School.

Miss Faith Howard of North Jay, a graduate of Farmington Normal School was transferred from the Grammar School to Stricklands. She had taught in this school before. Miss Howard was transferred because we had to reduce the teaching force of the Grammar School and not because she was not doing satisfactory work. She is doing excellent

work at Stricklands and the school is rapidly advancing under her teaching.

Miss Mabelle L. Kenrick, teacher in the Camp Ground School, resigned to marry. Miss Mary E. Maxwell, a local girl and a graduate of the Eastern State Normal School was secured to fill this vacancy. Miss Maxwell was inexperienced but is doing good work and improving each week.

Miss Margaret Ricker, our commercial teacher and coach of the girls' basketball team, resigned in early summer to accept a position in the Norway High School. Miss Ricker had done excellent work as teacher and coach and we were very sorry to lose her. This is a difficult position to fill. We were very fortunate to secure Miss Lillian Kelley of Jonesport who had been teaching commercial work and coaching girls' basketball teams in Hodgdon, Maine. Miss Kelley came to us very highly recommended as a teacher and coach and is doing excellent work.

About the middle of the fall term, Mr. Reardon resigned on account of ill health. Mr. Reardon had been with us over two years and had been a very successful coach. We were fortunate to secure Mr. John Davan, a graduate of Colby College. He had not taught any but came to us highly recommended as a student, coach and citizen. We feel that he is doing excellent work as a coach and all that should be expected as a teacher with no experience. He is a man ready to accept suggestions and one who improves daily.

Early in the winter term, Mrs. Gertrude Chase had to go to the hospital for an operation. Mrs. Chase has been Principal of the Grammar School and teacher of the sixth grade for several years. Her position is a difficult one to fill. We were fortunate to secure Mrs. Ellen Record, a teacher with several years experience, to substitute for Mrs. Chase. The discipline and general morale of this school were in such excellent condition that the school has continued to do excellent work. We are fortunate to have such an efficient corps of teachers in this building.

I feel that we have an exceptionally loyal corps of teachers. They have received in the last two years two quite heavy cuts in salary and several of them have been given a much heavier teaching load. They have shown a fine spirit of co-operation and have readily and willingly accepted the extra work given them. Several of them are working for less than fourteen dollars a week reckoning fifty-two weeks

to the year which is the only fair way to reckon it as it is almost impossible for a teacher to secure work during vacation under the present conditions of labor. Just as soon as the financial condition of the town will permit their salaries should be increased. The NRA allows a common laborer at least fourteen dollars a week; surely our teachers, who have spent time and money for their education and training, should receive more.

A superintendent's success depends very largely on his teachers. Whatever success I may have obtained with you is largely due to them. I wish to take this opportunity to thank them for their help and co-operation.

#### ATTENDANCE

During the last part of the fall term and first part of the winter term the attendance was very poor. This was especially true in the lower grades, due largely to the whooping cough and severe colds. The Grammar school continue to lead all other schools in attendance. The poorest attendance has been in the Haines' School due largely to two families who allow their children to remain out of school for the slightest reasons and then complain because their children are not promoted. The average child has all he can do to complete the regular work laid out to be done if he is at school all the time. If he is absent a part of the time he must fail in some of his work. Only those pupils who attend school regularly hold their interest in their school work.

A very large percentage of the parents do their best to have their children regular in attendance and in proper condition for school work. There are, however, quite a few parents who do not realize how essential it is to have their children in school every day and to have them there on time. Most of the failures in school work are due to irregular attendance and to unfit physical condition of the pupils. Pupils must have a proper amount of sleep and rest to do good school work.

#### IMPROVEMENTS MADE

The Primary building was painted on the outside and two rooms and a corridor were painted and whitewashed on the inside. A new hardwood floor was laid in the second grade room. The ventilating flues were much improved. A

large maple tree that obstructed much of the light was removed from the south end of the schoolground. This, with the installation of white translucent shades on adjustable holders, has greatly improved the light in the two rooms in the south end of the building.

Metal weather strips have been installed on all the windows of the Grammar School thus greatly improving the heating of the building. In spite of the very cold, blustering weather of this winter this building has always been plenty warm. Not only do they help to keep the building warm but they are a great saving of fuel especially during the night time when windows are kept closed.

The CWA has made it possible for us, with very little expense to the town, to start a much needed grading project on the high school grounds. Work is still being carried on there. We shall need, doubtless, a few hundred dollars to complete the project during the summer time.

### MUSIC

It seems to me that the greatest mistake we have made this year is dropping our music supervisor. A few of the teachers are capable of conducting the music in their rooms but several are not. I have missed the music very much especially in the Grammar building and the High School. I have noticed at several school functions the absence of music. This was especially noticeable at the school play. The absence of the orchestra detracted much from the enjoyment of the evening. Music on such occasions, as well as in the regular school work of the day, seems to add to the enjoyment of the rest of the program. We often say at school, "As the music of the morning goes so goes the day."

I know of no other subject that begins to give so much to the pupils for the money expended as does music. It is one subject in our schools that is with us through life. It adds much to the enjoyment of life wherever we may be.

The additional expense of a music supervisor is almost nothing when divided among the tax payers of the town. I sincerely hope we may be able to employ a music supervisor next year.

### INDUSTRIAL EDUCATION

#### Aims For Home Economics Courses

The chief aim of the Home Economics course is to help

girls create a more abundant life in their individual homes as they exist at the present time.

Contrary to general belief that the course merely teaches sewing and cooking with the idea that the pupils may go out and earn their living or be experts in these lines; it in reality strives to teach the girl the everyday things that she will encounter, regardless of her future occupation, in order that she may live a fuller and more enjoyable life, give pleasure to those coming in contact with her and be of service to her community.

To summarize these efforts

The Home Economics course endeavors to teach the girl:—

1. How to select food for herself and family.
2. How to plan, prepare, and serve wholesome meals, within the family income.
3. How to develop better standards of skill in all work of the home.
4. How to develop better habits of healthful living.
5. How to dress suitably and becomingly, taking into consideration the family budget.
6. How to plan and make the clothing which can more economically be constructed in the home.
7. How to select ready made garments best suited to her individual needs.
8. How to appear lady like and well-groomed on all occasions.
9. How to help plan and perform those duties of the home suitable for her age.
10. How to develop a desire and appreciation of a happy home and community life.

### The Manual Training Course

The chief aim for the Manual Training Course is to help boys develop character and give them a broader view of man's home life and the industrial world. This is done by instilling a desire for work and teaching them the use of common tools and materials needed in everyday life.

A home and its furnishings need many repairs which can be made by boys. There are many conveniences which may be added by a willing worker. A boy who takes pride in the appearance of his home may add many useful pieces of nicely constructed furniture.

Boys, under the present day conditions, have no opportunity to learn, thru observation or practice, how to use tools or materials that are being used day by day in industry and the home. The Manual Training Course supplies this opportunity.

It is clean, healthful work for every boy. Exercising both the body and the mind. It develops the creative instinct that all boys have for making things. It gives him confidence in himself and his ability which will make him a better citizen. It makes known to him the importance of efficiency and accuracy. And at the close of their school period they are better qualified to select the occupation fitted to their desires and abilities.

#### BOOKS AND SUPPLIES

We have held the cost of books and supplies to an almost unbelievable low figure. The cost of books in the High School has been 1.8 per cent of the entire cost of the school. In the common schools it has been 2.28 per cent, and for both schools 2.09 per cent. The cost of supplies has been: High School 3.32 per cent; common schools 3.25 per cent; both schools 3.27 per cent.

Another year we shall be obliged to spend much more for books as our books are in such a deplorable condition. Teachers and pupils have done their best to get along with such books as we had. Books have been covered and mended and all of the Grade pupils and many of the high school pupils have furnished themselves with book bags. Many of our books are out of date and much more efficient work can be done with a change of text books.

#### JANITORS

This report would not be complete without a word of commendation for two men, Mr. Paul Marcou and Mr. Alick Kilgour, who do very much toward the efficiency of our school work. They are faithful and conscientious in all that is given them to do. During the extreme cold weather of this winter they have labored long and hard to keep the buildings comfortable. A number of nights they were on duty all night as well as all day. Even during the Christmas vacation they had to be on duty day and night a part of the time. It was only by their tireless efforts that we were able to have the schools in session during the extremely cold

weather when schools in many places were obliged to close.

During vacation periods they do many repair jobs, thus saving the town many dollars. They seem always to have a care for the school property.

### COST PER PUPIL FOR INSTRUCTION ONLY IN DIFFERENT SUBJECTS

Subjects		No. of Pupils
History	\$11.24	135
English	8.31	187
Commercial	9.09	110
*Latin	25.52	21
French	10.60	74
Chemistry—Juniors and Seniors	13.04	26
Algebra—Juniors	18.08	18
Algebra—Freshmen	10.93	31
Solid Geometry and Trigonometry	48.42	7
**Domestic Arts—High School	11.09	48
Domestic Arts—Common School	8.14	49
Domestic Arts—All Pupils	9.53	97
**Manual Training, High School	18.00	46
Manual Training, Common School	12.20	51
Manual Training, All Pupils	14.95	97

Average cost of instruction per pupil \$26.62 common school

Average cost of instruction per pupil \$45.56 High School

\* Only 2 pupils in Junior and Senior classes combined take Latin at a cost of \$78.00 per pupil.

Only 8 pupils in the Sophomore class take Latin at a cost of \$19.62 per pupil.

\*\* The State paid \$1,443.85 toward the teachers' salaries, making these courses cost the town only \$5.92 per pupil. I know of no courses that yield as much for the cost to the town as these courses do unless it be music.

Cost per pupil for instruction only in the different schools

High School	\$45.56
Grammar School	25.56
Primary School	22.86
Shuy	32.38
Haines	48.75
Camp Ground	27.43
Stricklands	32.95

Times and conditions are demanding different subjects to be taught in our schools especially in our high schools than were taught fifty or more years ago. Only a comparatively few of the boys and girls went to high school then and nearly all of these intended to go to college or Normal School and to become preachers, teachers, lawyers or doctors. Today nearly all of our boys and girls attend high schools. The big majority of them do not intend to attend any higher institution of learning but to go directly from the high school into the active duties of life. The subjects like Latin, Greek, French, and Higher Mathematics were the essentials of the early high schools while Domestic Arts, Manual Training, Music, and Commercial subjects were more or less so called frills. Today they are more the essentials and the Latin, Greek, and Higher Mathematics are the frills, if there are any.

In our own high school only two pupils in the combined Junior and Senior classes are taking Latin and this at a teaching cost of \$78.00 per pupil. Only twenty-one (21) pupils in the entire school are taking Latin and this at a cost of \$25.52 per pupil for instruction only. Solid Geometry and Trigonometry, the so called higher mathematics, are costing us \$48.42 per pupil, and only seven (7) in the whole school are taking them.

College requirements are much different today than they were thirty years ago. A person to enter college today must know as much in French, History, and Mathematics to enter college as we of thirty years ago had to know to graduate from college. Not so much Latin and no Greek is required today to enter college.

In the early days of the high school only a few studied English. Today all are required to study it for the entire four years. Commercial subjects, Industrial Arts, and Music are becoming more and more the essentials of our high schools. They, with English, are the subjects that fit one for the everyday duties of life. As our working hours become fewer and fewer education must change to fit us to use our spare time profitably and enjoyably. This is the only way we are going to hold and improve the morale of the citizen of the future. Let us try to be as reasonable and sensible in our education as we are in our business. No one would think of farming or conducting business as they did

fifty years ago. It costs much more to carry on a farm or a business today than it did fifty years ago. We must expect it to cost more to run our schools.

During the last five years the cost per pupil in the High School has decreased 38.9 per cent. In the common schools the cost has decreased 16.32 per cent. I am sure this low cost per pupil cannot continue without lessening the efficiency of our schools. We must have more books and supplies. Many of the teachers; if not all of them, should be paid a better salary.

By referring to the table of, "Cost per pupil for instruction only in the different schools," it will be seen that it costs much more to run the smaller rural schools than it does the village schools. There is no sensible reason whatever for continuing the Haines school. From \$500 to \$600 per year might be saved here and the children be much better off. The classes are too small to do good work. Some classes have only one or two pupils in them. How can a pupil be interested in a class all by himself?

I wish to call your attention to the report of the Principal of the High School, the School Nurse, and the Dental Hygienist. These reports speak for themselves. I have only words of appreciation and commendation for each and all.

I very deeply appreciate the help and cooperation given me by parents, teachers, school committee, and the other town officers. It has been a pleasure to serve you during the past year.

Respectfully submitted,

W. H. S. ELLINGWOOD,

*Superintendent of Schools.*

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

---

Livermore Falls, Maine, February 12, 1934

Mr. W. H. S. Ellingwood  
Superintednent of Schools

Dear Sir:

The enrollment in the high school during the first term reached a total of 218, as compared with the total of 251 during the previous year.

The attendance during the first term was 95%. This figure is highly satisfactory when it is considered that an epidemic of colds was prevalent after the Thanksgiving Holiday.

An especially fine spirit is to be seen in the student body this year. This has been noticed not only by the teachers, but also by others who come in contact with the school from time to time.

It is appropriate at this time to mention the work of our two new teachers, Miss Kelly and Mr. Davan. Not only is their work earnest and conscientious in their classrooms, but their cooperation with the principal in checking athletic

equipment, and in handling athletic affairs in the most economical manner, is to be highly commended.

The faculty is maintaining the high grade of instruction and the curriculum necessary to keep the school in Class A, according to the requirements of the State. Because of the fact that we are in Class A, we are accorded the privilege by the New England College Entrance Board of certifying properly qualified students for entrance into Bowdoin, Colby, Bates, and the University of Maine. This privilege also enables us to certify students for entrance into all other New England Colleges which are members of the College Entrance Board mentioned above. Certification enables a student to enter a college without taking the entrance examinations.

In conclusion, I wish to express my appreciation of the cooperation which I have received from the faculty, the superintendent, the school board, and the Citizens' Committee on Athletics.

Respectfully yours,

S. A. GRIFFIN

*Principal*

## REPORT OF SCHOOL NURSE

---

Livermore Falls, Maine  
January 24, 1934

Mr. W. H. S. Ellingwood  
Superintendent of Schools  
Livermore Falls, Maine

Dear Sir:

During the past year much time has been spent on the problem of control of communicable disease among children of school age. A step toward the achievement of this objective has been the initial visit made by the nurse to the homes of the children. This visit enables the worker to gain first hand knowledge of the child's environment and to make clear to the parents the desirability of calling at the office

for consultation with the nurse regarding their problems as they arise. In pursuit of the aim of health authorities, that every school child should secure maximum degree of health through his own intelligent co-operation and that of all who control his environment, much time has been spent in an attempt to prevent or to correct defects, and to initiate the formation of correct habits and the systematic adherence to a proper diet before the child has reached school age. About one third of the nurse's time has been spent in planning with the family the health supervision of the entire unit. By this means better cooperation, a more receptive attitude toward prenatal care, infant feeding, and training may be obtained.

In addition to the above work home visits have been made for reported illness, minor contagion, or behavior problems.

---

#### Summary

Communicable disease visits	346
Visits to prenatals	190
Visits to infants	431
Visits to preschool children	991
Home visits to school children	442
School inspections of children	1781
Infants and preschool conferences	12
Attendance at conferences	143
Social Service visits	184

Respectfully submitted,

MARY E. WADE, R. N.

*Public Health Nurse.*

## REPORT OF DENTAL HYGIENIST SERVICE IN LIVERMORE FALLS

December, 1933

To the School Department, Town of Livermore Falls:

During the ten days of the annual Dental Hygienist Service project in Livermore Falls, which took place be-

tween December 4th and 16th, the activities were conducted in accordance with a schedule as approved by Miss Mary Wade, public health nurse.

The ten days permitted sufficient time to entirely complete the work in the rural schools and the desired prophylactic treatments at the Primary School but the time did not allow for the entire examination of the third, fourth and ungraded classes at the Primary School.

As usual the mouth inspections were made with mirrors and explorers and each patient was instructed as to the present condition of his mouth and the proper care of it. Notices were sent to the parents to call their attention to their child's dental needs.

Examination details were placed on file at the school. Records of prophylactic treatments and mouth conditions were entered on the physical inspection cards on file at the office of the public health nurse.

#### Activities

Dental Examinations				203
School	203	Preschool	0	
Dental Corrections				6
School	6	Preschool	0	
"Advice Cards" Distributed				173
School	173	Preschool	0	
Prophylactic Treatments				188
School	188	Preschool	0	
Classroom Talks				16
Conferences				16
	with dentists		2	
	local health officers		1	
	miscellaneous		1	
	school nurses		7	
	superintendent of school		2	
	teachers		3	
Blue Star pins awarded				53

#### CONCLUSIONS:

Although time did not permit of as many examinations as took place last year, more clean mouths were found among the pupils examined as evidenced by the 1933 percentage of clean mouths, 26.69% against the 1932 percent-

age, 14.34%. This is an indication of sincere interest on the part of the children and their parents.

The apparent increase in percentage of pupils with inflamed gums is not alarming for it may be only transitory. However, the condition should be investigated for it might be a forerunner of serious nutritional disturbances.

The slight decrease in percentage of apparently non-carious mouths is only what we are finding everywhere. It may be attributed to the generally lowered incomes which do not always provide for reparative dentistry nor for protective diets.

Livermore Falls may well feel proud of the response of their pupils to these dental hygiene programs and may believe that the program is effective in its accomplishments. It is hoped that this program may be repeated.

Report submitted January 10, 1934,

DOROTHY BRYANT, *D. H. Director,*  
Division of Dental Hygiene.

**District**

# Report of the Livermore Falls Water District

---

The Trustees of the Livermore Falls Water District herewith submit their annual report for the year ending December 31, 1933.

While the operating revenues and profits for the year were not as large as in previous years, yet a large part of this is due to not charging the Town for any part of the Hydrant rentals which amounted to \$1,920.00, also water for the Municipal Building and High School extension to the amount of \$321.00, making a total of \$2,241.00 saving to the tax payers.

In July your Trustees also voted to give a discount of 10% on all bills paid within fifteen days from date of same. This has resulted in a further saving to those taking water of \$567.76.

During the year there was an expenditure of \$305.80 trying to locate the leak in the main supply pipe from the reservoir but on account of cold weather it seemed advisable to delay further work on this job until spring.

Our interest and Dividends on investments amounted to \$1,546.63.

Respectfully submitted,

E. H. STROUT,

S. A. GOODWIN,

H. A. MORISON,

*Trustees.*

January 27, 1934.

Chairman,  
Board of Trustees of the  
Livermore Falls Water District,  
Livermore Falls, Maine.

Dear Sir:—

According to engagement I have made a Balance Sheet Audit of the Livermore Falls Water District. I have verified the summaries of cash receipts and disbursements, balance on hand and in bank, assessments, Accounts Receivable, Investments, and Sinking Fund as at December 31, 1933.

I have found the books of account to be in good order, reflecting truly and accurately the condition of said Water District and the income, expenses and net profit for the year 1933 as set forth in the Financial Report, which I have prepared for your consideration.

Respectfully submitted,

W. D. SMITH,

*Auditor and Accountant.*
