REMARKS

We take this opportunity to express our deepest appreciation and thanks to the Chairman and members of the several committees for the able and competent manner in which they carried out the duties assigned to them.

We also wish to thank every citizen of Hermon for their loyalty and co-operation in helping to make the event one long to be remembered.

We wish to especially mention the valuable assistance rendered by the former residents of Hermon, J. M. Miller and Geo F. Emerson, who helped to make the day a success. We would also express our thanks to Dr. Merritt Emerson of Bangor, who so cheerfully gave his time to drill the Red Cross Squad, one of the especial features of the day.

With honor to the past, respect for the present, and best wishes for the welfare and prosperity of the future, again we thank you.

TEXT BOOKS

We now have thirty-six copies of Montgomery's Revised History in the hands of our eighth and ninth grade pupils. The remaining copies of Montgomery's History in the hands of the seventh grade are in very poor condition and need to be replaced by the Revised.

Eighteen copies Frey's Leading Facts of Geography have been purchased. Twelve copies Blaisdell's Physiology, Revised Edition, have been purchased. We feel we have made a great step in our reading this year, we have never had a basal method of reading for our little folks. In the fall I purchased and introduced the Progressive Road to Reading Book I, Plan of Work and Perception Cards. The results have been very gratifying.

There is a demand for supplementary reading in the higher grades. Our Heath's Complete Arithmetics and Milne's Book I and II are in very poor condition.

REPAIRS

No. 13 has had the sills and foundation thoroughly repaired and a hard pine floor laid. The building needs painting.

No. 11 has had a steel ceiling put up.

No. 5 a plank platform has been laid and the outside of the building given two coats of paint.

Several of the other buildings have had minor repairs.

Several of the out buildings need repairing.

No. 2 needs new walls and ceiling

No. 8, new walls and painting.

The buildings in No. 10 and 12 are in very bad condition; it seems to me to put them in suitable condition a special appropriation is needed.

CONCLUSION

Fifteen ninth grade pupils took the State examination in June and twelve were given certificates of promotion. Of this number four have been attending high school.

We now have fifteen pupils in high school. The work done in the several schools, for the most part, has been very satisfactory.

In school work we need the hearty co-operation of parents. There is no greater source of strength to the teacher, nor inspiration to the pupil, than the kindly words spoken of the school in the home. Constant criticising, even of a mild variety and without hostile intent can not fail in the end to injure the efficiency and influence of the school.

In closing, I wish to thank the S. S. Committee for their many kind words and good advice which they have been willing to give at all times.

I thank the town officials, the citizens of Hermon and children for the courtesy extended me at all times.

Respectfully submitted,

A. LINNIS SNOW,

Superintendent of Schools.

March 1st, 1915.
