Warrant for Town Meeting—March 14, 1892.

STATE OF MAINE.

TO RUFUS A. MOODY, Constable of the Town of York. Greeting:

IN THE NAME OF THE STATE OF MAINE. You are hereby required to notify and warn the inhabitants of said town qualified by law to vote in town affairs, to assemble in the Town House, in said town, on Monday, the fourteenth day of March, A. D. 1892, at ten o'clock at the forenoon, to act on the following articles, to wit:

FIRST—To choose a Moderator to preside at said meeting.

SECOND—To choose a Town Clerk, three Selectmen, Assessors of Taxes and Overseers of the Poor, Town Treasurer, Town Agent, Collector of Taxes, and Constable, Supervisor of Schools, or three Superintending School Committee-men, one or more Auditors of Town Accounts, and all other officers necessary for the year ensuing.

THIRD—To see what method the town will take to keep the highways in repair the ensuing year, and what sum of money shall be raised therefor.

FOURTH—To see if the town will vote a sum of money to defray the expenses for necessary repairs on the several bridges the ensuing year.

FIFTH—To vote a sum of money for defraying the ordinary expenses of the town the ensuing year.

SIXTH—To vote a sum of money for the purpose of paying the interest-bearing debt of the town.

SEVENTH—To vote a sum of money for the Support of Schools the ensuing year.

EIGHTH—To see if the town will vote to raise a sum of money to defray the expense of supplying the common schools with Free Text-Books as required by law.

NINTH—To see if the town will vote to accept the report of the doings of the Selectmen in laying out a highway from a point in the highway near the dwelling house of Lowell S. Grant, across land of said Grant, and land of Jos. B. Woodward to a point in the highway near the dwelling house of Timothy Trafton, on petition of George N. Hooper, and nine others.

TENTH—To see if the town will appropriate a sum of money to reduce the two hills and raise the valley between them, on the South side of the river between the house of Joseph Bragdon and the house of Moses A. Goodale, on petition of Joseph Bragdon and ten others.

ELEVENTH—To see if the town will vote the sum of Two Hundred and Fifty dollars to finish building the road at Evanson as laid out by the Selectmen, and remove the ledge at the terminus

of the highway across Union Bluff, (so called) on petition of E. M. Freeman and seven others.

TWELFTH—To see if the town will vote the sum of Five Hundred Dollars to build a highway around Bridge hill over land of A. H. Bowden as ordered by the County Commissioners, on petition of A. H. Bowden and five others.

THIRTEENTH—To see if the town will vote a sum of money toward building the bridge across Cape Neddick river as located by the County Commissioners and to take such other action; as may be deemed necessary relative to the same. On petition of John Parsons and seven others.

FOURTEENTH—To see if the town will vote a sum of money not exceeding Two Hundred Dollars to be expended on the highway leading from a point near the residence of Edward C. Moody, to the intersection with the new road leading from a point near Andrew R. Webber's Ice House, to Long Beach, in order that the same may be rendered safe and convenient for public travel. On petition of B. G. Donnell and seven others.

FIFTEENTH—To see if the town will vote to purchase the Tibbets Road Machine, and appropriate a sum of money therefor. On petition of Rufus A. Moody and five others.

SIXTEEN—To see if the town will vote to purchase the C. L. Grant & Co. Road Machine and appropriate a sum of money therefor.

SEVENTEENTH—To see if the town will vote to build a vault or purchase a safe or safes for the protection of the records of the town, and to vote a sum or sums of money therefor. On-petition of Geo. F. Plaisted and six others.

EIGHTEENTH—To see if the town will vote to annex that portion of the Norton road (so called) lying between the Bartlett road (so called) and Kittery line, to highway District No. 17.

NINETEENTH—To see if the town will vote to establish a Highway District commencing at the intersection of the Norwood road, (so called) with the highway leading over Long Beach and ending at a point opposite York Post Office, and number the same 53.

TWENTIETH—To see if the town will vote to appropriate a sum of money for a new barn on the Town Farm and a supply of water for the New Home.

TWENTY-FIRST—To see if the town will vote to take any action relative to the old Town Farm buildings.

TWENTY-SECOND—To see if the town will vote to accept the list of Jurors as revised by the Municipal Officers.

GIVEN UNDER OUR HANDS at York, this twenty-second day of February, A. D. 1892.

TO THE TOWN OF YORK:—

We, the undersigned committee, were chosen at the annual meeting holden March 9, 1891, for the purpose of building a new Alms-house. The town voted to raise four thousand dollars therefor; but the sum being insufficient, to build what was actually needed, the amount was exceeded, which the following figures will show.

Labor on cellar and foundation,	\$302 87
W. E. Paul plumbing,	50 04

Geo C M Tabor

E. B. Blaisdell, drawing plans, writing specifications, and laying out cellar,	50 00

J. H. Sanborn, extra labor,	20 00
W. E. Paul, furnace,	387 00
	<hr/>
	\$5,200 91

The committee call the attention of the town to the dilapidated condition of the barn. It is the opinion of the committee, that twelve hundred dollars would be sufficient to build a suitable barn and furnish a water supply for the place. The committee recommend a vote of thanks be extended to the several sources of donations, to wit: To the ladies of York; York Beach Band; and York Library Club. The total amount being two hundred and twenty one dollars. And also to summer residents, who contributed one hundred dollars to Dr. Hawkes.

Respectfully submitted,

Increase from last year, \$ 4,850 00

It will be observed by the foregoing exhibit that the interest bearing debt of the town has been increased from last year, \$4 850. It will be perceived by an examination of the appropriations made at the annual town meeting Mar. 9, 1891, that no appropriations were made for the reduction of the town debt, and only a partial appropriation for bridges, and no money was raised for highways. The extensive repairs on Sewall's bridge, and the extra repairs on the several highways; together with the expenditures incurred for the town farm building, and the school house at York Beach, in excess of the appropriations therefor; compelled the treasurer,—by virtue of the authority vested in him by a vote of the town—to borrow money on credit of the town to meet pressing liabilities, thereby causing an increase of the town debt as appears by the foregoing exhibit.

Overseers of Poor, 1891-92.

The Alms-house in the town of York, was opened for the reception of inmates in the early part of April, 1838, and therefore has been used as a home for the poor 53 years. Age and the delapidated condition of the old house, convinced the town that extensive repairs or a new home was a necessity. The latter idea was adopted. At the annual town meeting March 9, 1891, the town chose a committee of five, whose duties were to erect a new house. The committee immediately began work on the present site, put in a foundation and erected a house, substantial in its construction, and containing all the modern improvements and conveniences, in an institution of this kind, necessary for the comfort of the inmates. The new home was opened for the reception of the inmates, Oct. 28, 1891, and the old home was at once vacated; and the inmates were removed to the new. The town is to be congratulated upon having a home for the unfortunately poor, which will probably compare favorably with any similar institution in the state, and it is a credit to the liberality of the town. Generous donations were received from various organizations, and private individuals, towards furnishing the house, whose kindness is commendable and of which we will not speak in detail. An examination of the premises shows the careful work of the Superintendent, whose duties have been arduous, as Superintendent of the farm and treasurer of the building committee. The worthy matron whose duties have been onerous, has commendably acquitted herself, having in view the comfort of the inmates.

The town officers annual visit to the new home was made Wednesday, Feb. 17, 1891. Although the Superintendent's duties were greatly increased the past year, the raising of farm crops was not neglected. We found on hand 7 tons of hay, 43 traces of corn, 11 bushels of beans, 35 bushels of barley, 25 bushels of large and 40 bushels of small potatoes, and 2 barrels of pork. There are also a sufficiency of supplies for the year ending March 31, 1892. The stock on the farm consists of 2 oxen, 3 cows, 1 heifer, and 3 swine. There are 11 cords of wood prepared for the stove and housed, and from 25 to 30 cords in the yard. I have carefully examined the books of the selectmen, overseers and treasurer, and find the accounts accurately cast and well vouched. I herewith respectfully submit this report.

York, February 21, 1892.

GEO. W. CURRIER, Auditor.

SCHOOL PROPERTY.

At the annual town meeting held March 12th, 1888, it was voted, to abolish the present School Dist. system and take such steps as the law allows in relation thereto.

At the annual town meeting held Mar. 1st, 1889, it was voted, that the Selectmen be instructed to appraise the School property in the several school districts in the town of York, and when they assess the taxable property of said town, in 1889, make an additional assessment sufficient to cover one third of said appraisal and then remit the same to the tax payers of districts according to Chap. 11, section 3, of the revised statutes of Maine, and the remaining two thirds be assessed one half in the assessment of 1890, and the remainder in the assessment of 1891.

In compliance with the foregoing vote, in April 1889, the selectmen, Messrs. Putnam, Merrow and C. W. Junkins, appraised the several school houses and lots, to wit:—

Centre,	\$1,500.	Scituate,	\$500.
Raynes Neck,	300.	Ground Root Hill West,	250.
South Side,	100.	Ground Root Hill East,	100.
Beech Ridge,	200.	North Village,	120.
Brixham,	100.	Pine Hill,	600.
Scotland,	1,000.	Cape Neddick East,	400.
Cider Hill,	300.	Cape Neddick West,	400.
		Total,	\$6,170 00

The whole amount, \$6170, has now been assessed upon the entire valuation, and the assessment remitted to the several tax payers *pro rata*.

The ownership of all school property is now vested in the town.

Respectfully submitted,

REPORT
—OF THE—
SUPERVISOR * OF * SCHOOLS,
—FOR THE—
SCHOOL YEAR ENDING FEBRUARY 20, 1892.

CENTER. (GRAMMAR SCHOOL.)

The three terms of this school were taught by Miss Mattie O. Barrell who is an experienced and able teacher. This is an excellent school. In the school-room everything moves with the nicest regularity and teacher and pupils evince the highest degree of interest in their work. Consequently the school is a profitable one.

CENTER. (PRIMARY DEPARTMENT.)

The spring term of the Primary School was taught by Miss Florence Varrell—a teacher who has had considerable experience in this school.

The fall and winter terms were under the charge of Miss Gertrude J. Grover, a teacher of limited experience, but one who seems to take naturally to teaching, and to be well adapted to primary work. The order was good, much improvement was noticed in reading and spelling, and lessons were generally well learned. While the attendance was generally good, the roll of honor, with a little more care on the part of parents and children, might be made larger.

RAYNES NECK.

Though this is a small school it was fortunate enough in the spring and fall terms, to be under the tuition of Miss Annie E. Trafton, one of our best teachers. Excellent order and thorough work marked these terms.

It is to be regretted however, that, even with the advantages of having such a teacher, the attendance was very irregular.

No matter how excellent a teacher may be, scholars cannot be benefitted unless they attend school and do so regularly.

The winter term was taught by Mr. Samuel H. Jenkins. This was his first school and as such was a successful one, notwithstanding that toward the end of the term, many scholars were kept away by sickness.

SOUTH SIDE.

Miss Carrie L. Parsons, had charge of this school during the three terms. Fair progress was made in the spring and fall terms, but the winter term was broken up by sickness.

This school is very small and none of the scholars are very far advanced.

With a little extra effort the pupils of this school might attend schools in adjoining districts, and it seems poor economy to maintain a separate school for so few scholars.

SCOTLAND.

The spring term was taught by Miss Kate Moulton, an experienced and competent teacher, who with the co-operation of all parties interested, would have made the term successful. As it was, those who went to school to learn did so and made good progress. There were some excellent scholars in attendance.

Mr. George T. Crediford had charge of the fall term. Mr. Crediford is a thorough teacher. Considerable interest was manifested and good results attained.

The winter term was taught by Mr. Fred A. W. Murphy. If this term was not entirely successful it was the fault, in part at least, of a few pupils not disposed to obey the teacher's rules. Those scholars who went with a desire to learn, and a resolve to obey made good advancement.

BRIXHAM.

The spring and fall terms were under the charge of Miss Elizabeth Rogers—a teacher well and favorably known in York. Any school is fortunate to secure her services. It seems superfluous to add that thorough work was done and good results attained.

In the winter term the reputation of the school was well sustained by Miss Eugenia C. Jenkins, seconded by her studious and orderly pupils. No school in the town made a better showing for the year, than this one.

BEECH RIDGE.

Miss Josephine McIntire taught the three terms. She worked hard and fair progress was made by those who availed themselves in full, of the advantages offered. The classes in reading showed careful training—answering readily questions regarding pauses and punctuations—an item too much neglected in some schools.

The attendance, however, was far from what it should have been. During the three terms there were 246 instances of tardiness, which in a school of less than twenty scholars, or in *any* school, in fact, shows a laxity truly deplorable. This matter of tardiness on the part of pupils is a serious evil and calls for correction.

NORTH VILLAGE.

Miss Edna M. Moody taught the spring term, it being her first school. For regularity and punctuality in attendance this is the banner school—only one scholar having been absent a half day during the term, and that one by reason of an accident.

The fall term was taught by Miss Florence A. Weare, a graduate of the Salem Mass. High School. Miss Weare was also a "new beginner" and with more experience will make a good teacher. The same regularity of attendance marked this term.

GROUND ROOT HILL.

Miss Mary Nowell taught the spring term. Miss Nowell has not had much experience, but seemed interested in the welfare of her school.

There are some good scholars in this school—bright, studious and attentive and their recitations were good; but there were others

who showed the need of stricter discipline to overcome idle tendencies.

Miss Effie Moulton had charge of the fall and winter terms and it was hoped that the school would make a good showing, which it undoubtedly would have done had the teacher been properly supported; but no teacher, however gifted, can make a school successful in which, out of an attendance of twenty one, the average is only twelve, as was the case in the fall term of this school.

CLAY HILL.

The three terms of this school were under the tuition of Miss Mary T. Wilson—a teacher of long experience. This is quite a large school though there are no pupils who are very far advanced. Miss Wilson's methods with her classes are very pleasing and tend to interest the pupil and relieve the monotony of school work. There are some scholars in this school who require a strict enforcement of school rules to overcome idleness and neglect of their lessons. The progress made during the year was fair—especially in reading and writing.

The school room is about as poor a place to confine children six hours a day as it has been my lot to visit—small, ill contrived, crowded and wholly uncomfortable for teacher and pupils.

CAPE NEDDICK.

Miss Gertrude J. Grover, without previous experience, taught the spring term. Miss Grover showed an aptitude for teaching and, as a first attempt, this was a decided success,

The fall and winter term were taught by Miss Kate Moulton. This school, small in the spring term, was largely augmented in numbers by accession of scholars from Dist. No. 15 and by the attendance of older pupils who did not attend the spring term. The winter school especially called for hard work on the part of the teacher, being attended by some pupils, who, though seemingly old enough to deport themselves like gentlemen, failed to show that they were such. There were others however, who, while striving to make the most of their opportunities, did honor to themselves and to the school. The examinations were satisfactory.

SCITUATE.

Miss Jennie F. Plaisted taught the spring and fall terms and, with the cheerful co-operation of the pupils made the school a success. Quite a large proportion of the scholars are young and for such the teacher seemed especially adapted. Attendance good and marked by commendable regularity.

Mr. Guy W. Hutchins taught the winter term, this being his first school. The school was somewhat injured by sickness among the pupils, but those who were able to attend regularly were benefitted.

The scholars in this school deserve commendation for the care they bestow upon the school-room, keeping it neat and clean, in marked contrast to some school-rooms.

YORK CORNER.

This is one of our largest schools and has during the year, been taught by male teachers exclusively. Mr. F. Everett Perkins from Bates College took charge of the spring term. He is an able teacher and his methods commend themselves to the observer. While his whole mind seemed to be upon the work immediately in hand, nothing in the school-room escaped his notice. Excellent order was maintained.

The Fall term was taught by Mr. Fred A. W. Murphy a student of Dartmouth College. Mr. Murphy seemed interested in the school and, as a rule, succeeded in interesting the scholars. The closing examination showed the school to be prosperous.

Mr. W. Sims of Bates College taught the winter term and gave good satisfaction. He is well educated, a good disciplinarian, thoroughly conscientious and labored for the good of the school. The term was successful. This school has made good progress during the year and is to be congratulated upon the advanced rank taken.

PINE HILL.

Miss Lina N. Thompson of Wells, had charge of the three terms. Miss Thompson is a pleasant yet thorough teacher and displays a laudable interest in the prosperity of her school. This school, like

so many others, was somewhat injured by sickness, yet much improvement was made.

CAPE NEDDICK EAST.

But one term—the spring term—was held in the old school-house, and that was taught by Miss Effie Moulton, with good success. At the fall term the scholars attended school at Cape Neddick. In the winter a part attended the school at York Beach, the abolition of this district and the sale of the school house being in accordance with a vote of the town in annual town meeting held in March 1891.

YORK BEACH.

The spring term was held in the room rented and used for that purpose last year. The fall term was held in the new school house.

The three terms were under the tuition of Theodosia L. Barrell, a teacher of considerable experience. The spring and fall terms were highly successful, showing a great interest on the part of both teacher and pupils. Recitations were prompt and satisfactory and excellent order prevailed. The winter term was less satisfactory, the school showing a laxity of discipline—due evidently to the example of certain scholars not disposed to obey the rules of the school. Such scholars should be summarily dealt with in the beginning. A school in which there is a disturbing element can be neither pleasant nor profitable.

The foregoing statement presents a brief outline of the status of the schools for the year 1891-2. While, as a general thing, the schools have done well, there is a great need of improvement in many things. Two things especially are indispensable to the success of the schools, to wit :—(1) Punctuality and regularity of attendance on the part of pupils and (2) The maintainance of order and the enforcement of strict discipline by the teacher. No school lacking these prime requisites can be successful.

The schools are for the benefit of all pupils and all should avail themselves of the golden opportunity to acquire the rudiments, at least, of an education. But there are many who should be in school that are never seen there; many more attend in an irregular

and slipshod manner, staying out half a day or a day at a time with the most trifling excuse, or without any excuse whatever, and still others who by tardiness and dismissal, manage to clip a portion from both ends of the day. This is all wrong and should be corrected. Parents and guardians should see to it that their children attend school and that regularly. They should interest themselves in the school and co-operate with the teacher in his labors for its interest and advancement.

There were in York on the first day of April 1891, by actual count, 707 persons between the ages of 4 and 21 years. Of this number 111 were six years of age and under; 391 were over six and under sixteen and 205 were over sixteen. The following table shows the attendance during the year according to this mode of classification.

Term,	Whole number,	Six years and under,	Over six and under sixteen,	Over sixteen,
Spring,	404	61	328	15
Fall,	400	36	341	23
Winter,	371	33	294	44

Of all scholars under 16 years of age, 79 per cent. attended school in the Spring and Fall terms, and 74 per cent. in the winter.

Hereunto is appended abstract from teacher's registers and roll of honor—the latter showing the names of those scholars (arranged by districts and terms) whose attendance has been the most regular.

In addition to the above list, there were a number of scholars
who missed only half a day and others who missed
only a day. Probably the greater part if not all of
this number might, by a little more exertion, have been present
very half day and thus have added to the roll of honor. The school-

ar who is in his place in the school room every day of the term, is the one who receives the greatest benefit from the school. Every scholar should remember this.

CONDITION OF SCHOOL PROPERTY.

The following statement shows the condition of the different school buildings at the present time.

CENTRE DISTRICT—School house in good condition. Fence around lot needs attention.

RAYNES NECK—School house in fair condition. Needs painting.

SOUTH SIDE—School house much out of repair—(See Beech Ridge.)

SCOTLAND—School house in good condition:

BRIXHAM—School house old and considerably out of repair.

BEECH RIDGE—School house badly out of repair. This school should be consolidated with that at the South Side and a new house built at a point farther east, or the present building removed to such point and thoroughly repaired. Thus both districts might be well accommodated.

NORTH VILLAGE—School house in poor repair. Needs new doors &c.

GROUND ROOT HILL—School house in fair condition.

CLAY HILL—School house unfit for use in its present state. A new house should be erected or the old one enlarged and repaired.

CAPE NEDDICK—School house needs extensive repairs.

SCITUATE—School house needs some repairs, but its general condition is fairly good.

YORK CORNER—School house in very bad condition. Needs to be newly plastered, new floor and new doors and windows. Also should be raised, and foundation re-laid.

PINE HILL—Building in good condition.

YORK BEACH—School house new. Lot to be graded and fenced, and drive-way graded.

The town having abolished the district system, and assumed control of the schools and school property, is bound to maintain the same in good working condition.

As will be seen by the foregoing statement, many of the school buildings are in bad condition, having been patched up year after year to meet pressing emergencies, until they are a mass of patch-work.

To keep such buildings in decent order will call for quite a sum of money, and unless the town shall raise more money for the support of schools the terms will have to be shortened that more of the funds may be applied to repairs.

Respectfully submitted,

C. I. HUTCHINS,

Supervisor of Schools.

York, Maine, February 20, 1892.
